April 2026

Performance Angus Bulls

Rank these bulls for use within an elite Angus operation. These bulls are expected to positively contribute to the firm's dual cowherd system. These bulls will be mated to both purebred Angus and purebred Simmental heifers with the goal of producing hardy, long lasting breeding stock and potential high end show heifers and prospect steers.

No	DOB	BW	WW	YW	Milk	REA	Marb	\$C
1	2/21	1.0	78	125	28	0.74	0.74	295
