

2022 Illinois State FFA Livestock CDE

Keep/Cull Yorkshire Gilts

Select the gilts to be used as grandparent stock in a purebred operation. The goal of this producer is to expand the herd, so he is looking for 4 new sow prospects to help him generate as many functional, maternally focused daughters as possible. Male progeny and non-keepers are marketed on a lean-value marketing system. All hogs are raised on slatted floors in total confinement.
