

2023 Western National Roundup

Hereford Heifers

January 6th, 2023

Ranks these heifers as they should be retained as replacements in an elite purebred Hereford operation located in central Colorado. This operation markets genetics to other breeders as well as junior exhibitors. They also host an annual bull sale where selection intensity is placed on functional, phenotypically attractive cattle that have a balance of performance.

ID	DOB	BW	WW	YW	MILK	REA	MARBLING	BMI
1	3-14-22	+2.9	+73	+101	+25	+.60	+.20	410
2	3-1-22	+1.2	+59	+85	+29	+.20	+.14	382
3	3-18-22	+2.5	+71	+95	+24	+.42	+.19	400
4	2-25-22	+2.3	+68	+92	+23	+.45	+.16	396
AVG		+2.8	+54	+87	+26	+.41	+.11	343

REA stands for Ribeye Area

BMI stands for Baldie Maternal Index
