How to do BSE (a self-exam)

Breast cancer may be cured if you find it early.

The *best* cancer check is a mammogram.
When your doctor checks your breasts,
ask about this.

Use the shower check.

1. Check your breasts about one week after your period.
2. Press firmly with the pads of your fingers. Move your *left* hand over your *right* breast in a circle, like this:

3. Now check your *left* breast with your *right* hand in the same way.

If there are any lumps, knots, or changes, tell your doctor right away. Breast cancer may be cured if you find it early.
