New System Sensor L-Series 4-Wire Indoor Notification Appliances

System Sensor is excited to announce the next phase of our L-Series product line with the availability of 4-wire indoor horn strobes. This new L-Series offering includes second generation enhancements like a new rigid mounting plate and metal screw insert.

These new 4-wire devices provide a consistent look with the previously released L-Series product line while offering the following enhancements over the previous SpectrAlert® Advance line:

- 38% lower current draw for ceiling appliances and 35% less for wall appliances which enables more appliances per NAC to **save money on power supplies**
- Colored lenses and marking bezels for **easy customization** of emergency communication/mass notification
- **Backwards compatibility** with existing System Sensor SpectrAlert and SpectrAlert Advance notification appliances for retrofit applications

New part numbers for the L-Series 4-wire indoor line of notification appliances include:

NEW L-SERIES MODEL NO.	LEGACY MODEL NO.	DESCRIPTION
P4RL	P4R, P4RH	Horn Strobe, Wall, 4-Wire, Red
P4WL	P4W	Horn Strobe, Wall, 4-Wire, White
