

Dear Mr. President

My name is Marta Y. Garraus. I'm from Spain where I studied journalism and married. I lived in San Diego CA for one year, but right now I'm living in Puerto Rico and thanks to my friend Miss Chandra Coleman I have the opportunity to write you and that is an enormous honor for me.

I just wanted to tell you that I respect you very much and I like your work and effort that you are making for your country.

Here in Puerto Rico people are complaining about the U.S and I don't think they are right. Regarding Vieques I think that the U.S needs a place for armed forces to train and if you think that Puerto Rico has to live with the army that's good enough for me. I think Puerto Rican people complain a lot, there are a lot of lazy people, they don't work or don't practice their jobs or when they do, they do so in a very lazy manner. But they don't say no to the money the U.S sends to this island, which is frustrating. I would love to see Puerto Rico as a state of the Union. I know it is very difficult but this island is screaming for a new and good government, because nobody cares for anything. The police doesn't follow the rules and laws and you can imagine the rest of the people don't respect anything.

I also wanted to tell you that you are a great man
and I am fed up with people being hypocrites talking about
the Lewinsky's case. Some people wanted to put you down
because of what you did "or didn't do". In fact, it doesn't
matter what you do or don't do in your private life. It is your
life and it only matters to you and your family. And those
"good people" that wanted you down because of that have to look
at themselves in a mirror or like Jesus said:

"Let he who is without sin, cast the first stone".

You could probably start a "witch hunt" and there would be
a lot of empty seats in the Senate or Congress or any place
for what matter. It is incredible how people support Monica
and admire her and I also hated to see her at the Oscars or
any public activity. Monica represents some of the worst things
that can happen in a marriage, a woman who doesn't care
to break into a matrimony. I believe that was a trap anyway.
I don't agree with what you did but I think that doesn't
have a thing to do with your work for the country and if people
want a saint as a president they should look at themselves first.
I still can't believe how a person like Monica Lewinsky can get
so much attention and make so much money off the whole affair.
There are a lot of intelligent and good people in this world
and I hate to see how bad people always win and get
rich from their bad acts. That is a very bad example to
all of us. I'm always trying to do things right but sometimes
when I see things like that I feel sad because I would
like to be someone important one day, and sometimes

I feel that the good way is not the real way to make my dreams come true.

Thank you very much for your attention, sorry for my uneven lines :). It's a shame to see you go out of office, until then, good luck.

Sincerely

Dear Mr. President

Thanks so very much for selecting my company to provide engineering service on your Presidential Library. We are very honored!

My father, J.E. McClelland (Ep) a long time supporter of yours in Fayetteville is quite ill in Washington Regional Medical Center. Last Friday, due to his diabetic condition and lack of circulation, his right foot and lower leg were amputated. If you have just a minute to spare, Pat and I would be ever so grateful if you would give him a short phone call to lift his spirits during this very difficult recovery time. His number at the hospital is (501)713-1421. His home address is 1923 Joyce Street, Apartment 109, Fayetteville, AR 72703.

Thanks so much.
