OTHER/COMMENTS: A summary of overall
impact of some AmeriCorps accomplishments
which will not show up from our
normal reporting

Richard

This week I attended a two day Strategic Planning session as a member of the Penobscot Bay Network Steering Committee. As we talked about future activities, we often found ourselves discussing our clam management activities of the last several years. As our discussions progressed I was surprised to hear many members of the Network Steering Committee state that the work of our AmeriCorps program members had been key in the success that has recently been achieved in improved clam management in Maine.

This resource requires good water quality for productivity and for the clam flats to be opened to harvesting. When our AmeriCorps water quality program was formulated, many of the member projects were located to address water quality needs of shellfish resources which includes clams. Our members have worked with about 35 community shellfish management committees on local resource problems. This has raised the awareness of these committee members to the need for cooperative efforts among communities to improve the management of this resource. This lead to the first Clam Management Forum last March. Here these community committees along with representatives of the Maine Division of Marine Resources organized a Clam Management Advisory Committee. They are planning to hold a second Clam Management Forum this coming March and formalize a Maine Clam Management and Promotion Council.

Over the last two years it appears that our AmeriCorps Water Quality program has had a very positive impact on this declining resource and industry in Maine. Our progress reports show that through the efforts of our Members with local shellfish committees and water quality monitoring efforts over 1,500 acres of clam flats have been opened to harvesting. This resulted in significant income generation in small coastal communities with depressed economies. One group of four members worked with a clam and shellfish hatchery to raise about 25 million juvenile clams for restocking depleted clam flats.

SUBJECT: Year-to-Date Data on Objectives and Member Forms

Attached is a "year-to-date" progress report showing accomplishments on objectives through the third quarter report. **This data, plus the fourth quarter data, will be provided to members of Congress representing your state and to your agency leaders. It is imperative that the information reflected in this report be as accurate as possible.** The report also shows the degree to which you have accomplished your objectives which were agreed to at the beginning of this program year.

I ask that you carefully review this report. Review each objective with the following items in mind:

1. **Accuracy of the data.** This information will be shared with many different groups, and it is important to be accurate in our reporting as well as getting credit for all the great work you have done during the year.

2. **Completion of community service objectives.** One way to determine the successful completion of objectives is to measure accomplishments against the target quantity measurement which you established at the beginning of the year. The table below gives you a snapshot picture of your accomplishments through the third quarter. The last five columns reflects your work measured against the target quantity.

SITE #	NUMBER OF OBJECTIVES	NUMBER OF OBJECTIVES EXCEEDED	NUMBER OF OBJECTIVES AT 100%	NUMBER OF OBJECTIVES 50-100% COMPLETE	NUMBER OF OBJECTIVES 0-50% COMPLETE	NO TARGET QUANTITY
Y23A	7	4		2		1
Y23B	16	3	1			12
Y23C	12	6	2		2	2
Y23D	18	4	6	2		6
Y23E	5	1				4
Y23F	5	1	1	1		2
Y23H	6	2	2	1	1	
Y23I	8	4				4
Y23J	5	2	1	1		1

106

33

19

Y23K	10	3	2	2	2	1
Y23M	10	4	3	2		1
Y23N	4		1	1	1	1

3. **Program codes.** Review the program code for each of your objectives. Please be sure that the data you are recording for quantity matches the quantity for that program code. For example, the quantity measurement for program code R026A is the number of homes actually repaired. If you are counting something other than the quantity measurement for the code, please indicate exactly what you are counting.

4. **Congressional Districts.** Please indicate in which Congressional District(s) the work was actually accomplished. This will let us be very specific to Members of Congress as to what work was done in their district.

5. **Volunteers.** Please explain what the volunteers have done with your AmeriCorps members. Also ensure that the volunteer numbers you have been providing to us each quarter is for the quarter **only**, not cumulative for the year.

Your assistance in this reporting enables us to meet our legal obligations as well as providing us with the necessary information to promote our USDA AmeriCorps program to all interested parties. Providing this data in an accurate and timely manner is one of your most important duties as an AmeriCorps Project Director.

Member Forms

A review of your member forms reveals that they are current and up-to-date. Great job.

If you have any questions or problems, please contact Dee DiFiore at (202) 690-3051 or Ron DeMunbrun at (202) 690-3894.

Thank you for your cooperation on this matter.

I ask that you carefully review this report. Review each objective with the following items in mind:

1. **Accuracy of the data.** This information will be shared with many different groups, and it is important to be accurate in our reporting as well as getting credit for all the great work you have done during the year.

2. **Completion of community service objectives.** One way to determine the successful completion of objectives is to measure accomplishments against the target quantity measurement which you established at the beginning of the year. The table below gives you a snapshot picture of your accomplishments through the third quarter. The last five columns reflects your work measured against the target quantity.

SITE #	NUMBER OF OBJECTIVES	NUMBER OF OBJECTIVES EXCEEDED	NUMBER OF OBJECTIVES AT 100%	NUMBER OF OBJECTIVES 50-100% COMPLETE	NUMBER OF OBJECTIVES 0-50% COMPLETE	NO TARGET QUANTITY
T23A	6			2		4
T23B	7	1	1		1	4
T23C	4		1	2		1
T23D	5				2	3
T23E	9	1	4	1		3

31

4

3. **Program codes.** Review the program code for each of your objectives. Please be sure that the data you are recording for quantity matches the quantity for that program code. If you are counting something other than the quantity measurement for the code, please indicate exactly what you are counting.

4. **Double counting.** Please do NOT double count your accomplishments. For example, at site T23D you have one objective that is for record keeping assistance and one for technical assistance. If this is the same work, do not count it twice.

5. **Congressional Districts.** Please indicate in which Congressional District(s) the work was actually accomplished. This will let us be very specific to Members of Congress as to what work was done in their district.

6. **Volunteers.** Please explain what the volunteers have done with your AmeriCorps members. Also ensure that the volunteer numbers you have been providing to us each quarter is for the quarter **only**, not cumulative for the year.

Your assistance in this reporting enables us to meet our legal obligations as well as providing us with the necessary information to promote our USDA AmeriCorps program to all interested parties. Providing this data in an accurate and timely manner is one of your most important duties as an AmeriCorps Project Director.

Member Forms

A review of your member forms reveals that all forms have been submitted to date. This is great work and very important to insure that our members receive all the benefits to which they are entitled. Be sure to submit the End of Term forms for members when they have completed their term of service.

If you have any questions or problems, please contact Dee DiFiore at (202) 690-3051 or Ron DeMunbrun at (202) 690-3894.

Thank you for your cooperation on this matter.

Dear Ms. DiFiore:

I want to take this opportunity to make you aware of two misinterpretations or typos in Maine USDA's quarterly report. The first occurs on the pages for site Y23D. The same objective, to install 50 BMP's (conservation practices), is stated three different times in objective numbers 24, 26, and 27. These three objectives should actually be only one objective or 50 BMP's or conservation practices (these are the same thing). The second mistake, which I believe is typo, occurs on the pages for site Y23K on objective # 3. The QTY unit of measurement for this objective reads 50 farmers - aided in pest mgmt.. The QTY unit of measurement should read 50% of growers (farmers) aided in pest mgmt. This is an important distinction as there are only 26 total growers in the area. Thank you for your help in resolving this matter. If you have any further questions, please feel free to contact me at (207) 866-7241.

Sincerely,

Karen Malley

					1st Rpt	2nd Rpt	3rd Rpt	4th Rpt	
SMITH-HATCH, AMANDA	P. (b)(6)	F	A C	I B	392	435	629	244 ✓ 1700	1456
Total Hours: 1700									1456

No. of Members Allocated by USDA: 1

No. of Active Members Whose Enrollment Forms were recieved at USDA (not including terminations): 1

No. of Members for Whom Forms Have NOT Been Recieved*: 0

REMEMBER THAT THE TOTAL NUMBER OF HOURS FOR EACH MEMBER SHOULD BE THE HOURS SERVED AND NOT INCLUDE THE HOURS FOR PERSONAL LEAVE (40) AND HOLIDAYS (72). IF YOU HAVE BEEN COUNTING THESE IN THE FIRST 3 QUARTERS, PLEASE ADJUST THE 4TH QUARTERS HOURS SO THAT THE TOTAL IS AT LEAST 1700 OF SERVICE (assuming the person was full-time and successfully completed the program.) You can have more than 1700 hrs for a total just be sure all the hours were service hours. Thank You

* If the number of Members allocated is greater than the number of forms received, there are four options: 1. There are Members enrolled in programs whose forms have not been submitted to the USDA Director of National Service. If that is the case, list the names, SSN, Status and hours of the missing members on the back of this sheet and send the enrollment forms to the USDA Director of National Service. 2. The enrollment forms were sent directly to the Corporation. If that is the case, send copies to the USDA Director of National Service immediately. 3. There are vacancies in your program you intend to fill in the next reporting period. If that is the case, enter the number of vacancies on the appropriate line. 4. There are vacancies that you can not fill and you are relinquishing them.

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

ME	Y23B			ADDITIONAL SUCCESS							
		E170		Poster Contest	97	students with increased environmental awareness; 1 first place state winner, and 3 3rd place state winners. All awards presented at school ceremonies and media releases made					
		E017		Project WET workshop		Successfully completed with 15 educators benefitting.					
				Logger's Forum		6 speakers, 75 loggers, industry personnel and general public benefit from workshop.					
				Envirothon workshops (Soils)		15 students (from 4 District teams) directly affected / 60-90 students indirectly affected, One team went on to the state competition and placed first there in soils.					
				Computer donated		AmeriCorps member responsible for acquiring a free NCR 386 computer & monitor in addition to free software package.					
				MACD Teacher of the Year		Member recruited applicants for award; aided recipient in compiling portfolio who went on to win at District, State and Regional level; presently competing at National stage.					
				Projects with Houlton Band of Maliseet Indians		Jointly facilitated Roads Workshop(35 participants), Pollution Prevention project (involving 40 members of tribe), Education Subcommittee of Meduxnekeag Watershed Coalition (includes 5 members who meet twice a month), and aided local High School student with water tests.					

Volunteers aided with the following programs:

- Local Roads Workshop
- Logger's Forum
- Project WET
- Soils Workshops
- Envirothon
- Meduxnekeag Watershed Coalition Subcommittees
- Health Fair
- International Teacher Workshops
- Earth Matters Day at Wildlife Conservation Center (NPS Survey)
- Booth at Carve Race
- NPS Training Workshop
- Pasture Walk
- Tree Planting
- Composting / Recycling Workshops
- On Farm Demonstration Sampling
- Winter Ag Schools
- Nature's Magic Science Camp
- Back to Nature Days at Conservation Center (Composting Workshop)

Damariscotta River Watershed Coordinator
USDA Americorps Member

Assisting the Damariscotta River Association,
the Planning Alliance of the Damariscotta River Estuary
and Time & Tide Mid-Coast Fisheries Development.

September 13, 1996.

DRA - Tidewater Watch Committee:

- Wrote an article about the Tidewater Watch Stencil Project for the DRA summer newsletter. =E129
- Supervised and assisted the TW summer intern. =E094
- Supervised and assisted with the TW water quality monitoring program and lab work. =E094
- Created written site descriptions for all collection stations collected by TW volunteers in boats for DMR. =E094
- Organized computer group to work on solving TW database management problems.
- Supervised in the creation of a new database to meet TW needs.
- Researched projected needs and costs for TW '97 budget.
- Supervised and organized the TW program in reentering Lincoln Academy and Boothbay Regional High School. =E094
- Spoke to 20 seniors and juniors and 1 teacher at Lincoln Academy about Tidewater Watch and water quality.

DRA - Stewardship Committee:

- Finished work on the 13 conservation easements held by the DRA.
- Assisted with the monitoring of 1 conservation easement.
- Finished creating and assisted in organizing 11 volunteers to be Easement Stewards for the 13 conservation easements.

PADRE:

- Finished compiling my activities and gathered information into a vernal pool activity packet. =E012
- Delivered activity packets to 6 schools in the local area.
- Assisted PADRE in finding and obtaining information on the number of piers, docks and wharves along the Damariscotta River.
- Wrote a press release about the Damariscotta River clam flats classifications.
- Placed PADRE Information Boards with brochures about water quality, clam flats, nonpoint source pollution, shoreline erosion and PADRE's newsletter in 7 town offices along the Damariscotta River. =E113
- Assisted with other daily projects for PADRE.

Watershed Survey:

- Worked with 10 volunteers to complete a watershed survey of Oyster Creek, a tributary at the head of the Damariscotta River in Great Salt Bay.

* I have written a brochure entitled: "Walk for a Rainy Day: What You Can Do to Help Maintain Your Camroad" which has been picked up by the Maine State Departments of Environmental Protection and Transportation for statewide distribution.

Month by Month:

November, 1995

Began work on Volunteer Watershed Survey of Three Mile Pond, including resurveying each listed site, determining priority of site, contacting landowners of sites that we may work on during the summer, creating a map of all listed sites and planning Best Management Practices for landowners. This work continues for several months.

Began research past history of Three Mile Pond, including DEP reports of past restoration projects, including the ongoing DEP Water Quality Monitoring of Three Mile Pond, 1983 KCSWCS Watershed Survey, 1987 DEP/Three Mile Pond Pre-Alum Treatment Watershed Survey, 1990-1992 DEP/Three Mile Pond Watershed Survey, 1995-1996 CRLA/Three Mile Pond Association Watershed Survey. This work continues for several months.

December, 1995

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Research of past Three Mile Pond history continues.

Writing of brochure: "Walk for a Rainy Day: What You Can Do to Help Maintain

Your Camroad" begins. This work continues for several months.

January, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Research of past Three Mile Pond history continues.

Writing of "Walk for a Rainy Day" continues.

Work with my supervisor George Lord to apply for an EPA 319 grant to fund the project. This work continues for several months.

Work with Dick Jordan on database to organize Three Mile Conservation Corps' activities, and keep track of funds for 319 grant. This work continues for several months. This work continues for several months.

Assisted with presentation of CRLA Restoration Project for State Representative Gail Chase.

February, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Research of past Three Mile Pond history continues.

Writing of "Walk for a Rainy Day" continues.

Work for 319 Application continues.

Work on database continues.

Work with Andy Reid on evaluating camproads for Three Mile Pond landowners, including "Year of the Camroad" presentation

Training session with Project WET, education for water quality

March, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Research of past Three Mile Pond history continues.

Writing of "Walk for a Rainy Day" continues.

Work for 319 Application continues.

Work on database continues.

Accreditation training by state DEP in Non-Point Source Best Management Practices.

Americorps project for stabilization of riverbanks in Sebago Lake State Park.

April, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Research of past Three Mile Pond history completed.

Writing of "Walk for a Rainy Day" completed.

319 Application approved.

Work on database continues.

Americorps National Day of Service; Seeding clams in the Waldoboro flats to replenish dwindling stocks.

Americorps project: Soil sampling for Farm Service Agency, South Paris.

Start researching possible private grants for alternate funding for CRLA.

May, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Work on database continues.

Meeting with Sheepscot River Association as advisor from the CRLA during their first committee meeting

Interviewing and hiring applicants for the Three Mile Conservation Corps.

Meeting with landowners to plan BMPs and Corps activities on their property for the summer. This work continues for several months.

June, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Work on database continues.

Meeting with landowners continues.

Three Mile Corps hired. Work begins on implementing Best Management Practices for landowners property, including armoring shorefront with rip-rap stone, planting vegetation to stabilize the earth, using armored crossings, ditches and other structural diversions to handle waterflow. This work continues for several months.

July, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Work on database continues.

Meeting with landowners continues.

Three Mile Corps Work continues.

August, 1996

Work on Volunteer Watershed Survey of Three Mile Pond continues.

Work on database continues.

Meeting with landowners continues.

Three Mile Corps Work completed.

"Walk for a Rainy Day" picked up by Maine DEP and DOT for statewide publication.

September, 1996

Work on Volunteer Watershed Survey of Three Mile Pond completed.

Work on database completed.

Meeting with landowners completed.

Begin planning for Webber Pond Volunteer Watershed Survey.

Begin planning for 1997 Three Mile Conservation Corps.

In the past year, I have been responsible for the watershed improvement for Three Mile Pond. Primarily, I was responsible for the restoration of Three Mile Pond, both by planning and directing the activity of the Three Mile Pond Conservation Corps and in the assistance and education of landowners. A time table of my major activated in both endeavors is listed above.

This year has been a trial period, both for the Three Mile Pond restoration project and myself. In this year, I think we have done well, and learned much. In this year we have performed 36 Best management Practices for 17 different landowners. I have spoken with over 50 landowners about what they can do to help protect their property from erosion and help clean up Three Mile Pond. I have written a brochure on Camp Road Maintenance, with the help of Andy Reid (Americorps) and Rebecca Manthey (CRLA), which has been picked up by the Maine DEP and DOT. I have done several small presentations for landowners and have learned about DEP regulations and permitting, as well as become certified in Best management Practices through the DEP and practical experience. I have made mistakes, but more importantly have learned from those mistakes. In short, I have learned more than I have ever before, and done more than I ever have before.

11. Please list the total number of **volunteers** who took part in activities which were sponsored or organized by all the Members in the state during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
_____	_____	_____	<u>7</u>	_____

12. Please list the total number of **hours of community service** completed by the volunteers cited above during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
_____	_____	_____	<u>31</u>	_____

SECTION IV - PROGRESS TOWARDS ACCOMPLISHING SERVICE OBJECTIVES:

13. Original Community Service Objectives: Attached are sheets summarizing the community service objectives that were originally approved for each operating site. In cases where a single objective may take an entire year to complete, that objective may have a sub-objectives listed. **You need to fill in the column marked "4th QTR Quantity" and the column marked "4th QTR Success" --- as well as any column that is blank, has a zero, or has a question mark --- for EVERY operating site.** Each chart should have the following columns:

"State" - The standard two-letter code for your state

"Obj No" - Each community service objective for each site is assigned an individual number

"Op Site" - Each site's unique operating site identification

"PGM Code" - Each type of service has been assigned a unique code to describe that type of service. See the appendix to this report entitled "Community Service PGM Code List"

"Obj/Impact Statement" - A few words verbally summarizing the community service objective

"Year's QTY Target" - The year's numerical goal for the people or things to be aided

"Target Unit of Measurement" - The unit of measure used in the previous column

"4th QTR Quantity" - Provide a hard number indicating progress towards the "Year's QTY Target"

"Year's Success Target" - Number for a way of measuring *quality* of service provided --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"Success Unit of Measure" - Explanation of the number in the previous column --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"4th QTR Success" - Provide a hard number indicating progress towards the "Year's Success Target"

15. **Community Service Objectives Narrative (optional):** If you feel it is necessary and/or helpful, you may use this space to describe in more detail accomplishments towards the original community service objectives reported in question 13 and/or your additional community service objectives reported in question 14. Please make sure you include the Operating Site ID Number in each narrative description so we can be clear which accomplishment is matched to which site.

T23B, T23C and T23E made considerable growth in the JCM program. Through their efforts many producers reduced the use of nutrients and pesticides. Producers saved money and the community profited by having less nutrients and pesticides released into their water.

16. **Community Building Objectives Narrative (optional):** Briefly describe how projects have brought together diverse groups of people, empowered communities to solve their own problems, built long term structures that will last beyond each AmeriCorps Member's term of service, and generally improved the abilities of local citizens to help improve their own lives.

T23B, T23C and T23E worked very hard to develop record keeping for producers. Through the members' efforts, many producers have a better handle on their operations. These members involved school students in some of their program. This allowed some urban youths to realize the role of farming.

17. **AmeriCorps Member Development Objectives Narrative (optional):** Briefly describe how the AmeriCorps Members themselves have benefited from serving in the program, particularly in regard to expanding their own educational opportunity and increasing their own ethic of personal responsibility. Describe specific skills learned by Members through either their service or training. Describe any Members that earned a GED or otherwise advanced their education. Describe any Members that left public assistance to join AmeriCorps. Relate how AmeriCorps allowed Members to continue college or graduate school. Describe how Members may have changed their ethic of work, citizenship, or community volunteerism.

These members made several contacts in the environmental testing community. They developed testing skills for various crops, various nutrients and also learned to interpret test results.

SECTION V - SUCCESS STORIES:

18. **Unique Successes or Great Stories :** Briefly describe one or two unique and/or exceptional success stories, a program highlight, or a 'great story' from your state. Please explain any instance in which AmeriCorps Members recruited non-AmeriCorps community volunteers for projects. Please include all media coverage, including original newspaper clips, videotapes of TV coverage, and cassette tapes of radio coverage; any letters of support or thank you letters; "before and after" photographs, brochures, posters, and newsletters created by the project; and other types of creative documentation.

SECTION VI - CHALLENGES

19. **Difficulties Faced by the Program:** Use this section to report on any problems your Members have encountered in the program this period. These should be significant issues which were related to achieving objectives, significant delays in implementation, administrative problems, or any other expectations, events or incidents that have caused the Members concern. State the problem concisely and how the issue has, or has not been resolved. Be sure to outline the steps taken and identify any resources needed to assist in resolving the problem.

Farmstead assessments created a privacy and liability problem for the members. Much discussion went into their roles on the farm and their responsibilities to document or report environmental problems. The issue was never quite resolved. Members went to farms as "a helping hand" and tried to work with each producer as an individual. Luckily, no environmental nightmares came to light.

SECTION V - GENERAL INFORMATION

20. **National Identity Activities (OPTIONAL):** Please describe any activities undertaken by Members that fostered the national identity of AmeriCorps. These could include joint service activities, meetings with other AmeriCorps projects, national telephone conference calls, use of Internet to communicate with other sites, etc.

Training sessions were held with non USDA AmeriCorps members. A joint National Service Day project involved all groups of Maine AmeriCorps.

21. **Organizational Changes:** Please outline and describe any changes in your program's organization and/or structure during the quarter.

NONE

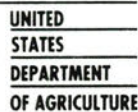

22. **Organizational Improvements (OPTIONAL):** Please write any suggestions by you, your Members, site managers, or anyone else regarding ways in which the USDA or CNS AmeriCorps program could be improved.

NONE

23. **Primary Training and Technical Assistance Needs (OPTIONAL):** Please specify precisely what kind of staff or Member training or other technical assistance can be provided by USDA, the Corporation for National Service, or other sources to improve your projects.

NONE

If your report shows five members with "A" "A" status and yet you only have four active members, this means you have not submitted an end of term of service form for the member for the member who is no longer active. Conversely, if your report shows five members with an "A" "A" status and you actually have six members active, you have not submitted an enrollment form for the active member whose name is not shown on this report. If that is the case, list the names, SSN, Status and hours of the missing members on this sheet and send the enrollment forms to the USDA Director of National Service. If enrollment form was sent directly to the Corporation, send copies to the USDA Director of National Service immediately. If you have replaced members be certain to indicate whether the replacements are full or part-time [NOTE: The USDA Director of National Service must approve conversion of full-time slots to part-time slots IN ADVANCE.]

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!
