10/23/96

Opinion by VA Gen Counsel that
VA must award disability benefits
for smoking rel. disease.

VA's policy covers disability
incurred or aggravated by mil
service

-temporal relationships

case w/ vet; long time mil service;
smoked 26 yrs, 14 yrs later
got lung cancer; 4800
smokes in service contributed
to lung cancer (got free cigs
in mil)

opinion said stat. is big enough
to cover → if you can make
the connection, yes, it's service connected

disease began in service or
peripartum event had to have
occurred in service

- This = early 1993

- decided need some guidelines
on this

issue a rule

8000 cases yearly.

Until 1990 VA would compensate for
alcohol abuse. Then Cong.
precluded it for alc. &
drug abuse

Seely feels disabilities for life
chores like smoking shouldnt
be compensable

- will comp. if lung cancer appeared
during service

- if we # do it, \$5-7 billion cost for
vets benefits

There will be no legal basis if
Mary Lou Keener just issued a
new opinion
