

2022 Missouri State FFA Livestock CDE

Performance English Heifers

You are a cattle producer in Missouri looking to add to the marketability of the bred heifers you offer for sale each year. The updated requirements and prestige surrounding the Show-Me Select Replacement Heifer Program catch your interest, and you decide to market your top heifers through the program.

Typical customers through this program are looking to purchase sound, low-maintenance females that will raise and wean heavy calves with minimal inputs. Rank these heifers in the order that you would select them as your entry into the Show-Me Select program.
