The Sedona Conference®

Gretel Best
Gowling WLG
Steering Committee Chair,
Sedona Working Group 7
("Sedona Canada")

Kenneth J. Withers
Executive Director
The Sedona Conference

Land Acknowledgement

The Sedona Conference®

- Nonprofit, non-partisan research and educational institute dedicated to the advanced study of law and policy in the areas of antitrust, intellectual property, and complex litigation
- Transcending traditional continuing legal education to combine experience with dialogue, outside of the adversarial system, to contribute to the reasoned and just development of law and policy
- Supporting Working Groups to develop principles, guidelines, and best practices in targeted areas “ripe” for development

The Sedona Conference dialogue model

Debate: Assuming that there is a right answer and that you have it

Dialogue: Assuming that many people have pieces of the answer and that together they can craft a solution

Debate: Listening to find faults and make counter arguments

Dialogue: Listening to understand, find meaning, and agreement

Debate: Defend one's own views against those of others

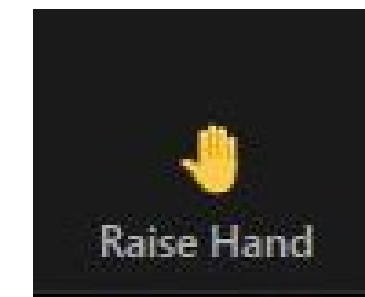

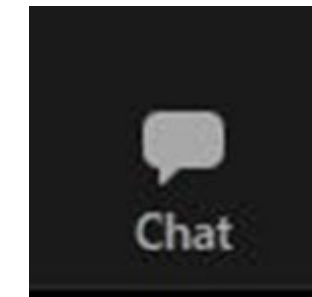

Dialogue: Admitting that others' thinking can improve on your own

Debate: Seeking a conclusion or vote that ratifies your position

Dialogue: Discovering new options, not seeking closure

“Virtual” dialogue

- This webinar is being recorded
- Keep the “Chat” window open and join the dialog by text
- Raise your hand (virtually, using the icon) if you would like to ask a question or make a comment verbally
- Keep your mic on mute unless called on

- This webinar has not been pre-accredited, but most jurisdictions will provide at least 1 hour of CPD credit for attendance
- CEDS recertification credit is also available

Demystifying AI in Law: Your Essential Primer to Stay Ahead

Moderator:

Gretel Best, Gowling WLG (Canada) LLP

Dialogue Leaders:

- Carolyn E. Anger, Consilio
- Lauren Fishman, Borden Ladner Gervais LLP
- Maura R. Grossman, University of Waterloo
- Chuck Rothman, MT3, a Division of McCarthy Tétrault

- **The Sedona Canada Primer on Artificial Intelligence and the Practice of Law**
 - Background
 - Purpose
 - Scope

- **Artificial Intelligence (“AI”)** is a collection of technologies that emulate human intelligence by performing cognitive tasks.
- **Generative Artificial Intelligence (“GenAI”)** is a collection of technologies that create new text or image content based on learned patterns.

Poll Question #1

Are you using GenAI tools in your organizations or law firms?

- Yes
- No
- I don't know

Different Types of Artificial Intelligence

- Expert Systems
- Machine Learning
- Computer Graphics
- Computer Vision
- Speech Recognition
- Audio Search
- Audio Generation

Poll Question #2

Does your organization or law firm have a GenAI policy in place?

- Yes
- No
- I don't know
- We're working on it

- How are organizations and law firms leveraging AI systems?
- Use cases – the good, the bad, and the ugly.
- Should GenAI prompts and searches be addressed in Discovery Plans and ESI production protocols?

Poll Question #3

Do you think GenAI can be used as an eDiscovery tool?

- Yes
- No
- It depends (please comment in Chat)

Benefits of Artificial Intelligence

- Is GenAI ready for prime time?

Considerations when Using AI

- What are the different considerations when using AI?

- What is the current GenAI regulatory landscape in Canada and abroad?

Looking Ahead

- Final thoughts and closing remarks?

Questions?

Thank you for attending!
