March 15, 1993

Eli Segal
Director of the Office of National Service
Room 146 OEOB
Washington, DC 25001

Dear Eli Segal,

I am a student at Western State College of Colorado. I am active with our Associated Student Body Government, the Colorado Student Association, and the United States Student Association.

I believe that the National Service Trust Fund has great potential and could help thousands of college students to get an education.

However, I feel you should carefully consider several areas of great importance to students while devising the National Service Trust Fund. I ask that you follow USSA's recommendations on National Service. I especially ask that: a) the Trust Fund not replace current aid programs like the Pell Grant, b) that students play an integral role in the development and implementation of the program, c) that the stipend be no lower than \$10,000.00 a year and be adjusted regionally based on the cost of living, and d) that the program be designed to allow for the participation of all students, including non-traditional students.

Sincerely,

A handwritten signature in cursive script that reads "Sam Cherry".

Eli Segal
Director of the Office of National Service
Room 146 OEOP
Washington, DC 25001

Dear Eli Segal,

I am a student at Western State College of Colorado. I am active with our Associated Student Body Government, the Colorado Student Association, and the United States Student Association.

I believe that the National Service Trust Fund has great potential and could help thousands of college students to get an education.

However, I feel you should carefully consider several areas of great importance to students while devising the National Service Trust Fund. I ask that you follow USSA's recommendations on National Service. I especially ask that: a) the Trust Fund not replace current aid programs like the Pell Grant, b) that students play an integral role in the development and implementation of the program, c) that the stipend be no lower than \$10,000.00 a year and be adjusted regionally based on the cost of living, and d) that the program be designed to allow for the participation of all students, including non-traditional students.

Sincerely,

A handwritten signature in cursive script that reads "Greg Whisler".
