

BY MIKE MICHALOWICZ

AFRAID YOU'LL MISS THE NEXT BIG MARKET WAVE?

You're trying to stay ahead of the competition, but the market is constantly changing. Consumer demand is unpredictable, and you're unsure how to position your business for success. Sound familiar?

IF YOU'RE NOT RIDING THE RIGHT WAVE, YOU'RE DEAD IN THE WATER

The key to growth isn't guessing what customers want. The trick is to learn how to spot the waves of demand that are already forming.

Surge provides you with a simple, actionable strategy to identify those waves and position your business to ride them. Instead of waiting for luck or trying to predict the future, you'll learn how to spot the next big wave in your industry and dominate it before anyone else.

CATCH THE MARKET WAVE BEFORE IT CRESTS AND HANG TEN

In **Surge**, you get a step-by-step process for identifying, aligning with, and capitalizing on market waves. Here's how it works:

S – Separate - Find your niche. Don't try to serve everyone. Instead, identify a target market and own it.

U – Unify - Spot patterns in consumer demand. Understand their problems, pressures, and needs to position your products and services correctly.

R – Rally - Create a rallying cry that resonates with your ideal customers. Empower them to spread the word for you.

G – Gather - Engage your early adopters, those who will help carry your message and evangelize for your brand.

E – Expand - Once the wave is caught, scale your business by consistently meeting the changing needs of your niche.

Follow these steps, and you won't wait for the next big wave—you'll create it.

With **Surge**, you'll ride the market wave at the perfect time and lead your industry.
