UNITED
STATES
DEPARTMENT
OF AGRICULTURE

**MEMORANDUM FOR HANK OLTMANN, FEDERAL PROGRAM MANAGER,
CORPORATION FOR NATIONAL SERVICE**

FROM: *Joel Berg* **JOEL BERG, DIRECTOR .
USDA NATIONAL SERVICE**

SUBJECT: First Progress Report

Attached is the USDA first progress report covering the period October 1, 1995 through December 31, 1995. If you have any questions concerning this report feel free to contact me at (202) 720-6350.

PROGRESS REPORT FOR AMERICORPS*NATIONAL PARENT ORGANIZATION

1. **Grantee Name:** United States Department of Agriculture
2. **Grant ID #:** 94ADFDC047
3. **Name of person completing this report:** Joel Berg
4. **Position of person completing this report:** Director of National Service, USDA
5. **Telephone number:** (202) 720-5746
6. **Fax number:** (202) 720-4614
7. **E-mail address (if available):** jberg@usda.gov
8. **Mark the reporting period to which this form applies:**

☒ First Progress Report (10/1/95-12/31/95)

☐ Second Progress Report/Renewal Request (1/1/96—3/31/96)

☐ End-of-Term Progress Report (4/1/96 - 9/30/96)

PART I - AGGREGATE PROGRAMMATIC INFORMATION FROM YOUR AMERICORPS*NATIONAL OPERATING SITES

9. **Aggregate Members and Service Hours (Sum the answers to question 9 from all Operating Site Reports) [Enter data into table]**

Number of Members Granted: 1,350

Members Enrolled In this Period: 817

(None of the Forest Service sponsored projects have begun service yet due to the lack of an Interior Appropriations Bill.)

Member hours of service this period: 247,889

10. a) Please provide estimates of the following information:

Volunteer Generation	In this reporting period	Since beginning of program year
How many <i>non-AmeriCorps Member</i> volunteers were involved in AmeriCorps service activities?	6,100	6,100
How many hours did <i>non-AmeriCorps Members</i> contribute to AmeriCorps service activities during the reporting period?	51,829	51,829

10. b) Share with us some examples of the service activities that your non-AmeriCorps Member volunteers participated in during this reporting period.

*Members recruited volunteers in Wabaunsee County, Kansas worked with AmeriCorps Members to install anti-erosion measures on streams and to create fisheries habitat.

* A Member in Denmark, South Carolina has recruited 60 volunteers, in partnerships with local school, to create a tutorial program with 65 students enrolled; 50% of the students enrolled in the program scored above the average for those who were previously in trouble.

* Members in Maine recruited 51 volunteers to monitor water quality and survey land, 40 volunteers to clean, maintain, and place signs on trails, four volunteers to recycle pesticide containers, 100 volunteer to participate in clam management working groups, 10 volunteers to help with the overwintering of soft shell clams, and 30 volunteers helped chaperon outdoor classes.

* Near Grand Forks, North Dakota, twelve AmeriCorps members, seven from Minnesota and five from North Dakota, worked in windy, cold, near-flurry conditions with 25 volunteers to complete a bio-engineering project to stabilize and naturally beautify a seven hundred foot section of eroding bank on the Turtle River.

"My position has been directly responsible for volunteers applying 33 hours of volunteer service to the dry fire hydrant program, at a worth of \$40,395. (Dry fire hydrants , when installed, increase fire protection in rural areas, thereby protecting lives and property while bringing down insurance rates.) This effort includes planning and coordinating meetings, storage of dry hydrant components in a secure setting, meetings with public officials involved in the program, and, of course, several dry fire hydrant installations. These installations include the manpower necessary to install the hydrant, the use of heavy equipment for excavation, donated materials such as rope, shovels, generators, power tools and the like, and such specialized services as site surveys, site location, and dry hydrant testing."

AmeriCorps Member, Tom Morton, Ruston, Louisiana

"We successfully completed the Edwards town clean up project. All five buildings in downtown Edwards have been demolished and cleared, a full nine months prior to the established deadline.... During nine days, approximately 40 community persons volunteered their time and equipment during the nine days they worked to clear the debris. Several farmers used their flatbeds to haul trash."

AmeriCorps Member, Ladonna James, Mississippi

11. **To the best of your knowledge, are the Members' and Non-AmeriCorps Member volunteers' numbers and service hours reported in the operating site progress reports accurate?** ☒ Yes ☐ No

(If you have checked No, please explain in question 17, "Primary Challenges.")

12. **To the best of your knowledge, do the Members' service hours reported in the operating site progress reports reflect adequate progress toward completion of required service hours?** ☒ Yes ☐ No

(If you have checked No, please explain in question 17, "Primary Challenges.")

13. Summary of Progress this Reporting Period Toward Accomplishing Annual Objectives:

In light of your monitoring activities and the progress of your operating sites, note any sites experiencing exceptional progress toward achieving their annual objectives. Highlight sites that appear to be making insufficient progress or that may not be taking sufficient steps to monitor their progress. Also highlight sites that appear to be exceeding their annual goals or that have made unusually extensive efforts to monitor their progress. If sites have reported numerical data that can be aggregated, do so in your narrative.

13. a) Community service objectives:

(See three attached appendices. The first, "*Community Service Program Code List*" is a list of the objectives that are being worked on by one or more USDA AmeriCorps sites. The second, "*Summary of All Work Performed by All Sites in a Particular Program (Objective) Code*" is a 21 page report that summarizes all the work done by all USDA AmeriCorps sites related to a particular program (objective) code. The third, "*Summary of All Work Performed by All Sites Within a Particular Quantity Unit of Measure*" is a 29 page report groups all the work done at all USDA AmeriCorps sites by the same Quantity Unit of Measure. These supplements provide a summary of the community service objectives for all our sites, followed by aggregate of how much of that objective was achieved in the first quarter at all our sites.)

To summarize the supplement, in just the first quarter of service, USDA AmeriCorps members:

Environmental

- * Completed conservation plant projects on 2,500 acres
- * Improved 3,203 acres of timber stands
- * Created 80 acres of new wetlands
- * Restored 624 acres of existing wetlands
- * Tested nutrients in 1,000 acres of soil
- * Protected wildlife on 700 acres of forest
- * Provided environmental education to 2,562 adults
- * Conducted 269 assessments of farm safety and water quality

- * Constructed 52 outdoor learning centers
- * Stenciled 326 storm drains
- * Handled 450,000 shad eggs
- * Conducted 75 on-site water use audits
- * Protected 3,000 feet of shoreline
- * Repaired 21 restrooms on public lands
- * Installed 1,020 signs on public lands and trails
- * Established 10,716 seedlings and 13,574 plants
- * Established 10 community recycling programs
- * Created 118 wildlife structures
- * Provided conservation education to 7,719 students
- * Provided 267 students with one-on-one environmental tutoring
- * Built or repaired 52 public picnic tables
- * Tested 46 wells
- * Recycled 40,000 tons of animal waste
- * Planted 7,1710 trees
- * Rehabilitated 47 units of public housing
- * Planted vegetation at two Olympic venues
- * Renovated 13 windbreaks

Anti-Hunger

- * Gleaned 141 bushels of food to be provided to hungry people
- * Served 165 meals to homeless people
- * Provided 1,150 "Meals on Wheels" to shut-in citizens
- * Prepared 387 meals for shut-in and homeless people
- * Referred 4,240 people to appropriate social services
- * Provided outreach on Federal nutrition programs to 86,818 people
- * Conducted nutrition and food safety workshops for 1,468 seniors
- * Provided school breakfast outreach to 2,328 people
- * Provided transportation to 746 to obtain services
- * Increased by 360 the number of citizens using farmers markets
- * Handled 35,240 pounds of food at soup kitchens
- * Distributed 8,972 pounds of food
- * Provided health screenings to 152 senior citizens

Rural Development

- * Provided employment skills workshops and job training to 64 people
- * Helped three counties implement 911 emergency response systems
- * Created 10 youth recreation programs
- * Helped 5 communities create public transportation systems
- * Trained 116 farmers in agricultural diversification

- * Helped 443 families obtain health and safety repairs of their homes
- * Installed 80 dry fire hydrants to reduce fire risks
- * Provided drug abuse and safety counseling to 1,553 people
- * Helped 225 people obtain running water for the first time
- * Improved indoor plumbing and/or septic systems for 335 people
- * Created recreation programs for 918 people
- * Improved the water of municipal water for 200 people

13. b) Specific Community Service Objectives Examples:

The Environment

"As community representatives and public and private organizations have learned of the assistance available through AmeriCorps, requests for help have increased from one per week to two per day."

- John Whitney, NRCS Project Manager, East Aurora, New York

"Thank you for allowing the AmeriCorps group to work on the refuge. Frankly, I was amazed at the amount of work that these four dedicated individuals were able to perform in two weeks. Due to the Federal government shut-down we were able only to provide minimal checks (usually once daily) with the crew, but they were very self sufficient and motivated. I think this is an excellent program and I would love to have a team on the refuge for a year."

- Richard P. Ingram, Refuge Manager
Carolina Sandhills National Wildlife Refuge

"I am writing to let you know how pleased West Florence High School is with the job that. .. AmeriCorps did with our pond project. Our teachers and students are very much enjoying the outdoor classroom that the group built for us. They worked very hard for the three weeks they were with us learning trees and brush and identifying wildlife and plants in the areas."

- Assistant Principal

"Their job at the Harbison State Forest trail is building crib walls with treated lumber to prevent erosion and constructing water bars to divert rainwater off trails and into the forest."

South Carolina

Anti-Hunger

"It should be noted that most of the work in the first quarter was done in the area of direct community service since such work is readily available and is a good starting place for newcomers to the field of anti-hunger work."

Josh Yates, Project Direct
Congressional Hunger Center/USDA AmeriCorps
Anti-Hunger Project, D.C.

"Breakfast presentations have been made to 2,328 children in three Los Angeles area elementary schools and one drug rehabilitation center."

Elizabeth Riley, Executive Director
Interfaith Hunger Coalition/USDA AmeriCorps
Anti-Hunger Project, Los Angeles

Rural Development

"After a short break to evaluate last year's project and recruit new members, South Carolina's (USDA) rural development team Members are back and working harder than ever."

The News & Reporter, Chester, SC

"While not many people may know who they are, AmeriCorps Members play an important role in the agriculture industry."

Tipton Times, Tipton, Missouri

"We requested assistance from (AmeriCorps/USDA) to do a drainage and topographical features survey along the main road and other key areas of the property. The group... performed their work in a professional and efficient manner. This survey has helped us to target our efforts to address existing drainage problems and to help us plan future projects.... Again, I must commend this group and the AmeriCorps program for taking on a project which we needed to have accomplished, but which we had neither the expertise nor the funds to do ourselves."

John Kidder, Superintendent National Trust for Historic preservation at Drayton Hall
Charleston, South Carolina

"I would like to express the City's thanks to the AmeriCorps Team for their work in Bennettsville. The Members were very professional in their demeanor and the presentation of their work. The City has benefited from their work with us... The AmeriCorps program is a good one for the participating agencies as well as the members."

- Damon Sanders, Bennettsville Planning and Zoning

"By the end of the year, (USDA) AmeriCorps workers will have helped nine South Carolina counties in some phase of the 911 process... '911 is an important objective in rural development,' said AmeriCorps worker Chris Beaver. To me nothing could be more important than our 911 system -- its saving life."

Herald -Advocate, Bennettsville, South Carolina

13. c) Community Building/Strengthening Objectives:

Below are some partner local governments::

City of Jacksonville, Florida

City of Topeka, Kansas:

Monmouth Beach, New Jersey

Sea Bright, New Jersey

Seneca Nation of Indians, New York

"All our members are working very hard coordinating the efforts of local police juries, volunteer fire departments, state and local governments, and others to get dry fire hydrants in the ground. Our members have become familiar faces in their communities, and local folks know they can depend on these AmeriCorps Members to make things happen."

"Billy Moore, Project manger, NRCS, Louisiana

13. d) AmeriCorps Member Development Objectives:

"Three of the AmeriCorps Members are actively applying for Master Degree programs. All Members increased their community awareness and Geographic Information Systems (GIS), mapping, analytical, and communication skills improving their chances for acceptance in graduate schools or full-time productive and satisfying employment in the area of community planning, resource management, and/or GIS.... Direct involvement with the Seneca Nation of Indians administrative and program staff increased Members sensitivity to the social, political, economic, and environmental needs and challenges faced by Native Americans and Native American governments."

- John Whitney, NRCS Project Manager, East Aurora, New York

"I'm a divorced mother of two... I had only three years of college prior to starting my family, and I had even given up hope of completing my education. Now having survived my life with stumbling blocks it has presented to me, I welcome the AmeriCorps educational grant with open arms."

AmeriCorps Member, Mississippi

"AmeriCorps has helped me learn the importance of community based volunteer organizations in improving the lives of residents."

AmeriCorps Member Mark Chellis, Maine

"Personal growth has been most satisfying and beneficial for me in the first 12 weeks as an AmeriCorps Member. My communication skills are being finely tuned, thanks to my supervisor ... Also, my knowledge of conservation practices is being further developed."

AmeriCorps Member Wayne Davis, Maine

"I have gained immensely from being brought up in this country, and I would like to return some of my knowledge and experience. AmeriCorps represents that opportunity."

AmeriCorps Member Kate Sullivan, Maine

"Before I became an AmeriCorps member, I was receiving public assistance and I had no hope for continuing my education due to lack of money. Now I am no longer receiving public assistance and I put in my application for graduate school."

AmeriCorps Member, Mississippi

14. **Unique successes or "great stories":** (Highlight any unique anecdotes from your operating sites' progress reports that clearly communicate how AmeriCorps gets things done.)

Hurricane Marilyn Disaster Relief Effort

On the night of September 15, 1995, Hurricane Marilyn struck the Virgin Islands with devastating impact. The greatest degree of damage was sustained on the island of St. Thomas, but significant relief efforts were also needed on the islands of St. Croix and St. John. In addition to its standard relief procedures, such as emergency food distribution and housing assistance, USDA quickly mobilized a team of 19 "all-star" AmeriCorps Members, all but one of whom had already completed a full term of service. Along with two Project Leaders from the Forest Service, the first group of six Members arrived on St. Thomas on October 16th, and were immediately placed in the USDA emergency food distribution and food stamp program. The rest of the team arrived on the 19th of October, and were integrated into either the food stamp program or the "recovery crew."

Against myriad obstacles -- crowded lodgings with little to no electricity, and no air conditioning at all; 10-12 hour work days, 6-day work weeks, 90+ degree weather and extremely high humidity; inadequate tools and transportation; and insufficient funds for food/personal needs -- this team still managed to complete over 100 individual projects ranging from debris removal to general cleanup to tent platform construction to replacing access railings and steps that enabled residents to get back into their houses, as well as assisting hundreds of affected residents to obtain food assistance. In fact, two of the group were so moved by their experiences during this 5-week effort that they resigned from their current AmeriCorps placements and went back to the Virgin Islands to continue working there. The work that was done was very well-received, and the team was featured on the Virgin Islands Recovery Channel, as well as recognized by both FEMA and USDA's own FCS for its contributions.

15. Strengthening the AmeriCorps National Service Network: (Highlight Operating Site activities from this reporting period that strengthened the AmeriCorps network of programs.)

All operating sites were encouraged very strongly to communicate frequently with state commissions and to hold frequent training and signature projects jointly with other AmeriCorps projects.

16. Changes in Program Organization of Key Staff Positions during this Reporting Period: (Note any operating sites that have experienced changes in organization, staff or number of Members that could impair the sites' capacity to perform or that could significantly increase their potential for success.)

There were no significant organizational changes this reporting period.

17. Primary Challenges Encountered this Reporting Period: (Report on operating site problems resolved and unresolved, obstacles to achieving program objectives, significant sources of delay, program elements not meeting expectations, and events or incidents that caused concern.)

The lack of an Interior appropriations has prevented us from beginning the USDA Forest Service component of our program.

PART II - REPORT ON PARENT ORGANIZATION ACTIVITIES

18. **Primary Accomplishments this Reporting Period:** In detail, describe activities initiated by the national office. Include important accomplishments and goals attained this reporting period.

USDA continues to send frequent newsletters to all Members in the program and holds frequent conference calls to bring sites across the country together electronically.

Additionally, with this report, USDA has implemented a new database for explicitly tracking the exact progress at each operating site towards accomplishing the community service objectives.

19. **Program Monitoring Activities this Reporting Period:** Summarize your efforts as a grantee to develop and maintain relationships with and between your sites, to assess their needs, to provide them with appropriate assistance, to monitor their progress toward program objectives, and to conduct program evaluation. Note problems you have encountered in any of these areas and steps you have taken to address those problems.

The Department's national AmeriCorps leadership continues to engage in a comprehensive effort to monitor and evaluate each USDA project. This effort includes frequent personal visits to sites, frequent consultation with state commissions of national and community service, as well as an intensive review of: quarterly reports prepared by every project, studies prepared by outside evaluators, unsolicited letters of support, and print and electronic media coverage.

20. **a) Training and Technical Assistance Activities this Reporting Period:** Summarize technical assistance activities you sponsored this reporting period in support of your sites, including Members and staff. If known, note the results of those activities. Indicate any steps you plan to take to provide follow-up assistance.

The USDA Natural Resources Conservation Service (NRCS) conducted an extensive national training for all its environmental team crew leaders.

20. **b) Training and Technical Assistance needs/trends for this Reporting Period:** Please describe the overall T/TA needs among your programs and operating sites: especially significant needs that have emerged; any general trends you have observed in needs; strengths and weaknesses observed in delivery of T/TA; what you think the most important T/TA needs will be in the upcoming reporting period.

Some of our sites have utilized CNS diversity training contractors and have reported that the assistance has been extremely helpful.

Some of our sub-grantees could use additional assistance in fund raising.

20. **c) Review the Training and Technical Assistance Requests Made by Your Operating Sites:** Carefully review all operating site T/TA checklists included in the operating site progress reports.

Each reporting period, T/TA checklists will pass from operating sites to the National Direct Parent Organizations, through the AmeriCorps*National program officers, to the CNS Training and Technical Assistance office. The National Direct Parent Organization is responsible for reviewing each operating site checklist, and either supplying the needed T/TA or recommending other action to CNS. Below, please describe for each program which checked items will be handled by the Parent Organization and for which items you would like the Corporation's assistance.

Virtually all projects have utilized USDA training staff, facilities, and processes, so requests for additional, external, training has been minimal.

A few sites requested Internet training.

One project requested "leadership, motivation, and group interaction" training.

21. **Building and Strengthening Private Sector Partnerships:** Describe efforts you have made this reporting period to support your sites by building or strengthening private sector partnerships with corporations, foundations, individuals, local businesses, or United Way. Support can be cash or in-kind resources.

While Federal law significantly limits how USDA AmeriCorps project managers may raise private funds, the program has been incredibly effective in creating partnerships with non-profit organizations.

Below are some sample partner organizations:

Abilities - Hacketstown, New Jersey

American Red Cross --- Kansas

Helping Hands Society --- Topeka, Kansas

National Trust for Historic Preservation, Drayton Hall --- Charleston, SC

Optimist --- Havana, Illinois

Ronald McDonald House --- Topeka, Kansas

Salvation Army --- Kansas

Sternberg Museum --- Hays, Kansas

22. **Primary Challenges Encountered this Reporting Period:** Report on problems resolved and unresolved at the Parent Organization level, including difficulties in monitoring, guiding and assisting sites, and any other unanticipated needs.

Because Congress and the President did not agree upon an Interior Appropriations Bill, the Forest Service portion of the program has been unable to begin operation.

We continue to be challenged by shifting reporting and other requirements from CNS.

APPENDICES

- I. ***“Community Service Program Code List”***: a list of the objectives that are being worked on by one or more USDA AmeriCorps sites. All work done by USDA AmeriCorps sites is defined by the program (objective) codes listed in this appendix. Each has a unique numerical identifier.
- II. ***“Summary of All Work Performed by All Sites in a Particular Program (Objective) Code”*** is a 21 page report that summarizes all the work done by all USDA AmeriCorps sites related to a particular program (objective) code. For example, EN-E004A is the code for “Remove Debris.” Work on this objective is done at three separate USDA AmeriCorps operating sites in three different states (Y34D - 2 acres; Y17C - 5 acres; T20A - 10 acres). This report totals the work to show that for program (objective) code EN-E004A a total of 17 acres are expected to be cleaned and in the first quarter 2 acres were actually cleaned.
- III. ***“Summary of All Work Performed by All Sites Within a Particular Quantity Unit of Measure”*** is a 29 page report groups all the work done at all USDA AmeriCorps sites grouped by the same Quantity Unit of Measure. Where the second appendix groups by the program code, this report groups all units of measure. For example all “acres - cleaned” are grouped together regardless of the program (objective) code under which the work was done. The program (objective) code and objective statement listed in the report is merely the last one of the list from which the units of measure were grouped. This report is most useful in determining how many acres or people were served or affected by the USDA AmeriCorps program.

APPENDIX I

- I. “*Community Service Program Code List*”: a list of the objectives that are being worked on by one or more USDA AmeriCorps sites. All work done by USDA AmeriCorps sites is defined by the program (objective) codes listed in this appendix. Each has a unique numerical identifier.

COMMUNITY SERVICE PGM CODE LIST

ENVIRONMENTAL SERVICE

Coastal Protection

- Type of service performed:* Grass planted to protect coastline = E001
Quantity measurement: A=Number of plants installed; B=number of square feet; C=number of acres protected; D=number of miles of coastline protected
Success measurement: Percentage decrease in erosion, percentage increase in wildlife, or percentage of work performed meeting professional standards
- Type of service performed:* Physical measures installed to protect coastline = E002
Quantity measurement: A=Number of measures installed; B=number of acres protected; C=number of miles of coastline protected
Success measurement: Percentage decrease in erosion, percentage increase in wildlife, or percentage of work performed meeting professional standards
- Type of service performed:* Measures planned to protect coastline = E003
Quantity measurement: A=Number of measures planned; B=number of acres planned; C=number of miles of coastline planned
Success measurement: Percentage of measures actually installed

Community clean-ups and improvements

- Type of service performed:* Debris removed from vacant lots or public spaces = E004
Quantity measurement: A=Number of acres of land; B=number of lots; C=campaigns; D=days; E=events
Success measurement: Percentage of measures meeting professional standards
- Type of service performed:* Graffiti removed properties = E120
Quantity measurement: A=number of properties cleaned-up
Success measurement: Number of volunteers recruited for project
- Type of service performed:* Clean-up litter or illegal dumpsites = E121
Quantity measurement: A=Number of miles/feet cleaned; B=number of acres cleaned-up; C=sites
Success measurement: Number of tons of trash removed
- Type of service performed:* Acid mine drainage site reclamation & clean-up = E155
Quantity measurement: A=Number of acres cleaned-up
Success measurement: Clean-up meets professional standards

Community and School Gardens

- Type of service performed:* New urban gardens created = E005
Quantity measurement: A=number of acres; B=gardens; C=pounds
Success measurement: Number of people fed by gardens, number of volunteers recruited to help with gardens, percentage of gardens maintained by community groups, and/or percentage decrease in crime in area surrounding the garden
- Type of service performed:* Existing gardens renovated, revitalized, or aided = E006
Quantity measurement: A=number of acres
Success measurement: Percentage or number of increase of people fed by gardens, percentage or number of increased volunteers recruited to help with gardens, percentage or number increase in gardens maintained by community groups, and/or percentage decrease in crime in area surrounding the garden
- Type of service performed:* Groups and/or individuals trained to create and maintain gardens = E007
Quantity measurement: A=number of people; B=number of groups trained
Success measurement: Number and/or percentage of groups or people who actually create gardens; number of acres and/or number of people fed by gardens created by the people trained

Conservation planning and implementation

- Type of service performed:* Conservation planning completed = E008
Quantity Measurement: A=miles of land planned; B=acres of land planned; C=number of plans
Success Measurement: Percentage of planned measures implemented or percentage decrease in pollution
- Type of service performed:* Physical measures installed to conserve soil or protect water quality = E009
Quantity Measurement: A=number of measures installed; B=number of landowners aided; C=acres of land conserved
Success Measurement: Percentage decrease in erosion; percentage decrease in water pollution; percentage of landowners expressing satisfaction with the work performed
- Type of service performed:* Increase of organic matter in soil = E119
Quantity Measurement: A=number of measures installed
Success Measurement: Percentage of soil improvement
- Type of service performed:* Conservation displays developed = E113
Quantity Measurement: A=number of displays developed
Success Measurement: Number of request for displays

Cultural Resources

- Type of service performed:* Cultural resource sites enhanced or preserved = E010
Quantity Measurement: A=number of sites
Success Measurement: Percentage of work meeting professional standards
- Type of service performed:* Cultural resource sites inventoried = E011
Quantity Measurement: A=Number of acres; B=number of sites
Success Measurement: Percentage of inventories later used for enhancing or preserving the sites; number of artifacts inventoried or collected

Environmental, Conservation, and Agricultural Education

Type of service performed: Students provided conservation/environmental and/or agricultural education presentations = E012

Quality measurement: A=number of students educated; B=presentations; C=projects

Success measurement: Percentage of students demonstrating increased knowledge on pre- and post-service test; percentage of teachers expressing satisfaction with presentations

Type of service performed: Students provided with one-on-one conservation /environmental tutoring and/or mentoring = E013

Quality measurement: A=number of students educated

Success measurement: Percentage of students demonstrating increased knowledge on pre- and post-service test; percentage of teachers expressing satisfaction with service; percentage of students and/or class demonstrating improvements in "envirothon results"

Type of service performed: "Envirothon" participation expanded = E014

Quality measurement: A=number of additional students participating students educated

Success measurement: Percentage of students demonstrating increased knowledge on pre- and post-service test; percentage of teachers expressing satisfaction with service; percentage of students and/or class demonstrating improvements in "envirothon results"

Type of service performed: Outdoor classrooms created = E015

Quality measurement: A=number of classrooms created; B=number of students using outdoor classrooms; C=acres

Success measurement: Percentage of students demonstrating increased knowledge on pre- and post-service test; percentage of teachers expressing satisfaction with service

Type of service performed: Traveling conservation library created = E016

Quality measurement: A=number of students reached with library; B=number of libraries

Success measurement: Percentage of students demonstrating increased knowledge on pre- and post-service test; percentage of teachers expressing satisfaction with service

Type of service performed: Adults provided conservation/environmental education presentations = E017

Quality measurement: A=number of adults educated; B=number of presentations

Success measurement: Percentage of adults demonstrating increased knowledge on pre- and post-service test; percentage of adults utilizing conservation practices described in the presentations

Facilities made Accessible for Americans with Disabilities

Type of service performed: Recreation area made accessible for Americans with disabilities = E018

Quantity measurement: A=number of recreation sites made accessible; B=number of acres

Success measurement: Percentage of sites meeting Americans with Disability Act standards

Type of service performed: Buildings made accessible for Americans with disabilities = E019

Quantity measurement: A=number of square feet of buildings made accessible; B=number of buildings

Success measurement: Percentage of sites meeting Americans with Disability Act standards

Type of service performed: Trails made accessible for Americans with disabilities = E020

Quantity measurement: A=feet or miles of trail; B=number of recreation sites made accessible; C=designs

Success measurement: Percentage of sites meeting Americans with Disability Act standards

Fences for Conservation and/or Range Management

Type of service performed: Fences built to protect and conserve land = E021
Quantity Measurement: A=miles of fence built
Success Measurement: Percentage of fences meeting professional standards

Type of service performed: Fences removed = E022
Quantity Measurement: A=miles of fences removed
Success Measurement: Percentage of work meeting professional standards

Fire Protection

Type of service performed: Land physically treated to reduce fuel ladders or other fire risks = E023
Quantity Measure: A=acres treated; B=landowners helped
Success Measurement: Percentage reduction in fire damage and/or percentage of land owners who rate service as important

Type of service performed: Reduction in fuel ladders or other fire risks planned = E024
Quantity Measure: A=acres planned; B=landowners helped
Success Measurement: Percentage of measures implemented and/or percentage of land owners who rate service as important

Type of service performed: Development of fire protection plans = E108
Quantity Measure: A=number of plans developed; B=number of Fire Departments aided
Success Measurement: Percentage of plans implemented

Type of service performed: Campfire rings built = E148
Quantity Measure: A=number of rings built
Success Measurement: Percentage reduction in fires caused by campfires

DRY FIRE HYDRANTS AND TECHNICAL ASSISTANCE TO RURAL FIRE DEPARTMENT- {See Rural Development codes, under heading "Emergency Response and Prevention}

Flood Relief and Prevention

Type of service performed: Sand bags installed = E025
Quantity measure: A=number of sandbags; B=number of feet covered
Success measurement: Number of community residents protected from flooding

Type of service performed: Flood damaged homes cleaned or repaired = E026
Quantity measure: A=number of homes cleaned or repaired
Success measurement: Percentage of residents expressing satisfaction with service

Type of service performed: Physical measures installed that are designed to prevent or limit future flood damage = E027
Quantity measure: A=number of acres of land on which measures were installed
Success measurement: Percentage of measures meeting professional standards

- Type of service performed:* Physical work performed to help land recover from flood-related damage = E028
Quantity measure: A=number of acres of land on which physical work was performed
Success measure: Percentage of land owners or site supervisors who report that the service performed was of high quality
- Type of services performed:* Fences built to prevent future flooding = E029
Quantity measure: A=number of miles of fence built
Success measure: Percentage of work meeting professional standards
- Type of services performed:* Flood retarding dams or levees maintained = E030
Quantity measure: A=number of acres; B=number of dams or levees maintained
Success measure: Percentage of work meeting professional standards; amount of money saved for the government
- Type of services performed:* Water management plans developed for landowners = E031
Quantity measure: A=Number of landowners; B=number of acres of land aided
Success measure: Percentage of landowners expressing satisfaction with service

Forest Management

- Type of service performed:* New method developed to harvest timber while protecting ecosystem = E032
Quantity measurement: A=acres of land aided
Success measurement: Number of timber workers a/and/or number of endangered species aided
- Type of service performed:* Forestry management workshops = E033
Quantity measurement: A=number of people attending
Success measurement: Percentage attending workshops who improve environmental practices

Grasslands

- Type of service performed:* Physical measures installed to protect grasslands = E034
Quantity Measurement: A=number of acres of grassland protected
Success Measurement: Percentage improvement in grassland health
- Type of service performed:* Grass planted = E146
Quantity Measurement: A=number of acres of grassland protected; B=number of miles
Success Measurement: Percentage improvement in grassland health

Horticulture

- Type of service performed:* Horticulture collection prepared for winter = E123
Quantity Measurement: A=number of acres
Success Measurement: Percentage of work meeting professional standards
- Type of service performed:* Invasive plants removed from collection = E124
Quantity Measurement: A=number of acres cleared

Type of service performed: General maintenance of National Arboretum provided = E127
Quantity Measurement: A=number of acres aided
Success Measurement: Percentage of work meeting professional standards

Inventorying, Assessing, and Mapping

Type of service performed: Wildlife or fisheries habitat inventoried = E035
Quantity Measurement: A=acres of land or water covered; B=miles of land/water covered
Success Measurement: Percentages of work meeting professional standards

Type of service performed: Grassland assessments completed = E036
Quantity Measurement: A=acres of land covered; B=assessments
Success Measurement: Number of acres actually physically projected

Type of service performed: Maps produced through GIS or other electronic means = E037
Quantity Measurement: A=number of maps created; B=number of acres covered
Success Measurement: Percentage of maps used to implement actions that concretely improved the environment or aided the community

Type of service performed: Land use surveys performed = E038
Quantity Measurement: A=number of surveys completed; B=number of acres covered; C=number of miles
Success Measurement: Percentage of surveys used to implement actions that concretely improved the environment or aided the surrounding community

Type of service performed: Inventory conducted of community environmental resources = E128
Quantity Measurement: A=number of local leaders provided with inventory
Success Measurement: Percentage of leaders increasing their awareness

Land Use Planning

Type of service performed: Landscape architectural materials developed = E125
 for presentations
Quantity Measurement: A=number of requests for materials fulfilled
Success Measurement: Percentage of presentations that resulted in plans

Type of service performed: Schematic plans developed for rural communities = E126
Quantity Measurement: A=number of plans developed
Success Measurement: Percentage of plans implemented

Type of service performed: Plans developed for land use = E109
Quantity Measurement: A=number of plans developed
Success Measurement: Percentage of plans implemented

Plant Materials and Greenhouses

Type of service performed: Planted materials grown = E039
Quantity Measurement: A=number of plants grown
Success Measurement: Number of plants surviving and/or planted

Type of service performed: Greenhouses built = E040

Quantity Measurement: A=number of greenhouses built; B=number of square feet of greenhouses created

Success Measurement: Number of plant capacity of greenhouse

Type of service performed: Greenhouses repaired or renovated = E041

Quantity Measurement: A=number of greenhouses; B=number of square feet of greenhouses aided

Success Measurement: Number of percentage increase in plant capacity of greenhouse

Type of service performed: Assist with seed cleaning = E132

Quantity Measurement: A=number of pounds of seeds cleaned

Success Measurement: Number of pounds of seeds eventually planted

Public Lands Facilities

Type of service performed: Park or forest visitor center constructed = E042

Quantity Measurement: A=number of centers; B=number of square feet of centers constructed

Success Measurement: Number of people to visit center(s)

Type of service performed: Park or forest visitor center repaired or rehabilitate = E043

Quantity Measurement: A=number of centers; B=number of square feet of centers repaired or rehabilitated

Success Measurement: Number of people to visit center(s)

Type of service performed: Structures constructed = E044

Quantity Measurement: A=number of structures; B=number of square feet of structures constructed

Success Measurement: Percentage of work meeting professional standards

Type of service performed: Boardwalk constructed = E045

Quantity Measurement: A=number of boardwalks; B=number of square feet of boardwalk constructed

Success Measurement: Percentage of work meeting professional standards

Type of service performed: Boardwalk repaired or rehabilitated = E046

Quantity Measurement: A=number of boardwalks; B=number of square feet of boardwalk aided

Success Measurement: Percentage of work meeting professional standards

Type of service performed: Structures repaired or rehabilitated = E047

Quantity Measurement: A=number of structures; B=number of square feet of structures repaired or rehabilitated

Success Measurement: Percentage of work meeting professional standards

Type of service performed: Land generally repaired or rehabilitated = E048

Quantity Measurement: A=acres of land repaired or rehabilitated

Success Measurement: Number of people using area: percentage of work meeting professional standards

Type of service performed: Debris removed = E147

Quantity Measurement: A=number of tons of debris removed; B=miles cleaned

Success Measurement: Percentage reduction in pollution

Type of service performed: Land cleared = E149

Quantity Measurement: A=number of acres cleared

Success Measurement: Percentage reduction in pollution

Type of service performed: Repair fences

= E145

Quantity measurement: A=number of fences repaired

Success measurement: Percentage of work meeting professional standards

Recycling of Solid and Hazardous Waste

Type of service performed: Solid waste recycling project started

= E055

Quantity measurement: A=number of projects started; B=number of people served by recycling projects; C=number of volunteers recruited for projects; D=tons

Success measurement: Percentage and/or number of tons decrease in the solid waste stream; amount of money saved by local municipality

Type of service performed: Solid waste recycling project aided or improved

= E056

Quantity measurement: A=number of projects aided; B=number of additional people served by recycling projects; C=number of additional volunteers recruited for projects

Success measurement: Additional percentage and/or number of tons decrease in the solid waste; amount of money saved by local municipality

Type of service performed: Hazardous waste recycling project started

= E057

Quantity measurement: A=number of projects started; B=number of people served by recycling projects; C=number of volunteers recruited for projects; D=tons

Success measurement: Percentage and/or number of tons decrease in the hazardous waste deposited; amount of money saved by local municipality; percentage decrease in groundwater pollution

Type of service performed: Hazardous waste recycling project aided or improved

= E058

Quantity measurement: A=number of projects aided; B=number of additional people served by recycling projects; C=number of additional volunteers recruited for projects

Success measurement: Additional percentage and/or number of tons decrease in the hazardous waste deposited; amount of money saved by local municipality; percentage decrease in groundwater pollution

Type of service performed: Identify products for recyclable material

= E117

Quantity measurement: A=number of products identified projects

Success measurement: Percentage of products put into production

Type of service performed: Recycle wood waste

= E135

Quantity measurement: A=number of pounds of wood waste recycled

Success measurement: Percentage of decrease of waste in landfills

Type of service performed: Poultry litter recycled

= E107

Quantity measurement: A=number of poultry sheds constructed

Success measurement: Number of limited resource farmers receiving litter for use as fertilizer; tons of litter recycled

Type of service performed: Solid waste recycled

= E153

Quantity measurement: A=number of pounds of waste recycled

Success measurement: Percentage decrease in waste deposited in landfills

Riparian Area and Stream Protection

Type of service performed: Streambank maintained or rehabilitated to reduce erosion

= E059

Quantity Measurement: A=miles or feet; B=number of acres of stream area protected

Success Measurement: Percentage decrease in erosion or water pollution

Type of service performed: Streams cleared of debris

= E060

Quantity Measurement: A=miles or feet of stream cleared

Success Measurement: Number of tons of debris removed; percentage decrease in water pollution; percentage of stream posing a reduced threat of flooding

Type of service performed: Willows or other cuttings planted

= E061

Quantity Measurement: A=number of acres; B=miles or feet of stream planted; C=number of cuttings planted

Success Measurement: Percentage of planted surviving; percentage decrease in water pollution; percentage of stream posing a reduced threat of flooding; percentage decrease in erosion

Type of service performed: Sediment retaining structures constructed

= E062

Quantity Measurement: A=Number of structures built; B=number of feet

Success Measurement: Percentage decrease in water pollution; percentage of stream posing a reduced threat of flooding; percentage decrease in erosion; and/or percentage of work meeting professional standards

Sustainable Agriculture

Type of service performed: Farmers aided with Best Management Practices

= E063

Quantity measurement: A=number of practices implemented; B=number of farmers who implemented Best Management Practices; C=number of acres on which practices were implemented

Success measurement: Percentage decrease in groundwater pollution, percentage or tons or gallons decrease in pesticides or herbicides applied, and/or percentage decrease in spending on pesticides or herbicides

Type of service performed: Nutrient management plans created

= E064

Quantity measurement: A=number of nutrient management plans; B=number of farmers aided; C=number of acres aided

Success measurement: Percentage decrease in groundwater pollution, percentage or gallons or tons decrease in pesticides or herbicides applied, and/or percentage decrease in spending on pesticides or herbicides

Type of service performed: Integrated Pest Management plans created

= E065

Quantity measurement: A=number of IPM plans; B=number of farmers aided; C=number of acres aided

Success measurement: Percentage decrease in groundwater pollution, percentage or gallons or tons decrease in pesticides or herbicides applied, and/or percentage decrease in spending on pesticides or herbicides

Type of service performed: Waste management plans created and measures implemented

= E066

Quantity measurement: A=number of waste management plans; B=number of measures implemented; C=number of farmers aided; d=number of acres aided

Success measurement: Percentage decrease in groundwater pollution, percentage or gallons or tons decrease in waste

Type of service performed: Irrigation and water use reduced

= E067

Quantity measurement: A=number of irrigation reduction plans; B=number of farmers aided; C=number of acres aided

Success measurement: Percentage or gallons decrease in water usage, and/or percentage decrease in spending on water

Type of service performed: Farmers provided with general sustainable agriculture aid

= E068

Quantity measurement: A=number of practices implemented; B=number of farmers who benefited from service; C=number of acres on which services were provided

Success measurement: Percentage decrease in groundwater pollution, percentage or tons or gallons decrease in pesticides or herbicides applied, and/or percentage decrease in spending on pesticides or herbicides; or percentage of landowners expressing satisfaction with service

- Type of service performed:* Waste lagoons pumped out for farmers = E069
Quantity measurement: A=number of lagoons pumped; B=number of gallons of waste pumped; C=number of farmers who benefited from service; D=number of acres on which services were provided
Success measurement: Percentage decrease in groundwater pollution, percentage or tons or gallons decrease in pesticides or herbicides applied, and/or percentage decrease in spending on pesticides or herbicides; or percentage of landowners expressing satisfaction with service
- Type of service performed:* High value crops and sustainable agriculture techniques demonstrated = E106
Quality measurement: A=number of individuals viewing demonstrations
Success measurement: Number and/or percentage of farmers starting production of high value crops and/or sustainable agriculture techniques
- Type of service performed:* Conduct soil tests = E110
Quality measurement: A=number of acres tested
Success measurement: Number of BMP's installed as result of tests
- Type of service performed:* Provide technical assistance = E111
Quality measurement: A=number of landowners contacted
Success measurement: Number and/or percentage of landowners making improvements
- Type of service performed:* Agriculture established = E116
Quality measurement: A=number of acres planted
Success measurement: Percentage of crops reaching markets
- Type of service performed:* Develop Integrated Crop Mgmt Plans = E133
Quality measurement: A=number of ICM plans made
Success measurement: Percentage decrease in environmental problems
- Type of service performed:* Conduct technical assistance projects = E151
Quality measurement: A=number of projects
Success measurement: Number of landowners making improvements

Timber Stand Improvement, Tree Planting, Reforestation, and Windbreaks

- Type of service performed:* Timber stand improved = E070
Quantity measurement: A=number of acres improved
Success measurement: Percentage of work meeting professional standards
- Type of service performed:* Trees pruned = E071
Quantity measurement: A=number of acres pruned
Success measurement: Percentage of work meeting professional standards
- Type of service performed:* Trees planted = E072
Quantity measurement: A=number of trees planted
Success measurement: Percentage of trees that survive after a set period of time
- Type of service performed:* Land reforested = E073
Quantity measurement: A=acres of land
Success measurement: Percentage work meeting professional standards
- Type of service performed:* Forestry conservation practices implemented = E074
Quantity measurement: A=number of acres of land aided
Success measurement: Percentage of work meeting professional standards

- Type of service performed:* Forestry conservation practices planned = E075
Quantity measurement: A=acres of land planned; B=plans
Success measurement: Percentage recommended practices actually implemented
- Type of service performed:* New windbreaks planted = E076
Quantity measurement: A=number of miles of new windbreak planted
Success measurement: Percentage of trees surviving area set period of time
- Type of service performed:* Existing windbreaks renovated = E077
Quantity measurement: A=number of miles of windbreak renovated
Success measurement: Percentage of erosion decrease or percentage of landowners expressing satisfaction with work performed

Trails or Roads

- Type of service performed:* Nature, hiking, historic, or horseback trail constructed = E078
Quantity measurement: A=number of miles of trail constructed
Success measurement: Percentage of trails meeting all professional specifications; number of people using trail
- Type of service performed:* Railroad tracks converted to nature, hiking, historic, horseback trail, snowmobile, or all-purpose trail = E079
Quantity measurement: A=number of miles of trail converted
Success measurement: Percentage of trails meeting all professional specifications; number of people using trail
- Type of service performed:* Nature, hiking, historic, or horseback trail maintained, cleared, or rehabilitated = E080
Quantity measurement: A=number of miles of trail aided
Success measurement: Percentage of trails meeting all professional specifications; number of people using trail
- TOURISM - {See Rural Development codes under headings "Economic Development" and "Cultural and Historic Resource Preservation."}
- Type of service performed:* Trail bridges constructed = E081
Quantity measurement: A=number of trail bridges constructed; B=number of feet of trail bridges constructed
Success measurement: Percentage of trails meeting all professional specifications
- Type of service performed:* Trail stairs constructed = E082
Quantity measurement: A=number of trails constructed; B=number of feet of trail stairs constructed
Success measurement: Percentage of trails meeting all professional specifications
- Type of service performed:* Emergency shelters placed by side of trail = E083
Quantity measurement: A=number of shelters constructed
Success measurement: Percentage of trails meeting all professional specifications
- Type of service performed:* Signs placed on scenic roads or on nature, hiking, or horseback trails = E084
Quantity measurement: A=number of signs placed; B=number of miles of roads on which signs are placed
Success measurement: Percentage of sign placements meeting professional specifications
- Type of service performed:* Roads "day lighted" to improve safety conditions = E085
Quantity measurement: A=number of miles of road "day lighted"
Success measurement: Percentage of "day lighting" work that meets professional specifications

3

Type of service performed: Roads on public lands cleared of obstructions = E086

Quantity measurement: A=number of miles of road cleared

Success measurement: Percentage of clear roads meeting professional standards

Type of service performed: Trails planned = E152

Quantity measurement: A=number of plans developed

Success measurement: Number of plans implemented

Type of service performed: Maintenance guide for rail trails = E156

Quantity measurement: A=number of trail groups surveyed

Success measurement: Number of groups using guide

Urban Community Facilities

Type of service performed: Public housing units repaired or rehabilitated = E087

Quantity measurement: A=Number of units; B=number of people who will live in the units

Success measurement: Percentage of repairs meeting appropriate building codes

Type of service performed: Volunteers recruited for crime-prevention activities = E088

Quantity measurement: A=number of volunteers recruited and number of hours served by volunteers

Success measurement: Percentage decrease in local crime

Type of service performed: Landscaping work performed at community facilities = E089

Quantity measurement: A=acres of land aided; B=number of residents of area aided

Success measurement: Percentage of work meeting professional standards

Type of service performed: Community facilities repaired, painted, or rehabilitated = E090

Quantity measurement: A=number of facilities rehabilitated; B=number of square feet of facilities rehabilitated

Success measurement: Number of people using facilities

Volunteer Recruitment for Environmental Activities

Type of service performed: Volunteers recruited for environmental activities = E091

Quantity measurement: A=number of volunteers recruited and number of hours served by volunteers

Success measurement: Number of people/things aided by concrete service projects performed by the volunteers

Water Quality

Type of service performed: Farmers provided with "Farm*A*Syst" water quality assessment program = E092

Quantity of measurement: A=number of assessments

Success measurement: Percentage of landowners who adopt water improvement measures, and/or actual number of improvements implemented, and/or percentage decrease in local water pollution

- Type of service performed:* Land owners provided with Home*A*Syst water quality assessment program = E093
Quantity of measurement: A=number of people who have received one-on-one assessments; B=packets disseminated
Success measurement: Number of farmers who initiate improvements
- Type of service performed:* "Adopt-a-Watershed" projects that organize groups of volunteers to monitor local water quality and recommend conservation methods to rectify problems = E094
Quantity of measurement: A=number of groups started; B=number of volunteers recruited; C=number of conservation measures recommended; D=acres; E=miles
Success measurement: Number of conservation methods adopted, and/or percentage decrease in water pollution
- Type of service performed:* Storm drains stenciled to reduce water pollution = E129
Quantity of measurement: A=number of drains stenciled
Success measurement: Percentage decrease in water pollution
- Type of service performed:* Small community water quality conference coordinated = E130
Quantity of measurement: A=number of people attending
Success measurement: Percentage of attendees committing to make water quality improvements
- Type of service performed:* Obtain tests on private water sources = E131
Quantity of measurement: A=number of tests obtained
Success measurement: Number of residents who gain access to public water, and/or number of landowners requesting follow-up.
- Type of service performed:* Improve water quality = E114
Quantity of measurement: A=number of measures installed
Success measurement: Percent of decrease in pollution
- Type of service performed:* Water use audits conducted = E118
Quantity of measurement: A=number of audits conducted
Success measurement: Percent of decrease in water usage
- Type of service performed:* Conduct shoreline and waterline assessments = E134
Quantity of measurement: A=number of assessments
Success measurement: Number of remedial plans developed
- Type of service performed:* Demonstration of alternative watering methods = E112
Quantity of measurement: A=number of demonstrations
Success measurement: Number of landowners adopting alternative methods
- Type of service performed:* Well-a-Syst = E137
Quantity of measurement: A=number of assessments
Success measurement: Number of landowners adopting improvements
- Type of service performed:* Farmer outreach for Farm*A*Syst = E150
Quantity of measurement: A=number of farmers reached
Success measurement: Number of requests for materials
- Type of service performed:* Reduce storm water in sewer system = E154
Quantity of measurement: A=number of homes signed up; B=number of downspouts disconnected
Success measurement: Percentage reduction of storm water in sewer system

Wetlands

- Type of service performed:* New wetlands created = E095
Quantity Measurement: A=number of wetlands created; B=number of acres of wetlands created; C=miles
Success Measurement: Percentage of land meeting scientific definition of wetland; percentage increase in wildlife usage; percentage improvement in water quality
- Type of service performed:* Existing wetlands restored or aided = E096
Quantity Measurement: A=number of wetlands; B=number of acres of wetlands aided
Success Measurement: Percentage increase of land meeting scientific definition of wetland; percentage increase in wildlife usage; percentage improvement in water quality

Wells

- Type of service performed:* Wells drilled = E097
Quantity Measurement: A=number of wells drilled
Success Measurement: Percentage of landowners expressing satisfaction with service
- Type of service performed:* Outdated wells sealed = E098
Quantity Measurement: A=number of wells sealed
Success Measurement: Percentage of landowners expressing satisfaction with service
- Type of service performed:* Test wells for water level = E115
Quantity Measurement: A=number of wells tested
Success Measurement: Number of people rating the service as valuable
- Type of service performed:* Develop well head protection plans = E136
Quantity Measurement: A=number of plans developed
Success Measurement: Number of measures implemented

Wildlife, Fisheries, and Plant Habitat

- Type of service performed:* Physical measures installed to improve wildlife habitat = E099
Quantity measurement: A=number of acres of land on which measures were installed; B=sites
Success measurement: Percentage of measures meeting professional standards
- Type of service performed:* Structures constructed to shelter or protect wildlife habitat = E100
Quantity measurement: A=number of structures constructed
Success measurement: Percentage of measures meeting professional standards
- Type of service performed:* Physical measures installed to improve fisheries habitat = E101
Quantity measurement: A=number of acres on which measures were installed; B=sites
Success measurement: Percentage of measures meeting professional standards
- Type of service performed:* Structures constructed to shelter or protect fisheries habitat = E102
Quantity measurement: A=number of structures constructed
Success measurement: Percentage of measures meeting professional standards

Type of service performed: Fish or fish eggs stocked = E103
Quantity measurement: A=number of fish; B=number of eggs
Success measurement: Estimated percentage of fish surviving

Type of service performed: Shellfish or shellfish eggs stocked = E104
Quantity measurement: A=number of shellfish
Success measurement: Estimated percentage of fish surviving

Type of service performed: Boxes constructed for nesting birds = E105
Quantity measurement: A=number of boxes constructed; B=sites
Success measurement: Percentage of boxes meeting professional standard

Type of service performed: Increase number of communities in shellfish resource management = E122
Quantity measurement: A=number of communities
Success measurement: Percentage increase in shellfish production

Type of service performed: Repair wild life feeders = E141
Quantity measurement: A=number of feeders repaired
Success measurement: Percentage of feeders meeting professional standards

ANTI-HUNGER AND NUTRITION SERVICE

Community and School Gardens

Type of service performed: New urban gardens created = E005

Quantity measurement: A=total number of acres; B=gardens; C=pounds

Success measurement: Number of people fed by gardens, number of volunteers recruited to help with gardens, percentage of gardens maintained by community groups, and/or percentage decrease in crime in area surrounding the garden

Type of service performed: Existing gardens renovated, revitalized, or aided = E006

Quantity measurement: A=number of acres renovated, revitalized, or aided

Success measurement: Percentage or number of increase of people fed by gardens, percentage or number of increased volunteers recruited to help with gardens, percentage or number increase in gardens maintained by community groups, and/or percentage decrease in crime in area surrounding the garden

Type of service performed: Groups and/or individuals trained to create and maintain gardens = E007

Quantity measurement: A=people; B=number of groups trained

Success measurement: Number and/or percentage of groups or people who actually create gardens; number of acres and/or number of people fed by gardens created by the people trained

Emergency Response

Type of service performed: Outreach provided on Emergency Food Stamps program = H001

Quality measurement: A=number of people reached

Success measurement: Number or percentage of people enrolled in program

Type of service performed: Community organizations trained in disaster relief = H002

Quality measurement: A=number of organizations trained

Success measurement: Percentage of organizations demonstrating improved ability to deal with future disasters

Farmer's markets

Type of service performed: Utilization of Farmer's Market Nutrition Program increased = H003

Quality measurement: A=number of people receiving outreach

Success measurement: Number or percentage increase in people buying food and/or farmers selling food; percentage increase in local availability of fresh fruits and vegetables

Type of service performed: Utilization of farmer's markets increased = H004

Quality measurement: A=number of people receiving outreach

Success measurement: Number or percentage increase in people buying food and/or farmers selling food; increase in local availability of fresh fruits and vegetables

Type of service performed: Farmer's markets created = H005

Quality measurement: A=number of markets created

Success measurement: Number of people buying food and/or farmers selling food; increase in local availability of fresh fruits and vegetables

Type of service performed: Farmer's markets demonstrations held in community = H006

Quality measurement: A=number of people viewing demonstration

Success measurement: Percentage of people rating presentation as valuable; Number of people buying food and/or farmers selling food; increase in local availability of fresh fruits and vegetables

Gleaning and Food Rescue

Type of service performed: Farmland gleaned for distribution of food to hungry citizens = H007

Quality measurement: A=number of acres of land gleaned

Success measurement: Number of people fed with gleaned food

Type of service performed: Food rescue program created = H008

Quality measurement: A=number of pounds and/or tons of food rescued

Success measurement: Number of people fed with rescued food

Type of service performed: Food rescue program expanded = H009

Quality measurement: A=number of additional pounds of food rescued

Success measurement: Number of additional people fed with rescued food

Type of service performed: Gleaning from area restaurants = H043

Quality measurement: A=number of meals served

Success measurement: Number of additional people fed with rescued food

Homeless outreach

Type of service performed: Outreach provided on nutrition programs to homeless citizens = H010

Quality measurement: A=number of people reached

Success measurement: Number or percentage of people enrolled in programs

Inventories

Type of service performed: Comprehensive survey of local hunger problems conducted = H012

Quality measurement: A=number of people covered by report

Success measurement: Number or percentage of problems identified by the report addressed by concrete action enrolled in programs

Meals on Wheels

Type of service performed: Meals prepared for shut-in citizens and the homeless = H013

Quality measurement: A=number of meals prepared

Success measurement: Percentage of prepared meals delivered enrolled in programs

Type of service performed: Meals prepared delivered to citizens and the homeless = H014

Quality measurement: A=number of meals served

Success measurement: Percentage of meal recipients receiving referrals for permanent services

Nutrition and Food Safety Education

Type of service performed: Nutrition and food safety education provided to school children = H015

Quality measurement: A=number of students educated

Success measurement: Percentage of students demonstrating increased knowledge

- Type of service performed:* Nutrition and food safety education and screening provided to senior citizens = H016
Quality measurement: A=number of senior citizens educated and screened
Success measurement: Percentage of senior citizens demonstrating increased knowledge on pre- and post-service test; successful referrals made
- Type of service performed:* Nutrition, food preparation, and food safety education provided to adults age 18-65 = H017
Quality measurement: A=number of people educated
Success measurement: Percentage of people demonstrating increased knowledge on pre- and post-service test
- Type of service performed:* Nutrition, food preparation, and food safety education provided to neighborhood groups = H018
Quality measurement: A=number of people; B=number of organizations educated
Success measurement: Percentage of people demonstrating increased knowledge on pre- and post-service test
- Type of service performed:* Nutrition, food preparation, and food safety workshops at recreation centers & public housing developments = H019
Quality measurement: A=number of young people educated; B=number of sites with new nutrition education programs
Success measurement: Percentage of young people demonstrating increased knowledge on pre- and post-service test

Nutrition and EITC Program Outreach

- Type of service performed:* General outreach provided on Federal nutrition programs = H020
Quality measurement: A=number of people reached and/or referred
Success measurement: Number or percentage of people enrolled in programs
- Type of service performed:* Outreach provided on Food Stamps program = H021
Quality measurement: A=number of people reached
Success measurement: Number or percentage of people enrolled in program
- Type of service performed:* Outreach provided on WIC program = H022
Quality measurement: A=number of people reached
Success measurement: Number or percentage of people enrolled in program
- Type of service performed:* Outreach provided on Commodity Supplemental Food Program = H023
Quality measurement: A=number of additional people reached
Success measurement: Number or percentage of additional pounds of food distributed
- Type of service performed:* Outreach provided on Earned Income Tax Credit (EITC) = H024
Quality measurement: A=number of people reached
Success measurement: Number or percentage of people enrolled in program; total money saved by families; number of families who were able to leave welfare because of EITC
- Type of service performed:* Outreach on food purchasing groups = H025
Quality measurement: A=number of people reached
Success measurement: Increased number or percentage of people enrolled in food purchasing groups; total money saved by families
- Type of service performed:* Food accessibility gaps filled = H026
Quality measurement: A=number of gaps filled
Success measurement: Percentage of community requests met and/or the total number of people aided

School Breakfast and Lunch Outreach

Type of service performed: "School breakfast champions" recruited = H027

Quality measurement: A=number of volunteers recruited

Success measurement: Percentage of increase in quantity and/or quality of school breakfast

Type of service performed: Outreach improving school breakfast provided to children = H028

Quality measurement: A=number of children receiving outreach

Success measurement: Percentage improvement in breakfast habits

Type of service performed: Outreach to increase school breakfast program participation = H029

Quality measurement: A=number of people receiving outreach

Success measurement: Additional children in school breakfast program

Type of service performed: Outreach to increase school lunch program participation = H030

Quality measurement: A=number of people receiving outreach

Success measurement: Additional children in school lunch program

Type of service performed: New school breakfast sites created = H031

Quantity measurement: A=number of sites created

Success measurement: Number of children fed and/or total number of meals provided

Soup Kitchens, Food Shelves, Food Banks, and Food Pantries

Type of service: Meals prepared and or served at soup kitchens or homeless shelters = H032

Quantity measurement: A=number of meals prepared and/or served

Success measurement: Percentage of non-profit group sponsors expressing satisfaction with the service

Type of service: Food sorted at food bank = H033

Quantity measurement: A=pounds or tons of food sorted

Success measurement: Number of people fed

Type of service: Food collected in food drive = H034

Quantity measurement: A=pounds or tons of food collected

Success measurement: Number of people fed

Type of service: New soup kitchens, food banks, or food pantries constructed or created = H035

Quantity measurement: A=number of sites constructed

Success measurement: Number of people to be served by the sites

Type of service: Soup kitchens, food banks, or food pantries repaired, expanded, or rehabilitated = H036

Quantity measurement: A=number of sites rehabilitated

Success measurement: Number of additional people to be served by the sites and/or number of additional days and hours sites are open

Type of service: Soup kitchens, food shelves, food banks, or food pantries access improved = H037

Quantity measurement: A=number of people reached

Success measurement: Percentage of people reporting that services are easier to utilize

Type of service: Development of a food distribution system = H042

Quantity measurement: A=pounds of food distributed

Success measurement: Number of people receiving food

Student and Youth Organizing

Type of service performed: Recruit volunteers for youth anti-hunger clubs = H038

Quantity Measurement: A=number of volunteers recruited

Success Measurement: Number off hours of anti-hunger community service performed by the volunteers

Type of service performed: Youth anti-hunger conference coordinated = H039

Quantity Measurement: A=number of people attending conference

Success Measurement: Percentage of attendees committing to future volunteer activity

Summer Food Service Program

Type of service performed: New Summer Food Service sites created and/or staffed = H040

Quantity measurement: A=number of sites created

Success measurement: Number of children fed and/or total number of meals provided

Type of service performed: Outreach to Summer Food Service program participation = H041

Quality measurement: A=number of people receiving outreach; B=number of flyers distributed

Success measurement: Additional children in school lunch program

RURAL DEVELOPMENT SERVICE**Cultural and Historic Resource Preservation**

- Type of service performed:* Historic and archeological sites identified for use in historic trail = R001
Quality measurement: A=number of sites identified
Success measurement: People to use trail
- Type of service performed:* Restore historic cemetery = R002
Quality measurement: A=number of acres restored
Success measurement: Percentage of local resident rating service as valuable; number of people who visit cemetery
- Type of service performed:* Cassette tape created for historic auto tour = R003
Quality measurement: A=number of oral history interview completed
Success measurement: Number of completed tapes used
- Type of service performed:* Construct traditional Indian homes = R070
Quality measurement: A=number of homes completed
Success measurement: Number of people to benefit
- Type of service performed:* Develop area guides and maps = R073
Quality measurement: A=number of guides developed
Success measurement: Number of requests for material

Economic Development

- Type of service performed:* Entrepreneurship seminars taught = R004
Quality measurement: A=number of seminars taught; B=number of people attending seminars
Success measurement: Percentage of seminar attendees starting entrepreneurship enterprises
- Type of service performed:* New jobs created = R005
Quality measurement: A=number of new jobs created
Success measurement: Average income of jobs; percentage of those taking jobs who left public assistance
- Type of service performed:* Existing jobs saved = R006
Quality measurement: A=number of jobs saved
Success measurement: Average income of jobs
- Type of service performed:* Job training provided = R007
Quality measurement: A=number of people receiving training; B=workshops
Success measurement: Number or percentage of people obtaining new or modified jobs with higher income

<i>Type of service performed:</i> Job counseling provided	= R008
<i>Quality measurement:</i> A=number of people receiving counseling	
<i>Success measurement:</i> Number or percentage of people obtaining new or modified jobs with higher income	
<i>Type of service performed:</i> Revolving loan fund created	= R041
<i>Quality measurement:</i> A=number of people receiving loans	
<i>Success measurement:</i> Number of new jobs created	
<i>Type of service performed:</i> Citizens move from welfare to independence	= R044
<i>Quality measurement:</i> A=number of citizens counseled and trained	
<i>Success measurement:</i> Number of citizens leaving welfare	
<i>Type of service performed:</i> School to work internships created	= R046
<i>Quality measurement:</i> A=number of students placed in internships	
<i>Success measurement:</i> Percentage of students who obtain permanent jobs with the companies with whom they were placed	
<i>Type of service performed:</i> Increase number of people in home-based employment	= R054
<i>Quality measurement:</i> A=number of people who start home-based employment	
<i>Success measurement:</i> Percentage of people who are successful after a set time	
<i>Type of service performed:</i> Develop library of economic resources	= R061
<i>Quality measurement:</i> A=number of people reached with library	
<i>Success measurement:</i> Percentage of people with increased knowledge	
<i>Type of service performed:</i> Create work study positions for adults	= R062
<i>Quality measurement:</i> A=number of adults placed	
<i>Success measurement:</i> Percentage of people who obtain permanent employment	
<i>Type of service performed:</i> Conduct seminars on alternative employment	= R064
<i>Quality measurement:</i> A=number of attendees	
<i>Success measurement:</i> Percentage of people who show increased knowledge	
<i>Type of service performed:</i> Conduct contractor training	= R067
<i>Quality measurement:</i> A=number of contractors trained	
<i>Success measurement:</i> Percentage of people who show increased knowledge	

Emergency Response and Prevention

- Type of service performed:* Dry fire hydrants planned = R009
Quality measurement: A=number of hydrants planned; B=number of counties protected
Success measurement: Percentage of hydrants planned that are installed; number of pond assessments completed; number of fire departments contacted
- Type of service performed:* Dry hydrants installed = R010
Quality measurement: A=number of hydrants installed; B=number of counties protected
Success measurement: Percentage reduction in fires an/or percentage of rural fire department that rate service as valuable; decrease in insurance rates
- Type of service performed:* Technical assistance provided to rural fire departments = R011
Quality measurement: A=number of fire departments; B=number of counties aided
Success measurement: Percentage reduction in fires an/or percentage of rural fire department that rate service as valuable; percentage decrease in insurance rates
- Type of service performed:* New fire equipment or buildings obtained for rural fire departments = R012
Quality measurement: A=number of departments aided
Success measurement: Dollar value of the equipment or buildings obtained; percentage decrease in insurance rates
- Type of service performed:* Implementing 911 emergency response system begun = R013
Quality measurement: A=number of counties aided; B=number of residents to be aided
Success measurement: Roads inventoried; signs posted; etc.
- Type of service performed:* Implementation of 911 emergency response system completed = R014
Quality measurement: A=number of counties aided; B=number of residents to be aided
Success measurement: Percentage of residents expressing belief project is valuable; decrease in insurance rates
- Type of service performed:* Identify water sources for fire protection = R066
Quality measurement: A=number of sites identified
Success measurement: Percentage of easements obtained

Farmer Assistance and Agricultural Diversification

- Type of service performed:* Family farmers provided with economic technical assistance to help them stay on the land = R015
Quality measurement: A=number of farmers receiving outreach
Success measurement: percentage of farmers implementing recommendations
- Type of service performed:* Family farmers trained and educated in agricultural diversification = R016
Quality measurement: A=number of farmers receiving outreach
Success measurement: Percentage of farmers implementing recommendations and/or diversifying their crops
- Type of service performed:* Farmer's markets created = H005
Quality measurement: A=number of markets created
Success measurement: Number of people buying food and/or farmers selling food; increase in local availability of fresh fruits and vegetables

Type of service performed: High value crops and sustainable agriculture techniques demonstrated = E106
Quality measurement: A=number of family farmers viewing demonstrations
Success measurement: Number and/or percentage of farmers starting production of high value crops and/or sustainable agriculture techniques =

Running Water and Indoor Plumbing

Type of service performed: Running water lines obtained for first time: = R017
Quality measurement: A=number of people obtaining running water or plumbing
Success measurement: Percentage of projects meeting appropriate codes

Type of service performed: People obtaining indoor plumbing for first time: = R018
Quality measurement: A=number of people obtaining of plumbing
Success measurement: Percentage of projects meeting appropriate codes

Type of service performed: Indoor plumbing and septic systems improved = R019
Quality measurement: A=number of people receiving improvements
Success measurement: Percentage of projects meeting appropriate codes; percentage reduction in water pollution

Type of service performed: Develop/implement regional water system = R071
Quality measurement: A=number of systems completed
Success measurement: Number of people who benefitted

Type of service performed: Quality of water in municipal system improved = R020
Quality measurement: A=number of people obtaining improved water
Success measurement: Percentage decrease in pollution

Type of service performed: Septic System Demonstrations = R072
Quality measurement: A=number of demonstrations
Success measurement: Number of new systems installed

Type of service performed: Contact people about obtaining waterline = R074
Quality measurement: A=number of people contacted
Success measurement: Number of people obtaining water

Rural Community Facilities and Infrastructure

Type of service performed: Timber bridges planned and/or designed = R021
Quality measurement: A=number of bridges; B=total length of bridges in feet
Success measurement: Number of bridges actually built

Type of service performed: Timber bridges built = R022
Quality measurement: A=number of bridges; B=total length of bridges in feet
Success measurement: Number of people expected to use the bridge, amount of money saved by using timber instead of metal. or stone bridge, and/or percentage decrease in pollution due to use of bridge instead of driving vehicles through a stream

Type of service performed: Street lights obtained by municipality = R023
Quality measurement: A=number of residents utilizing lights; B=number of lights
Success measurement: Percentage decreases in crime, traffic accidents, and/or speed of emergency response

Type of service performed: Public transportation system created = R043
Quality measurement: A=number of municipalities served by new systems
Success measurement: Number of people utilizing system

Type of service performed: Provide computers and training = R045
Quality measurement: A=number of computers provided; B=software
Success measurement: Number of people receiving training

Type of service performed: Identify county roads needing repair = R077
Quality measurement: A=number of roads identified
Success measurement: Number of roads actually repaired

Type of service performed: Obtain easements for new roads = R078
Quality measurement: A=number of easements
Success measurement: Number of roads actually started

Rural Community Revitalization

Type of service performed: Demolish or renovate vacated structures: = R024
Quality measurement: A=number of structures; B=number of square feet of structures renovated
Success measurement: Percentage of work meeting local building codes

Type of service performed: Removal of old retail sites = R025
Quality measurement: A=number of structures; B=number of square feet of structures removed
Success measurement: Percentage of local residents rating work as valuable

Rural Housing

Type of service performed: Assistance provided in obtaining repairs for home = R026
 health and safety hazards
Quality measurement: A=number of homes repaired
Success measurement: Percentage of repairs meeting building codes

Type of service performed: Outreach for new home ownership programs = R027
Quality measure: A=people receiving outreach
Success measurement: Number of people obtaining new homes (count all the members of each household)

Type of service performed: Volunteers recruited to help build homes = R028
 through self-help housing programs and/or non-profit groups
Quality measure: A=number of volunteers recruited
Success measurement: Number of people obtaining new homes (count all the members of each household) with assistance of volunteers

Type of service performed: Home ownership workshops offered = R029
Quality measure: A=number of people attending workshops
Success measurement: Number and/or percentage of people obtaining new homes (count all the members of each houses); percentage improving their credit rating

Type of service performed: Rental property management training provided = R030
Quality measure: A=number of people receiving training
Success measurement: Percentage of tenants expressing improvement in services and maintenance

Type of service performed: Non-profit housing groups formed = R031

Quality measure: A=number of groups formed; B=number of people in groups

Success measurement: Number of homes built or renovated by group

Type of service performed: Families relocated from flood plains = R032

Quality measure: A=number of families receiving outreach

Success measurement: Percentage and/or number of individuals in families actually relocated

Type of service performed: Low income homes rehabilitated = R042

Quality measurement: A=number of homes and number of people living in homes

Success measurement: Percentage of work meeting appropriate code

Type of service performed: Construct rental homes = R080

Quality measurement: A=number of homes

Success measurement: Percentage of work meeting appropriate code

Public Safety and Crime Prevention

Type of service performed: Community crime watch = R033

Quality measurement: A=number of volunteers recruited and number of hours served by volunteers

Success measurement: Percentage decrease in crime

Type of service performed: Drug abuse counseling and outreach provided = R034

Quality measurement: A=number of people counseled and educated

Success measurement: Percentage decrease in drug use

Volunteer Community Groups

Type of service performed: Volunteer community groups formed to perform projects = R035

Quality measurement: A=number of volunteers recruited

Success measurement: Number on people or things aided by concrete service projects performed by the volunteers

Youth Development and Family Assistance

Type of service performed: General early childhood development services provided = R036

Quality measurement: A=number of children receiving services

Success measurement: Increase in test scores of children; decrease in juvenile delinquency

Type of service performed: Adults children educated in parenting, budgeting, life, and families skills = R037

Quality measurement: A=adults and children receiving instruction

Success measurement: Increase in knowledge as budgeted by pre- and -post tests; percentage who improved their credit rating

Type of service performed: After school programs, activities, and events created for children and parents = R038

Quality measurement: A=number of parents and children utilizing programs

Success measurement: Increase in student test schools; decrease in juvenile delinquency; percentage of parents who rate programs as valuable

- Type of service performed:* Students provided with one-on-one tutoring and /or mentoring = R039
Quality measurement: A=number of students educated and/or mentored; B=number of volunteers recruited to help with tutoring
Success measurement: Percentage of students demonstrating increased knowledge on pre- and post-service test; percentage of teachers expressing satisfaction with service; decrease in juvenile delinquency
- Type of service performed:* Families referred to social services = R040
Quality measurement: A=number of families referred
Success measurement: Percentage of families referred who accessed social services
- Type of service performed:* Establish Human Development Centers = R056
Quality measurement: A=number of centers developed
Success measurement: Percentage of people rating service as valuable
- Type of service performed:* Establish Adopt-a-Room Program for shelter = R057
Quality measurement: A=number of business who adopt a room
Success measurement: Percentage of customer needs met
- Type of service performed:* Conduct Chore Services = R058
Quality measurement: A=number of people served
Success measurement: Percentage of people rating service as valuable
- Type of service performed:* Conduct conflict resolution seminars = R059
Quality measurement: A=number of attendees
Success measurement: Percentage of reduction of domestic violence
- Type of service performed:* Create Youth Councils = R060
Quality measurement: A=number of councils established
Success measurement: Number of youth involved
- Type of service performed:* Conduct Medical Screenings = R065
Quality measurement: A=number of screening sessions
Success measurement: Number of people receiving screenings
- Type of service performed:* Outreach on Energy Assistance Program = R068
Quality measurement: A=number of applications processed
Success measurement: Number of people receiving assistance
- Type of service performed:* Assess individual resources = R076
Quality measurement: A=number of people
Success measurement: Number of people who make changes
- Type of service performed:* Homeless shelters improved = R079
Quality measurement: A=number of shelters
Success measurement: Percentage of work meeting codes
- Type of service performed:* Contact communities about health centers = R075
Quality measurement: A=number of communities contacted
Success measurement: Number of communities establishing health centers

Senior Citizen Outreach

Type of service performed: Usage of senior center increased = R047

Quality measurement: A=number of senior citizen centers aided

Success measurement: Percentage increase in program usage

Type of service performed: Senior citizens interviewed for oral history = R048

Quality measurement: A=number of seniors interviewed

Success measurement: Number of students conducting the interviews

Type of service performed: Senior citizens provided health screenings = R050

Quality measurement: A=number of screening sessions

Success measurement: Number of seniors obtaining screenings

Type of service performed: Outreach to senior citizens to enroll
in programs for the elderly = R053

Quality measurement: A=number of people reached

Success measurement: Number of seniors enrolled in programs

Type of service performed: Arrange and monitor in-home services
for elderly = R063

Quality measurement: A=number of people reached

Success measurement: Number of people rating service as valuable

Youth Development

Type of service performed: Senior citizens engaged as mentors at
Head Start Centers = R049

Quality measurement: A=number of seniors recruited

Success measurement: Percentage increase of test scores in children at Head Start Centers

Type of service performed: Outreach to increase youth immunization rate = R051

Quality measurement: A=number of youth receiving information

Success measurement: Number of youth receiving immunizations

Type of service performed: Create recreational program = R052

Quality measurement: A=number of participants

Success measurement: Number of people rating program as valuable

Type of service performed: Conduct youth leadership seminars/retreats = R055

Quality measurement: A=number of seminars

Success measurement: Per cent of decrease in school drop-outs

Type of service performed: Create teen center = R069

Quality measurement: A=number of centers created

Success measurement: Number of teens joining center

<u>CODE</u>	<u>DESCRIPTION</u>	<u>PAGE #</u>
E001	Grass planted to protect coastline	1
E002	Physical measures installed to protect coastline	1
E003	Measures planned to protect coastline	1
E004	Debris removed from vacant lots or public spaces	1
E005	New urban gardens created	2
E006	Existing gardens renovated, revitalized or aided	2
E007	Groups or individuals trained to create & maintain gardens	2
E008	Conservation planning completed	2
E009	Physical measures installed to conserve soil or protect water quality	2
E010	Cultural resource sites enhanced or preserved	2
E011	Cultural resource sites inventoried	2
E012	Students provided conservation/environmental/agricultural education	3
E013	Students provided with one-on-one conservation tutoring/mentoring	3
E014	Environthon participation expanded	3
E015	Outdoor classrooms created	3
E016	Traveling conservation library created	3
E017	Adults provided conservation education	3
E018	Recreation area made accessible for Americans with disability	3
E019	Buildings made accessible for Americans with disabilities	3
E020	Trails made accessible for Americans with disabilities	3
E021	Fences built to protect and conserve land	4
E022	Fences removed	4
E023	Land physically treated to reduce fire ladders or other fire risks	4
E024	Reduction in fuel ladders & other fire risks planned	4
E025	Sand bags installed	4
E026	Flood damaged homes cleaned or repaired	4
E027	Physical measures installed that are designed to prevent or limit future flood damage	4
E028	Physical work performed to help land recover from flood-related damage	5
E029	Fences built to prevent future flooding	5
E030	Flood retarding dams or levees maintained	5
E031	Water management plans developed for landowners	5
E032	New method developed to harvest timber while protecting ecosystem	5
E033	Forestry management workshops	5
E034	Physical measures installed to protect grasslands	5
E035	Wildlife or fisheries habitat inventoried	6
E036	Grassland assessments completed	6
E037	Maps produced through GIS or other electronic means	6
E038	Land use surveys performed	6
E039	Planted materials grown	6
E040	Greenhouses built	7
E041	Greenhouses repaired or renovated	7
E042	Park or forest visitor center constructed	7
E043	Park or forest visitor center repaired/renovated	7
E044	Structures constructed	7
E045	Boardwalk constructed	7
E046	Boardwalk repaired or rehabilitated	7

E047	Structures repaired or rehabilitated	7
E048	Land generally repaired or rehabilitated	7
E049	New recreation areas constructed	8
E050	Existing recreation areas rehabilitated, repaired, or maintained	8
E051	New public playgrounds constructed	8
E052	Existing public playgrounds rehabilitated, repaired or maintained	8
E053	New picnic tables constructed	8
E054	Existing picnic tables rehabilitated, repaired or maintained	8
E055	Solid waste recycling project started	9
E056	Solid waste recycling project aided or improved	9
E057	Hazardous waste recycling project started	9
E058	Hazardous waste recycling project aided or improved	9
E059	Streambank maintained or rehabilitated to reduce erosion	9
E060	Streams cleared of debris	10
E061	Willows or other cuttings planted	10
E062	Sediment retaining structures constructed	10
E063	Farmers aided with Best Management Practices	10
E064	Nutrient management plans created	10
E065	Integrated Pest Management Plans created	10
E066	Waste management plans created and measures implemented	10
E067	Irrigation and water use reduced	10
E068	Farmers provided with general sustainable agricultural aid	10
E069	Waste lagoons pumped out for farmers	11
E070	Timber stand improved	11
E071	Trees pruned	11
E072	Trees planted	11
E073	Land reforested	11
E074	Forestry conservation practices implemented	11
E075	Forestry conservation practices planned	12
E076	New windbreaks planted	12
E077	Existing windbreaks renovated	12
E078	Nature, hiking, historic, or horseback trail constructed	12
E079	Railroad tracks converted to trails	12
E080	Trails maintained, cleared, or rehabilitated	12
E081	Trail bridges constructed	12
E082	Trail stairs constructed	12
E083	Emergency shelters placed by side of trail	12
E084	Signs placed on scenic roads or on nature, hiking, or horseback trail	12
E085	Roads "day lighted" to improve safety conditions	12
E086	Roads on public lands cleared of obstruction	13
E087	Public housing units repaired or rehabilitated	13
E088	Volunteers recruited for crime prevention activities	13
E089	Landscaping work performed at community facilities	13
E090	Community facilities repaired, painted or rehabilitated	13
E091	Volunteers recruited for environmental activities	13
E092	Farmers provided with "Farm*A*Syst"	13
E093	Land owners provided with "Home*A*Syst"	14
E094	"Adopt-a-Watershed" projects	14
E095	New wetlands created	15
E096	Existing wetlands restored or aided	15

E097	Wells drilled	15
E098	Outdated wells sealed	15
E099	Physical measures installed to improve wildlife habitat	15
E100	Structures constructed to shelter or protect wildlife habitat	15
E101	Physical measures installed to improve fisheries habitat	15
E102	Structures constructed to shelter or protect fisheries habitat	15
E103	Fish or fish eggs stocked	16
E104	Shellfish stocked	16
E105	Boxes constructed for nesting birds	16
E106	High value crops & sustainable agriculture techniques demonstrated	11
E107	Poultry litter recycled	9
E108	Development of fire protection plans	4
E109	Plans developed for land use	6
E110	Conduct soil tests	11
E111	Provide technical assistance	11
E112	Demonstration of alternative watering methods	14
E113	Conservation displays developed	2
E114	Improve water quality	14
E115	Test wells for water level	15
E116	Agriculture established	11
E117	Identify products for recyclable material	9
E118	Water use audits conducted	14
E119	Increase of organic matter in soil	2
E120	Graffiti removed from properties	1
E121	Clean-up litter or illegal dumpsites	1
E122	Increase number of communities in shellfish resource mgmt	16
E123	Horticulture collection prepared for winter	5
E124	Invasive plants removed from collection	5
E125	Landscape architectural materials developed for presentations	6
E126	Schematic plans developed for rural communities	6
E127	General maintenance of National Arboretum provided	6
E128	Inventory conducted of community environmental resources	6
E129	Storm drains stenciled to reduce water pollution	14
E130	Small community water quality conference coordinated	14
E131	Obtain tests on private water services	14
E132	Assist with seed cleaning	7
E133	Develop Integrated Crop Mgmt Plans	11
E134	Conduct shoreline & waterline assessments	14
E135	Recycle wood waste	9
E136	Develop well head protection plans	15
E137	Well-a-Syst	14
E138	Walkways repaired	8
E139	Restrooms repaired	8
E140	Repair boat docks	8
E141	Repair wild life feeders	16
E142	Build parking lots	8
E143	Remove old signs	8
E144	Repair or install signs	8
E145	Repair fences	9
E146	Grass planted	5

E147	Debris removed	7
E148	Campfire rings built	4
E149	Land cleared	7
E150	Farmer outreach for Farm*A*Syst	14
E151	Conduct technical assistance projects	11
E152	Trails planned	13
E153	Solid waste recycled	9
E154	Reduce storm water in sewer system	14
E155	Acid mine drainage site reclamation and clean-up	1
E156	Maintenance guide for rail trails	13
E157	Mulching Beds and Paths	16
E158	Care & Maintenance of Specific Trees	16
E159	Leaf Removal	16
E160	Improve Soil Structure & Texture	16
E161	Lawn Care Service	16
E162	Revive Neglected Collections	16
H001	Outreach provided on Emergency Food Stamps program	17
H002	Community organizations trained in disaster relief	17
H003	Utilization of Farmer's markets Nutrition Program increased	17
H004	Utilization of farmer's markets increased	17
H005	Farmer's markets created	17
H006	Farmer's markets demonstrations held in community	17
H007	Farmland gleaned for distribution of food to hungry citizens	18
H008	Food rescue program created	18
H009	Food rescue program expanded	18
H010	Outreach provided on nutrition programs to homeless citizens	18
H011		
H012	Comprehensive survey of local hunger problems conducted	18
H013	Meals prepared for shut-in citizens & homeless	18
H014	Meals prepared delivered to citizens & homeless	18
H015	Nutrition & food safety education provided to school children	18
H016	Nutrition & food safety education & screening provided to senior citizens	19
H017	Nutrition, food preparation, and food safety education provided to adults age 18-65	19
H018	Nutrition, food preparation, & food safety education provided to neighborhood groups	19
H019	Nutrition, food preparation, & food safety workshops at recreation centers & public housing developments	19
H020	General outreach provided on Federal nutrition programs	19
H021	Outreach provided on Food Stamps program	19
H022	Outreach provided on WIC program	19
H023	Outreach provided on Commodity Supplemental Food Program	19
H024	Outreach provided on Earned Income Tax Credit	19
H025	Outreach on food purchasing groups	19
H026	Food accessibility gaps filled	19
H027	School breakfast champions recruited	20

H028	Outreach improving school breakfast provided to children	20	
H029	Outreach to increase school breakfast program participation	20	
H030	Outreach to increase school lunch program participation	20	
H031	New school breakfast sites created	20	
H032	Meals prepared and or served at soup kitchens or homeless shelters	20	
H033	Food sorted at food bank	20	
H034	Food collected in food drive	20	
H035	New soup kitchens, food banks, or food pantries constructed	20	20
H036	Soup kitchens, food banks, or food pantries repaired, expanded, or rehabilitated	20	
H037	Soup kitchens, food shelves, food banks, or food pantries access improved	20	
H038	Recruit volunteers for youth anti-hunger clubs	21	
H039	Youth anti-hunger conference coordinated	21	
H040	New summer food service sites created and/or staffed	21	
H041	Outreach to summer food service program participation	21	
H042	Development of a food distribution system	20	
H043	Gleaning from area restaurants	18	
R001	Historic and archeological sites identified for use in historic trail	22	
R002	Restore historic cemetery	22	
R003	Cassette tape created for historic auto tour	22	
R004	Entrepreneurship seminars taught	22	
R005	New jobs created	22	
R006	Existing jobs saved	22	
R007	Job training provided	22	
R008	Job counseling provided	23	
R009	Dry fire hydrants planned	24	
R010	Dry hydrants installed	24	
R011	Technical assistance provided to rural fire departments	24	
R012	New fire equipment or buildings obtained for rural fire dpts	24	
R013	Implementing 911 emergency response system begun	24	
R014	Implementation of 911 emergency response system completed	24	
R015	Family farmers provided with economic technical assistance	24	
R016	Family farmers trained and educated in agricultural diversification	24	
R017	Running water lines obtained for first time	25	
R018	People obtaining indoor plumbing for first time	25	
R019	Indoor plumbing and septic systems improved	25	
R020	Quality of water in municipal system improved	25	
R021	Timber bridges planned and/or designed	25	
R022	Timber bridges built	25	
R023	Street lights obtained by municipality	25	
R024	Demolish or renovate vacated structures	26	
R025	Removal of old retail sites	26	
R026	Assistance provided in obtaining repairs for home health and safety hazards	26	
R027	Outreach for new home ownership programs	26	
R028	Volunteers recruited to help build homes	26	
R029	Home ownership workshops offered	26	

R030	Rental property management training provided	26
R031	Non-profit housing groups formed	27
R032	Families relocated from flood plains	27
R033	Community crime watch	27
R034	Drug abuse counseling and outreach provided	27
R035	Volunteer community groups formed to perform projects	27
R036	General early childhood development services provided	27
R037	Adults children educated in parenting, budgeting, life skills	27
R038	After school programs, activities and events created	27
R039	Students provided with one-on-one tutoring	28
R040	Families referred to social services	28
R041	Revolving loan fund created	22
R042	Low income homes rehabilitated	27
R043	Public transportation system created	26
R044	Citizens move from welfare to independence	22
R045	Provide computers and training	26
R046	School to work internships created	22
R047	Usage of senior center increased	29
R048	Seniors interviewed for oral history	29
RO49	Senior citizens engaged as mentors at Head Start Centers	29
R050	Senior citizens provided health screenings	29
R051	Outreach to increase youth immunization rate	29
R052	Create recreational program	29
R053	Outreach to senior citizens to enroll in programs for elderly	29
R054	Increase number of people in home-based employment	22
R055	Conduct youth leadership seminars/retreats	29
R056	Establish human development centers	28
R057	Establish Adopt-a-Room Program for shelter	28
R058	Conduct Chore services	28
R059	Conduct conflict resolution seminars	28
R060	Create youth councils	28
R061	Develop library of economic resources	22
R062	Create work study positions for adults	22
R063	Arrange and monitor in-home services for elderly	29
R064	Conduct seminars on alternative employment	22
R065	Conduct medical screenings	28
R066	Identify water sources for fire protection	24
R067	Conduct contractor training	22
R068	Outreach on Energy Assistance Program	28
R069	Create teen center	29
R070	Construct traditional Indian homes	22
R071	Develop/implement regional water system	25
R072	Septic system demonstrations	25
R073	Develop area guides and maps	23
R074	Contact people about obtaining waterline	25
R075	Contact communities about health centers	28
R076	Assess individual resources	28

R077	Identify county roads needing repair	26
R078	Obtain easements for new roads	26
R079	Homeless shelters improved	28
R080	Construct rental homes	27

APPENDIX II

- II. *“Summary of All Work Performed by All Sites in a Particular Program (Objective) Code”* is a 21 page report that summaries all the work done by all USDA AmeriCorps sites related to a particular program (objective) code. For example, EN-E004A is the code for “Remove Debris.” Work on this objective is done at three separate USDA AmeriCorps operating sites in three different states (Y34D - 2 acres; Y17C - 5 acres; T20A - 10 acres). This report totals the work to show that for program (objective) code EN-E004A a total of 17 acres are expected to be cleaned and in the first quarter 2 acres were actually cleaned.
