Performance Ultrablack Heifers

Provided by Johnston Brangus Letohatchee, AL

Rank these heifers as they should be selected as elite donor prospects for a Brangus Seedstock operation. This operation markets elite females and potential AI sires to other seedstock producers globally, and markets over 200 bulls per year to commercial customers. They strive to produce cattle with an elite phenotype while still maintaining strong carcass genetics.

Number	Tag	DOB	BW	WW	Milk	TI
