THE PRESIDENT HAS SEEN

2/10/96

January 18, 1996

Dear President Clinton,

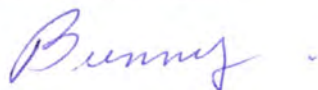

I have asked our mutual and very good friend Walter Kaye to place this in the right hands so I can feel secure that you receive it. It's message is one that many people are anxious to send you; we are sympathetic and supportive to you and Mrs. Clinton, and are extremely angry at the current circus taking place in the Congress and promoted by the press.

New Yorkers have no reason to respect or trust Senator D'Amato, nor should the rest of the country. His lack of ethical behavior is historic and his current "inquisition" of Mrs. Clinton is not only ugly, but very dangerous; he undermines people's belief in government. Because it is important to have people recognize this and to do what they can to end it, we would like to be of service to you, given a direction. It matters that a strong and brilliant First Lady be able to continue her role and not be hampered by people who are terrified at the natural changes she represents in our society. Since change is inevitable, it is necessary that the leadership during these changes be in capable and decent hands.

I was a delegate to the White House Conference on Tourism and was extremely proud of the way you conducted yourself. The very fact that you had such a conference was heartening to the industry. I think you should continue in your next term supporting and promoting the industry, which is indeed a global industry worthy of your attention and encouragement.

Good luck. Remain firm in your convictions and know that you are admired and trusted by many Americans who will support you and Mrs. Clinton.

Sincerely Yours,

Bunny Grossinger
