

2026 North Carolina FFA

March 2026

Percentage Boer Does

Rank these Does as they should be selected as replacements for a progressive goat farm in Central, NC. This farm puts a tremendous amount of selection pressure on making high-quality show stock that can compete at local, regional, state, and national shows. Because of the desire to make elite stock, there is no emphasis placed on performance data, rather all emphasis is placed on phenotype. The majority of income is derived through the sale of wethers to FFA and 4-H members. Feed and Labor resources are above average.

Number	DOB	Birth Type	Adjusted 90 Day Weight	Adjusted 150 Day Weight
1	1/3/25	Twin	44	68
2	1/16/25	Single	50	76
3	1/11/25	Triplet	42	65
4	1/21/25	Twin	43	67
<i>Contemporary Average</i>			42	65
