TO: Cluster and Working Group Leaders
FROM: Ira C. Magaziner
SUBJECT: Toll Gate IV

The Toll Gate III presentations and materials were excellent. We are making good progress thanks to the hard work of all the cluster group members.

Toll Gate IV will take place over three days - - March 19, 20, 21. Instead of presentations, Judy Feder and I will lead a discussion of your full working group.

You will notice that some of the groups that have presented individually in past Toll Gates have been combined with other groups for this Toll Gate discussion. We would like to begin to synthesize efforts between and among clusters and task groups.

To prepare for the Toll Gate, task groups should begin to build consensus around two to four (or more) options/packages. Rather than lengthy papers, each group should draft a one-page description for each of the options the group puts forward for consideration. Please get the descriptions to the policy assistants by this Thursday at 4 PM. At the Toll Gate, we will discuss those packages, as well as any additional approaches raised by group members.

Cluster leaders and others are welcome to attend the Toll Gate sessions and participate in the discussion as usual.

Health Care Working Group Toll Gate

Meeting Schedule

Week of February 10	Toll Gate 1 Review	4 hours
Week of February 25	Toll Gate 2 Review	4 hours
Week of March 9	Toll Gate 3 Review	8 hours
Week of March 19	Toll Gate 4 Review	4 hours
Week of March 29	Toll Gate 5 Review	8 hours
Week of April 19	Toll Gate 6 Review	8 hours
Week of April 29	Toll Gate 7 Preparation Meeting	As long as necessary
Week of May 3	Toll Gate 7 Review	As long as necessary

The "Toll Gates"
Policy Substance

Toll Gate 1 (February 10)

Each task group presents a detailed work plan outlining the questions they expect to explore, who they will contact, what data they will seek, what their output will look like -- discussion aims to ensure methodology is thorough and broad enough.

Toll Gate 2 (February 25)

Each task group presents a revised work plan, a statement of issues, an outline of options, a more detailed methodology for answering all questions needed to "flesh out" the options -- discussion aims to ensure that options considered are broad enough and that methodology is thorough enough to cover the options.

Toll Gate 3 (March 9)

Synthesis of work for a presentation of options to the President and Task Force members. This concludes broadening phase. All serious options are put "on the table." This is final check to be sure that sufficient breadth has been achieved.

Toll Gate 4 (March 19)

Each task group narrows options and makes draft recommendations, making explicit all analysis, logical links and assumptions which support conclusions.

Toll Gate 5 (March 29)

Synthesis of revised draft recommendations into a comprehensive set of proposals for presentation to the President and the Task Force to receive direction. Presentation should seek decisions on key issues so that proposals can be drafted.

Toll Gate 6 (April 19)

Further draft of program -- with numbers, legal, and political audits complete. Final unresolved issues get resolved. Contrarian review.

Toll Gate 7 (May 3)

Final review of legislation. Final audits of synthesized proposals.

TOLLGATE III OUTLINE

In Toll Gate III, each group should synthesize options from Toll Gate II into internally consistent, coherent program models.

Each model should be explained in detail, with decision points from Toll Gate II highlighted as part of the description. Descriptions should also include an explanation of working assumptions - - factual bases for them, logical links between the assumptions and the proposals, relationships/dependence of one option with another within a model, relationships/dependence of options with options from other task groups.

For each model, note examples of similar programs in operation or proposed by states, constituencies, etc.

The preliminary work done on pros and cons and implications for Toll Gate II should be described in greater detail here. Who is affected by the proposal? To what extent? Who will be better off or worse off? How practical is the option given the current system/landscape? How does the proposal relate to the status quo? Relative to what exists in other countries? How will the program be implemented? By whom? Analysis should be primarily substantive in nature, rather than a discussion of political impacts.

The packages should be full proposals with executive summaries attached.

HEALTH CARE REFORM
WORKING GROUP GUIDELINES

During the next hundred days, the attention surrounding the health care reform effort will escalate. Due to the sensitive nature of the topics being researched and the tight timeframe under which we're operating, the following guidelines must be followed to help us manage the flow of requests and inquiries:

- 1) Please direct all press to Bob Boorstin, at 456-7151, or to Anne Lewis (Deputy Assistant Secretary for Public Affairs at HHS) at 690-6853. In Bob's absence, call Jason Solomon, at 456-7151. It is important that you observe this request to help the Communications group be responsive to all inquiries.
- 2) Any inquiries to or from state and local organizations should be directed to John Hart in Intergovernmental Affairs at 456-2897. In his absence, call Christine Heenan at 456-2929.
- 3) Any inquiries to or from Congressional sources should be directed to Chris Jennings through Christine Heenan at 456-2929.
- 4) Any inquiries from interest groups or individuals, or any data that you need from these groups, should be directed to Mike Lux at 456-2930.

<u>Type of Inquiry</u>	<u>Department</u>	<u>Phone</u>	<u>Contact</u>
Media	Communications	456-7151 690-6853	Bob Boorstin, Jason Solomon. Anne Lewis
