Performance Purebred Simmental Heifers

You're the owner of a high-end Simmental operation that, year after year, turns out cattle that drive the direction of the breed. Your operation centers it's focus on females. Over the years, it has selected hard to get, only the highest producing and phenotypic stand outs to the donor pen. With a clientele that ranges from local producers to nationally recognized breeders, you have a broad appeal to satisfy.

Place these females for priority in the donor pen to keep pace with the expectation this operation has set for its leading females.

Class ID	ID	CE	BW	WW	YW	MILK	API	TI
1	118	13.4	0.3	66.3	92.3	18	101.8	70.4
