MEMORANDUM FOR THE PRESIDENT

The gold cigarette case which was presented to you recently, and which was a gift from the King's Regent of Thailand, was brought to this country by an OSS officer. The circumstances under which the case was received were as follows:

Early in the morning of 26 January 1945, two OSS officers were infiltrated into Thailand by seaplane. After a rendezvous with the Free Thai underground movement in the Gulf of Siam, these officers were escorted by the underground directly to Bangkok.

While in Bangkok, the OSS officers had frequent meetings with high officials in the present government who are prime factors in the underground movement. These officials included not only Admiral Luang Sangwan, the leader of the Thai Military Police, and Lt. Col. Sam Rueng, a member of the Thai General Staff, but also His Excellency, Luang Pradit, the King's Regent, who is considered the most powerful person in the present Thai govern-

ment.

Luang Pradit requested one of the OSS representatives to return to the United States as soon as possible in order to inform our State Department of his sympathies with the cause of the United Nations. In addition, he asked this officer to present to The President of the United States the gold cigarette case. This gift has especial significance because of the affixed Royal Siamese Crown and the inscribed Royal Siamese initials. In making this gift, the Regent stated that he wished this present to be conveyed as a mark of his esteem for the United States and for The President.

The OSS officer complied with the Regent's request. He is presently in Washington and is expected to leave the country enroute to Bangkok on or about 9 March 1945.

MEMORANDUM FOR MISS TULLY

The White House

The Department recommends that an oral acknowledgement from the President to Thai Regent Pradit be made through the Office of Strategic Services which maintains communications with Bangkok. An oral acknowledgement avoids the danger of written documents falling into the hands of the Japanese.

May I suggest that you request General Donovan to transmit the acknowledgement orally by one of his agents who might say to the Regent:

"The cigarette case was greatly admired by the President who appreciated the friendly spirit which prompted you to give it to him."

SHIPMAN, Fred W.
THE FRANKLIN D. ROOSEVELT LIBRARY
January 3, 1945

Wrote Miss Tully saying that while in Rome he had dinner with Monseignor McGill who said he attended the same school as Miss Tully did. Encloses Memo for the President. In his memo to the President, Mr. Shipman says he returned recently from spending three months in Europe on mission for the War Dept., during which stay, he visited England, France, Belgium, and Italy. His trip to Europe was to assist in making basic plans for the exploitation of enemy records and to aid in the work of preserving the National and local archives of Europe. While in France, he made a trip to Normandy with Monsieur Braibant to see the conditions of the archives there. Braibant is author of many plays and gave Mr. Shipman a pamphlet to deliver to the President (attached to file). On the journey to Normany, Mr. Shipman viewed the destruction on Caen and Rouen in particular. A Madame Brindor of the Archives Departementales told him of life in Rouen under German occupation. She said she could speak for the people of Rouen in expressing relief and gratitude for liberated and it would please the people to have the President know that they realize that to achieve freedom for them the killing and destruction had to take place. At Rouen, Mr. Shipman also had dinner with a French capitaine de vaisseau, named Villefosse, an aide to General de Gaulle. Goes into detail of the Captain's views of conditions in France, etc. He also had audience with His Holiness Pope Pius XI, and gives the President message and his thoughts on trouble in Italy. Mr. Shipman discusses re the home front and needed supplies, saying that he thinks that the service-man's faith in us needs to be strengthened through better understanding and one way to achieve this understanding minght be for the Stars and Stripes to publish more on what people back home are accomplishing and to make it plain the results are obtained only through hard work.

My dear Mr. ~~Fortuese~~:

The President has asked me to thank you for your very cordial letter to him of December first.

I am sorry indeed that we cannot arrange for you to come in and present your patriotic painting to the President in person as you suggest. I know, however, that I do not have to explain to you how pressed for time he is during these critical war days and how difficult he is finding it to make personal appointments of this kind. As a matter of fact, since Pearl Harbor we have had to ask his friends to mail their gifts to him in order to conserve his time. May I suggest, therefore, that if you will send the painting to the President in my care I shall be glad to see that it reaches him promptly, with a suitable word of explanation.

With all good wishes, and assuring you of the President's real appreciation of your kindness,

Very sincerely yours,

My dear James:

I sincerely wish it were possible to do as you ask in your letter of January tenth to the President. However, he is so busy with war duties these days that we have found it necessary to ask his friends to excuse him from complying with the many requests for his autograph which are constantly being received. I am indeed sorry, but know that you will understand.

It was kind of you to send us that picture of the President and I know that he would want me to thank you for your thoughtfulness.

WINANT, Hon. James Gilbert,
U. S. Embassy, London, England.
March 4, 1945.

Wrote to President stating that in Barrie's (Sir James Barrie) Great Rectorial Address to students of St. Andrews he told them quite frankly that he could not provide them with a staff for their journey in the world that lay before them but perhaps he could tell them a little about it, "how to use it and lose it and find it again, and cling to it more than ever." "You shall cut it," he said, "as is ordained, every one of you for himself, and its name is Courage." Ambassador Winant, in trying to find an XMAS present for President found George Washington's walking stick which he gave to Jerome Bonaparte. It carries the 13 stars which symbolize the unity of the original 13 states. Cane is a gift to President personally - not for any museum - because President symbolizes to him personally the charming virtue - Courage.---3/15/45 Isadore Lubin sent letter to Mrs. Eben in re above cane which he (Mr. Lubin) brought the President from Ambassador Winant. States that the big pistol is a German Walther, 9 mm., .38 automatic, taken from the body of a German officer in a pillbox in the Trier area on 2/19/45. Little pistol was given to President by Board of Directors of Fabrique Nacionale, Mr. Joassart of that Bd. made presentation in honor of his visit to WH on 4/20/44, as member of Governing Body of International Labor Organization.---3/16/45 President wrote to Ambassador Winant saying he most certainly was made happy by his gift of George Washington's cane. It is most interesting for its association, but it is also a remarkably well preserved piece of wood, considering its age. Says cane is ear-marked for his own personal things at Hyde Park and not for the Library. Concluded letter by saying: "Poland seems to be acting up again -- or, more correctly, the Russian Foreign Office."---Mrs. Eben's note says: "Mike Reilly is holding pistols and cane so they will reach H. P. ok---I am going to turn all of the attached * over to Mike and forget about it." *Original correspondence.

Dear Mr. President:

pp179-S

Enclosed is a scrap book of "Young Men At Work" published by the Peoria, Illinois Junior Chamber of Commerce, member of the U. S. Junior Chamber of Commerce. The scrap book, made up of the Peoria Jay Cee Organization is for the year 1943-1944.

This Organization consists of young men between the ages of 21 - 36, many of whom are at the present time in the Armed Forces of our Country. Those who took active part in their patriotic work, aside from doing their own work for their livelihood and Country, partook in many projects which were instrumental to the war effort.

This book was published with the thought in mind of letting the people in our community know just what a civic organization, comprised of a group of young men can do toward helping in the war effort.

Our sincere desire is that other civic organizations will aspire to fulfill their obligation in this war, as we feel we have done.

It is indeed a privilege and a pleasure to present this book to you, as our Leader of this Great Nation.

Yours very truly,
