ST	City	Last Name	Position	Objective 1-Work	Objective 1-Result	Objective 1-Impact	Objective 1-Standard	Objective 1-Benefit
TN	Greenville	Shore	I work primarily in finding people (low income) to offer grants/loans for housing repairs.					
TN	Jellico	Wilson	Community research and grant writing to fund rural development projects.					
TN	Jonesborough	Letterman	Work in Claiborne and Campbell counties to map out water and sewer lines and determine the need for the residence.	Produce an accurate map of the utility lines in Campbell and Claiborne counties. These will include lline location and pipe size.	Improved water and sewer lines for residents. This may be increased pressure or the establishment of new lines.	Success will be measured by the number of residents who receive water improvements.	The quality of housing will improve.	Impossible to establish at this time.

ST	City	Last Name	Position	Objective 1-Work	Objective 1-Result	Objective 1-Impact	Objective 1-Standard	Objective 1-Benefit
TN	Mountain City	Hamm	Work with county officials in a variety of outreach programs, with emphasis on Community Relations to achieve successful completion.	Work with County on Projects listed in Enterprise Committee Book.	Results not conclusive as of yet as Enterprise Committee grants and loans have not been approved.	Measurement will be achieved by the number of projects we will be able to fund.	Successful standards will be determined by the achievement of the program.	Some projects such as water and sewer projects will affect all of county residents. Some projects will only benefit a small number.
TN	Oneida	Owens	To improve the quality of life of SMART area residents by providing them with improved health services, safety/security, and housing.	To improve the quality, range, and accessibility of health care services available to SMART area residents as measured by a fifty percent increase in patient satisfaction over the ten year planning period, as determined by the "Health Care Assessments" st				
TN	Sneedville	Trent	To socially, economically, and educationally develop opportunities for hundreds of Hancock, TN residents.					

ST	City	Last Name	Position	Objective 1-Work	Objective 1-Result	Objective 1-Impact	Objective 1-Standard	Objective 1-Benefit
TN	Tazewell	Duncan	Perform a variety of functions in the area of housing improvements in Claiborne, campbell, Hancock, Union and Grainger counties. These include outreach, community relations, accounting, building codes and inspection, loan packaging and housing preservati	Improved housing for residents in the area.	Success will be measured by number of improved homes.	Quality of housing will be improved.	Number of FmHA housing program loans to increase by 25% over the previous five year average in the area.	

State	City	Last Name	Objective 2-Work	Objective 2-Result	Objective 2-Impact	Objective 2-Standard	Objective 2-Benefit
TN	Greenville	Shore					
TN	Jellico	Wilson					
TN	Jonesborough	Letterman	Introduce the business community to the availability of funds through FmHA's Business and Industrial Loan Guarantees.	Improve the quality of rural life by upgrading the economic environment.	Success will be measured by the number of loans made.	Quality of rural life will be improved.	Impossible to evaluate at this time.

State	City	Last Name	Objective 3-Work	Objective 3-Result	Objective 3-Impact	Objective 3-Standard	Objective 3-Benefit
TN	Greenville	Shore					
TN	Jellico	Wilson					
TN	Jonesborough	Letterman	Work with the Development District on outreach projects such as working with the Hunger Coalition, grant writing, Solid waste Management and many many more.	Improve the quality of living for residents of the counties served by the Development District.	Success of the projects will be measured by the number of residents served.	Quality of living will be improved.	Impossible to measure at this time.

FS

**CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES**

OBJECTIVE STATEMENT

To provide technical assistance in solid waste management and recycling resulting in a 10% increased recycling rate and improved solid waste management through initiation of 3 grant proposals and 2 recycling program starts.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Develop community based recycling and solid waste diversion programs.

Carry out education and promotion campaign designed to increase recycling and source reduction.

Write grant proposals to implement solid waste plans and start new recycling programs.

2) What is the hoped for result of the activities described above?

Establishment of recycling collection centers, reduction in landfill needs.

Environmentally safe treatment of solid waste.

3) How will you measure the quality of these activities?

Regional solid waste management plans will be approved by the State Department of Health and Environment.

Participating businesses and industries will monitor recycling and waste stream

4) By what standard will you gauge success?

Increase local recycling rate by 10%.

Obtain funding for solid waste treatment.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVES

OBJECTIVE STATEMENT

To provide transfer recycling technology from existing rural and urban projects resulting in a recycling program starting which would employ 25 disabled workers from local institutions.

COMPONENTS OF OBJECTIVE STATEMENT

- 1) What work will be done? What service will your members engage in?

Visit other institutions which have implemented similar projects.

Make contacts with local institutions.

Work with local leaders to find markets for recycled products.

Carry out education and promotion campaign.

- 2) What is the hoped for result of the activities described above?

Employment of 25 disabled adults to sort materials.

Reduction of materials filling local landfills.

- 3) How will you measure the quality of these activities?

Quality of product will allow resale.

Sorted materials will be randomly checked.

Residents of institution will be interviewed on job satisfaction

- 4) By what standard will you gauge success?

Employment satisfaction of at least 50% of the employed institution residents.

Increase local recycling rate by 10%.

- 5) How many individuals will receive the benefit of the work you members perform?

25 mentally disabled adults.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVES

OBJECTIVE STATEMENT

To provide assistance to rural communities interested in implementing community forestry programs resulting in improved living conditions and opportunities for neighborhood service.

COMPONENTS OF OBJECTIVE STATEMENT

- 1) What work will be done? What service will your members engage in?

Develop a plan and identify suitable planting sites for urban forestry projects.

Secure funding for purchase of materials.

Recruit and organize volunteers to plant trees.

- 2) What is the hoped for result of the activities described above?

Establishment of native tree species in residential and business areas in small communities.

Involvement of local civic and volunteer groups.

- 3) How will you measure the quality of these activities?

Survival rate of 60% of planted trees.

Participation by 3 local groups.

- 4) By what standard will you gauge success?

Improvement of overall aesthetic quality of area.

Increase in real estate values.

- 5) How many individuals will receive the benefit of the work you members perform?

25

All residents of the 8-10 communities involved.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To seek sustainable economic development opportunities to diversify local economies, resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Members will work directly with local business leaders to inventory existing resources, identify sustainable economic development opportunities, conduct feasibility studies, and assist in writing (3.5) business plans.

Issues of environmental concern will be analyzed with any related new business venture.

2) What is the hoped for result of the activities described above?

Increasing local employment and income.

Local individuals will be trained for employment.

Business plans will be developed and funding sought.

3) How will you measure the quality of these activities?

Professionals will review all environmental impact analysis.

Local business leaders will be interviewed following completion of project.

Loans and other funding will be obtained for 25% of the business plans developed.

4) By what standard will you gauge success?

Establishment of a sustainable, natural resource based business employing 5 locally trained people.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To promote alternative wood products and value added manufacturing technologies resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Identify potential wood products markets and needed technologies.

Solicit participation from existing wood products manufacturers.

Train 2 existing wood products manufacturers in value added technologies.

2) What is the hoped for result of the activities described above?

Increasing value of locally produced wood products.

Higher employment and income levels.

3) How will you measure the quality of these activities?

Survey participating wood products manufacturers before and after project on value their product.

4) By what standard will you gauge success?

Increase of 50% in value of product.

25-2

SITE: Rutledge,
Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Teaching environmental
awareness and clean up of community
parks and public places.

1. What work will be done? What service activities will your
participants engage in?

Teaching youth environmental awareness. Organization and
participation in clean-up and beautification of community parks and
public places. Fundraising and building resources for these
activities.

2. What is the hoped for result of the work/activities described
above?

800 hours of volunteer service; 8 community clean-ups/fix-ups, 7
youth workshops, and raised community self-esteem.

3. How will you measure the quality of your product or impact of
your service?

Log of additional volunteer hours, log of workshops, and before and
after photos of projects.

4. By what standard will you gauge success?

700 hours of volunteer service, 5 workshops conducted, and
neatness/beautification of community places.

5. How many individuals will receive the benefit of the work your
participants perform?

108,000 people

CORPORATION FOR NATIONAL SERVICE

SITE: Morristown,

COMPONENTS OF OBJECTIVE STATEMENTS: To provide technical assistance that results in 20 land users applying best management practices that meet the SCS field office technical guide on farms that have not participated in district programs in the past.

1. What work will be done? What service activities will your participants engage in?
Provide technical assistance.

2. What is the hoped for result of the work/activities described above?
Best management practices will be applied.

3. How will you measure the quality of your product or impact of your service?
Field office technical guide.

4. By what standard will you gauge success?
Twenty new participants apply practices that meet specs.

5. How many individuals will receive the benefit of the work your participants perform?
20 land users.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service
Tennessee

SITE: Morristown,

COMPONENTS OF OBJECTIVE STATEMENTS: To reduce the amount of animal waste entering the watersheds streams by 800,000 lbs as calculated by SCS engineers and the District Conservationist by applying practices that store, control, or reduce waste and that meet SCS technical standards.

1. What work will be done? What service activities will your participants engage in?
Assist in applying practices that store, control, or reduce animal waste.
2. What is the hoped for result of the work/activities described above?
Waste systems applied.
3. How will you measure the quality of your product or impact of your service?
By the SCS engineers.
4. By what standard will you gauge success?
Field office technical guide.
5. How many individuals will receive the benefit of the work your participants perform?
All those down stream, approximately 10,000 in the watershed.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service
Tennessee

SITE: Morristown,

COMPONENTS OF OBJECTIVE STATEMENTS: To increase the knowledge and acceptance of riparian area practices by applying at least two stream bank protection demonstrations that meet the field office technical guide and result in improved habitat as determined by the SCS water quality indicators guide and SCS biologists.

1. What work will be done? What service activities will your participants engage in?
Install stream bank protection practices.

2. What is the hoped for result of the work/activities described above?
Practices will be installed and land users will become more aware of this type of practice.

3. How will you measure the quality of your product or impact of your service?
By the field office technical guide and water quality indicators guide.

4. By what standard will you gauge success?
By counting, if two go in, it will be 100% of what we planned.

5. How many individuals will receive the benefit of the work your participants perform?
The two land users we install them on, plus all those down stream and sportsmen in the area.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service
- Tennessee

SITE: Whitley County

COMPONENTS OF OBJECTIVE STATEMENTS: Survey small farms families in Whitley County to assess needs and interests in beginning or expanding livestock production, in exploring alternative crops, intensive grazing methods, composting and other sustainable agricultural endeavors.

1. What work will be done? What service activities will your participants engage in?

Create a survey and interview 60 small farm families. Analyze survey results and work with Whitley County Small Farms Board and membership to determine priority areas for development. Use responses as mailing lists and conduct workshops with other federal agencies.

2. What is the hoped for result of the work/activities described above?

A set of at least five priority areas for further research and development.

3. How will you measure the quality of your product or impact of your service?

Completion of at least 60 surveys. Membership meeting held to help set priorities.

4. By what standard will you gauge success?

At least 75% of the membership will participate.

5. How many individuals will receive the benefit of the work your participants perform?

Sixty families involved in survey process. Information as to needs assessed and projects slated for research and development would be shared with the broader empowerment zone area.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service
- Tennessee

SITE: Whitley County

COMPONENTS OF OBJECTIVE STATEMENTS: Inventory the forest land owned by WCLT as well as other forest land in the area to create a management plan which will help WCLT complete its Rural Planned Unit Development and will also aid the entire empowerment zone.

1. What work will be done? What service activities will your participants engage in?

Inventory the land on WCLT, land WCLT wants to own, and land in the zone. Create a management plan based on the inventory and help continue the 10-year replanting plan that is already in effect. Support residents with permaculture plans. Research other rural development models.

2. What is the hoped for result of the work/activities described above?

A foundational planning tool for development of WCLT and the empowerment zone area.

3. How will you measure the quality of your product or impact of your service?

WCLT's and other community's ability to use the plan based on their experience in this area. Judgement of technical expert in the area of stewardship planning.

4. By what standard will you gauge success?

All WCLT land inventoried and three parcels of at least 100 acres inventoried in zone. 1000 trees planted. Discovery of three species that can be introduced and cultivated in appropriate areas in the forest.

5. How many individuals will receive the benefit of the work your participants perform?

Three area colleges and 20 students with whom we will share our information. WCLTG board, staff, and residents (50 people) as well as 10 local land owners around the land trust. The entire Appalachian United Vision empowerment zone (100 members). Rural Settlement Plan disseminated with five communities in the zone.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

GRANTEE: USDA Soil Conservation Service
Waverly, Tennessee

SITE:

COMPONENTS OF OBJECTIVE STATEMENTS: Develop an environmental outreach program.

1. What work will be done? What service activities will your participants engage in?

Developing an outreach program that involves organizing and promoting county-side workshops, developing demonstration programs, and organizing nature tours, developing environmental education projects that reach minorities, women, persons who are physically disabled, and youth and civic organizations.

2. What is the hoped for result of the work/activities described above?

The hoped for result of the activities is to reach at least 3,000 of the approximate 15,500 people in the Humphreys county region, 2,000 of which are students and 1,000 being adult participants. The anticipated log of 500 service hours is expected as a result of the outreach program to culminate in a sense of community pride in various groups of the county while educating the groups on environmental issues.

3. How will you measure the quality of your product or impact of your service?

The quality of these activities will be measured by a log of an additional 100 activity hours or service hours performed by community organizations. Likewise, at the end of the program a survey will be conducted of all group participants to analyze the effectiveness of the outreach program.

4. By what standard will you gauge success?

Success of the program will be measured by at least five new youth or civic groups which participate in the environmental outreach program. The success of this program will be evaluated by achieving at least a 90% favorable opinion of the outreach program by the groups involved.

25-12

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service
Tennessee

SITE: Waverly,

COMPONENTS OF OBJECTIVE STATEMENTS: Create environmental education opportunities.

1. What work will be done? What service activities will your participants engage in?
Will assist in creating environmental education opportunities through workshops, tours, development of trails and education materials.

2. What is the hoped for result of the work/activities described above?
The hoped for result of the work/activities will be increased community awareness of environmental concerns and increase the development of the environmental education center.

3. How will you measure the quality of your product or impact of your service?
The quality/impact will be measured by the numbers of participants in environmental activities.

4. By what standard will you gauge success?
The measure of success will be by the number of workshops (4), number of tours (6), number of lesson plans developed (5), and number of organizations involved (8).

5. How many individuals will receive the benefit of the work your participants perform?
Approximately 5,000 individuals will benefit from increased awareness in environmental concerns.

COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service
Tennessee

SITE: Waverly,

COMPONENTS OF OBJECTIVE STATEMENTS: To reduce the amount of
nonpoint source pollution in selected watersheds within
the Chickasaw-Shiloh RC&D area through landowner use of
effluent discharge equipment.

1. What work will be done? What service activities will your
participants engage in?

Promotion of the Council's traveling gun irrigation system.

2. What is the hoped for result of the work/activities described
above?

Six landowners safely discharge their waste storage facilities.

3. How will you measure the quality of your product or impact of
your service?

By safely discharging 8,000,000 gallons of effluent

4. By what standard will you gauge success?

Based on the number of landowners that utilizes the equipment.

5. How many individuals will receive the benefit of the work your
participants perform?

A minimum of 35 landowners will be contacted concerning
availability of effluent discharge equipment.

SITE: Waverly,

COMPONENTS OF OBJECTIVE STATEMENTS: To increase the level of
environmental awareness in the
the eight-county
public school systems within
Chickasaw-Shiloh RC&D Area.

1. What work will be done? What service activities will your
participants engage in?
Develop an environmental awareness training curriculum to be
available to 49 elementary schools.

2. What is the hoped for result of the work/activities described
above?
Achievements and results of these activities will include
participants (elementary students) developing a better appreciation
for the environment.

3. How will you measure the quality of your product or impact of
your service?
By the number of schools that participate in using the curriculum
and by requests for additional educational assistance.

4. By what standard will you gauge success?
Chickasaw-Shiloh RC&D will measure the success of the program by 40
percent of the elementary schools in the area utilizing the
curriculum.

5. How many individuals will receive the benefit of the work your
participants perform?
Approximately 600 elementary students. equipment.
