GT-202HB

4-Module Hooded Surface Mount Box

The GT-202HB is a 4-module hooded surface mount box for surface mounting four GT Series entrance station modules and cover panels into a 2x2 layout.

It mounts directly to a wall surface with the included hardware. The box has space for wiring inside and there are drainage openings at the bottom. Its hood provides additional weather protection.

- **Hood provides additional weather protection**
- **Includes space inside for wiring**
- **Mounts directly to wall surface**
- **Openings at bottom allows moisture drainage**
