

2022 National 4-H

Chi Influenced Heifers

Contest Date November 15th, 2022

Rank these heifers for a midwestern Chiania-influenced operation. Bull progeny are marketed at an annual production sale to commercial producers who precondition and market via value-added feeder calf programs. The upper end of heifer offspring will be sold as heifers to juniors to show at state and national shows.

Feed and labor are adequate.
