

2022 National 4-H

Simmental Heifers

Contest Date November 15th, 2022

Rank these purebred Simmental heifers as they should be chosen as replacements by a Midwest operation that prices itself in producing calving-ease sires that generate functional, easy-keeping, maternally focused daughters.

Although labor is limited due to farming operations, forage is high quality and abundantly available.

ID	Birth Date	BW	WW	YW	MM	STAY	API
1	10-12-21	1.0	83	125	29	19	135
2	10-18-21	1.3	97	132	31	21	144
3	11-15-21	3.2	95	140	15	12	126
4	10-24-21	1.8	86	128	24	17	134
Breed Avg		1.6	78	115	23	16.7	130
