Performance Brahman Heifers

Today the influence of the American Brahman breed can be found in herds across more than 40 countries in the world. Brahman breeders in the U.S. have become strong promoters for utilizing EPDs and combining genotype with phenotype for the advancement of the breed worldwide. Rank these females in the order you envision them advancing the Brahman breed not only in the United States but globally.

#		BW	WW	YW	MILK	REA	MARB	TEND	\$QUEEN
