RESTRICTION CODES

Presidential Records Act - [44 U.S.C. 2204(a)]

- P1 National Security Classified Information [(a)(1) of the PRA]
- P2 Relating to the appointment to Federal office [(a)(2) of the PRA]
- P3 Release would violate a Federal statute [(a)(3) of the PRA]
- P4 Release would disclose trade secrets or confidential commercial or financial information [(a)(4) of the PRA]
- P5 Release would disclose confidential advice between the President and his advisors, or between such advisors [(a)(5) of the PRA]
- P6 Release would constitute a clearly unwarranted invasion of personal privacy [(a)(6) of the PRA]

C. Closed in accordance with restrictions contained in donor's deed of gift.

PRM. Personal record misfile defined in accordance with 44 U.S.C. 2201(3).

RR. Document will be reviewed upon request.

Freedom of Information Act - [5 U.S.C. 552(b)]

- b(1) National security classified information [(b)(1) of the FOIA]
- b(2) Release would disclose internal personnel rules and practices of an agency [(b)(2) of the FOIA]
- b(3) Release would violate a Federal statute [(b)(3) of the FOIA]
- b(4) Release would disclose trade secrets or confidential or financial information [(b)(4) of the FOIA]
- b(6) Release would constitute a clearly unwarranted invasion of personal privacy [(b)(6) of the FOIA]
- b(7) Release would disclose information compiled for law enforcement purposes [(b)(7) of the FOIA]
- b(8) Release would disclose information concerning the regulation of financial institutions [(b)(8) of the FOIA]
- b(9) Release would disclose geological or geophysical information concerning wells [(b)(9) of the FOIA]

Clinton Presidential Records Digital Records Marker

This is not a presidential record. This is used as an administrative marker by the William J. Clinton Presidential Library Staff.

This marker identifies the place of a tabbed divider. Given our digitization capabilities, we are sometimes unable to adequately scan such dividers. The title from the original document is indicated below.

August 29, 1996

TO: James Ayan, AmeriCorps Project Director, NRCS, Iowa

FROM: Joel Berg, USDA Director of National Service *JB*

SUBJECT: Year-to-Date Data on Objectives and Member Forms

Attached is a "year-to-date" progress report showing accomplishments on objectives through the third quarter report. **This data, plus the fourth quarter data, will be provided to members of Congress representing your state and to your agency leaders. It is imperative that the information reflected in this report be as accurate as possible.** The report also shows the degree to which you have accomplished your objectives which were agreed to at the beginning of this program year.

I ask that you carefully review this report. Review each objective with the following items in mind:

1. **Accuracy of the data.** This information will be shared with many different groups, and it is important to be accurate in our reporting as well as getting credit for all the great work you have done during the year.

2. **Completion of community service objectives.** One way to determine the successful completion of objectives is to measure accomplishments against the target quantity measurement which you established at the beginning of the year. The table below gives you a snapshot picture of your accomplishments through the third quarter. The last five columns reflects your work measured against the target quantity.

SITE #	NUMBER OF OBJECTIVES	NUMBER OF OBJECTIVES EXCEEDED	NUMBER OF OBJECTIVES COMPLETE	NUMBER OF OBJECTIVES 50-100% COMPLETE	NUMBER OF OBJECTIVES 0-50% COMPLETE	NUMBER OF OBJECTIVE WITH NO ACTION	NO TARGET QUANTITY
Y19A	22	1			4	17	17
Y19B	6					6	6
Y19C	23	2			2	19	19
Y19D	19	5	1			12	13
Y19E	13		1			12	12
Y19F	21			1	4	16	16
Y19H	17	1		1	3	12	12

3. **Program codes.** Review the program code for each of your objectives. Please be sure that the data you are recording for quantity matches the quantity for that program code. If you are counting something other than the quantity measurement for the code, please indicate exactly what you are counting.

4. **Double counting.** Please do NOT double count your accomplishments.

5. **Congressional Districts.** Please indicate in which Congressional District(s) the work was actually accomplished. This will let us be very specific to Members of Congress as to what work was done in their district.

6. **Volunteers.** Please explain what the volunteers have done with your AmeriCorps members. Also ensure that the volunteer numbers you have been providing to us each quarter is for the quarter **only**, not cumulative for the year.

Your assistance in this reporting enables us to meet our legal obligations as well as providing us with the necessary information to promote our USDA AmeriCorps program to all interested parties. Providing this data in an accurate and timely manner is one of your most important duties as an AmeriCorps Project Director.

Member Forms

Below is a list of members who still have outstanding forms according to information previously provided to us by you. **These forms must be submitted along with this forth quarter report.** You have a legal obligation as a project director to ensure that all member forms are submitted to this office prior to the close of the program year.

<u>NAME</u>	<u>TYPE OF FORM</u>
Jeffrey Chase	End of Term of Service Form
Michelle Wilson	End of Term of Service Form
Robert Moser	End of Term of Service Form

Also include any End of Term forms for members who have now completed their term of service. If we are to have all our records in order and insure that those AmeriCorps Members who are entitled to benefits receive them and that those who are not entitled to benefits do not receive them, all forms must be submitted to this office. If you have previously submitted the forms requested above, please send in a copy of that form.

If you have any questions or problems, please contact Dee DiFiore at (202) 690-3051 or Ron DeMunbrun at (202) 690-3894. Thank you for your cooperation on this matter.

REMARKS: ☒ Urgent ☐ For your review ☐ Reply ASAP ☐ Please Comment

Here is the Iowa Fourth Quarter AmeriCorps report as requested. Please note that I deleted (lined out) the action items that were not addressed this year. This items were not addressed either from change in priorities, too aggressive in identifying work products, or Members leaving.

I will send by mail the exit forms and a hard copy of this report tomorrow.

No. of Members Allocated by USDA: 3

No. of Active Members Whose Enrollment Forms were recieved at USDA (not including terminations): 3

No. of Members for Whom Forms Have NOT Been Recieved*: 0

REMEMBER THAT THE TOTAL NUMBER OF HOURS FOR EACH MEMBER SHOULD BE THE HOURS SERVED AND NOT INCLUDE THE HOURS FOR PERSONAL LEAVE (40) AND HOLIDAYS (72). IF YOU HAVE BEEN COUNTING THESE IN THE FIRST 3 QUARTERS, PLEASE ADJUST THE 4TH QUARTERS HOURS SO THAT THE TOTAL IS AT LEAST 1700 OF SERVICE (assuming the person was full-time and successfully completed the program.) You can have more than 1700 hrs for a total just be sure all the hours were service hours. Thank You

- * If the number of Members allocated is greater than the number of forms received, there are four options: 1. There are Members enrolled in programs whose forms have not been submitted to the USDA Director of National Service. If that is the case, list the names, SSN, Status and hours of the missing members on the back of this sheet and send the enrollment forms to the USDA Director of National Service. 2. The enrollment forms were sent directly to the Corporation. If that is the case, send copies to the USDA Director of National Service immediately. 3. There are vacancies in your program you intend to fill in the next reporting period. If that is the case, enter the number of vacancies on the appropriate line. 4. There are vacancies that you can not fill and you are relinquishing them.

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

11. Please list the total number of **volunteers** who took part in activities which were sponsored or organized by all the Members in the state during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
_____	<u>16</u>	_____	<u>4</u>	<u>20</u>

12. Please list the total number of **hours of community service** completed by the volunteers cited above during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
_____	<u>40</u>	_____	<u>260</u>	<u>300</u>

SECTION IV - PROGRESS TOWARDS ACCOMPLISHING SERVICE OBJECTIVES:

13. Original Community Service Objectives: Attached are sheets summarizing the community service objectives that were originally approved for each operating site. In cases where a single objective may take an entire year to complete, that objective may have a sub-objectives listed. **You need to fill in the column marked "4th QTR Quantity" and the column marked "4th QTR Success" --- as well as any column that is blank, has a zero, or has a question mark --- for EVERY operating site.** Each chart should have the following columns:

"State" - The standard two-letter code for your state

"Obj No" - Each community service objective for each site is assigned an individual number

"Op Site" - Each site's unique operating site identification

"PGM Code" - Each type of service has been assigned a unique code to describe that type of service. See the appendix to this report entitled "Community Service PGM Code List"

"Obj/Impact Statement" - A few words verbally summarizing the community service objective

"Year's QTY Target" - The year's numerical goal for the people or things to be aided

"Target Unit of Measurement" - The unit of measure used in the previous column

"4th QTR Quantity" - Provide a hard number indicating progress towards the "Year's QTY Target"

"Year's Success Target" - Number for a way of measuring *quality* of service provided --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"Success Unit of Measure" - Explanation of the number in the previous column --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"4th QTR Success" - Provide a hard number indicating progress towards the "Year's Success Target"

8/15/96

QUESTION 13. PROGRESS TOWARDS ACCOMPLISHING ORIGINAL COMMUNITY SERVICE OBJECTIVES

(Under "4th QTR Quantity" enter the amount of work done in the fourth quarter. Do the same for "4th QTR Success".)

Remember, since this is the last or final report, there should be no objectives with a zero entered in quantity or success, if a zero was entered for the first Three quarters. (See your last quarterly report) If you have objectives that you could not do anything on please explain why.

State	Site	OP No.	Obj Code	PGM Obj/Impact Statement	Year's		Year's		4th QTR		4th QTR
					QTY	Target	QTY	Unit of Measure	Quantity	Success	Success
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----
IA	Y19A		EN-E035A	Wildlife or fisheries habitat inventoried				acres - inventoried		% of work meeting professional standards	
IA	Y19A		EN-E031A	Water management plans developed for landowners				landowners - aided		% of landowners expressing satisfaction	
IA	Y19A		EN-E027A	Physical measures installed to prevent or limit future flood damage				acres		% of measures meeting professional standards	
IA	Y19A		EN-E015A	Outdoor classrooms created				classrooms - created		% of students with increased knowledge	
IA	Y19A		EN-E012A	Students provided conservation/ environmental or ag presentations				students - educated	300	% of students with increased knowledge	100%
IA	Y19A		EN-E009A	Physical measures installed to conserve soil or protect water quality				measures - installed		% of landowners expressing satisfaction	
IA	Y19A		EN-E095B	Create new wetlands	600			acres - new wetlands	360	% improvement in water quality	6
IA	Y19A	1	EN-E126A	Schematic plans developed for rural beautification				number of schematic plans produced		% of plans implemented	
IA	Y19A	2	EN-E038A	Conduct surveys to be used in resource development				surveys - for resource development		% of surveys that resulted in plans	

8/15/96

QUESTION 13. PROGRESS TOWARDS ACOMPLISHING ORIGINAL COMMUNITY SERVICE OBJECTIVES

(Under "4th QTR Quantity" enter the amount of work done in the fourth quarter. Do the same for "4th QTR Success".)

Remember, since this is the last or final report, there should be no objectives with a zero entered in quantity or success, if a zero was entered for the first Three quarters. (See your last quarterly report) If you have objectives that you could not do anything on please explain why.

State	OP Site	Obj No.	PGM Code	Obj/Impact Statement	Year's		4th QTR	Year's		4th QTR
					QTY Target	QTY Unit of Measure		Success Target	Success Unit of Measure

USDA - NRCS
Iowa AmeriCorps
Fourth Quarter Report Summary

15. Community Service Objectives Narrative:

Over 16 separate attractions and events were assisted by the AmeriCorps Team in Williamsburg. This includes more than 60 school children on working farm tours, two non-profit community organizations (the Hartman Nature Preserve and the Grout Museum of History and Science), an Silos and Smokestacks premier project, the Chicago Great Western Public Market.

16. Community Building Objectives Narrative:

Through this project we have worked with County Conservation Boards, SWCD's, private college students and professors, local landowners and other agency personnel in establishing crayfish habitats and monitoring existing wetlands for future crayfish habitat.

The long-term infrastructure the AmeriCorps Team contributed to is Iowa's fledgling tourism/historic preservation industry, what could be America's National Agricultural Heritage Partnership. Uniting the communities which make up the partnerships began in the Waterloo and Cedar Falls area. AmeriCorps assistance resulted in four cooperative ventures with organizations from Cedar Falls, Waterloo, and Silos and Smokestacks being started (audio travel cassettes, travel guide, working farm tours were established).

17. AmeriCorps Member Development Objectives Narrative:

Member has had opportunity to assist in writing grant proposal, project reports and develop a research project. She has been able to apply what she learned in University classes while working in the field such as water sampling, testing and map-making.

Not only have the AmeriCorps members learned about developing America's only agricultural heritage partnership, but they have also learned about implementing a tourism based historic preservation program and the history of American agriculture. Their exposure to the community allowed them to develop professional skills and interests which have given a couple new career directions. LeRon Leist, after working with the exhibit fabricator at the Grout Museum of History and Science, has decided to pursue a degree in exhibit design. Suzanne Lee, after assisting with a cataloging project at the Wapsipinicon Mill, has a new interest in museum archiving. All the AmeriCorps members have been a great boon to the community. The community has compensated with some experience and direction.

SECTION V - SUCCESS STORIES

18. Unique success stories or great stories:

Have developed a cooperative project with Luther College, Decorah, Iowa to assist student volunteers in a research project that monitored the growth of crayfish in a small 2 acres wetland.

Project proved that crayfish will grow and survive in northeast Iowa.

LeRon Leist's work demonstrated a professional degree of self-motivation, attention to detail, and accuracy which prompted Silos & Smokestacks to retain her temporarily after her AmeriCorps service to help complete a major grant application.

An AmeriCorps project was highlighted in September at the Farm Progress Show, which is sponsored by the Wallace's Farmer Magazine, at Amana, Iowa. Member Cindy Joanning was in charge of planning for the show which included putting up an Iowa River Corridor Project display in the Conservation partners tent. The display also contained a stuffed trumpeter swan to highlight the upcoming release of trumpeter swans into the Amana Society Wetlands Reserve Program (WRP) wetland. Cindy, with volunteer Delmar Wetjen and other NRCS employees staffed the booth and helped out with the popcorn popping when the other volunteers needed a break. The trumpeter swans will be released in October in to a structure built by the Amana Society. In order to highlight the wetland and let people know where it is Cindy acquired funds from the Amana Society and the Iowa River Corridor Project to place a permanent sign on the wetland boundary along Iowa Highway 220.

The AmeriCorps sponsored Resource Conservation Technology Project at the golden Hills RC&D has become a widely recognized source of assistance with GIS and related technologies. AmeriCorps members working with the Project have provided leadership and technical support to GIS programs with agencies including the NRCS, Iowa Department of Natural Resources, as well private organizations such as The Nature Conservancy.

SECTION IV - CHALLENGES

19. Difficulties Faced by the Program:

Weather this last spring was a definite delaying factor in getting the crayfish stock for the wetlands. Needed female eggs to stock in order to be able to study crayfish growth. Because of the long winter in Minnesota where the eggs came from eggs were not received until late May and early June so the growing season was shorter than anticipated.

SECTION V - GENERAL INFORMATION

20. National Identity Activities:

AmeriCorps member attended two day community service celebration and workshop in Cedar Rapids with other AmeriCorps organization.

A former AMERICorps member and a current member gave a presentation to a local civic group about the program. In addition, AmeriCorps was represented in a window display built by AmeriCorps members for a local familiarization tour of downtown Waterloo, Iowa.

22. Organizational Improvements

Implement an on-line service with additional information, current program modifications, and reporting options would increase the communication response time.

23. Primary Training and Technical Assistance Needs

Educational packets which include a syllabus, activities, and information on useful topics, like using the Internet or writing a press release, would be helpful guides for site managers working to fulfill training requirements.

Total Hours:									2603

The number of Members allocated should equal the number of active members, those members whose trust status is "A" and whose Program Status is "A". If your report shows five members with "A" "A" status and yet you only have four active members, this means you have not submitted an end of term of service form for the member for the member who is no longer active. Conversely, if your report shows five members with an "A" "A" status and you actually have six members active, you have not submitted an enrollment form for the active member whose name is not shown on this report. If that is the case, list the names, SSN, Status and hours of the missing members in this sheet and send the enrollment forms to the USDA Director of National Service. If enrollment form was sent directly to the Corporation, send copies to the USDA Director of National Service immediately. If you have replaced members be certain to indicate whether the replacements are full or part-time [NOTE: The USDA Director of National Service must approve conversion of full-time slots to part-time slots IN ADVANCE.]

MEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

Tales From The Riverbank

A Newsletter for the IRC Partners

Issue Two

July 1996

Nearly 20% of Iowa's WRP/EWRP in IRCP

Eighty-four of 250 landowners in the corridor have enrolled nearly 11,500 acres in either the WRP or EWRP easement program in the IRCP, according to a recent summary. Current estimates from NRCS list almost 60,000 acres enrolled in these

programs in the state of Iowa. Nearly all of the easements within the corridor have been recorded.

Hats off to the NRCS field office staff who have put many long hours into the easement process. Their effort has made the WRP & EWRP programs a success.

IRCP becoming significant wildlife area

The FWS has achieved a milestone by obtaining options to purchase nearly 8000 acres included in 35 tracts in the IRCP, according to Ross Grimwood of the U.S. FWS realty office. Most of the initial funds allocated have now been committed. The FWS and the DNR have closed on 18 of these tracts.

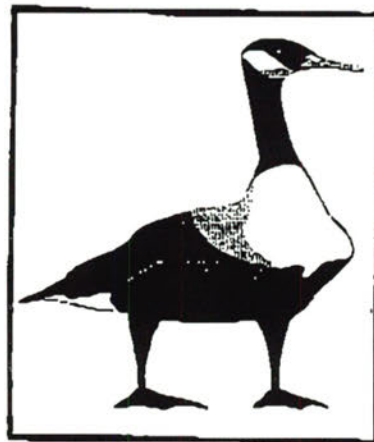

The Iowa River Corridor Office has identified an additional 21 tracts totaling 2,400 acres and hopes that the FWS can locate additional funds to assist landowners desiring a buyout. Outside of the FWS areas on the Mississippi the IRCP is already the single largest FWS refuge in the state of Iowa and its still got room to grow! This is truly an amazing first for the state of Iowa.

IRCP office helps raise over \$100,000

The IRCP office has assisted in raising over \$100,000 in contributions of funds and equipment for the IRCP and its partners. It's run of luck with grantors began with the donation of a \$50,000 state of the art ARC INFO GIS system and Hewlett-Packard GIS station and color plotter to the Nature Conservancy the Conservation Technology Support Program. This was a truly cooperative effort. Jim Munson of the FWS spotted the opportunity, the IRCP office wrote the initial grant, but

couldn't apply because of its lack of non-profit status, but passed the grant off to the Jerry Selby of the Nature Conservancy (TNC) who reworked the grant and the rest is history. The IRCP now has access to high quality GIS assistance thanks to another grant from the FWS to the TNC to provide funds for a technician.

Other donations include \$500 from the DNR for an Enviroscope water quality teaching model, over \$25,000 from Pheasants Forever, the DNR and the FWS private Grants continued on pg 3...

The number of Members allocated should equal the number of active members, those members whose trust status is "A" and whose Program Status is "A". If your report shows five members with "A" "A" status and yet you only have four active members, this means you have not submitted an end of term of service form for the member for the member who is no longer active. Conversely, if your report shows five members with an "A" "A" status and you actually have six members active, you have not submitted an enrollment form for the active member whose name is not shown on this report. If that is the case, list the names, SSN, Status and hours of the missing members on this sheet and send the enrollment forms to the USDA Director of National Service. If enrollment form was sent directly to the Corporation, send copies to the USDA Director of National Service immediately. If you have replaced members be certain to indicate whether the replacements are full or part-time (NOTE: The USDA Director of National Service must approve conversion of full-time slots to part-time slots IN ADVANCE.)

3RD Quarter Report
Iowa AmeriCorps

Question 16:

Question 17:

Now that AmeriCorps is past its initial year, the program sites have become accustomed to looking to AmeriCorps members for assistance, which greatly empowers members and increases personal responsibility.

Question 18:

This quarter has been an exciting one for the Iowa River Corridor Project. A recent summary has shown an amazing response to the WRP and EWRP programs. Over 80 of 250 landowners have enrolled with a grand total of almost 11,500 acres in the corridor. The US Fish and Wildlife Service (FWS) is in the process of purchasing almost 8000 of these acres which will form the largest FWS in the State of Iowa. Native grass seeding is hoped to be finished on the public ground by the end of the year.

The Iowa legislature has also passed a bill to declare the route that runs through the Iowa River Corridor a scenic byway. Cindy Joanning, Member, is working with Dave Degues, the local newspaper and communities along the route, and landscape architects to develop this route.

A grant was received that Cindy Joanning will be using to provide landowners with educational materials on how to identify, establish and maintain natural areas on their land. This material will in the form of fact sheets on different types of natural areas. Funding is also being sought for a public television series. Many public agencies such as the NRCS, USFWS, Iowa State University and the Iowa Department of Natural Resources are donating time to organize and produce these materials.

During May Cindy also worked closely with Maria Koschmeder, Iowa County naturalist, with school trips for children ranging from kindergarten through seventh grade.

The AmeriCorps program has contributed greatly to Golden Hills RC&D becoming organization in Iowa with the development and application of geographic information system (GIS) technology. The expertise acquired by AmeriCorps members and RC&D staff has been instrumental in the advancement of GIS applications to natural resource management with a number of local, state, and federal agencies in Iowa including county conservation boards, soil and water conservation districts, the Iowa Division of Soil Conservation, and NRCS. The AmeriCorps member working as a landscape architect has become an enormous asset to the USDA-NRCS. The member's service through the AmeriCorps program has allowed the agency to greatly expand the landscape architecture technical assistance provided to its clients.

There are vacancies that you can not fill and you are relinquishing them.

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

No. of Members for Whom Forms Have NOT Been Recieved*: X

ENTER the number of vacancies that you intend to fill in the next reporting period: _____

ENTER the number of vacancies you intend to relinquish for the program year: _____

If the number of Members allocated is greater than the number of forms received, there are four options: 1. There are Members enrolled in programs whose forms have not been submitted to the USDA Director of National Service. If that is the case, list the names, SSN, Status and hours of the missing members on the back of this sheet and send the enrollment forms to the USDA Director of National Service. 2. The enrollment forms were sent directly to the Corporation. If that is the case, send copies to the USDA Director of National Service immediately. 3. There are vacancies in your program you intend to fill in the next reporting period. If that is the case, enter the number of vacancies on the appropriate line. 4. There are vacancies that you can not fill and you are relinquishing them.

MEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARDS, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

QUESTION 15: COMMUNITY SERVICE OBJECTIVES NARRATIVE (OPTIONAL):

1. Silos and Smokestacks - The community service objectives of the AmeriCorps members working with Silos and Smokestack entails the completion of tasks to employ heritage tourism and resource conservation as economic revitalization tools.

QUESTION 16: COMMUNITY BUILDING OBJECTIVES NARRATIVE (OPTIONAL):

QUESTION 17: AMERICORPS MEMBER DEVELOPMENT OBJECTIVES NARRATIVE (OPTIONAL):

1. Patrick Lake, Williamsburg - " AmeriCorps has allowed me to use my first educational award toward loans and I look forward to using my second towards grad school. I have also received practical, relevant work skills in my area of interest and gained valuable experience in the workplace and with a Federal agency. Empowered with the responsibility to "Get Things Done", I have worked with the rural community to achieve community, agency, and personal goals."

2. Cindy Joanning, Williamsburg - "AmeriCorps has given me the opportunity to receive training that I would otherwise have had to pay for. Lynn Betts, NRCS Information Officer, has been extremely helpful and patient while teaching me how to use Macintosh applications that have been useful to me and will increase my marketability in future job searches. I have used these skills, such as desktop publishing, to create a newsletter and flyers for the Iowa River Corridor Project. I look forward to learning more from Lynn and his staff."

3. Connie Boehlke, Postville, has been able to assist in the writing project reports and develop a research project. She has been able to apply what she learned in University classes while working in the field doing water sampling, testing and map making.

QUESTION 18: UNIQUE SUCCESSES OR GREAT STORIES:

1. Silos and Smokestacks - Under the guidance of the Silos and Smokestacks staff and AmeriCorps member LeRon Leist and AmeriCorps work detail from Denver CO was able to commence clean-up activities on portions of a historic Waterloo/Cedar Falls icon, the National Cattle Congress Grounds. More importantly, measurements were taken to develop the only drawings believed to exist for the National Cattle Congress Grounds.

Under the direction of Silos and Smokestacks staff, AmeriCorps member Robert Rake planned, formatted, developed, and assembled two table top displays which highlight the activities of the major ag-industries in Iowa.

AmeriCorps member Suzanne Lee is gathering the remaining permission forms needed to allow Silos and Smokestacks to complete the audio cassette tapes for self guided tours.

2. For almost a year and a half, AmeriCorps Members have been working with the Iowa River Corridor Project. Members have reached over 250 landowners and worked with them on flood relief efforts. As a result, the project has enrolled almost 5000 acres in WRP and EWRP and has sparked local community interesting such projects as a scenic byway in the corridor. Members continue to assist all landowners in the corridor with floodplain management and have recently been involved in a seminar series that focused on wildlife, wetland, forest, forage and grassland management as well as updates on the farm legislation and other financial concerns. Cindy Joanning contacted each of the 250 landowners in the corridor by mail to let them know of the seminars.

3. Connie Boehlke, Postville, has developed a cooperative project with Luther College, Decorah Iowa to provide a student volunteer with a research opportunity. She also is working with a Cresco Iowa High School student to develop a research project dealing with water quality in conjunction the Iowa Department of Natural Resources.

QUESTION 19: DIFFICULTIES FACED BY THE PROGRAM:

1. Silos and Smokestacks - The main obstacle to AmeriCorps contributions to Silos and Smokestacks' heritage tourism and conservation efforts is the number of participants. Hands-on development activities at many of the heritage sites require sizable work forces.

2. There are three main objectives that the Iowa River Corridor Project partners wish to meet. The first two objectives, a socio-economic improvement for the landowners and communities and improved water quality along the river, are well on their way to being met. There are already studies underway to measure the effects of the project on the surface and the ground water. The third objective of increasing the wildlife in the area, however, is being pushed aside. It is likely that the project will increase the wildlife and plant life diversity along the river, but there is no way to know for sure without biological monitoring.

QUESTION 20: NATIONAL IDENTITY ACTIVITIES (OPTIONAL)

1. Connie Boehlke, Postville, has been researching the Internet for technical information and research work that Universities have done with wetlands and crayfish.

QUESTION 21: ORGANIZATIONAL CHANGES:**QUESTION 22: ORGANIZATIONAL IMPROVEMENTS (OPTIONAL):****QUESTION 23: PRIMARY TRAINING AND TECHNICAL ASSISTANCE NEEDS (OPTIONAL):**

QUESTION 15: COMMUNITY SERVICE OBJECTIVES NARRATIVE (OPTIONAL):

1. Silos and Smokestacks - The community service objectives of the AmeriCorps members working with Silos and Smokestack entails the completion of tasks to employ heritage tourism and resource conservation as economic revitalization tools.

QUESTION 16: COMMUNITY BUILDING OBJECTIVES NARRATIVE (OPTIONAL):

QUESTION 17: AMERICORPS MEMBER DEVELOPMENT OBJECTIVES NARRATIVE (OPTIONAL):

1. Patrick Lake, Williamsburg - " AmeriCorps has allowed me to use my first educational award toward loans and I look forward to using my second towards grad school. I have also received practical, relevant work skills in my area of interest and gained valuable experience in the workplace and with a Federal agency. Empowered with the responsibility to "Get Things Done", I have worked with the rural community to achieve community, agency, and personal goals."

QUESTION 18: UNIQUE SUCCESSES OR GREAT STORIES:

1. Silos and Smokestacks - Under the guidance of the Silos and Smokestacks staff and AmeriCorps member LeRon Leist and AmeriCorps work detail from Denver CO was able to commence clean-up activities on portions of a historic Waterloo/Cedar Falls icon, the National Cattle Congress Grounds. More importantly, measurements were taken to develop the only drawings believed to exist for the National Cattle Congress Grounds.

Under the direction of Silos and Smokestacks staff, AmeriCorps member Robert Rake planned, formatted, developed, and assembled two table top displays which highlight the activities of the major ag-industries in Iowa.

AmeriCorps member Suzanne Lee is gathering the remaining permission forms needed to allow Silos and Smokestacks to complete the audio cassette tapes for self guided tours.

QUESTION 19: DIFFICULTIES FACED BY THE PROGRAM:

1. Silos and Smokestacks - The main obstacle to AmeriCorps contributions to Silos and Smokestacks' heritage tourism and conservation efforts is the number of participants. Hands-on development activities at many of the heritage sites require sizable work forces.

QUESTION 20: NATIONAL IDENTITY ACTIVITIES (OPTIONAL)

QUESTION 21: ORGANIZATIONAL CHANGES:

QUESTION 22: ORGANIZATIONAL IMPROVEMENTS (OPTIONAL):

QUESTION 23: PRIMARY TRAINING AND TECHNICAL ASSISTANCE NEEDS (OPTIONAL):

Clinton Presidential Records Digital Records Marker

This is not a presidential record. This is used as an administrative marker by the William J. Clinton Presidential Library Staff.

This marker identifies the place of a tabbed divider. Given our digitization capabilities, we are sometimes unable to adequately scan such dividers. The title from the original document is indicated below.

UNITED
STATES
DEPARTMENT
OF AGRICULTURE

August 27, 1996

TO: Dave DeTullio, AmeriCorps Project Director, NRCS, Idaho

FROM: Joel Berg, USDA Director of National Service *JB*

SUBJECT: Year-to-Date Data on Objectives and Member Forms

Attached is a "year-to-date" progress report showing accomplishments on objectives through the third quarter report. **This data, plus the fourth quarter data, will be provided to members of Congress representing your state and to your agency leaders. It is imperative that the information reflected in this report be as accurate as possible.** The report also shows the degree to which you have accomplished your objectives which were agreed to at the beginning of this program year.

I ask that you carefully review this report. Review each objective with the following items in mind:

1. **Accuracy of the data.** This information will be shared with many different groups, and it is important to be accurate in our reporting as well as getting credit for all the great work you have done during the year.

2. **Completion of community service objectives.** One way to determine the successful completion of objectives is to measure accomplishments against the target quantity measurement which you established at the beginning of the year. The table below gives you a snapshot picture of your accomplishments through the third quarter. The last five columns reflects your work measured against the target quantity.

SITE #	NUMBER OF OBJECTIVES	NUMBER OF OBJECTIVES EXCEEDED	NUMBER OF OBJECTIVES AT 100%	NUMBER OF OBJECTIVES 50-100% COMPLETE	NUMBER OF OBJECTIVES 0-50% COMPLETE	NO TARGET QUANTITY
Y16	3	3	GREAT JOB!!			

3. **Program codes.** Review the program code for each of your objectives. Please be sure that the data you are recording for quantity matches the quantity for that program code. If you are counting something other than the quantity measurement for the code, please indicate exactly what you are counting.

4. **Congressional Districts.** Please indicate in which Congressional District(s) the work was actually accomplished. This will let us be very specific to Members of Congress as to what work was done in their district.

5. **Volunteers.** Please explain what the volunteers have done with your AmeriCorps members. Also ensure that the volunteer numbers you have been providing to us each quarter is for the quarter **only**, not cumulative for the year.

Your assistance in this reporting enables us to meet our legal obligations as well as providing us with the necessary information to promote our USDA AmeriCorps program to all interested parties. Providing this data in an accurate and timely manner is one of your most important duties as an AmeriCorps Project Director.

Member Forms

A review of your member forms reveals that they are up-to-date. Again, good job. Also pass on my thanks to Pam, I know she has been a big help to you.

Please submit the End of Term forms for members when they have completed their term of service.

If we are to have all our records in order and insure that those AmeriCorps Members who are entitled to benefits receive them and that those who are not entitled to benefits do not receive them, all forms must be submitted to this office.

If you have any questions or problems, please contact Dee DiFiore at (202) 690-3051 or Ron DeMunbrun at (202) 690-3894.

Thank you for your cooperation on this matter.

Mr. Joel Berg
USDA Director of National Services
Ag Box 1301, Room 536-A
Washington, DC 20251

Dear Mr. Berg:

Attached is Idaho's fourth quarter progress report. We have included three appendix items for additional information. Thank you for your positive comments related to our AmeriCorps project accomplishments.

We look forward to another year of USDA AmeriCorps and hope that the final go-ahead will be provided soon. We greatly appreciate your dedicated persistence and most importantly your quality assistance.

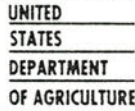

If you have any questions regarding this report, please contact Dave DeTullio at (208) 378-5702.

Sincerely,

LUANA E. KIGER
State Conservationist

No. of Members Allocated by USDA: 1

Member Name	SSN	SER STAT	PGM STAT	TRT STAT	HOURS				Total
					1st Rpt	2nd Rpt	3rd Rpt	4th Rpt	
BENGE, REBECCA	S. (b)(6)	F	A	I	159	458	540	543 ✓	1157
Total Hours:									1157

No. of Members Allocated by USDA: 1

No. of Active Members Whose Enrollment Forms were recieved at USDA (not including terminations): 1

No. of Members for Whom Forms Have NOT Been Recieved*: 0

REMEMBER THAT THE TOTAL NUMBER OF HOURS FOR EACH MEMBER SHOULD BE THE HOURS SERVED AND NOT INCLUDE THE HOURS FOR PERSONAL LEAVE (40) AND HOLIDAYS (72). IF YOU HAVE BEEN COUNTING THESE IN THE FIRST 3 QUARTERS, PLEASE ADJUST THE 4TH QUARTERS HOURS SO THAT THE TOTAL IS AT LEAST 1700 OF SERVICE (assuming the person was full-time and successfully completed the program.) You can have more than 1700 hrs for a total just be sure all the hours were service hours. Thank You

* If the number of Members allocated is greater than the number of forms received, there are four options: 1. There are Members enrolled in programs whose forms have not been submitted to the USDA Director of National Service. If that is the case, list the names, SSN, Status and hours of the missing members on the back of this sheet and send the enrollment forms to the USDA Director of National Service. 2. The enrollment forms were sent directly to the Corporation. If that is the case, send copies to the USDA Director of National Service immediately. 3. There are vacancies in your program you intend to fill in the next reporting period. If that is the case, enter the number of vacancies on the appropriate line. 4. There are vacancies that you can not fill and you are relinquishing them.

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

Total Hours:									679

No. of Members Allocated by USDA: 1

No. of Active Members Whose Enrollment Forms were recieved at USDA (not including terminations): 1

No. of Members for Whom Forms Have NOT Been Recieved*: 0

REMEMBER THAT THE TOTAL NUMBER OF HOURS FOR EACH MEMBER SHOULD BE THE HOURS SERVED AND NOT INCLUDE THE HOURS FOR PERSONAL LEAVE (40) AND HOLIDAYS (72). IF YOU HAVE BEEN COUNTING THESE IN THE FIRST 3 QUARTERS, PLEASE ADJUST THE 4TH QUARTERS HOURS SO THAT THE TOTAL IS AT LEAST 1700 OF SERVICE (assuming the person was full-time and successfully completed the program.) You can have more than 1700 hrs for a total just be sure all the hours were service hours. Thank You

* If the number of Members allocated is greater than the number of forms received, there are four options: 1. There are Members enrolled in programs whose forms have not been submitted to the USDA Director of National Service. If that is the case, list the names, SSN, Statns and hours of the missing members on the back of this sheet and send the enrollment forms to the USDA Director of National Service. 2. The enrollment forms were sent directly to the Corporation. If that is the case, send copies to the USDA Director of National Service immediately. 3. There are vacancies in your program you intend to fill in the next reporting period. If that is the case, enter the number of vacancies on the appropriate line. 4. There are vacancies that you can not fill and you are relinquishing them.

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

11. Please list the total number of **volunteers** who took part in activities which were sponsored or organized by all the Members in the state during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
<u>0</u>	<u>39</u>	<u>1054</u>	<u>238</u>	<u>1331</u>

12. Please list the total number of **hours of community service** completed by the volunteers cited above during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
<u>0</u>	<u>132</u>	<u>83</u>	<u>321</u>	<u>536</u>

SECTION IV - PROGRESS TOWARDS ACCOMPLISHING SERVICE OBJECTIVES:

13. Original Community Service Objectives: Attached are sheets summarizing the community service objectives that were originally approved for each operating site. In cases where a single objective may take an entire year to complete, that objective may have a sub-objectives listed. **You need to fill in the column marked "4th QTR Quantity" and the column marked "4th QTR Success" --- as well as any column that is blank, has a zero, or has a question mark --- for EVERY operating site.** Each chart should have the following columns:

"State" - The standard two-letter code for your state

"Obj No" - Each community service objective for each site is assigned an individual number

"Op Site" - Each site's unique operating site identification

"PGM Code" - Each type of service has been assigned a unique code to describe that type of service. See the appendix to this report entitled "Community Service PGM Code List"

"Obj/Impact Statement" - A few words verbally summarizing the community service objective

"Year's QTY Target" - The year's numerical goal for the people or things to be aided

"Target Unit of Measurement" - The unit of measure used in the previous column

"4th QTR Quantity" - Provide a hard number indicating progress towards the "Year's QTY Target"

"Year's Success Target" - Number for a way of measuring *quality* of service provided --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"Success Unit of Measure" - Explanation of the number in the previous column --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"4th QTR Success" - Provide a hard number indicating progress towards the "Year's Success Target"

8/26/96

QUESTION 13. PROGRESS TOWARDS ACCOMPLISHING ORIGINAL COMMUNITY SERVICE OBJECTIVES

(Under "4th QTR Quantity" enter the amount of work done in the fourth quarter. Do the same for "4th QTR Success".)

Remember, since this is the last or final report, there should be no objectives with a zero entered in quantity or success, if a zero was entered for the first Three quarters. (See your last quarterly report) If you have objectives that you could not do anything on please explain why.

State	Site	OP No.	Obj Code	PGM Obj/Impact Statement	Year's		4th QTR Quantity	Year's		4th QTR Success
					QTY Target	QTY Unit of Measure		Success Target	Success Unit of Measure	
ID	Y16A	1	EN-E093B	Home owner requests assessment package	360	packets disseminated	410 ✓	50	% who initiate an assessment	323
ID	Y16A	1	EN-E	Awareness and exposure to the Home*A*Syst program	600	people - Home*A*Syst	34,942 ✓	10	% farmers who agree to participate	472
ID	Y16A	3	EN-E114A	Installation of corrective measures and/or taking of corrective action by the homeowner	145	measures - installed	73 ✓	100	# who install corrective measures	73

15. Community Service Objectives Narrative: If you feel it is necessary and/or helpful, you may use this space to describe in more detail accomplishments towards the original community service objectives reported in question 13 and/or your additional community service objectives reported in question 14. Please make sure you include the Operating Site ID Number in each narrative description so we can be clear which accomplishment matched to which site.

The Idaho Home*A*Syst program did not extend its overall objectives from those originally designated.

16. Community Building Objectives Narrative: Briefly describe how projects have brought together diverse groups of people, empowered communities to solve their own problems, built long-term structures that will last beyond each AmeriCorps Member's term of service, and generally improved the abilities of local citizens to help improve their own lives.

The very nature of the Idaho Home*A*Syst program lends itself to a structure of people helping communities who will then have the tools to help themselves. In their single term of service, members felt that they had greatly contributed laying the groundwork in their communities for citizens to be both more aware and more proactive in relation to their water quality. And all of our members felt that they had made a positive contribution to their communities -- as well as attaining numerous benefits for themselves.

I would also add that the addition of our new part-time member, who as a Native American, is a great contribution the enhancement of diversity in our program. We are very fortunate to have him as our newest member.

17. AmeriCorps Member Development Objectives Narrative: Briefly describe how the AmeriCorps Members themselves have benefited from serving in the program, particularly in regard to expanding their own educational opportunity and increasing their own ethic of personal responsibility. Describe specific skills learned by Members through either their service or training. Describe any Members that earned a GED or otherwise advanced their education. Describe any Members that left public assistance to join AmeriCorps. Relate how AmeriCorps allowed Members to continue college or graduate school. Describe how Members may have changed their ethic of work, citizenship, or community volunteerism.

We chose to respond to this question in two parts; following below are responses from our Members when asked to reflect upon this question. Also included as Appendix B are "Memorable Field Experiences" from our Members.

"Most of all, being an AmeriCorps member has enabled me to learn more about myself, the environment in which I live, and what I can do to make a positive change on the impact humans have on the environment and their communities."

"I can now see firsthand what a difference volunteers can make. I was an involved person in my younger years, back when family and job responsibilities did not take up most of my time. Now I see that even though I may not feel that I have the time to get involved, perhaps maybe I should MAKE the time as many of the issues facing communities today are critical to the health and safety of my family."

"In retrospect, I would say that being involved in this program has definitely increased my ethic of responsibility. As I go about my daily life, I find myself thinking about how a particular practice can affect the environment, and that if in my job I am promoting particular practices, I should be using similar practices at home."

"My work in this program has made me more aware of environmental issues, and the part these issues play in everyday activities. It has also allowed me to combine my agricultural background, my teaching

background, and my ability to see the positive aspects of both sides of these issues, to serve as an educator and 'middle man' in presenting the public with possible solutions, alternatives and/or precautions to take in protecting our natural resources."

"Every day on the job was a new and different challenge, which was nice as so many jobs become humdrum after a while."

"As for citizenship, I have always been a proud American, and it was wonderful to have the opportunity to 'give something back' into the system. I think it is really great to have a program such as AmeriCorps where assistance in improving living conditions is actually performed here, at home, in the United States. Our people need, and deserve, assistance as much as those overseas but are often overlooked."

"This experience has enabled me to utilize my education and experience from two discipline areas: agriculture and education, a feat of often dreamed of accomplishing in a job."

"My experience as an AmeriCorps member has been exceptionally gratifying. I have made many new acquaintances and developed lasting friendships. I succeeded in meeting the goals I set for myself and the group as a whole also met its goals. I hope to one day secure employment in one of the agencies that I have had the opportunity to work with."

"The AmeriCorps program has been of great benefit to me because it has allowed me to get my "foot in the door" to future employment. This program will enhance my resume and future career. Now that I've implemented a well-head protection program, given presentations in school and various community meetings, and met with professionals in the natural resources field and become part of the conservation program, I am more confident that this is the career I want to pursue. The program has also made it clear to me that I should continue my education. As I do not currently have any educational loans, my grant can be directly applied to my future education."

"AmeriCorps allowed me to enter the work force right after college and explore many future employment opportunities of interest to me."

"Being involved in this program has shown me exactly how important the NRCS, SCC, and local soil districts' framework is in providing services to producers, rural residents, and communities unlike any other governmental agencies. These agencies have also given me the chance to see first hand just how gratifying community service can be."

"I have gained outstanding experience in a natural resource field and have been able to participate in a wide variety of duties."

"Serving in a national service program has had an impact on my feelings towards work ethics, community involvement, and active citizenship by further strengthening my positive outlook on them."

"My experiences have allowed me to secure a job for my Conservation District which I could not have done without the AmeriCorps program."

"The program has shown me that community service can be both educational and enjoyable. I have realized that I enjoy getting involved in community activities and realizing the gratitude people show because of it. "

"As a result of working as an AmeriCorps member, I will certainly volunteer more of my time towards other projects that need volunteers."

"The educational grant will afford me the opportunity to continue my education."

18. Unique Successes or Great Stories: Briefly describe one or two unique and/or exceptional success stories, a program highlight, or a 'great story' from your state. Please explain any instance in which AmeriCorps Members recruited non-AmeriCorps community volunteers for projects. Please include all media coverage, including original newspaper clips, videotapes of TV coverage, and cassette types of radio coverage, any letters of support or thank you letters; 'before and after' photographs, brochures, posters, and newsletters created by the project; and other types of creative documentation.

Throughout the last two quarters, many of our members have been involved with the Emergency Watershed Protection Program as a result of the flooding in Idaho. These members have taken part in such activities as: assessing transportation routes to determine which roads were opened and passable in order to better prepare for damage assessment teams arriving periodically; assisting with preliminary damage assessments, photographing sites, and assembling boxes of equipment for damage assessment teams; documenting damages to wells, septic systems, structures, fields, etc. in order to keep the District Conservationists better informed; answering phones and responding to questions on who and where to go for water, supplies, emergency response, general assistance, etc.; relaying passable transportation routes to Red Cross response units; and receiving training and assisting in filling out EWP Damage Survey Reports. A few members have continued even into the present working on EWP projects, and have been recognized nationally for their contributions in this very important effort.

Our members also took place in the commemorative tree planting in memorial of the Oklahoma City bombing victims (this actually took place in the third quarter). Enclosed as Appendix C is one article from this day relaying the experience in just one of our represented communities.

Following is a story passed on by one of our Members:

"On the evening of August 13, 1996, I was staffing the Snake River Plain Demonstration booth for the fair. Around 8:00 p.m. a family came into the booth to look at the display. After looking at most of the pictures for the Home*A*Syst program, the mother asked about some materials I was displaying regarding an older nitrate study in that county. I gave her what information I had about the study and then she questioned me on why it is important to test for nitrates (a component of our program). I mentioned methemoglobinemia (blue baby syndrome), and at this moment the woman became very moved and one of her children had to steady her. She started crying and apologized to me for her emotions. Apparently I had hit upon a touchy subject and from further conversation with the woman, she told me that she had lost an infant son just last week and that there were nitrates present in some of the tests done. Another one of her children went to get her husband and they all came into the booth to get some information on nitrates in the area. I shared with them all I knew of nitrate levels in their area, and of the impacts of high nitrate levels. They of course can now only wonder if the nitrates in their water may be a factor in losing a child. Though I can only have an impact on their water quality awareness for the future, if I can impact just one single family to take proactive measures I know that I have made a world of difference."

19. Difficulties Faced by the Program: Use this section to report on any problems your Members have encountered in the program this period. These should be significant issues which were related to achieving objectives, significant delays in implementation, administrative problems, or any other expectations, events or incidents that have caused the Members concern. State the problem concisely and how the issue has, or has not been resolved. Be sure to outline the steps taken and identify any resources needed to assist in resolving the problem.

The fourth quarter of the program has not experienced any significant difficulties. Objective goal numbers were affected by the diversion of some members toward emergency EWP work. However, this work served as necessary and beneficial to local communities, and was certainly within the realm of environmental wellness and water quality.

20. National Identity Activities: Please describe any activities undertaken by Members that fostered the national identity of AmeriCorps. These could include joint service activities, meetings, with other AmeriCorps projects, national telephone conference calls, use of Internet to communicate with other sites, etc.

Members expressed the greatest satisfaction from relaying to those they assisted and came in contact with of the National AmeriCorps service program. They were surprised to find the lack of awareness of the program; sharing the strengths of AmeriCorps fostered their own relationship as a Member of this national movement .

21. Organizational Changes: Please outline and describe any changes in your program's organization and/or structure during this quarter.

There have been no organizational quarter during the fourth quarter.

22. Organizational Improvements: Please write any suggestions by you, your Members, site managers, or anyone else regarding ways in which the USDA or CNS AmeriCorps program could be improved.

We were very pleased with the program, and hope to be able to continue working with AmeriCorps for another year.

23. Primary Training and Technical Assistance Needs: Please specify precisely what kind of staff or Member training or other technical assistance can be provided by USDA, the Corporation for National Service, or other source to improve your projects.

Though the conflict resolution training that our members received was excellent, we did experience some difficulty in accessing that training. It would have been helpful to have had notification in a more timely manner, as well as better accessibility to the training.

PROGRESS TOWARDS ACCOMPLISHING ORIGINAL COMMUNITY SERVICE GOALS

	1st Qtr. Total	2nd Qtr. Total	3rd Qtr. Total	4th Qtr. Total	TOTAL	Year Target
awareness #'s	10314	32355	80982	34942	158593	600
# agreed to participate	106	176	578	472	1332	400 (66% of 600)
# packets disseminated	89	155	393	410	1047	360
# initiating assessments	61	104	305	323	793	180 (50% of 360)
# corrective actions	23	39	88	73	223	145
# volunteers recruited	0	39	1054	238	1331	N/A

Awareness #'s: Number of those made aware/exposed to the Home*A*Syst Program.
 # agreed to participate: Number of homesteads agreeing to participate.
 # packets disseminated: Number of homeowners requesting/receiving assessment packets.
 # initiating assessments: Number of homeowners initiating an assessment (with or without assistance).
 # corrective actions: Number of homeowners who install corrective measures and/or take corrective action.
 # volunteers recruited: Number of non-AmeriCorps members recruited by AmeriCorps members for various projects and programs. While this figure is not part of the Community Service Objectives, it is tracked through the USDA State Progress Reports. There is no target number, thus that column is not applicable. These numbers are presented for your interest only.

MEMORABLE FIELD EXPERIENCES
AS RECOUNTED BY
THE 1995/96 IDAHO HOME*A*Syst LOCAL COORDINATORS

DON'T MIND THE DOG. WATCH OUT FOR THE GOOSE!

I was on my way to conduct an assessment and I was lost. After cruising the small town main street in the soil probe truck two or three times, I decided to ask some people having a picnic in their front yard where I was. They more or less explained and then they wanted to know what that thing was in the back of my truck.

Talking to these folks gave me an opportunity to introduce the Home*A*Syst program. The people were more than happy to have an assessment done right then and there. I had an audience of five adults and probably a half a dozen kids, and everyone followed me through the steps of the assessment. The children thought the nitrate test was cool so I let them help me with that. After completing this impromptu assessment, the homeowners called their neighbors on the hill to have an assessment done there.

I got good directions this time and went to the next assessment. While pulling up to the home, I noticed that there was a very large and mean looking dog. Fortunately I have been in this situation before so I deployed a mean dog treat from my trusty lunch box. The dog came up to me, gave a look, took a sniff, gave a woof, and then took a bite of the bagel and walked away. The homeowner who was expecting me came out to meet me and told me the dog was harmless.

I went through my explanation of the Home*A*Syst program and then prepared to do a nitrate test on their drinking water. As I was setting up the kit, the dog came back and was being very friendly. Little did I know that this dog had a mate. The dog's mate was this BIG Crazy Goose. As I was leaning over to scratch the dog under the chin, the incident happened. BAM! From behind and out of nowhere this BIG Crazy Goose goosed me. When I turned around to see what had attacked me, here was the biggest, meanest, most crazed, jealous goose I'd ever seen. After the homeowner stopped laughing he stepped between me and the goose and said that the goose had never done this before. I turned my back and continued to do the nitrate field test. It wasn't five seconds later that BAM! the goose came back and once again I got nailed. This time the homeowner promised it would not happen again. The tone of his voice did not sound convincing. To make a long story short, I finished the assessment and thanked the homeowner for participating in the Idaho Home*A*Syst project, and he thanked me for coming.

As I was walking back to the probe truck, here comes the BIG Crazy Goose for one final bite. There I was - carrying about 15 pounds of material in one hand, a test kit in the other, and doing a forty yard mosey from this crazed, honking, wing flapping, hissing creature. I won this race. I don't think that I could have turned the other cheek this time if the goose had caught me. As I drove down the lane, I could see the homeowner and his wife smiling and waving. Not only did they participate in the Idaho Home*A*Syst project and gain some water

quality awareness, but they got a good laugh out of it.

TIPS

While working with rural residents and farmers, I have found that taking the time to listen to them and get acquainted with their questions opens the door for the Home*A*Syst project. When I first start talking about an assessment, I stress that this program is something they design for their own homestead. This gives homeowners control of their assessment. Once a homeowner becomes comfortable with you delivering the information and they know that you are not forcing something onto them, then the educational and awareness part of the project kicks in. People learn a great deal more when they are relaxed and comfortable in asking questions. When someone finds that the program has value, then they tend to spread the word for you.

DIGGING IN

My term as an AmeriCorps member was a very memorable experience, and I enjoyed all of the various jobs and projects I helped out on. Therefore, I would rather give a short report on my full term rather than one single experience.

The first three months were the slowest and least exciting portion of my term as I tried to learn a new project mainly by trial and error. Getting public involvement was difficult because of a generally conservative attitude in my rural community that was expressed as: "My water is fine, been drinking it for years so why worry about it now?"; "We don't want the government involved with us or telling us what to do."; and "I'm way too busy to deal with this right now." Gamely, our office district conservationist and I went through the district newsletter mailing list and picked out 100 people to receive a personal letter asking them to participate in Home*A*Syst. Four or five people responded. I then advertised the program through the local newspaper and district newsletters but, for the most part, the Home*A*Syst materials I gave out were to friends or people I already knew.

Then came the nitrate tester. I persuaded the district to purchase a nitrate pocket colorimeter water tester. I immediately put an article in the paper, on the radio, and in three county district newsletters stating that rural homeowners could get a free water test. Big results! I was up to my ears for two straight weeks. I did about 25 assessments along with the nitrate test - about the same amount I had done in the previous three months. I then realized that those AmeriCorps members without one were really deprived of a valuable tool so, suffering from that guilt, I shared the tester with a neighboring AmeriCorps local coordinator. In nine months, I completed 58 assessments.

Throughout the year I had many good opportunities to get more involved in NRCS activities, and I wasn't a bit reluctant to jump at any chance. I helped our field office in EWP work which arose due to flood damage in February. I assisted in survey work, site assessments, picture taking, and phone calls. I assisted the high school biology II class in a project to restore a heavily damaged creek that passed right next to the school. Another great experience was participating in a two-week stream survey project in our watershed. Teamed up with other NRCS personnel and a pair from the Idaho Fish and Game, we conducted a thorough

investigation of stream conditions and fish populations. We waded two to five miles of stream tributaries each day. The weather was excellent and the water temperature comfortable. I also completed a three-day stint installing snow pillows at different snow-tel sites. The shovel work was tough but learning about the process and knowing I was involved in it made it all worthwhile. Next week I am spending three days with the soil survey team from our office. Again I know I am going to get my hands dirty, but gaining the experience and learning what is involved in a soil survey will be invaluable. Getting a job in today's world is not easy. The more things you do, the more people you meet, the more experience you get - the more you are likely to end up in a win-win situation.

TIPS

This brings me to my final point, relaying some words of advice to the new local Home*A*Syst coordinators. Get involved. Blend into the system. Take initiative. This job will only be what you make. Have a strong desire to spread the word of the Home*A*Syst project, but don't let it bog you down either. When things are slow, find other things to do. It will only help your job experience history. Future employers look for those people who are on the go - who are energetic and willing to try new things.

SEEING THINGS THROUGH

One of my assessments led me to a family with a hand dug surface well approximately four feet in depth. It was totally unsecured and often served as a drowning trap for small rodents. Furthermore, the reserve capacity of the well was insufficient for the family's needs during the dry summer months. Basically, the well needed to be deepened, lined, and securely covered - but the family had no financial resources to make the needed improvements to this significant health risk.

I sought donations of labor and materials to get their drinking water well improved. Nearly all of the parts were donated to remedy their problem, including excavation and plumbing pledges, so now the family will have a vastly improved well system by the beginning of winter.

TIPS

Accept each situation you encounter as your responsibility. If you have found a site which needs assistance, do your best to offer viable avenues of mitigation within the homesteader's means because, if you raise concerns, it is only fair that you also offer attainable solutions. Stay focused and see things through to a successful conclusion. Your accomplishments should be measured in much the same way that Olympic divers are measured: Style and degree of difficulty are important, but of equal importance is how little you disturb the surface of the pool at the end of the dive!

OPEN HOUSES

At the same time that my district conservationist expressed a need to inform small acreage property owners about the NRCS and district services available to them, I had been considering different means of promoting Home*A*Syst. The most frequently asked question I was receiving was whether we did water testing, so I came up with the idea of having an open house at our local soil conservation district office. For the open house, a one-page handout listing district services could be distributed along with Home*A*Syst materials and the water testing information. I offered local labs an opportunity to support water quality awareness by offering discounted bacteria/nitrate testing in connection with the open house. The district board approved the project; I drafted the handout and contacted the local health district, and we issued press releases. The turnout was less than expected but we continued to get calls for several weeks after the event and the contacts we made provided new leads.

One of my calls during the open house led to an assessment with a homeowner who was a retired urban dweller who had recently moved to the country. He had no information on his well or septic system and his attempts to gain information had been unsuccessful. He asked if we could be of assistance. He also wanted information on how to protect from erosion a cut slope behind his home and garage site. I tested his water and we did a site evaluation. I contacted the Idaho Department of Water Resources and, while no record was found on his well, I did find the company who had installed his submersible pump. I also directed him to the local health department for information on his septic system. Finally, I got advice from my district conservationist regarding the erosion problem and passed the advice along. The homeowner was very happy with the Home*A*Syst evaluation and materials.

Some of the actions taken as a result of the evaluation were his plans to test his water on a regular basis; a request was submitted to the health department for a copy of the septic system permit and plans; and he checked on instituting the recommended erosion control measures.

TIPS

- . Communicate frequently with your district conservationist because good ideas can come from routine discussions.
- . Go beyond the basic Home*A*Syst program boundaries by participating in NRCS and other agency and community projects. This will yield a wealth of knowledge, experiences, skills and contacts.

500 KIDS AND 500 DETAILS

I was asked to coordinate the Environmental Awareness Days Program for my area's 500 sixth grade students. I was under the understanding that another person in my office would help out on this project so I was not too worried about it being a success. I started working on the project and lined up thirty high school volunteers to help guide the sixth graders and help teach

the classes. I also arranged for experts to teach the classes on the first day.

After working on the project for a month, I realized that person who was supposed to assist me in coordinating the project was not available, so I ended up putting on the project pretty much alone. I printed the materials, lined up the experts and the props, visited every classroom to introduce the project, conducted a cover contested, arraigned for the high school students to help, presented awards to cover contest winners, performed little tasks like name tag distribution, and even taught a birds-of-prey class.

Day-one began as a nightmare. Some of my experts ran into scheduling difficulties and could not make it (I filled in with high school students). It rained (I moved everyone to the fair buildings instead of the state park). Some people forgot their appointments. Only a handful of the high school students came to their meetings (My supervisor took over their instruction on the first day of the activities).

On the second day of activities I was much more relaxed and was able to enjoy the program because I knew I had given it my best shot. I met some great people and introduced more than 500 elementary students to environmental and agricultural issues. After the program was over, I talked with all the elementary teachers and everyone agreed the activities were a success.

TIPS

I learned many things from the experience: I learned not to expect everyone to remember or hold up their end of the bargain. I learned I cannot control others, that when things don't go as planned, stick with your goals and focus on the expected product. If the end product of your work satisfies you, then don't worry about the process.

SOMEBODY'S LISTENING

When I first came on board, my local Home*a*Syst was project was slow in starting, so I was helping out with the district information and education programming. One of the education tools I used was the Enviroscope watershed model to teach water quality to a local sixth grade class. Then things picked up and I became involved with, among other things, the local EPA certified laboratory. I used their services to supply sample bottles and water testing for the Home*a*Syst project; and they referred some folks to me for assessments.

When I went out on one assessment I was met by a young boy who introduced himself as Kevin and asked if I remembered him. I didn't, but he remembered me from his sixth grade science class, and it was his grandmother who had called for help with the assessment. He sat and listened carefully as I explained the Home*A*Syst materials to his grandmother and then he helped by running to get tools and flashlight to look at the well.

As the grandmother and I sat and discussed the assessment materials and what steps she needed to take to prevent further contamination, Kevin listened intently. I was impressed that he would choose to listen about preventing water pollution and that he had retained a lot of the information I had presented in his class three month earlier.

TIPS

- . You may be making a better impression and delivering more information than at first seems apparent.
- . Be honest, friendly and approachable.

MAKING A DIFFERENCE

Through my work as an AmeriCorps member and through the implementation of the Home*A*Syst project in Idaho, I have been involved with many projects that directly or indirectly affect the quality of water in Southeast Idaho. One of the projects that I am most proud of is the implementation of a Household Hazardous Waste Collection event. I worked on this project for more than four months. I worked with the fire department, with Lockheed Martin of Idaho and with other agencies to make this event happen. A committee was formed and we met on a regular basis to plan and finalize the event.

Because of my educational background, I believe strongly in good water quality. The importance of creating a hazardous waste collection event came to my attention when residents would ask where they could take their toxic chemicals to prevent groundwater contamination - and I had no answer. Another aspect of the situation which kept me pushing for the event was the fact that another city 50 miles away conducted four such events every year while a larger city such as mine did not have even one event. And people traveled from my city to the distant one to dispose of their waste. I believe cities should lead and not follow when it comes to the conservation of natural resources.

TIPS

I encourage all future AmeriCorps members to remain focused on the tasks you have been hired to complete but remember you are not limited to those tasks. AmeriCorps service gives an opportunity to serve your country and communities in all aspects of life. Take this opportunity and let it grow into something you can be proud of.

CHALLENGING YOURSELF

My most memorable experience with the Home*A*Syst project happened out of a need for more challenge. One-on-one risk assessments were becoming routine and I needed something to rattle me. I looked into the community education program through the Boise Public School System and arranged to teach two courses on the Home*A*Syst project. As a result, I created a lot of healthy anxiety for myself by expanding my comfort zone and making me accountable to the two dozen people who signed up for the courses. Teaching in a group setting has never been comfortable for me, but I thought it would be an effective means of getting information to an interested audience and a challenge for me. It was. As a result, I became much more familiar with the program's materials and delivery methods which made talking about it and sharing it with others more enjoyable. And it helped motivate me during

this and other stagnant periods.

My AmeriCorps experience has given me much more than I had initially imagined. I made many new good friends and obtained as a consequence of this experience a new furry friend (a puppy) that will be with me for many years to come. Also, the opportunity this service has given me to add to my knowledge base will help me immensely in my future career endeavors.

TIPS

- . Set personal goals for your time as an AmeriCorps member.
- . Challenge yourself.
- . Work cooperatively with other organizations in your community whose goals and programs can help you get your word out.

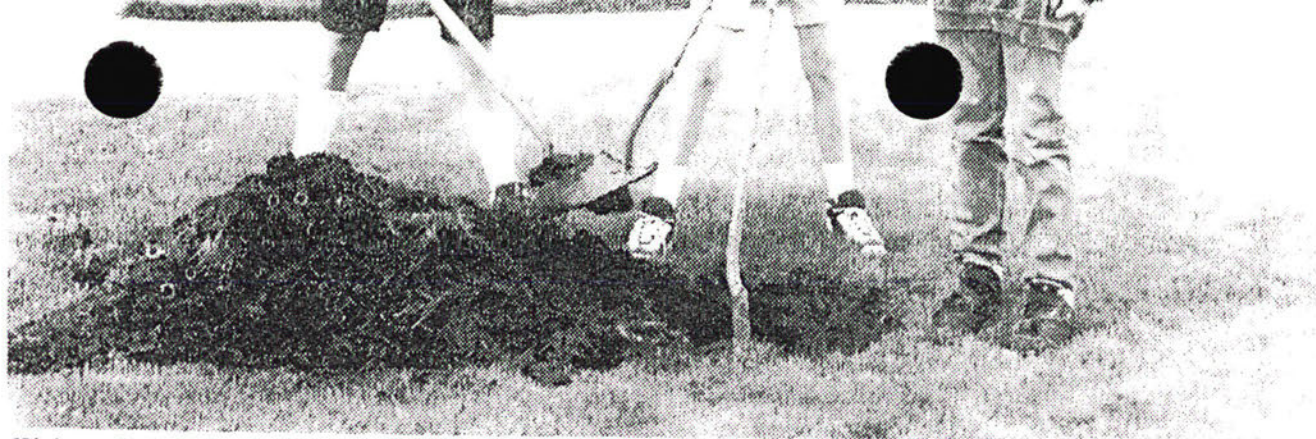

BACK TO SCHOOL

Since the Home*A*Syst program is essentially an educational program, it was natural that some of my duties included information and education presentations in local public schools. On my first day of presenting the groundwater flow model to sixth graders, I was a little nervous despite my background in teaching. The district clerk came with me to make sure I was doing the presentation right but she was satisfied enough with my presentation leave after the first class. Things went smoothly all morning but in the afternoon I was scheduled to go into a teacher's classroom who happened to be absent that day. I was in for a very interesting experience as I found out that a substitute teacher and a guest speaker can be a tempting situation for rambunctious sixth graders.

When I entered the classroom, the students were out of control and the substitute teacher was looking quite dismayed. She finally got the class settled down enough to introduce me and I began my presentation, but the class was so unruly that I had difficulty completing my demonstration. I ended up counting how much time they took and took that time from them at the end of the class period after the bell rang - three minutes! I have a friend who teaches in a public school who sympathized with this situation. This shows that you need to be flexible enough to adapt to any situation as an assignment may appear to be one way on the surface but entirely different once you get into it.

TIPS

- . Change your approach to suit your clients' needs.
- . Be able to find a good point in *any* situation.
- . Be polite and tactful at all times. Some people will not like what you have to say but as long as you have your facts straight and present them in a professional manner, you will do all right.

Weiser Boy Scouts pictured here planting a pink Hawthorn tree in front of the Washington County Courthouse in memory of the victims of the Oklahoma City bombing one year ago are, from left, Matt Patterson, Justin White and Adam Stark.

Local tree planting in memory of Oklahoma City bombing victims

On Friday afternoon in front of the Washington County Courthouse a small group assembled in the cold wind to pay their respects to the victims of the Oklahoma City bombing victims one year ago. As Debbie Cant read a tribute to those innocent victims, Weiser Boy Scouts planted a tree in their memory.

The following is what Cant, a member of AmeriCorp, representing Weiser River Soil Conservation District who donated the tree, and the National Resource and Conservation Service, read:

At 9:02 a.m., on April 19, 1995, a bomb destroyed the Alfred P. Murrah Federal Building in Oklahoma City. One hundred sixty-eight people were killed and more than 600 were injured; 19 of those killed were children.

Words cannot begin to express the shock this tragedy brought to citizens across the United States that day. As I read through the accounts of that day again in prepara-

tion for today's memorial, I couldn't help but shed a silent tear. Being a mother myself, the pictures of the children were especially tormenting but each and every one of those victims was someone's child, making the incident that much more tragic. Parents left without children, children left without parents...How could this have happened?

Probably the thing that is hardest to understand is how some of America's own could turn on their own country with such vicious intentions, not directed at any person in particular, but affecting the lives of un-numbered innocent citizens, some of them small children. What legitimate gripe with our

nation's government could they have had that was worth the loss of 168 lives? These people, born and raised in the U.S., even serving in its Armed Forces and proclaiming to be "American and Proud of It" committed the worst crime against their fellow citizens in history.

I don't know what those men hoped to accomplish with their actions a year ago today. One thing I do know is that if they had hoped to crush the pride of America, they failed miserably. The courage of the survivors, and the heroism of the rescuers in Oklahoma City that

see OKLAHOMA, page 3

3 THE WEISER SIGNAL AMERICA

OKLAHOMA, from page 1

day were, and are, the stuff of true patriotism, the Spirit of America in action.

As we become involved with the everyday struggles of our own lives, it is easy to forget this tragedy and the changes it made in other people's

lives. We plant this tree today to serve as a daily reminder to us of the Oklahoma City bombing incident, a living memorial to both its victims and its survivors. We also plant it as a symbol of the American spirit, that when once again

faced with tragic circumstances had the power to rise and prevail

Cant said that a plaque will be placed by the tree saying: "Washington County remembers the victims and survivors of the Oklahoma City bombing tragedy. May their courage and spirit live on in all of us."

* The number of Members allocated should equal the number of active members, those members whose trust status is "A" and whose Program Status is "A". If your report shows five members with "A" "A" status and yet you only have four active members, this means you have not submitted an end of term of service form for the member for the member who is no longer active. Conversely, if your report shows five members with an "A" "A" status and you actually have six members active, you have not submitted an enrollment form for the active member whose name is not shown on this report. If that is the case, list the names, SSN, Status and hours of the missing members on this sheet and send the enrollment forms to the USDA Director of National Service. If enrollment form was sent directly to the Corporation, send copies to the USDA Director of National Service immediately. If you have replaced members be certain to indicate whether the replacements are full or part-time [NOTE: The USDA Director of National Service must approve conversion of full-time slots to part-time slots IN ADVANCE.]

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

11. Please list the total number of **volunteers** who took part in activities which were sponsored or organized by all the Members in the state during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
_____	_____	1054	_____	_____

12. Please list the total number of **hours of community service** completed by the volunteers cited above during this period.

1st Qtr.	2nd Qtr.	3rd Qtr.	4th Qtr.	Total
_____	_____	83	_____	_____

SECTION IV - PROGRESS TOWARDS ACCOMPLISHING SERVICE OBJECTIVES:

13. **Original Community Service Objectives:** Attached are sheets summarizing the community service objectives that were originally approved for each operating site. In cases where a single objective may take an entire year to complete, that objective may have a sub-objectives listed. **You need to fill in the column marked "3rd QTR Quantity" and the column marked "3rd QTR Success" --- as well as any column that is blank, has a zero, or has a question mark --- for EVERY operating site.** Each chart should have the following columns:

"State" - The standard two-letter code for your state

"Obj No" - Each community service objective for each site is assigned an individual number

"Op Site" - Each site's unique operating site identification

"PGM Code" - Each type of service has been assigned a unique code to describe that type of service. See the appendix to this report entitled "Community Service PGM Code List"

"Obj/Impact Statement" - A few words verbally summarizing the community service objective

"Year's QTY Target" - The year's numerical goal for the people or things to be aided

"Target Unit of Measurement" - The unit of measure used in the previous column

"3rd QTR Quantity" - Provide a hard number indicating progress towards the "Year's QTY Target"

"Year's Success Target" - Number for a way of measuring *quality* of service provided --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"Success Unit of Measure" - Explanation of the number in the previous column --- if this column is blank, has a question mark, or has a zero, please replace it with the accurate information

"3rd QTR Success" - Provide a hard number indicating progress towards the "Year's Success Target"

6/04/96

Y16A

QUESTION 13. PROGRESS TOWARDS ACCOMPLISHING ORIGINAL COMMUNITY SERVICE OBJECTIVES
 (Under "3rd QTR Quantity" enter the amount of work done in the third quarter. Do the same for "3rd QTR Success".)

State	OP Site	Obj No.	PGM Code	Obj/Impact Statement	Year's QTY Target	Unit of Measure	3rd QTR Quantity	Year's Success Target	Unit of Measure	3rd QTR Success
ID	Y16A	1	EN-E093B	Home owner requests assessment package	360	packets disseminated	80,982	50	% who initiate an assessment	578
ID	Y16A	1	EN-E	Awareness and exposure to the Home*A*Syst program	600	people - Home*A*Syst	393	10	% farmers who agree to participate	305
ID	Y16A	3	EN-E114A	Installation of corrective measures and/or taking of corrective action by the homeowner	145	measures - installed	88	100	# who install corrective measures	88

18. Unique Successes or Great Stories:

The third quarter, bringing in the spring, has offered a wealth of wonderful community outreach opportunities for our AmeriCorps members. When I solicited a response to this question, I received not short stories but long lists of volunteer activities, programs, and events. Amongst them, the following: numerous water-way clean-ups in conjunction with other local, state, and federal governmental agencies and community members; memorial tree planting in remembrance of the Oklahoma City tragedy; Arbor Day observance; environmental education outreach (all members have participated in this); and direct participation (all members held single or joint educational booths) in Earth Day.

It is under the umbrella of a program such as AmeriCorps that members can have such a dramatic and direct impact on their communities. In a program where outreach is both form and function, the reciprocity of oblation and learning is inherent and forthcoming.

19. Difficulties Faced by the Program:

This quarter appeared to run smoothly for the AmeriCorps members, and the majority of concerns expressed previously were addressed. Members received the long-awaited final draft materials for their project, which was quite helpful.

20. National Identity Activities:

All of our members were able to participate in the national teleconference with Secretary of Agriculture Glickman and Joel Berg

In addition, most members have had several opportunities to work together with State AmeriCorps teams across Idaho.

21. Organizational Changes:

Our program has not undergone any notable organizational and/or structural changes during the course of the third quarter.

23. Primary Training and Technical Assistance Needs:

At this time, all training and technical assistance needs have been satisfied.

AmeriCorps *USA

WORDING CHANGES TO THE COMMUNITY SERVICE PGM CODE LIST

E093

Type: Home owners provided with Home*A*Syst water quality assessment program.

Quantity: Number of home owners who have received Home*A*Syst materials.

Success: Number of home owners who initiate assessments.

E114

Quantity: Number of home owners implementing positive change.

Success: Number of home owners who implement positive change.

17. AmeriCorps Member Development Objectives Narrative

We asked our members this question. A few of the responses:

"Most of all, I am learning about humankind's influence on the environment and how to protect my family and others from the consequences of bad management practices, how to make a positive difference in someone's life, and how to take an active part in solving community concerns."

"I have learned a great deal of practical, hands on experience so far from working with the people in this area. I have also made quite a few good friends!"

"The primary way that I have benefited by all of these projects is to have my belief in the individual restored. As an individual, I can have an impact. It may not be historic or awe-inspiring, but it does make a difference."

18. Unique Successes or Great Stories

Our member in the Moscow area conducted an assessment with a family that revealed an insecure, hazardous well in need of a number of corrective measures in order to ensure the safety and health of the family and surrounding watershed. Without the financial means to correct this problem, the family would have had no choice other than to continue reliance on this well. This member, through a great deal of dedication and effort, has been able to secure the necessary materials and labor donations needed to secure the health of the family and the environment. Our program is designed to be a channel for education for the community, with the initiation for action constructed within its purpose. The steps taken by this member to secure health and safety within his community is a reflection of what the AmeriCorps program truly envelopes -- the best in all of us.

It should also be mentioned that members in Northern Idaho have been spending a great deal of time with EWP work, as any extra hands are desperately needed in that region due to the severe impacts of flooding and subsequent runoff.

19. Difficulties Faced by the Program

Due to overwhelming concerns in the northern regions of Idaho, there has been a decrease of interest in the Home*A*Syst program. However, we believe that this is both understandable and temporary.

There continue to be a few questions and concerns related to time sheets and the recording of hours and leave. It could be helpful to provide a document that can be distributed to

each site lending clarification to this topic to reduce confusion.

20. National Identity Activities

The week-long training session held in January of this year proved to be a great success in building understanding of the project at hand, national identity in AmeriCorps, and unity as a group. Several training sessions addressed the AmeriCorps program as a whole, both within the state of Idaho and as a collective team working together across the nation.

The national AmeriCorps conference held in late March allowed our members to really get a feel for what is taking place across the country. Members came away with a positive outlook for their own project, as well as for the AmeriCorps program as a whole.

22. Organizational Improvements

It would be helpful for the Corporation to have contact with AmeriCorps members to address any questions or concerns that they may have.

23. Primary Training and Technical Assistance Needs

It seems that the availability of conflict resolution training is limited by group numbers. It is unfortunate that our program was unable to gain exposure to the workshop in our area as our program consists of fifteen members and the number necessary is twenty. Perhaps the number should reflect the project size -- if all of our members from across the state can attend, it seems that we should be eligible for this training. Also, this training ends 30 April and we were only recently made aware of its existence.

There are vacancies that you can not fill and you are relinquishing them.

REMEMBER, MEMBERS WHOSE FORMS HAVE NOT BEEN RECEIVED AT USDA ARE NOT CONSIDERED ENROLLED IN THE PROGRAM AND THEIR BENEFITS (EDUCATION AWARD, ETC.) ARE JEOPARDIZED!!!

If the number of members for whom forms have been received is greater than the number of members allocated resulting in a negative number appearing in the "No. of Members for Whom Forms Have NOT Been Received" line, you have enrolled more members in your program than authorized. Please explain this over enrollment. It may be that some members have terminated, in which case, change their status on this form and submit the proper end of term of service form to the USDA Director of National Service.

					1st Rpt	2nd Rpt	3rd Rpt	4th Rpt	
MCDUGAL, RAYMON	D. (b)(6)	F	A	A	224	455			224
Total Hours:									224

No. of Members Allocated by USDA: 1

No. of Active Members Whose Enrollment Forms were recieved at USDA (not including terminations): 1

No. of Members for Whom Forms Have NOT Been Recieved*: 0

ENTER the number of vacancies that you intend to fill in the next reporting period: _____

ENTER the number of vacancies you intend to relinquish for the program year: _____

* If the number of Members allocated is greater than the number of forms received, there are four options: 1. There are Members enrolled in programs whose forms have not been submitted to the USDA Director of National Service. If that is the case, list the names, SSN, Status and hours of the missing members on the back of this sheet and send the enrollment forms to the USDA Director of National Service. 2. The enrollment forms were sent directly to the Corporation. If that is the case, send copies to the USDA Director of National Service immediately. 3. There are vacancies in your program you intend to fill in the next reporting period. If that is the case, enter the number of vacancies on the appropriate line. 4. There are vacancies that you can not fill and you are relinquishing them.
