Washington: 1989

INTRODUCTION

The 10 rolls of this microfilm publication reproduce correspondence and record cards of the Military Intelligence Division (MID), that relate to conditions in Cuba, Haiti, and the Dominican Republic (also known as Santo Domingo), from 1918 to 1941. The documents reproduced are largely reports from the U.S. military attache assigned to Cuba and his assistants, although there is a significant number of records from the Department of State in Washington, the diplomatic staff of the American legation at Havana, and U.S. Marine Corps units stationed on the islands. The correspondence, from which the eight files reproduced on this microfilm publication were extracted, and the related records, are part of the Records of the War Department General and Special Staffs, Record Group (RG) 165.

Background

The Military Intelligence Division originated in 1885, when Adj. Gen. Richard C. Drum directed Maj. William J. Volkmar of the Military Reservation Division to organize a Division of Military Information. Drum's action was in response to an increasing need for the systematic collection and dissemination of information relating to foreign and U.S. military services. The Military Information Division, as it became known, functioned as an adjunct of the Military Reservation Division until 1889. By providing for "the pay of a clerk attendant on the collection and classification of military information from abroad," the congressional appropriation act of September 22, 1888 (25 Stat. 481), laid the necessary financial groundwork for the Adjutant General's confidential order of April 12, 1889, which established the Military Information Division as "a separate division under the personal supervision of the Adjutant General." The act also led to the detail of the first military attaches to

U.S. diplomatic posts at London, Paris, Berlin, Vienna, and St. Petersburg in 1889.

An act of February 14, 1903 (32 Stat. 830), reorganized the War Department hierarchy by creating the War Department General Staff headed by the Chief of Staff. Six months later, Secretary of War Elihu Root's order of August 8 directed the transfer of the Military Information Division and its records to the Office of the Chief of Staff, effective August 15, 1903. Under the new organization what had been the Military Information Division became the Second Division (of three), of the General Staff. War Department General Order 128, dated August 12, 1908, provided for the reorganization of the General Staff into sections and thereunder into such committees as necessary for the transaction of business. As a result of this order the Second Division (military information) was merged with the Third Division (military planning and education) to form the Second Section. A reorganization of September 26, 1910, abolished the Second Section and transferred its responsibilities, including military information, to the new War College Division.

The entry of the United States into World War I on April 6, 1917, greatly increased the work of the War College Division. To deal with the growing intelligence workload, the Chief of Staff, in a memorandum dated April 28, 1917, directed the establishment of a separate military information section within the War College Division. A reorganization of the General Staff, under the authority of War Department General Order 14, dated February 9, 1918, abolished the War College Division, and all intelligence functions passed to the Military Intelligence Branch of the newly created Executive Division.

A second major reorganization of the War Department General Staff occurred under the authority of General Order 80, dated August 26, 1918, which established a separate Military Intelligence Division (MID), headed by an officer designated as director of military intelligence who would function as an assistant to the Chief of Staff. As a result of War Department General Order 41, dated August 16, 1921, the MID was given the additional designation of G-2 and was constituted as one of the five General Staff divisions, each under the immediate control of an assistant Chief

of Staff. This part of the organizational structure of the War Department remained largely unchanged through World War II.

The Military Intelligence Division, however, underwent a number of internal reorganizations during this quarter century. In early 1921 the MID's three principal functions, collecting and evaluating military information and disseminating military intelligence, were split between its Positive and Negative Branches. During the next 18 months the division abolished these two branches and divided the functions among three geographical sections: Latin American, European, and Far Eastern. This division of work among three entirely separate sections resulted in a wide divergence of method in handling information, and failed to produce well-thought-out studies on general questions affecting two or more of the geographical sections. Consequently, in October 1924 the head of MID placed the three geographical sections under his newly created Intelligence Branch, to a ensure better coordination of the collection and evaluation of military information and dissemination of military intelligence. The 1924 reorganization remained in place until 1942, although by 1939 the number of geographical sections had increased to seven.

The principal means employed by the MID to collect military information about foreign countries was to send military attaches and observers abroad for this purpose. As noted above, the U.S. Army sent its first five military attaches abroad in 1889. By 1922 the MID had 45 military attaches and assistants on duty in 30 countries. Though by 1938 their numbers had decreased to 32, they soon increased greatly with the advent of war in 1939. The United States first assigned military attaches to Cuba in 1902. A list of military attaches stationed in Havana from 1902 to 1941 follows these introductory remarks.

The main duties of a military attache were to observe and to report on the organization, training, equipment, doctrine, and operation of foreign military forces. In addition, the attache reported on political, economic, and social conditions in the country to which he was assigned, especially as they influenced military affairs. To carry out this work, the attache had the assistance of a small staff including one or more assistant

military attaches who prepared their own reports. The military attache and his assistants usually sent to the MID several copies of their more important reports which often included newspaper articles, magazines, maps, photographs, official government publications, and similiar enclosures. There, one copy was filed with the division's general correspondence in the manner described below, and another was placed in the so-called Regional File that the MID maintained for research and reference purposes. This file contains military, naval, political, economic, social, and psychological information on foreign countries. It is arranged by country or region and thereunder by a special subject classification scheme, first called Strategic Index (1918-22), and later, Index Guide (1922-44). The latter scheme subsumes all information under nine primary headings designated by four-digit numbers within the range of 1000 to 9960. Furnished with the current edition of the Strategic Index or Index Guide, the military attache from his post abroad indicated the proper file classification number in the block provided on the form on which he prepared his report. The Regional File served as the prime source of information from which the MID staff and its predecessors, compiled the Digests of Information concerning each country, prepared the Combat, Economic, and Political Estimates for the major nations of the world, and wrote special studies on military subjects.

Records Description

The Military Intelligence Division filed correspondence in accordance with the "record card system," utilized widely by the War Department in the late 19th and early 20th centuries. On each incoming and outgoing communication and enclosure, a record clerk placed in the upper-right corner of the first page a master number representing the main subject of the communication. When no subfile was involved, the clerk simply added a numerical suffix following a hyphen to the master number to indicate the next sequential transaction (e.g., 2067-54, 2067-55). To indicate a subfile, the records clerk entered an alphabetical or numerical suffix following the master number, and an additional number representing the transaction under the subfile.

At the subfile level the MID used letters to indicate particular countries or geographical areas. In a file numbered 2657-Q-266, for example, the letter Q represents Cuba and the West Indies. States. Most individual documents filed under these letter designations were numbered in chronological order by date received. Some, however, have a second subfile number denoting a more specific subject category, with sequential numbers following. For instance, many monthly reports on Cuban Army strength are filed under 2012-100 with individual reports numbered 1 to 96. Thus a typical file number containing all these elements would be 2012-100/55.

After the clerk had assigned a file designation to the communication, he summarized its contents on a record card and placed the same file designation on it. The record card was then filed numerically according to its assigned file designation. Subsequently, record cards were annotated to show the routing and ultimate designation or disposition of a communication. The clerk also prepared name, subject, and geographic index cards as finding aids to the communications. In addition, the MID kept chronological lists ("Dispatch Lists") of all communications received from an attache at a particular post.

This publication reproduces the following eight MID files relating to Cuba and the West Indies for the period 1918 to 1941:

MID 2657-Q---Political Conditions, Cuba and the West Indies
MID 2655-Q---Economic Conditions, Cuba and the West Indies
MID 2056-----General Conditions in Cuba
MID 2012-----Army, Cuba
MID 2079-----Aeronautics, Cuba
MID 2608-----General Conditions in Haiti and Santo Domingo
MID 2020-----Army, Haiti
MID 2353-----Army, Santo Domingo

The records filed under the two master numbers pertaining to political and economic conditions throughout the region, have been filmed immediately afer the record cards and are followed by files on one or two of the three Caribbean countries--Cuba, Haiti, and the Dominican Republic (in that order). Within each master number the documents have been filmed by file designation. The volume of records

filed under the two master numbers for general political conditions and economic conditions, and under the three files on Cuba, is substantial. There are cosiderably fewer records in the three files on Haiti and the Dominican Republic.

The gaps often found in the sequential numbers following master numbers have two principal explanations. First, during the late 1920s the War Department destroyed a large number of individual documents among the general correspondence of the MID as "useless papers." This action was authorized by an act of Congress, dated February 17, 1889 (25 Stat. 672). Second, on August 7, 1941, the MID abandoned its numeric file system and adopted the War Department decimal classification scheme. At that time the numeric file was closed and many documents were transferred to the new file. For most communications transferred, a clerk prepared a card and inserted it in the numeric series where the communication had originally been filed, citing the decimal designation under which the communication was then filed. These transferred documents are in the G-2 decimal file, which is part of Records of the Army Staff, RG 319.

Contents

Record Cards

The record cards for the eight master numbers of the MID correspondence relating to Cuba and the West Indies appear on roll 1 of this microfilm publication. The record cards are filmed in the same sequence as the eight master numbers. They provide a synopsis of each document (including those dated before mid-1941) that were transferred to the decimal file. The record cards also serve as a finding aid to the documents filmed in this publication.

Correspondence

Political Conditions, Cuba and the West Indies. (MID 2657-Q). Reports and other records in this master file include information on Cuban political parties, elections, political corruption, and political violence. There are a few similar reports on conditions in Haiti, the Dominican Republic, and Puerto Rico. In the early 1920s the

military attache reported extensively on the 1920 Cuban national elections (MID 2657-Q-1 to -90); graft and abuse of office President Zaya, 1920-24 (MID 2657-Q-249); the unsuccessful revolt by army veterans, 1923-24 (MID 2657-Q-143); and the 1924 election of President Machado (Mid 2657-Q-225/1 to -70). This master file also includes a large number of reports (MID 2657-Q-330/1 to -452) on anti-government violence in the 1930s, some of which deal with Col. Fulgencio Batista. Other reports discuss U.S. reactions to the 1920 Presidential election (MID 2657-Q-268), the activities in the United States of Cuban and other West Indian nationalist and revolutionary groups (MID 2657-Q-102, -350, -370), and German and Japanese espionage activities in Cuba (MID 2657-Q-395) and Haiti (MID 2657-Q-396), 1940-41.

Economic Conditions, Cuba and the West Indies. (MID 2655-Q). With the exception of the 1921 reports on the salt industry of Curacao (MID 2655-Q-14) and the economy of the Dominican Republic (MID 2655-Q-15), one each, and the report on the control of petroleum production in Puerto Rico in 1941 (MID 2655-Q-107), all of the records in this master file pertain to the Cuban economy. Many of the reports relate to the Cuban sugar industry (MID 2555-Q-1, -8, -11, -18 to -21, -33, -48, -51 to -60, -63, -65, -81); the cultivation of coffee (MID 2655-Q-50), rice (MID 2655-Q-16), and other foodstuffs (MID 2655-Q-18 to -21, -93); the production of henequen (MID 2655-Q-79); and Cuba's petroleum (MID 2655-Q-95) and mineral resources (MID 2655-Q-61, -100 to -103).

A number of reports deal with immigration laws and immigrant problems (MID-2655-Q-73, -76, -80, -85, -87, -94, -98, -99). Also included is a history of the operations of the Cuban National Lottery, 1921-23 (MID 2655-Q-32) and a copy of the military attache's "Estimate of the Economic Situation," May 1923, 150 pp. (MID 2655-Q-64). Many of the 1919-22 reports have file classification numbers of the Strategic Index imbedded in the text and most of the reports of the 1930s bear typed four-digit Guide Index numbers in the upper-right corner of the first page.

General Conditions in Cuba and the West Indies. (MID 2056). The records in this master file both complement (and in a few instances) duplicate the

documents in the files on political (MID 2657-Q) and economic (MID 2655-Q) conditions and relate almost exclusively to Cuba. Most of the 1918-19 reports, many of which were prepared by U.S. Marine Corps units on duty in the Camaguey and Oriente Provinces, deal with strikes and labor unrest in Cuba (MID 2056-65 to -184). Other reports for this period document the course of the "Spanish" influenza epidemic on the island (MID 2056-34, -46, -48, -53, -67, -78, -85, -122, -134, -165) and the October 1919 outbreak of smallpox in Havana (MID 2056-194).

Other records include an April 1920 office memorandum prepared by the military attache describing the members of his staff, his relations with the American Legation in Havana, and provides biographical sketches of prominent Cubans and others "who have proved themselves valuable and discreet" (MID 2056-196); a copy of the July 1923 "Estimate of the Economic-Military Situation" (MID 2056-219); and the 1925 MID digest of information on the Island of Pines (MID 2056-229). Between December 1938 and July 1941 the military attache prepared a series of 35 "Comments on Current Events," which contains information on German nationals in Cuba and the activities of Colonel (later President) Fulgencio Batista (MID 2056-250); and a series of reports on each of the principal cities of Cuba, which describes the city's power plants, water works, telephone and telegraph facilities, radio stations, gas and oil storage plants, ice plants, airfields, harbor facilities, police, military forces and installations, newspapers, magazines, prominent American citizens in residence, and its government (MID 2056-253). Scattered throughout this master file are copies of, or clippings from, the Havana Post, Havana Evening News, The Times of Cuba, Himley's Weekly Review of the Cuban Sugar Crop, and El Hombre Nuevo.

Army, Cuba. (MID 2012). Much of the documentation in this master file consists of monthly strength reports and station lists of the Cuban Army, 1918-41 (MID 2012-4, -6, -12, -21, -34, -39, -42, -49, -56, -64, -137, and especially -110); biographical sketches ("who's who") of prominent Cuban Army officers, 1931-40 (MID 2012-132 to -168); and periodic reports on the loyalty, discipline, and morale of the Cuban Army, 1931-40

MID 2012-133, -146). Included in the latter is substantial information on the September 1933 revolution and the activities of Colonel Fulgencio Batista, especially during 1933-34. Other records deal with the organization of the Cuban Army (MID 2012-18, -44, -73, -93, -101, -116, -119, -157), the pay and emoluments of its officers and enlisted men (MID 2012-124), its retirement and pension laws (MID 2012-110), and its annual budgets, 1932-41 (MID 2012-140, -165). This master file also contains information on the Cuban Rural Guard (MID 2012-98, -99) and the National Police Force (MID 2012-137).

Aeronautics, Cuba. (MID 2079). The records in this file cover military and commercial aviation. Included is a series of annual reports, 1924-39, on the organization, training, bases, appropriations, aircraft, and aeronautical equipment of the Cuban Air Service (MID 2079-15). Other reports on military aviation discuss "Good-will Flights" of the 1930s (MID 2079-43, -59), aircraft accidents (MID 2079-52), landing fields and possible landing fields (MID 2079-10, -44), flights of Cuban military aircraft over U.S. territory (MID 2079-56, -60), and cadet, flight, and combat training at Cuban aviation schools (MID 2079-36 to -40, -61, -62). Aspects of commercial aviation discussed include air traffic control and regulations (MID 2079-20), foreign interests involved in Cuban aviation (MID 2079-21), and commercial air routes (MID 2079-16). This master file includes many Department of State documents.

General Conditions in Haiti and Santo Domingo. (MID 2608). Most of the reports in this file are 1921 monthly summaries of intelligence compiled by U.S. Marine Corps units stationed in the two countries which describe the political, economical, and social conditions on Hispaniola. This file also includes a number of 1940 reports on harbor facilities, water supply, electrical power, and other municipal features of the principal cities and towns of Haiti and the Dominican Republic. These reports were received from the head of the U.S. Military Mission in Haiti and the U.S. naval attache stationed in the city of Santo Domingo.

Army, Haiti. (MID 2020). The three reports

comprising this master file deal with the establishment of a Dominican air and naval station at Calderas Bay (1939), leadership changes in the Garde de Haiti (1940), and the participation of the cadets of L'Ecole Militaire d'Haiti in the June 1941 maneuvers of the Garde de Haiti. The last two reports were prepared by the chief of the U.S. Military Mission in Haiti.

Army, Santo Domingo. (MID 2353). This small file consists of two items: a May 1918 report from the American Legation in Santo Domingo on the organization of the Guardio Nacional Dominicana and a 1925 memorandum from the Department of Commerce enclosing two Spanish newspaper clippings on the creation of a Dominican army.

Security Classification

Many of the documents filmed in this microfilm publication were classified as secret, confidential, or restricted at the time of their creation and had those classification markings stamped, typed, or written on them. With the exception of six documents (MID 2657-Q-361/18 to 2657-Q-361/24) relating to communications intelligence, the National Archives and the Department of the Army have reviewed and declassified all of the records filmed in this publication.

Related Records

In RG 165 are additional intelligence records relating to Cuba, Haiti, and the Dominican Republic. Information on all three countries can be found under other file designations of the MID correspondence, 1918-41. Because the records under other file designations either did not relate exclusively to Cuba, Haiti, and the Dominican Republic, or relate to less significant subjects, they are not reproduced here. Access to these records is by the name, subject, and geographic indexes to the MID correspondence and by the dispatch lists of incoming reports to the MID. The name index has been filmed as Name Index to Correspondence of the Military Intelligence Division of the War Department General Staff, 1917-1941, M1194; the geographic index as Geographic

Index to the Correspondence of the Military Intelligence Division, 1917-41, M1474 (roll 4 of which contains the principal entries for Cuba); and the dispatch lists as Registers of Communications Received from Military Attaches and Other Intelligence Officers ("Dispatch Lists"), 1889-1941, M1271 (roll 1 of which lists the reports from the military attache in Havana).

The segments on Cuba, Haiti, and the Dominican Republic in the Regional File of the MID contain copies of some of the documents reproduced in this microfilm publication, as well as many other documents submitted by the military attache at Havana and other sources.

Records relating to naval intelligence, including naval attache reports, and records of the Military Government of Santo Domingo (Dominican Republic) 1917-24, are in the Records of the Office of the Chief of Naval Operations, RG 38. Information about Marine operations in Cuba, Haiti, and the Dominican Republic can be located among Records of the U.S. Marine Corps, RG 127.

Many records pertaining to U.S. relations with Caribbean nations are found in General Records of the Department of State, RG 59. Microfilm publications of related records include Records Relating to Political Relations Between the United States and Cuba, 1910-29, M509; Records Relating to Internal Affairs of Cuba, 1910-1929, M488; Records Relating to Political Relations Between the United States and Haiti, 1910-29, M611; Records Relating to Political Relations Between the United States and Haiti, 1930-39, M612; Records Relating to Internal Affairs of Haiti, 1910-29, M610; Records Relating to Internal Affairs of Haiti, 1930-39, M1246; Records Relating to Internal Affairs of the Dominican Republic, 1910-29, M626; Records Relating to Internal Affairs of the Dominican Republic, 1930-39, M1272; and Records Relating to Internal Affairs in the Dominican Republic, 1940-44, M1277.

The records reproduced in this publication were prepared for filming by Barry Zerby and Monroe Freeman. These introductory remarks were prepared by Barry Zerby.
