- Crimping
- Crimp Cover
- Attaching an Ear Wire

Instructions to complete “Shimmer Drop” earrings:

Step 1

Using wire cutters, cut two 5-inch lengths of beading wire

Step 2

Close one open jump ring securely (see Opening and Closing a Jump Ring Technique). Place one crimp bead and the jump ring onto a 5-inch length of beading wire. Pass the wire back through the crimp bead, crimp the crimp bead, and trim excess wire (see Crimping Technique).

Step 3

String 15 Black Diamond shimmer bicone beads.

Step 4

String one crimp bead and the jump ring from Step 2, forming a loop of beads. Pass the beading wire back through the crimp bead, crimp the crimp bead, and trim excess wire.

Step 5

Place one crimp bead and the jump ring from Step 2 onto a 5-inch length of beading wire, placing the new wire outside one of the crimped ends of wire attached previously. Pass the wire back through the crimp bead, crimp the crimp bead, and trim excess wire.

Step 6

String 22 Erinite shimmer beads.

Step 7

String one crimp bead and the jump ring onto the beading wire, placing the wire outside the other crimped end of wire attached previously. Pass the wire back through the crimp bead, crimp the crimp bead, and trim excess wire.

Step 8

Open another 7mm jump ring. Attach the jump ring to the top hole of the 16mm teardrop pendant and through the jump ring from the previous steps (making sure you place it through the center of the two bead loops made). Close the jump ring.

Step 9

Open the loop on one ear wire (see Attaching an Ear Wire Technique). Attach the loop to the jump ring from Step 2 on the opposite side of the strung loops, and close the ear wire loop.

Step 10

Repeat Steps 2 – 9 for the second earring.
