

# 2022 Missouri State FFA Livestock CDE

## Performance Crossbred Gilts

These gilts are all keeper gilts in an up-and-coming show pig operation in north Missouri. The operation's goal is to produce crossbred barrows and gilts that will be competitive at the local, state, and national levels. The producer uses several boars by AI. These gilts will be bred to Backdrop, Crickets, No Introduction, or JoJo. Rank them in order for elite show pig production prospects.
