Land Acknowledgement

The Sedona Conference®

- Nonprofit, non-partisan research and educational institute dedicated to the advanced study of law and policy in the areas of antitrust, intellectual property, and complex litigation
- Transcending traditional continuing legal education to combine experience with dialogue, outside of the adversarial system, to contribute to the reasoned and just development of law and policy
- Supporting Working Groups to develop principles, guidelines, and best practices in targeted areas “ripe” for development

The Sedona Conference dialogue model

Debate: Assuming that there is a right answer and that you have it

Dialogue: Assuming that many people have pieces of the answer and that together they can craft a solution

Debate: Listening to find faults and make counter arguments

Dialogue: Listening to understand, find meaning, and agreement

Debate: Defend one's own views against those of others

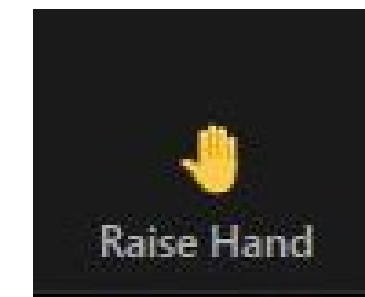

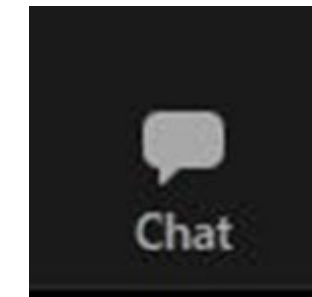

Dialogue: Admitting that others' thinking can improve on your own

Debate: Seeking a conclusion or vote that ratifies your position

Dialogue: Discovering new options, not seeking closure

“Virtual” dialogue

- This webinar is being recorded
- Keep the “Chat” window open and join the dialog by text
- Raise your hand (virtually, using the icon) if you would like to ask a question or make a comment verbally
- Keep your mic on mute unless called on

- This webinar has not been pre-accredited, but most jurisdictions will provide at least 1 hour of CPD credit for attendance
- CEDS recertification credit is also available

Why Economics Matters in eDiscovery

- Human & technology resource-intensive
- Clients demand/require defensible, efficient, and cost-recoverable services
- eDiscovery costs are largely driven by:
 - Data Volume
 - Data & Substantive Complexity
 - Electronic Tools and Platforms
- Corporations, Law Firms, and Service Providers face unique pressures and cost structures.
