Performance Hampshire Ewes

Rank these ewes as replacements in a purebred Hampshire operation. The primary objective is to provide terminal sires to larger commercial operations that maintain white-faced ewes. Your customers profit mainly from the sale of slaughter feedlot lambs that excel in carcass merit.

No.	Birth Date	Type/Raised	Pfat EBV	PEMD EBV	WWt EBV	PWWt EBV
1	2/15/2024	Tw/S	-0.012	0.2	-0.5	-1.0
2	2/20/2024	Tw/Tw	-0.05	2.8	0.8	1.8
3	2/16/2024	Tr/Tw	0.12	3.0	1.2	1.1
4	2/18/2024	S/S	0.07	2.2	0.5	0.4

EBV = Estimated Breeding Value

WWt = Weaning Weight

PWWt = Post Weaning Weight

Pfat = Post Weaning Fat Depth

PEMD = Post Weaning Loin Eye Muscle Depth
