Subject: Emergency designation package

The Director signed a memorandum to the President recommending that he sign a package of emergency designations from the supplemental that the President signed on May 21st. Funding would be designated for agricultural relief, disaster assistance to the victims of Hurricane Mitch in Central America, humanitarian assistance for the Kosovar refugees, DoD funding for the Kosovo mission, FEMA disaster relief funding and other items. This funding can not be made available to the agencies to spend until the emergency designation package is signed.

We are recommending that it be signed tomorrow. Linda Ricci is making WW calls to determine whether there is interest in preparing a press statement or in having someone announce the action. There may be some interest at USDA to have them announce release of the agricultural relief funding.

Subject: Executive Memorandum

Sean,

We are planning to release an Executive Memorandum for next Tuesday's FTC event. I apologize for the late notice, but I only found out yesterday myself. A draft has been vetted by the agencies affected, and is now going through Mac Reed's office [even though we have not gotten sign final sign-off from Bruce or Elena, we wanted to make sure to get it through the various approval channels]. Please let me know if you have any questions. Thanks.

Ruby

Sean -

Following is a draft memorandum from the POTUS to Glickman, Babbitt, and
Browner calling for
new clean water/beach protections (per the radio address). This draft is
currently under OMB
review, but I wanted to go ahead and get this to you.....we are hoping to
release it with the press
paper this afternoon. As soon as we get OMB comments I'll send you the
final for your review
and formatting. If you need more info or have questions please call me at
65141. (I have also
faxed this draft to Carol in your office).

===== END ATTACHMENT 1 =====

**MEMORANDUM FOR SECRETARY GLICKMAN, SECRETARY BABBITT,
AND ADMINISTRATOR BROWNER**

SUBJECT: CLEAN WATER PROTECTION

Fifteen months ago, celebrating the twenty-fifth anniversary of the Clean Water Act, this Administration set forth a vision for a new generation of clean water protection through our Clean Water Action Plan. The Action Plan strengthens protections for our Nation's waters, addresses the remaining sources of water quality impairment, and provides the tools and resources that States, Tribes, and communities need to control pollution on a coordinated basis throughout their watersheds.

The Action Plan recognizes that despite significant progress, the challenge for all of us in protecting our Nation's waters remains unfinished. The health of our people continues to be threatened by exposure to harmful organisms in our waters; consumption of fish from many of our waters presents a threat to the most vulnerable among us; polluted runoff has for too long eluded the best efforts to date using conventional approaches. The Action Plan was coupled with a challenge to Congress to reauthorize and strengthen the Clean Water Act, but Congress has yet to act on this vital challenge.

As we begin the beachgoing season, when families are reminded again about the importance of clean water to their recreation, their well-being, and the economy, we remain anxious to work with Congress on strengthening the Clean Water Act. We must not wait for Congress, however, before using our available resources and authority to further accelerate the effort to protect America's waters and the health and safety of the American public.

Accordingly, I am directing you to take the following additional steps, consistent with the Clean Water Act and the Clean Water Action Plan, to protect public health and clean water.

First, I am directing the Park Service and other units of the Department of the Interior to strengthen water-quality protections at all beaches managed by the Department. Improved monitoring should be used wherever necessary to enhance the public's right-to-know that beaches are safe for their families, and to assist EPA, States, and Tribes to identify and stop the causes of beach closures.

Second, I am directing EPA to work with the states to expedite the pace at which they will strengthen their beach and recreational water quality standards, so that the public will be able to enjoy the same, strong level of protection at all the nation's beaches no later than 2003. In accordance with EPA's Beach Action Plan, EPA should promulgate standards in cases where a state does not amend its water quality standards to include the EPA recommended criteria in a timely manner.

Third, I am directing EPA to improve protection of public health at our nation's beaches by

developing, within one year, a strong national regulation to prevent the over 40,000 annual sanitary sewer overflows from contaminating our nation's beaches and jeopardizing the health of our Nation's families. At a minimum, the program must raise the standard for sewage treatment to adequately protect public health, and provide full information to communities about these water quality problems and associated health risks.

Fourth, I am directing the Department of the Interior and the Department of Agriculture to enhance management of Federal Lands to increase protection of waters on or near federal lands, and to identify waters on or near Federal lands that require special protection. Specifically, a proposal for a Unified Federal Policy on watershed management, developed under the Clean Water Action Plan, should be circulated first for consultation with States and Indian Tribes, and then published in the Federal Register for public comment no later than July 15, 1999.

Each of these measures should be implemented through a process that provides appropriate opportunities for participation and comment by States, Tribes, and the affected public.

This memorandum is not intended to create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, or any other person.

This memorandum shall be published in the Federal Register.

Subject: Emergency designation package

The Director signed a memorandum to the President recommending that he sign a package of emergency designations from the supplemental that the President signed on May 21st. Funding would be designated for agricultural relief, disaster assistance to the victims of Hurricane Mitch in Central America, humanitarian assistance for the Kosovar refugees, DoD funding for the Kosovo mission, FEMA disaster relief funding and other items. This funding can not be made available to the agencies

to spend until the emergency designation package is signed.

We are recommending that it be signed tomorrow. Linda Ricci is making WW calls to determine whether there is interest in preparing a press statement or in having someone announce the action. There may be some interest at USDA to have them announce release of the agricultural relief funding.

Subject: Heads-up on H.R. 1034

A Heads-up: Senator Robb's (D-VA) office has asked that once the White House receives H.R. 1034, which declares a portion of the James River and Kanawha Canal in Richmond, Virginia, to be nonnavigable waters of the United States, that its signing be expedited. The bill passed the House by voice on April 27 and passed the Senate by unanimous consent on May 26. This is a huge deal for the Senator and I let his staff know that once we receive the bill, we will do our best to get it signed asap. Let me know if you think this would be a problem. Thanks.

Subject: Emergency Supp.

I checked with Rob Nabors about the signing statement/emergency supp issue; he said that the funds are being released in parcels... the signing statement only took care of one part. The item we just received will take care of another part. Rob said there might be a third chunk later next month.

I will double check with Martha Foley, then have clerks execute this later today, unless you tell me otherwise.

**MEMORANDUM FOR SECRETARY GLICKMAN, SECRETARY BABBITT,
AND ADMINISTRATOR BROWNER**

SUBJECT: CLEAN WATER PROTECTION

Fifteen months ago, celebrating the twenty-fifth anniversary of the Clean Water Act, this Administration set forth a vision for a new generation of clean water protection through our Clean Water Action Plan. The Action Plan strengthens protections for our Nation's waters, addresses the remaining sources of water quality impairment, and provides the tools and resources that States, Tribes, and communities need to control pollution on a coordinated basis throughout their watersheds.

The Action Plan recognizes that despite significant progress, the challenge for all of us in protecting our Nation's waters remains unfinished. The health of our people continues to be threatened by exposure to harmful organisms in our waters; consumption of fish from many of our waters presents a threat to the most vulnerable among us; polluted runoff has for too long eluded the best efforts to date using conventional approaches. The Action Plan was coupled with a challenge to Congress to reauthorize and strengthen the Clean Water Act, but Congress has yet to act on this vital challenge.

As we begin the beachgoing season, when families are reminded again about the importance of clean water to their recreation, their well-being, and the economy, we remain anxious to work with Congress on strengthening the Clean Water Act. We must not wait for Congress, however, before using our available resources and authority to further accelerate the effort to protect America's waters and the health and safety of the American public.

Accordingly, I am directing you to take the following additional steps, consistent with the Clean Water Act and the Clean Water Action Plan, to protect public health and clean water.

First, I am directing the National Park Service and other units of the Department of the Interior to expand water-quality protections at all beaches managed by the Department. Improved monitoring should be used wherever necessary to enhance the public's right-to-know that beaches are safe for their families, and to assist EPA, States, and Tribes to identify and stop the causes of beach closures.

Second, I am directing EPA to work with the states to expedite the pace at which they will strengthen their beach and recreational water quality standards, so that the public will be able to enjoy a safe level of protection at all the nation's beaches no later than 2003. In accordance with EPA's Beach Action Plan, EPA should promulgate standards in cases where a state does not amend its water quality standards to include the EPA recommended criteria in a timely manner.

Third, I am directing EPA to improve protection of public health at our nation's beaches by developing, for proposal within one year, a strong national regulation to stem the over 40,000

annual sanitary sewer overflows from contaminating our nation's beaches and jeopardizing the health our Nation's families. At a minimum, the program must raise the standard for sewage systems to adequately protect public health, and provide full information to communities about these water quality problems and associated health risks.

Fourth, I am directing the Department of the Interior and the Department of Agriculture, in consultation with other Federal agencies, to develop a strategy, for adoption by all agencies, that will enhance management of Federal Lands to increase protection of waters on Federal lands, or waters affected by Federal land management practices. The strategy also will establish a process to identify waters on Federal lands that require special protection. Specifically, a proposal for a Unified Federal Policy on watershed management, developed under the Clean Water Action Plan, should be circulated first for consultation with States and Indian Tribes, and then published in the Federal Register for public comment no later than August 1, 1999.

Each of these measures should be implemented through a process that provides appropriate opportunities for participation and comment by States, Tribes, and the affected public.

This memorandum is not intended to create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, or any other person.

This memorandum shall be published in the Federal Register.

Subject: MEMORIAL DAY

I had assumed that OCA would once again be the staff contact or shared contact on the Breakfast but note that this is not the case on the schedule. Of course, I noted this AFTER we prepared a briefing memo, lifting largely from previous Vets and Mem Day submissions. Consequently, I have refrained from forwarding the memo to the Staff Secy for the moment.

I think it might make sense for this to be a shared burden/responsibility,

but we don't want to get in anyone's way and we can proceed in any manner that is easiest for you. We will be there in force since I believe that we have a number of Cabinet-types attending this year.

Subject: Charles and Hilda Mason

Someone brought me this request this morning. However, we will not be able to do for 6/7. We ask for 6 to 8 weeks and sometimes can accommodate staff request with less time than that, but your request needs a special draft, and it will be very difficult for us to do in just a few days notice. If I can help you in the future, let me know. Carmen 6-5505

Subject: Vieques Draft

I'll circulate a draft letter from the President to Gov. Rossello on Vieques on which Sec. Danzig and I agreed after a conversation Maria E. had with Danzig and Bob Tyre. (The draft includes a slight further change I've suggested to Danzig.) Danzig is checking the draft with Tyre. A similar letter would go to Cong. Romero and, later, others. The plan is to get the Rossello and Romero letters out Friday. Danzig would shortly thereafter say there will be no firing unless essential during the review period.

The draft calls for consultation with other Federal agencies and identifies a senior DoD contact. The review would be by a panel and be completed in 60 days.

Jackie: Thanks for the heads up. I understand your concerns; I think we can work with you to get the Potus sign off you need early next week; and I'll be happy to have my office call you once he's made the decision. But, I wouldn't want to guarantee a Monday decision - - and not to sound grumpy, but it's not really fair to the President to jam him with a decision like this unless there's a very good reason to do so. There's also other staff who should at least get a day to see the decision memo before the President has signed off on it. Is there some drop dead issue about Monday?

Subject: Directive For Radio Address

See below. The final, OMB-cleared version of the Clean Water directive
that we transmitted on Friday appears not to be the version that has
appeared on the WH web site. Wesley Warren discussed this with Sean this
morning, along with our proposal to address the issue by having the CEQ
chair provide more specific instruction to the agencies that clarifies the
discrepancies of concern to OMB and the agencies in a manner consistent
with the directive as signed. Sean asked that we first confirm whether,
in fact, the version the President signed is the version we transmitted as
final (below) or some other version. Let me know the facts as you now
them (a fax of the signed version at 6-0753 would be most helpful) and we
will proceed to work with OMB on the next step. Thanks

Subject: Directive For Radio Address

Attached is the OMB-cleared and agency-cleared directive prepared to support this week's radio address. I believe that the COS's office (Loretta Ucelli) had wanted this to be signed by tomorrow, but Michael did express the strength of your objections to doing this before Tuesday.

**MEMORANDUM FOR SECRETARY GLICKMAN, SECRETARY BABBITT,
AND ADMINISTRATOR BROWNER**

SUBJECT: CLEAN WATER PROTECTION

Fifteen months ago, celebrating the twenty-fifth anniversary of the Clean Water Act, this Administration set forth a vision for a new generation of clean water protection through our Clean Water Action Plan. The Action Plan strengthens protections for our Nation's waters, addresses the remaining sources of water quality impairment, and provides the tools and resources that States, Tribes, and communities need to control pollution on a coordinated basis throughout their watersheds.

The Action Plan recognizes that despite significant progress, the challenge for all of us in protecting our Nation's waters remains unfinished. The health of our people continues to be threatened by exposure to harmful organisms in our waters; consumption of fish from many of our waters presents a threat to the most vulnerable among us; polluted runoff has for too long eluded the best efforts to date using conventional approaches. The Action Plan was coupled with a challenge to Congress to reauthorize and strengthen the Clean Water Act, but Congress has yet to act on this vital challenge.

As we begin the beachgoing season, when families are reminded again about the importance of clean water to their recreation, their well-being, and the economy, we remain anxious to work with Congress on strengthening the Clean Water Act. We must not wait for Congress, however, before using our available resources and authority to further accelerate the effort to protect America's waters and the health and safety of the American public.

Accordingly, I am directing you to take the following additional steps, consistent with the Clean Water Act and the Clean Water Action Plan, to protect public health and clean water.

First, I am directing the National Park Service and other units of the Department of the Interior to expand water-quality protections at all beaches managed by the Department. Improved monitoring should be used wherever necessary to enhance the public's right-to-know that beaches are safe for their families, and to assist EPA, States, and Tribes to identify and stop the causes of beach closures.

Second, I am directing EPA to work with the states to expedite the pace at which they will strengthen their beach and recreational water quality standards, so that the public will be able to enjoy a safe level of protection at all the nation's beaches no later than 2003. In accordance with EPA's Beach Action Plan, EPA should promulgate standards in cases where a state does not amend its water quality standards to include the EPA recommended criteria in a timely manner.

Third, I am directing EPA to improve protection of public health at our nation's beaches by developing, for proposal within one year, a strong national regulation to stem the over 40,000

annual sanitary sewer overflows from contaminating our nation's beaches and jeopardizing the health our Nation's families. At a minimum, the program must raise the standard for sewage systems to adequately protect public health, and provide full information to communities about these water quality problems and associated health risks.

Fourth, I am directing the Department of the Interior and the Department of Agriculture, in consultation with other Federal agencies, to develop a strategy, for adoption by all agencies, that will enhance management of Federal Lands to increase protection of waters on Federal lands, or waters affected by Federal land management practices. The strategy also will establish a process to identify waters on Federal lands that require special protection. Specifically, a proposal for a Unified Federal Policy on watershed management, developed under the Clean Water Action Plan, should be circulated first for consultation with States and Indian Tribes, and then published in the Federal Register for public comment no later than August 1, 1999.

Each of these measures should be implemented through a process that provides appropriate opportunities for participation and comment by States, Tribes, and the affected public.

This memorandum is not intended to create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, or any other person.

This memorandum shall be published in the Federal Register.

Subject: Fact Sheet: Increasing Employment of Individuals with Disabilities

THE CLINTON-GORE ADMINISTRATION TAKES NEW STEPS TO INCREASE THE EMPLOYMENT OF INDIVIDUALS WITH DISABILITIES

June 4, 1999

Today, President Clinton will sign an executive order ensuring that the federal government has the same hiring and promotion standards for people with psychiatric disabilities as it has for people with other disabilities. The President will also challenge the Congress to pass the historic, bipartisan Work Incentives Improvement Act by July 26, the ninth anniversary of the Americans with Disabilities Act (ADA).

Since the beginning of the Clinton-Gore Administration, the American economy has added more than 18 million new jobs, and unemployment is at record lows, yet over 75 percent of individuals with psychiatric disabilities remain unemployed. The President's action, together with the new provisions in the Work Incentives Improvement Act, will help to eliminate the institutional barriers that prevent individuals with psychiatric disabilities from bringing their enormous energy and talent to the workforce. Today, the President will:

Sign an Executive Order Expanding Hiring Opportunities for People with Psychiatric Disabilities. In January, Tipper Gore announced that the Office of Personnel Management (OPM) would explore measures to eliminate the stricter standards that are currently applied to job applicants who have psychiatric disabilities. The executive order ensures that

individuals with psychiatric disabilities are given the same hiring opportunities as persons with severe physical disabilities or mental retardation. The civil service rules will be changed to ensure that people with psychiatric disabilities are covered by the same hiring rules and authority used for individuals with other disabilities. The executive order also permits people with psychiatric disabilities the same opportunity to acquire competitive civil service status after two years of successful service. This authority will allow adults with psychiatric disabilities the same opportunity for conversion into the competitive civil service as employees with other disabilities.

Challenge Congress to Pass the Historic, Bipartisan Work Incentives Improvement Act. This historic new legislation, which has bipartisan support in both the House and the Senate under the leadership of Senators Jeffords, Kennedy, Roth, and Moynihan and Representatives Lazio, Waxman, Bliley, and Dingell, removes significant barriers to work for people with disabilities by: improving access to health care through Medicaid; extending Medicare coverage for people with disabilities who return to work; and creating a new Medicaid buy-in demonstration to help people with a specific physical or mental impairment that is expected to lead to a severe disability without medical assistance. One of the biggest barriers to entering the workplace for individuals with disabilities is that, under current law, people with disabilities often become ineligible for Medicaid or Medicare if they work which forces them to choose between health care coverage and employment. Today, the President will urge Congress to pass this important and long overdue legislation by July 26, the ninth anniversary of the ADA.

Subject: Statement by the President: Zachary Fisher

THE WHITE HOUSE

Office of the Press Secretary

For Immediate
Release
4, 1999

June

STATEMENT BY THE PRESIDENT

Hillary and I are saddened to hear of the death of Zachary Fisher. The brave men and women of the United States military have lost a true friend, and America has lost a true patriot.

Over the years, thousands of military families were touched by Mr. Fisher, s generosity: he provided scholarships for college; built "Fisher Houses" near military and VA hospitals so that families could be close to sick or injured loved ones; and established New York,s Intrepid Museum so that future generations could be inspired by America,s military history.

Through these good works, Mr. Fisher helped all Americans repay the tremendous debt we owe to the men and women who every day risk their lives to defend our nation and advance the cause of freedom around the world. I

was proud to present him with the Presidential Medal of Freedom last fall. Mr. Fisher,s memory will continue to inspire all Americans. Hillary and I send our thoughts and prayers to his family and friends.

Subject: Census/embassy security budget amendment

Per our phone conversation, we will be sending you a budget amendment package mid-day Monday that will need to be signed on Monday. The Senate Appropriations Commerce/Justice/State Subcommittee is scheduled to mark up their FY 2000 bill on Tuesday.

Major items include Census, embassy security and INS.

Linda Ricci is preparing a press release. We appreciate your patience.

Subject: Statement on Jobs

Today, we have more good news about continuing prosperity in our economy. The unemployment rate fell to 4.2 percent, marking the 23 month in a row that the rate has been below 5 percent and the lowest rate in 29 years. Combined with the continued strong overall economic growth, low long-term inflation and continued rising wages, we are widening the circle of opportunity for more Americans. African American unemployment fell to the lowest level on record. Nearly 19 million jobs have been created since 1993, and nearly 1 million jobs have been created for the first 5 months of this year, showing the continued strong pace of job creation. We need to continue our commitment to our proven economic strategy of fiscal discipline, opening markets abroad and targeted investments in our people.

Subject: CBS/letter

CBS has given me a copy of a letter apparently signed by the President. It commends, among others, an individual who was raising money for a particular charity and may have been skimming money, although I don't know whether that's already established or only alleged by CBS. Anyway, I need to know if the letter is genuine, so how should I handle it? It's dated March 15, 1996.

Statement by the President

I am sorry to learn that Dr. Janet Yellen intends to resign as Chair of the Council of Economic Advisors. Her extraordinary intellect and keen grasp of domestic and international economics have contributed enormously to the formation of my Administration's policies in critical areas ranging from Social Security, health care, and the budget to trade and international financial architecture. Janet has been a consistent advocate for sound fiscal policy, and she shares in the credit for the extraordinary economic progress we have made in recent years. I wish her and George the very best as they return to private life.

TO FACILITATE POSITIVE ADJUSTMENT TO COMPETITION
FROM IMPORTS OF LAMB MEAT

- - - - -

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA
A PROCLAMATION

1. On April 5, 1999, the United States International Trade Commission ("USITC") transmitted to the President a unanimous affirmative determination in its investigation under section 202 of the Trade Act of 1974, as amended (the "Trade Act") (19 U.S.C. 2252), with respect to imports of fresh, chilled, or frozen lamb meat, provided for in heading 0204 of the Harmonized Tariff Schedule of the United States ("HTS"). Under section 202 of the Trade Act, the USITC determined that such lamb meat is being imported into the United States in such increased quantities as to be a substantial cause of the threat of serious injury to the domestic industry producing a like or directly competitive article. Further, the USITC, pursuant to section 311(a) of the North American Free Trade Agreement Implementation Act ("NAFTA Implementation Act") (19 U.S.C. 3371(a)), made negative findings with respect to imports of lamb meat from Canada and Mexico. The USITC also transmitted to the President its recommendation made pursuant to section 202(e) of the Trade Act with respect to the action that would address the threat of serious injury to the domestic industry and be most effective in facilitating the efforts of the domestic industry to make a positive adjustment to import competition.

2. Pursuant to section 203 of the Trade Act (19 U.S.C. 2253), and after taking into account the considerations specified in section 203(a)(2) of the Trade Act, I have determined to implement action of a type described in section 203(a)(3). However, pursuant to section 312(a) of the NAFTA Implementation Act (19 U.S.C. 3372(a)) I have determined that imports from

Canada and Mexico, considered individually, do not account for a substantial share of total imports and do not contribute importantly to the threat of serious injury found by the USITC. Accordingly, pursuant to section 312(b) of the NAFTA Implementation Act (19 U.S.C. 3372(b)), I have excluded lamb meat the product of Canada or Mexico from the action I am taking under section 203 of the Trade Act.

3. Such action shall take the form of a tariff-rate quota on imports of fresh, chilled, or frozen lamb meat, provided for in HTS subheadings 0204.10.00, 0204.22.20, 0204.23.20, 0204.30.00, 0204.42.20, and 0204.43.20, imposed for a period of 3 years plus one day, with annual increases in the within-quota quantities in the second and third years, as provided for in the Annex to this Proclamation.

4. Except for products of Canada, Mexico, Israel, beneficiary countries under the Caribbean Basin Economic Recovery Act ("CBERA") and the Andean Trade Preference Act ("ATPA"), and other developing countries that have accounted for a minor share of lamb meat imports, which shall all be excluded from this restriction, such tariff-rate quota shall apply to imports of lamb meat from all other countries and the in-quota quantity in each year shall be allocated among such countries. Pursuant to section 203(a)(1)(A) of the Trade Act (19 U.S.C. 2253(a)(1)(A)), I have further determined that these actions will facilitate efforts by the domestic industry to make a positive adjustment to import competition and provide greater economic and social benefits than costs.

5. Section 604 of the Trade Act, as amended (19 U.S.C. 2483), authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other acts affecting import treatment, and actions thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including but not limited to sections 203 and 604 of the Trade Act, and section 301 of title 3, United States Code, do proclaim that:

(1) In order to establish a tariff-rate quota on imports of fresh, chilled, or frozen lamb meat classified in HTS subheadings 0204.10.00, 0204.22.20, 0204.23.20, 0204.30.00, 0204.42.20, and 0204.43.20, subchapter III of chapter 99 of the HTS is modified as provided in the Annex to this proclamation.

(2) Such imported lamb meat that is the product of Canada, of Mexico, of Israel, and of beneficiary countries under the CBERA and the ATPA, and of developing countries listed in general note 4(a) to the HTS, shall be excluded from the tariff-rate quota established by this proclamation, and such imports shall not be counted toward the tariff-rate quota limits that trigger the over-quota rates of duty.

(3) In the event that a quota quantity established by this proclamation and allocated to a country or to "other countries" is significantly underutilized, the United States Trade Representative is authorized to reallocate all or part of the unfilled portion of such quota quantity to any other country or countries and, upon publication of notice in the *Federal Register*, to modify the HTS provisions created by the Annex to this proclamation to reflect any such reallocation.

(4) Any provisions of previous proclamations and Executive orders that are inconsistent with the actions taken in this proclamation are superseded to the extent of such inconsistency.

(5) The modifications to the HTS made by this proclamation, including the Annex hereto, shall be effective with respect to goods entered, or withdrawn from warehouse for consumption,

on or after 12:01 a.m. EDT on June 15, 1999, and shall continue in effect as provided in the Annex to this proclamation, unless such actions are earlier expressly modified or terminated.

IN WITNESS WHEREOF, I have hereunto set my hand this day of June, in the year of our Lord nineteen hundred and ninety-nine, and of the Independence of the United States of America the two hundred and twenty-third.

ANNEX

Modifications to the Harmonized Tariff Schedule of the United States

(a) Effective with respect to goods entered, or withdrawn from warehouse for consumption, on or after June 15, 1999, subchapter III of chapter 99 of the Harmonized Tariff Schedule of the United States is modified by inserting in numerical sequence the following new U.S. note, subheadings and superior text thereto, with the language inserted in the columns entitled "Heading/Subheading", "Article Description", "Rates of Duty 1-General", "Rates of Duty 1-Special", and "Rates of Duty 2", respectively.

"8. For purposes of the subheadings enumerated below, the in-quota quantities for fresh, chilled or frozen lamb meat shall be allocated as follows:

<u>Subheadings</u>	<u>Country or Countries</u>	<u>Allocation</u>
9903.02.01 and 9903.02.02	Australia.....	17,139,582
	New Zealand.....	14,481,603
	Other countries.....	229,966
9903.02.05 and 9903.02.06	Australia.....	17,600,931
	New Zealand.....	14,871,407
	Other countries.....	236,155
9903.02.09 and 9903.02.10	Australia.....	18,062,279
	New Zealand.....	15,261,210
	Other countries.....	242,346

Carcasses and half-carcasses of lamb (provided for in subheading 0204.10.00 or 0204.30.00), other lamb cuts with bone in (provided for in subheading 0204.22.20 or 0204.42.20), and boneless lamb meat (provided for in subheading 0204.23.20 or 0204.43.20), all the foregoing fresh, chilled or frozen, except products of Canada, of Mexico, of Israel, of developing countries enumerated in general note 4(a) to this schedule, of beneficiary countries under the Caribbean Basin Economic Recovery Act (as enumerated in general note 7(a) to this schedule) or of beneficiary countries under the Andean Trade Preference Act (as enumerated in general note 11(a) to this schedule):

If entered during the period from June 15, 1999, through June 14, 2000, inclusive:

In quantities not in excess of 31,851,151 kg:

9903.02.01	Fresh or chilled.....	10%		15.4¢/kg
9903.02.02	Frozen.....	8%		15.4¢/kg
9903.02.03	Other.....	40%		15.4¢/kg
				+ 40%

[Carcasses...:]

If entered during the period from June 15,
2000, through June 14, 2001, inclusive:

In quantities not in excess of
32,708,493 kg:

9903.02.05	Fresh or chilled.....	9%	15.4¢/kg
9903.02.06	Frozen.....	6%	15.4¢/kg
9903.02.07	Other.....	32%	15.4¢/kg + 32%

If entered during the period from June 15,
2001, through June 15, 2002, inclusive:

In quantities not in excess of
33,565,835 kg:

9903.02.09	Fresh or chilled.....	8%	15.4¢/kg
9903.02.10	Frozen.....	5%	15.4¢/kg
9903.02.11	Other.....	24%	15.4¢/kg + 24%”

MEMORANDUM FOR THE SECRETARY OF THE TREASURY
 THE SECRETARY OF AGRICULTURE
 THE UNITED STATES TRADE REPRESENTATIVE
 THE DIRECTOR OF THE OFFICE OF MANAGEMENT AND
 BUDGET
 THE CHAIRMAN OF THE NATIONAL ECONOMIC COUNCIL

SUBJECT: Action Under Section 203 of the Trade Act of 1974 Concerning
 Lamb Meat

On April 5, 1999, the United States International Trade Commission (USITC) submitted a report to me that contained: (1) a determination pursuant to section 202 of the Trade Act of 1974, as amended ("the Trade Act"), that imports of lamb meat are being imported into the United States in such increased quantities as to be a substantial cause of threat of serious injury to the domestic lamb meat industry; and (2) negative findings made pursuant to section 311(a) of the North American Free Trade Agreement Implementation Act ("the NAFTA Implementation Act") with respect to imports of lamb meat from Canada and Mexico.

After considering all relevant aspects of the investigation, including the factors set forth in section 203(a)(2) of the Trade Act, I have implemented actions of a type described in section 203(a)(3). I have determined that the most appropriate action is a tariff-rate quota on imports of lamb meat with an increase in currently scheduled rates of duties for imports within and above the tariff-rate quota level. I have proclaimed such action for a period of three years and one day in order to facilitate efforts by the domestic industry to make a positive adjustment to import competition.

Specifically, I have established a tariff-rate quota for lamb meat in an amount equal to 31,851,151 kg. in the first year (June 15, 1999 through June 14, 2000), an amount that is equal to imports of lamb meat during calendar year 1998. The tariff-rate quota amount will increase by 857,342 kg. annually in the second and third years of relief. I have also established individual country allocations for product imported from Australia, New Zealand, and an "other country" category within the tariff-rate quota, which reflect the actual shares of each country in calendar year 1998. I have established increased rates of duty for imports within the tariff-rate quota amount: namely 10 percent *ad valorem* for imports of fresh/chilled lamb meat and 8 percent *ad valorem* for imports of frozen lamb meat in the first year of relief; 9 percent *ad valorem* for imports of fresh/chilled lamb meat and 6 percent *ad valorem* for frozen lamb meat in the second year; and 8 percent *ad valorem* for imports of fresh/chilled lamb meat and 5 percent *ad valorem* for frozen lamb meat in the third year. I have established increased rates of duty for imports above the tariff-rate quota levels: namely, 40 percent *ad valorem* in the first year of relief, 32 percent *ad valorem* in the second year, and 24 percent *ad valorem* in the third year.

I have also determined that implementation of adjustment assistance measures based on authorized programs of the Department of Agriculture will facilitate efforts by the domestic lamb meat industry to make a positive adjustment to import competition. In this regard, I instruct the United States Trade Representative (the USTR), the Secretary of Agriculture (the Secretary), the Director of the Office of Management and Budget, and the Chairman of the National Economic Council to transmit to me no later than June 30, a set of substantial adjustment assistance measures that would improve the competitiveness of the U.S. industry and facilitate efforts by the industry to adjust to import competition.

I further determine, pursuant to section 312(a) of the NAFTA Implementation Act, that imports of lamb meat produced in Canada and Mexico do not account for a substantial share of total imports of lamb meat and are not contributing importantly to the threat of serious injury. Therefore, pursuant to section 312(b) of the NAFTA Implementation Act, the safeguard measure will not apply to imports of lamb meat, whether fresh/chilled or frozen, that is the product of Canada or Mexico. Similarly, the safeguard measure will not apply to imports of lamb meat that is the product of Israel, beneficiary countries under the Caribbean Basin Economic Recovery Act or the Andean Trade Preference Act, or other developing countries that have accounted for a minor share of lamb meat imports.

I have determined that the actions described above will facilitate efforts by the domestic industry to make a positive adjustment to import competition and provide greater economic and social benefits than costs. These actions will provide the domestic industry with necessary temporary relief from increasing import competition as well as assistance from existing U.S. Government programs, while also assuring our trading partners continued access to the United States market. The over-quota tariff rates I have established will provide substantial certainty to the domestic lamb industry regarding import levels. The relief is also designed to take particular account of the threat of serious injury created by the substantial recent increase in fresh/chilled lamb meat imports.

Pursuant to section 204 of the Trade Act, the USITC will monitor developments with respect to the domestic industry, including the progress and specific efforts made by workers and firms to make a positive adjustment to import competition. The USITC will provide to me and to the Congress a report on the results of its monitoring no later than the date that is the mid-point of the period during which the action I have taken under section 203 of the Trade Act is in effect. In this regard, I instruct the USTR, in consultation with the Secretary, to transmit to the USITC no later than 30 days from today a list of benchmarks that the USTR recommends that the USITC use in connection with its monitoring and in preparing its report. These benchmarks are to be focused on industry efforts to adjust to import competition and on price trends for domestic and imported lamb meat.

The United States Trade Representative is authorized and directed to publish this memorandum in the *Federal Register*.

(signed)
William J. Clinton
