Mr. Phillip Caplan
Special Assistant to the President for Cabinet Affairs
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear Mr. Caplan:

I am very appreciative of your letter of March 21, 1995, concerning the performance of Dr. Jeremy Sugarman. Duke University Medical Center is dedicated to doing all we can to improve the nation's health and, as such, we were pleased to support the important efforts of the President in this area. Doctor Sugarman is an outstanding member of our faculty, and I am pleased to learn that he performed well as a staff member of the Advisory Committee. I will be certain that he learns of your kind comments.

With best wishes,

Sincerely yours,

Ralph Snyderman, M.D.
James B. Duke Professor of Medicine

Dear Mr. Caplan:

Your letter and the Interim Report of the Advisory Committee on Human Radiation Experiments have been received. Professor Patrick Fitzgerald is a valued member of our staff. We are pleased that you found him to be an effective and contributing member of your Advisory Committee.

I thank you for writing to us here at LSU.

With kind regards,

William E. Davis
Chancellor

YOU SHOULD RECEIVE 4 PAGE(S), INCLUDING THIS COVER SHEET. IF
YOU DO NOT RECEIVE ALL THE PAGES, PLEASE CALL 202/254-9802
or 254-9795.

Phil - here are samples of the three
versions of the letter; revised as we
discussed. Once you agree, will courier
you a disk & copies of the Interim Report.

Thanks,
Jeh

March 8, 1995

Michael Alderman, M.D.
Chair
Department of Epidemiology and Social Medicine
Albert Einstein College of Medicine
1300 Morris Park Avenue
Bronx, NY 10461

Dear Dr. Alderman:

In April 1994, President Clinton charged the Advisory Committee on Human Radiation Experiments with the important task of examining the scientific and ethical issues related to government-sponsored radiation experiments on human subjects performed during the Cold War. For the past several months one of your faculty members, Professor Ruth Macklin, has been doing important work as a member of the Advisory Committee.

In recognition of this effort, I am pleased to enclose a copy of the Interim Report of the Advisory Committee.

President Clinton is taking an active interest in the Advisory Committee's work, as are the American people. We are grateful for your institution's willingness to allow Dr. Macklin to serve the nation in this capacity.

Once again, the Clinton Administration appreciates your institution's role in the Advisory Committee's work.

Sincerely,

Philip Caplan
Special Assistant to the President for Cabinet Affairs

Enclosure

Michael Dunn, M.D.
Dean
Medical College of Wisconsin
8701 Watertown Plank Road
Milwaukee, WI 53226

Dear Dr. Dunn:

In April 1994, President Clinton charged the Advisory Committee on Human Radiation Experiments with the important task of examining the scientific and ethical issues related to government-sponsored radiation experiments on human subjects performed during the Cold War. For the past several months one of your faculty members, Dr. Jeffrey Kahn, has been doing important work as a staff member of the Advisory Committee.

In recognition of this effort, I am pleased to enclose a copy of the Interim Report of the Advisory Committee.

President Clinton is taking an active interest in the Advisory Committee's work, as are the American people. We are grateful for your institution's willingness to allow Dr. Kahn to serve the nation in this capacity.

Once again, the Clinton Administration appreciates your institution's role in the Advisory Committee's work.

Sincerely,

Philip Caplan
Special Assistant to the President for Cabinet Affairs

Alfred Sommer, M.D.
Dean
School of Hygiene and Public Health
The Johns Hopkins University
615 N. Wolfe Street
Baltimore, MD 21205

Dear Dr. Sommer:

In April 1994, President Clinton charged the Advisory Committee on Human Radiation Experiments with the important task of examining the scientific and ethical issues related to government-sponsored radiation experiments on human subjects performed during the Cold War.

As you know, Professor Ruth Faden from your university's School of Hygiene and Public Health, has been providing exemplary leadership as that Chair of the Advisory Committee. In recognition of this effort, I am pleased to enclose a copy of the Interim Report of the Advisory Committee.

President Clinton is taking an active interest in the Advisory Committee's work, as are the American people. We are grateful for your institution's willingness to allow Dr. Faden to serve the nation in this capacity.

Once again, the Clinton Administration appreciates your institution's role in the Advisory Committee's work.

Sincerely,

Philip Caplan
Special Assistant to the President for Cabinet Affairs

Attached for your review is a draft letter that you and I discussed concerning the delivery of letters from the White House to home institutions of Advisory Committee members and of staff members who are "on loan" to the Committee. There will be a minimum of 30 letters (one letter per person). Some Committee members and staff have asked that the letters be sent to more than one person (e.g., the university president and the appropriate dean). Would you be able to accomodate this request? It would result in a total maximum of 80 letters. We will provide the enclosures (i.e., Interim Reports).

We have several options. We can (1) send you the form letter and addresses of home institutions on diskette or paper, (2) provide the merged file on diskette for you to print out in your office, or (3) if you want to provide stationery, we can perform the merge here in our office and deliver the letters to you for signature by the appropriate person.

FIELD(Recipient)

FIELD(Address)

FIELD(city/town), FIELD(state) FIELD(zip code)

Dear FIELD(Salutation):

On behalf of President Clinton, I am pleased to enclose a copy of the Interim Report of the Advisory Committee on Human Radiation Experiments.

For the past several months one of your faculty members, FIELD(Professor), has been doing important work as a FIELD(member/staff member) of the Advisory Committee.

The President is taking an active interest in the Advisory Committee's work, as are the American people, and he is grateful for your institution's willingness to allow FIELD(Professor-Salutation) to serve the nation in this capacity. FIELD(Prof-Salutation's) work, like that of the rest of the FIELD(Committee/Staff), already has met with great public interest. FIELD(His/Her) contributions to the Advisory Committee's complex task have been exemplary.

Once again, the President appreciates your institution's role in the Advisory Committee's work.

Sincerely,

Office of the President

Mr. Phillip Caplan
Special Assistant to the President
for Cabinet Affairs
The White House
Washington, D.C. 20500

Dear Mr. Caplan:

Thank you for your letter of appreciation for the services of Dr. Ruth Faden and Dr. Philip Russell on the Advisory Committee on Human Radiation Experiments. We at Hopkins are pleased when members of our faculty are able to make such significant contributions to such important tasks, and I appreciate your taking the time to write.

Best regards.

Sincerely,

William C. Richardson
