BUILDING HOPE
2019 ANNUAL REPORT

“For the needy shall not always be forgotten, and the hope of the poor shall not perish forever.”
Psalm 9:18 ESV
Building Capacities towards Sustainable Development

The organization’s focus this year is “Building Capacity towards Sustainable Development,” and the direction we’re headed is grounded on the medium-term strategic plans being developed by our staff, Board of Trustees, and stakeholders. Beginning this year until the year 2025, we intend to see through the process of obtaining, improving, and retaining the knowledge, tools, and other resources necessary to do our work competently with our constituents towards sustainable development.

As you can see and read on this annual report, institutional and staff capacity building has been implemented in all levels, in part as government compliance to the call to provide effective and operative capacity building for staff, volunteers, and beneficiaries. I was particularly moved by a story that one of my colleagues told me, which is about a good-hearted volunteer from a developed country who sent gifts to a poor child in the Philippines on a regular basis. At one time, the beneficiary child, who is a girl, was so excited when she received her birthday gift from her donor; however, the father of the girl expressed that he wished to have a better income so he himself could buy those kinds of gift for his children. One can only imagine what the father might have truly felt.

It is with this very reason that we decided to use the baseline and end line evidence for every program we now run, as we have precisely determined to make sure that our approach is developmental in nature. Moreover, we are now maximizing our resources to provide effective and working capacity-building programs to our beneficiaries, strengthening the skills of the people and the communities in small businesses and local grassroots movements, so they themselves could achieve their goals and overcome particular issues that may cause exclusion. Our goal for our beneficiaries is to see them become self-reliant and become contributors to our society.

This is what the HOPE worldwide Philippines wants to be (sustainable), what we want to have (established resources and connections), and what we want to do (build capacities and opportunities). By 2025, the programs and services of the HOPE worldwide Philippines are expected to be sustainable, where human and financial resources needed are fully established and strong connection with partners, donors, volunteers, and stakeholders are fully developed to serve the poorest of the poor in our country.

Please continue to join us in our journey of helping the indigent children and families in our different locations as we follow the steps of Jesus Christ’s ministry of empowerment to the poor. As always, your utmost support and patronage will be a paramount contribution to the fulfillment of this endeavor.
PROGRAMS & SERVICES

Protection

Children are ensured of their rights and protection, treatment and healing, case management and reunification with supportive families.

Education

Children living in extreme poverty are ensured of support in their school and other psychosocial needs and development.

Health & Nutrition

Improve health and nutritional condition of poor children and families, and empowering key players of the communities on proper nutrition and health practices.

Disaster Risk Reduction & Management

Promotes DRR, and respond to the aftermath of disasters ensuring access to relief, child protection, and other basic services.

Family & Community Development

Provide an array of services to the poor families and communities that will enhance their quality of life and uphold their dignity.

“For the needy shall not always be forgotten, and the hope of the poor shall not perish forever.” – Psalm 9:18 ESV
Every person is empowered to become a responsible functional member of the community where he/she takes an active role in providing a safe place for children and opportunities for their families, ensuring the promotion and protection of their rights.

To improve the lives of the poor and needy children, families, and communities by providing sustainable programs & services.

We focus our efforts to children because we believe they are the most vulnerable group in the society.

“Open your mouth for the mute, for the rights of all who are destitute. Open your mouth, judge righteously, defend the rights of the poor and needy.” – Proverbs 31:8-9 ESV

Andrea, 13, is enrolled in grade 7 at a nearby school in the community. She has long hair but appears boyish with the way she carries herself. Her parents separated when her mother was five months pregnant with her, which, according to the mother, was due to the father being irresponsible and immature. Although the father already has a family, Andrea still maintains communication with him. Since her mother is always busy with her work, her grandmother has been the one to look after her.

Andrea has never been expressive of her feelings. The sexual abuse she experienced only came to light when her family noticed her bulging tummy. When confronted, she was shaking in fear and was forced to disclose the abuse. According to her, she was repeatedly abused and eventually impregnated by the father of her classmate, who was also the security guard at their school. She said that she was threatened every time she was abused.

When Andrea was already twenty-seven weeks pregnant, her family, who have been very supportive of her, immediately filed a case against her perpetrator, who is now detained in Manila City Jail. Later on, more victims by the same perpetrator surfaced, one of which is also pregnant.

Currently, Andrea is receiving psychological intervention in the program and is also being assisted in her legal case. She is continuing her studies through homeschooling. She is also taking care of her five-month-old baby with the help of her family. Andrea’s healing and recovery from the abuse is not impossible to achieve because of the love and support of her family.

Because of this case, HOPE worldwide Philippines has trained the schoolteachers and their students in identifying, preventing, and responding to child sexual abuse.

Story of Julie and Ruby
Julie and Ruby are sisters, both fifteen years old and in grades 7 and 8 respectively. Julie is older but has a slight mental delay. Their mother married their sixty-year-old father when she was twenty-five. They have three other siblings, ages 9, 18, and 19. Their father passed away when they were very young, leaving their mother with the responsibility of raising them. The stress and the burden led their mother to depression and triggered personality disorder. She was confined in a mental institution and was discharged after a month. However, since she was not able to buy her maintenance medication, her condition worsened, and she was admitted back to the hospital. With this, the siblings were left under the care of their maternal grandmother.

Living in the cramped area together with their relatives, Julie and Ruby were raped by their cousin. However, because of fear, they remained silent. The children became vulnerable that on the same year, their neighbor also raped them by enticing them by giving them food.

They both had the courage to disclose their terrible experience to the barangay, and they filed a case against their cousin and neighbor with the help of a social worker from HOPE worldwide Philippines. Their cousin is now in jail, but the neighbor is still at large. Julie and Ruby are presently under psychological therapy and a legal assistance from HOPE worldwide Philippines.

“Give justice to the weak and the fatherless; maintain the right of the afflicted and the destitute. Rescue the weak and the needy; deliver them from the hand of the wicked.” - Psalm 82:3-4 ESV
Mara is a fourteen-year-old girl who suffered from physical and sexual abuse by her known custodians whom she treated as her own parents. She has been an orphan ever since and she was four years old when her mother’s friend took care of her and then was passed on to another family before she was taken to her recent custodians.

During her childhood, she suffered molestations from different men in their neighborhood and from other people who took care of her. She mentioned that she was sexually abused by seven different males when she was a child and suffered violence from her female custodian. She knows that the only reason they are keeping her is the money they get from her 4Ps. She felt that she was treated as a house helper, considering she was the one who took care of her custodians’ five-year-old son, whom she loves dearly. She ran away from home because of the attempted rape she experienced from her male custodian, and it was when she met a good Samaritan, who helped her report the abuse and took care of her before she got in the shelter.

She was referred to the Residential Care Facility of the Center of HOPE in Laguna, which she now considers as her home. She was actually diagnosed with post-traumatic stress disorder, although she is now slowly recovering. During her therapy, she was able to process the multiple abuses she had since childhood. Psychosocially, she was able to establish a healthy relationship and family among the staff and other children in the center. She was provided not only with shelter, food, and education but also with a family. She felt happy when the staff helped her get through her case hearing, especially her cross-examination, where she felt so relieved to have people who support her and really care for her. She also had the chance to visit the good family who took care of her for a while and helped her report the abuse.

Now she has become more assertive and is able to improve her self-esteem through the help of continuous psychotherapeutic interventions.

Elisha Joy Jarito is a Daycare Program high honor awardee for school year 2018–2019. She is very sweet and thoughtful to everyone. She is the younger of two siblings. Her parents have confidence that in HOPE worldwide Daycare Program, Elisha will learn not only basic literacy but also how to shape her character. Elisha wants to be a doctor someday because she wants to help other children who have asthma like her.

Elisha was shy and timid at first, but she learned so fast through the help of the teacher and her mother’s constant support. The nutritious meals that HOPE provides also support her physical and mental development as well as strengthen her immune system. She is sensitive to the needs of her classmates and is always the first one to offer snacks and make sure everyone has their share.

Her parents are also supportive of the program and they give back by helping in the maintenance of the center and the organization’s activities. In addition, the sessions in the Parents Enrichment Seminar (PES) also help them a lot to overcome their challenges in their marriage, especially that she and her husband have a twenty-five-year age gap.

“So it is not the will of my Father who is in heaven that one of these little ones should perish.” – Matthew 18:14 ESV

- **3,308** children provided with nutritious hot meals for 90-120 days
- **3,120** attendees of Health and Nutrition Education
- **114** service providers capacitated on “Food Safety & Sanitation” and “Basic Child Nutrition”
- **60** barangays in nine cities & municipalities served
50 participants from the U.S.A., Singapore, Canada, Australia, and the Philippines joined this year’s HOPE Volunteer Corps in Cebu, Philippines.

### Services to the Community

- 350 children served through various activities
- 169 children served on medical check-up
- 68 water filters distributed to families affected by Typhoon Ursula
- 10 families serenaded and given “noche buena” package
- 6 houses damaged by Typhoon Ursula were repaired
- 1 kilometer street cleaned-up
- 1 Center of HOPE repaired and repainted
- 1 Center of HOPE garden developed
- 1 pig pen constructed for 7 families

HOPE worldwide Volunteer Corps’ (HVC) main purpose is service in communities around the world. We work to restore communities badly affected by material poverty, we teach children, train teachers, mentor youth, conduct vacation bible schools, and rebuild areas that have felt the impact of natural disasters. It is a faith-based, service-learning program designed for families and individuals of any age.
Since 2009, the Shoebox Project has been on a mission to bring smiles to children by sending them gifts during holiday season. The project was initiated by volunteers from ICoC San Diego and HOPE worldwide San Diego Chapter.

631 children received shoebox gifts

INDEPENDENT AUDITOR’S REPORT

The BOARD OF DIRECTORS and TRUSTEES
HOPE worldwide PHILIPPINES, INC.
Rizal, Brgy. Dole, Batangas

Report on the Financial Statements

Opinion
I have audited the accompanying financial statements of HOPE worldwide PHILIPPINES, INC. which comprise the statements of financial position as at December 31, 2019 and 2018, and the statements of receipts and disbursements, statements of changes in equity and fund balance and the statements of cash flows for the years then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the financial statements present fairly, in all material respects, the financial position of HOPE worldwide PHILIPPINES, INC. as of December 31, 2019 and 2018, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards for Small Entities (PFRS for SE).

Basis for Opinion
I conducted my audits in accordance with Philippine Standards on Auditing (PSAs). My responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of my report. I am the independent of the Corporation in accordance with the Code of Ethics for Professional Accountants in the Philippines, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards for Small Entities (PFRS for SE), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation’s financial reporting process.

Auditors’ Responsibilities for the Audit of the Financial Statements
My objectives is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
