

Name: _____ Date: _____

Complete the other half of this butterfly. Use the red points as a reference for the mirror image. Connect the reflected points smoothly to complete the butterfly.

1. Look at your finished butterfly. What makes you sure it is symmetrical?

2. Are all matching points the same distance from the middle line? How can you check?

3. Find two matching points. Describe where they are located on the butterfly.

Answer Key

1. Both sides match and are the same shape and size.
2. Yes. You can measure or count squares to see they are the same distance from the middle line.
3. Answers will vary. Students should correctly identify a pair of matching points in the same position on opposite sides of the line.
