Dear Mr. Roosevelt:

Under this same cover I have the honor of sending you a copy of "Cine Mundial",so that you will see how the only New Deal periodical printed in this country for circulation abroad looks like.

About twenty publications,tradepapers practically all of them,are edited here for distribution in foreign lands and among our local exporters and importers;and not a single one of them is,or has ever been,for the New Deal.

We have been in agreement with the New Deal policies from the time they took concrete shape under your leadership before you became the official candidate of the Party;and,naturally,we are even more so now that we know you meant what you said and have the will and mental resources to fight for these reforms.

Despite the adverse propaganda,ours is the prevailing opinion in all Latin American countries,where,if a vote were taken tomorrow,the proportion of your followers would be higher than in the United States. I shall never forget the shouts of joy in that cafe in Havana the night when the news of your first election came over the ticker,while a Tropical storm was raging outside and wiping out a whole town in the center of the Island.

That,our unique position in the Export field,is the reason why I have been on the verge of sending you a copy of the paper for a long time,and I do it now because circumstances beyond my control might change things in the future.

Today,however,"Cine Mundial" is a rara avis. Fortunately for us, the advertisers know very little Spanish and our international circulation is the largest in Latin America. Otherwise,we would have been extinct long ago.

With the hope that you are enjoying the struggle inside the ropes,even if outpointed for a few rounds,as much as we do here watching it from the gallery,I have the honor to remain

Yours very respectfully

this Bar. I value it as a Health Bar for all. The children love it and it is better for them than so much candy.

The Bar is in its infancy and up to date hundreds have eaten it but are afraid to adventure.

To produce this Food to any advantage it would have to be volume and that I have, but not the capital.

In our Valley here the fruit industry has been bad and hoping to help wherever I can, I am taking this means to tell you this story of my "Prune Bar."

I will endeavor with my faith to continue with all efforts to get somewhere with it and hoping that you and Mrs Roosevelt will enjoy the same. I believe "God Helps Those who Try to Help Themselves."

Best wishes from,

Hon. President Franklin D. Roosevelt

Washington, D. C.

Dear President Roosevelt,

I am sending you, under separate cover, a hand-woven rug that I made myself.

I came to this country in 1907 when Theodore Roosevelt was president. My home had been in Sweden. A few years after I arrived here I was married and we moved to Wyoming. Since that time I and my husband and daughter have lived on a ranch a few miles west of Laramie. We have 425 acres upon which there is no encumbrance.

I like rugs. I means have helped to pay off the mortgage on our place. Many

times I have thought how easily those on relief could make their living with a hand-loom, as the rugs are easy to make, always in demand, and the cost of the loom is small enough for anyone to afford.

Our ranch is located on the Little Laramie river where the fishing is always good and tourists from all over the United States come to visit us every year.

Perhaps it is presuming too much to expect a visit from you, but at least me can ask you and hope that some-day we will be privileged to shake your hand, also to serve you a mess of good mountain trout.

I hope you will enjoy the rug. Within its rows are woven the good wishes of one who has endorsed your program ever since you first sat in the Presidents' chair.

Yours very sincerely,
Mrs. Ellen Olson

Attached hereto is a maple gavel made from wood taken from the Buzzard Roost Hydro-Electric Project reservoir in Greenwood County, South Carolina. Dear Miss Le Hand:

I think it only fitting that the President of the Red Cross and also the President of the United States should have an early copy of the only biography of the Red Cross founder, the unknown first Nobel prize winner, and also the only history of the Red Cross in existence. I do think this book, which is more than timely in its general application, would be of special interest to him and I am sending it to you personally in the hopes that you might single it out of the mass of literature which gets sent to him and bring it to his attention.
