HOPE VI

Divider Title: _____

HOPE VI URBAN REVITALIZATION PROGRAM

Self-Help in Public Housing

Authorized under the 1990 National Affordable Housing Act, HOPE VI is a major urban revitalization demonstration program targeted to severely distressed public housing properties throughout the United States. The goals of HOPE VI are to eliminate dilapidated and dangerous structures, to create safe and decent public housing, to provide residents with the opportunity to learn and acquire skills needed to achieve self sufficiency, and to instill in residents the belief that with economic self sufficiency comes a responsibility to help rebuild one's community. Housing authorities are encouraged to use revitalization to create more linkages and interaction between public housing residents and the surrounding residential and business communities.

To achieve these goals, public housing authorities developed plans which included major construction/redevelopment components, a supportive services plan to help residents achieve self sufficiency, and a community service plan to encourage residents of all ages to use their talents and skills toward the improvement of quality of life in their communities. Thirty-two public housing authorities have been selected on a competitive basis to receive up to \$50 million each to implement their community revitalization plans.

In order to ensure resident involvement, self sufficiency, and commitment to community service, up to twenty percent of HOPE VI funds are authorized for a supportive services plan and a community service plan while eighty percent is earmarked for the physical revitalization of the target developments. Because the participation of residents is critical to the success and sustainability of the revitalized communities, the legislation mandates active resident involvement in the creation and implementation of all three components of the HOPE VI plans.

The Corporation for National Service, in partnership with the Department of Housing and Urban Development, assists housing authorities and residents to create viable community service plans, provides technical assistance during the implementation of these plans, and monitors the success of community service programs. Each HOPE VI implementation grantee must achieve Corporation approval of its community service implementation plan.

Getting Things Done.
AmeriCorps, National Service
Learn and Serve America
National Senior Service Corps

Corporation staff have made site visits to provide hands-on assistance to HOPE VI grantees developing their community service implementation plans. Some housing authorities have a variety of partners involved with their community service and supportive services plans and substantial resident participation. Others need to create a new, viable plan with strong resident and community participation. Corporation staff have encouraged housing authorities to integrate their community service and supportive services plans to better enable residents to build their communities and, through community service experiences, to gain skills and access to concrete career and educational opportunities.

Technical assistance is provided to public housing tenant leadership and housing authorities by Corporation headquarters staff, State Directors, consultants, and national non-profit resource providers. Written and video resource materials are under development and the first of the Corporation's bi-annual HOPE VI technical assistance and training conferences is being planned for June 1995.

The complete list of HOPE VI grantees includes the housing authorities of: Atlanta, Baltimore, Boston, Camden, Charlotte, Chicago, Cleveland, Columbus, Dallas, Denver, Detroit, El Paso, Houston, Indianapolis, Kansas City, Los Angeles, Memphis, Milwaukee, New Haven, New Orleans, New York, Newark, Oakland, Philadelphia, Pittsburgh, Puerto Rico, San Antonio, San Francisco, Seattle, Springfield, St. Louis, and Washington, DC.

HOPE VI is an opportunity for national and local non-profits, government agencies at the federal, state, and local level, private enterprises, and others to support community self-sufficiency for residents of public housing. For more information about individual HOPE VI programs, please contact the appropriate housing authority and/or your Corporation State Program Director. Information is also available from Corporation Urban Revitalization Program Directors Barbara Nabors-Glass and Tim Silard at (202) 606-5000.

T/TA

Divider Title: _____

An Overview of AmeriCorps Training and Technical Assistance

With a large percentage of Corporation grantees in a start-up phase, training and technical assistance (T/TA) are essential to building quality programs. Overall, the Corporation has taken a market-based approach to technical assistance, supporting a range of providers and encouraging grantees to request assistance as needs arise.

AmeriCorps Training and Technical Assistance is provided at three levels:

- **Within each program:**

Each program includes some T/TA in its proposal and in its budget. These can include funds for workshops and training, purchase of materials, the services of individual consultants, and the training of trainers among their own staff.

- **From the State Commissions:**

In accordance with the Corporation's entrepreneurial philosophy encouraging local people and programs to develop solutions to their unique challenges, \$4,000,000 in T/TA funds have been awarded directly to state commissions to build their capacity to address technical assistance needs they have identified among their local programs. Activities funded by the state commissions include workshops and trainings, materials, consultants, training of trainers among program directors and Commission staff.

- **From the Corporation for National Service:**

The Corporation provides T/TA in many different areas. Because we have many programs to support, the providers funded directly by the Corporation will be encouraged to offer T/TA reaching more than one grantee at a time. Services will emphasize trainings, workshops and conferences, materials in a variety of formats, telephone consultation and referral, and limited on-site consultation.

During this first year of AmeriCorps, our aim is to strengthen existing programs and develop successful models. While our overall strategy emphasizes the T/TA requirements of operating grants, we are also mindful of the special needs of planning grantees.

Services from Corporation-funded T/TA providers include:

- Assistance in organizational development and other managerial concerns: grievance procedures, fiscal management, evaluation, program management, and fundraising.

During this first year of AmeriCorps, our aim is to strengthen existing programs and develop successful models. While our overall strategy emphasizes the T/TA requirements of operating grants, we are also mindful of the special needs of planning grantees.

Services from Corporation-funded T/TA providers include:

- Assistance in organizational development and other managerial concerns: grievance procedures, fiscal management, evaluation, program management, and fundraising.

- Information about best practices, program models, training curricula, and lists of possible providers are available through the National Service Resource Center. Programs access the Center by mail, phone, or through electronic means.
- T/TA will strengthen essential program elements, including working with communities, designing service projects, training and supporting front line supervisors, training and supporting participants, and providing conflict resolution and mediation.
- Through curricula, meetings, and materials, T/TA providers will build AmeriCorps Members as active citizens.
- Programs will develop strength through diversity with the help of trainings and materials.
- National Priority Skills Development Centers will be established to provide grantees with assistance in meeting short-term, immediate training and technical assistance needs in areas designated as "national priorities" by the Corporation.
- The Corporation will provide T/TA to the State Commissions.
- On-site technical assistance will also be provided by a team of Master Program Advisors. The work of these consultants will be to build toward self-sufficiency, capacity, draw on local resources, and develop staff capacity. Consultants will work with staff on shared tasks, with the role of the consultant diminishing as time passes.

As of February 8, 1995, the Corporation for National Service has selected the following national Training and Technical Assistance (T/TA) providers to strengthen AmeriCorps programs.

ORGANIZATIONAL DEVELOPMENT/PROGRAM MANAGEMENT

United Way Of America (UWA), in partnership with four local United Way organizations and The Volunteerism Project (a United Way-funded organization), will provide T/TA in organizational development, program management, grievance procedures, fiscal management, and evaluation and continuous improvement for organizational practices. UWA will offer a variety of workshops in each cluster for AmeriCorps program directors and staff, with follow-up T/TA site visits and phone consultations. The collaborative will also provide a variety of written materials in its areas of concern, adapted from existing United Way resources. Workshops begin in Spring 1995. Services will be available on a first-come, first-served basis.

FUNDRAISING

The Fundraising School at the Indiana University Center on Philanthropy will provide eight fundraising workshops, each one week long, each accommodating up to fifty program representatives. Trainings will be held in New York, The District of Columbia, Atlanta, Indianapolis, Minneapolis, Dallas, Seattle and San Francisco.

These workshops will provide grantees with comprehensive skills and a strong foundation for a long-term fundraising program for their organizations.

Workshops will be held as follows:

Dallas	February 20 - 24
Seattle	February 27 - March 3
Indianapolis	March 6 - 10
San Francisco	March 6 - 10
White Plains, NY	March 13 - 17
Washington, DC	April 3 - 7
Atlanta	June 5 - 9
Minneapolis	June 26 - 30

Summer of Safety Accomplishments

50 Reasons Why the Corporation for National Service Can Be Proud of Its First Corporation-Wide, National Program

The following list reports part of what the 1994 Summer of Safety Program got done in American communities. These outcomes resulted from the combined effort of more than 7,000 national service participants in thirty-five states and the District of Columbia. The data come from end-of-summer reports from the local programs' directors, following strict procedures laid down by the Corporation. Many items on this list have been confirmed by CNS program officers and researchers. While some items have not been verified, our experience from the summer programs in 1993 and reports this year tell us that, if anything, local programs under estimate what they achieve.

Community Policing

1. Freed up 26,413 hours of police officers time.
2. Opened 11 new police mini-stations, expanded or revitalized 23.
3. Began 47 citizen patrols; expanded or revitalized 63.
4. Identified 1,864 code violations.

Neighborhood Watch or Block Watch

5. Opened 976 new watch programs.
6. Revitalized 265 watch programs.
7. Started 863 neighborhood watch, telephone networks.

Improvement of Household Security

8. Performed 13,513 household security surveys or audits.
9. Installed 1,001 new window and door locks.
10. Identified 866 unsafe areas for local police.

Crime Awareness and Crime Avoidance

11. Provided 6,322 persons with escort services.
12. Trained 4,626 persons to recognize and avoid scams and confidence games.
13. Fingerprinted 4,968 persons.
14. Trained 1,360 persons in tourist safety.
15. Organized 1,313 neighborhood watch, telephone networks.

Safe Places, Safe Houses and Safe Havens

16. Created 99 safe houses.
17. Established 40 safe play streets.
18. Renovated or expanded 156 safe corridors or havens.

NAT'L DAY OF SERVICE

Divider Title: _____

To: Board of Directors
From: Eli J. Segal
Re: National Day of Service - April 25, 1995
Da: January 30, 1995

In response to several inquiries about the Corporation's plans for National Volunteer Week, I would like to share our preliminary ideas with you. Our plan is to hold an intergenerational National Day of Service on Tuesday, April 25th.

We have entered into an exciting partnership with Youth Service America, as well as with the Points of Light Foundation to promote and expand volunteerism and service opportunities, and we have designated Tuesday, April 25th as a National Day of Service.

The 20,000 AmeriCorps Members and hundreds of thousands of National Senior Service Corps and Learn & Serve America participants offer an unprecedented infrastructure to attract current and new volunteers to service sites on that day. Based on state determinations, we will be encouraging states to attract volunteers to current AmeriCorps, Learn & Serve or National Senior Service Corps sites as their participation for that day.

As a member of our Board, we welcome your response to this service day initiative and will be in contact with you soon to determine your interest in participating and your preliminary ideas regarding what activities you might undertake on a National Day of Service. Corporation State Offices and State Commissions have been encouraged to collaborate with each other and with our service partners to ensure successful planning for April 25. Different programs would come together to do the extraordinary work they do each day, but on this day, the entire community could hopefully be involved.

If you have any immediate questions or concerns, please feel free to get in touch with our staff at (202) 606-5000. Janet V. Green can be reached at x167 and will be your primary contact at the Corporation for this event. Diana Aldridge, will be coordinating public relations for the event and can be reached at x182.

I am very enthusiastic about working with you on this exciting service initiative and know that through our cooperative efforts this day will be a great success!

LOGISTICS

Divider Title: _____

MEMORANDUM

February 15, 1995

TO: Eli Segal

FROM: Rhonda Taylor

SUBJECT: Logistics for the Board of Directors Meeting, Committee Meetings, Site Visit and Dinner, and Lodging

LODGING: Reservations are made at the Madison Hotel based on requests by individual Board Members. Lodging is prepaid by the Corporation.

The hotel address is: Madison Hotel
1177 Fifteenth Street, NW
Washington, DC 20005
PH: 202-862-1600
FAX: 202-785-1255

FEBRUARY 23, 1995: Committees are scheduled to meet at the Corporation offices at the following times and locations.

Committee on Management and Budget	9:30 a.m., Room 8601
Committee on Planning and Evaluation	12:30 p.m., Room 8501

SITE VISIT: The George Washington University transportation will arrive at the Corporation offices at 3:30 p.m. on February 23rd, to pick up Board members and key staff to visit the Neighbors Project at the Bright Beginnings Preschool for Homeless Children. After the visit to the Preschool, the bus will proceed to pick up AmeriCorps members and their agency partners at two other sites in the Shaw Neighborhood where members are serving, while simultaneously hearing about the Neighbors Project. The bus should arrive at GW at approximately 4:45 p.m. for a reception and reflection time with AmeriCorps members where Board members will be paired with AmeriCorps members. Dinner will begin at 6:00 p.m. with Jim Joseph giving the keynote address. The panel discussion will convene at approximately 7:30 p.m. with Marvin Kalb moderating and Board Member Carol Kinsley as one of the panelists. The dinner will conclude at approximately 8:15 p.m. and the bus will return Board members to the Madison Hotel.
