

2026 Dixie National

February 2026

ARB Heifers

You have been given the opportunity to sort the ARB heifer drive at the 2026 Dixie National Livestock Show. These females originate from reputable, progressive seedstock operations whose primary goal is to produce, exhibit, and market show heifers that can ultimately transition into functional, foundational females within a cowherd. Bos indicus breed associations rely heavily on crossbreeding and buildup programs to enhance phenotypic quality, performance, and show ring presence. Please place these females accordingly.

ID	Breed	DOB
1	E6	2/25
2	E6	2/25
3	Star Five	10/24
4	Star Five	10/24
