March 2026

Yearling Dorset Ewes

You are selecting from a class of Dorset yearling ewes to serve as the foundation for a high-performance flock in Central North Carolina. This operation is dual-purposed: producing elite purebred Dorset seedstock for national-level exhibition and generating competitive "speckle-faced" crossbreds (Dorset x Blackface) for the 4-H and FFA circuit. With above-average labor and resources, the operation can manage ewes that require a higher nutritional plane or more intensive lambing management to maximize their genetic potential.

#	Farm Tag	DOB	Genetic Abbreviations	Birth Type	Pounds Weaned	Fecal Egg Count % EBV (PFEC)
1	PCLF 154	1/17/25	RRNNFF	TW	45	+25
2	PCLF 161	2/3/25	QRNNFD	TW	35	-5
3	PCLF 162	2/3/25	QRNNFD	S	55	+5
4	PCLF 169	2/17/25	RRNNFF	S	60	+0
