PNC documents - ~~###~~ - John Wang

Alexander - Parents as policy makers

HRC

putter in crib of Tiger Woods
conveying info to parents
focus on parents because - most significant impact +
educated parents will demand appropriate policies

Alex

reinforcement of importance of early years

HRC

- gov't role - challenging question - if home environment is most important - what does it say about family leave
- emotionally prepare & returning to work - emotionally distance oneself

Hampton - nat'l problem not gov't problem - though gov't can help out

HRC

lots of things we know work - don't adequately
implicate on broader scale - examples of
what works - Rob Reiner's program -
Hampton, VA
longer hospital stays to begin connections
visiting nurse
investments that save \$ - in front end
not \$ on prisons

not overarching govt solution - put
potential nat'l solutions

of this Pres + Admin can do -
early headstart
increase child care & f/ther coming out of
welfare + poverty
make convincing case to Congress

Alex
capability to advance
basic things are not really different from
past -
greater intellectual growth

HR
early years - instincts some have some
don't
example of mother
increase the odds that childrens potential
is stimulated

something I've done f/25 yrs - keep
doing - issues need to be on
front of agenda - not marginal
determine quality of life

Vision of Pres - 96 campaign

Alex- no answer to father question
will have it

HRC took 4 mo leave - as partner comp.
Wasn't affected -

so many economic considerations
+ cultural considerations

no one talked to me - avoided up
no policy - backed into decisions

Cultural resistance to leave though
strong sense that preg women +
one in small Dohis shouldn't
be at work

need to look at costs to society
broad definition
social costs that are preventable

real life politik

Hanky of seniors about dem. ways of translating research

HRC speaking personally - in current pol. climate it's not realistic to get subsidized day care - look at how long took passing of family leave - have to make the case

to get if econ & pol. feasible

tips - time spent w/ pos verbal interaction

singing

reading

making up stories

old fashion games

exposing child to outdoors

grocery store cart

you can be an engaged stimulated parent working or staying home & vice versa what you do & how engaged

Alex-

movement stimulation - swinging
close body contact - hugs

HRC

yes - could draw conclusion to stay
home

we have to be careful not send
one size fits all message

parents that need to work should be
made to feel guilty - give good tips

u: child care

home activity

understanding research

thought a lot about effects on welfare now
most women - work force

- help train some to be childcare workers
& provide subsidies so families can
afford

look at strategies and not p+ fingers

Objectives

- reaching out to independents
- defeat attempt of campaign or work and trust
back to value issues, ed, tobacco
BC - demonstrated character by demonstrating
who he fought for
- defeat tax plan - too broad - \$550b plan, how
paid for - ours is 100b targeted
- economy, brady bill

8/21- Angie Canon

memories of '68

- smelt downtown - pretty scary

Miami - '68 was the 1st convention
worked off Rochelle

Goldwater Girls - '64

more excited about going back to Chicago
beautiful city

grog - Sunday night
dinner w/ friends

Billy Goat Tavern

alot of people

starting to work on it serious
thought until yesterday

so much advice

find enough quiet time

10 minute speech

Oprah

just do things I do

try to bring more people to conventions
about them not us

Dole
Remark

didn't see it - I don't know anyone
could read book & not know
her important I think family is
miss what is main message of book

Campaign

Very active in campaign
surrogate speaker
not much difference than anything
I've ever done
I love campaign

don't have the stamina of my husband

BC

always last at events - capacity to
keep going

continuing ed course about others
& about yourself

interview about a campaign
told me about my problems

experiences are common

each of us is a product of our own
experience - we all are going to
see the world - how we experience
it

Marvel at how courageous people
are - ask myself if I could do it

- Arkansas life was more rooted

insular quality to life here - keep
forcing yourself out of that

campaigns are great way to do that

2nd
line

putting much what I want or not
need continuing work

K-K good 1st step

now work on how to help unemployed

will be 1st step

Carefully monitored

more particular concerns - adoption
Gulf War disease, voice of children
wounded orphans & children

adoption not any serious conversation now
feel strongly about children
pay more attention - future

no job outside WH - no plans

don't think like that - very
present orientated - could never
have planned this life
no picture of what I might be
doing

Sara Ervin - friend of 12 yrs

job description - even though experience unimaginable
try as hard as you can be yourself
pursue concerns - support family
be true to yourself

no job description - praise criticism
no defined duties - not all bad

opportunity for each person to decide for themselves

people who try to fit women to 13 yrs
no answer to country + person

Mrs. Taft - expressed opinion
Mrs Wilson - took over of husband
some - low key - Ben Truene
Eleanor Roosevelt - Rosy Carter
personal interests
each tried to best.
nothing can prepare you

public
image

a lot of ambivalence about women & their role
uneasiness about it
did present something different
some partisan & ideological arguments to
undermine my role
didn't want to take on issues instead
characterize me in order to undermine
strong opposition
misinformation
not at all surprised about they
saw about me
disservice to democracy

no idea i'd be such a target
you're decoy he's duck
constant state of readiness - poised to
have to take it - can't respond
too much
get up every day - not let
bother me -

not normal either

iridene free zone - don't
care what facts are
ideology, partisanship, edge
journalism

could bring to some closure
now so personally driven

Ann Henry essence of rain - take a lot of baths

knowing what's true + what's not
self confidence + belief - myself
bitter no bitter

religious faith support from spiritual
life - ministers + friends

prodigal son - discipline of gratitude
great friends - staff - treat me as a
person - don't get isolated - full
of life + energy - support from
all over world

objectified because - (feel - plank)

fight against cynicism
Undaunted Criticism

not enough - their lives - can't give into
that - fight against stereo types

feel sorry for these people
too much to do

marriages
jokes

doesn't bother us - pay little attention
to what people say about us
BC - very resolute person - knows
what matters - doesn't worry us

BC

inspires range of emotions
wonderful person - but humbling

what matters - what happens - my
life

parents

father - product of his time - nothing or emotion
& conversation - but strong, work hard
prior duties - suppression of me
always encourage me

mother - had tough life - grateful for what
have, not big of bristles

Dr. J. M.

much influence - in our lives and
of appreciation - made religion real
called us to participate
MLK - Orchestra Hall
exchange w/ hispanic & black churches
Picasso

TS Elliott & Cummings
took it all - -

Austin speech - ran question about
spiritual life - hard to talk about
not in realm of political

on people's hearts & minds
work w/ each other - get along
truly respectful of others

Nat'l Prayer lunch

happiest
days/
saddest

personal days - times w/ family
loss father - Vince - mother -
Ron Brown

very happy about a lot of what BC
done & accomplished
Chelsea - normal life
2 nephews

no different no matter where you live

No with greater understanding of what
I was getting myself to
experience - dealing w/ expectations
& attitudes

didn't understand DC culture
