

2025 National 4-H

November 2025 Maintainer Heifers

Evaluate these Maintainer heifers as prospective replacements for a progressive show-oriented cattle outfit. Replacement females will produce offspring targeted toward junior exhibitors and marketed primarily through online sale platforms with state-level and national-level exposure. Top-end bull calves will be retained and promoted the same way. Remaining males will be castrated and sold at weaning through local markets. Feed availability and labor support are both adequate for this program.

ID	Date of Birth	CED	BW	WW	YW	Milk
1	4-4-25	+12	+2.6	+43	+54	+25
2	3-28-25	+13	+2.9	+44	+55	+25
