4	3-16-21	5	5	4	9	2.95
	Breed Avg	NA	1.9	17	27	3.1

Rank these Brahman heifers as potential donor females for a purebred Grey Brahman breeder in North Texas. The operation is known for growthy, sound, ultra-maternal females. While traditional breed strengths are necessary, the breeder has also began taking animal attitude into consideration, as he is selling show stock to local 4-H and FFA youth.
