Description of Service: Water quality

Ethnicity (Solo sites):

Community Serv. Obj. #1: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVES

28-07

Grantee: USDA Soil Conservation Service

Site: Columbus, Ohio

COMPONENTS OF OBJECTIVE STATEMENTS: Two participants to assist Soil and Water Conservation Districts to do survey and design work for conservation Best Management Practices in the rural areas and to work with county engineers in checking best management practices on urbanizing areas.

1. What work will be done?

A. Survey and design 35 BMP's for critical areas that are in the watershed.

B. Urban BMP's will be designed and installed on 25% of all subdivisions in the Franklin, Madison and Union county portion of the watershed located on tributaries or the Little and Big Darby Creeks.

2. What is the hoped for result of the work/activities described above?

To develop the skills of the project participants so they can provide necessary data for BMP design and to increase the amount of conservation on the land on critical areas in the watershed.

3. How will you measure the quality of your product or impact of your service?

The data to be provided will meet the needs of the design staff of the SWCD's and the SCS as outlined by the SCS Standard and Specifications or the Field Office Technical Guide for rural areas and based on erosion regulations in urban settings.

4. By what standard will you gauge success?

The standard of success will be the reduction of risk to the Darby Creek as shown by decreasing

RECORD #: 316

sediment and pollutants by 75% that were entering the aquatic system of the sites where BMP's were installed.

5. How many individuals will receive the benefit of the work your participants perform?
75 landowners or sites per year. The endangered species in the river also benefit as the water quality is maintained or improved.

Community Serv. Obj. #3: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVES

28-08

RECORD #: 316

Grantee: USDA Soil Conservation Service

Site: Columbus, Ohio

COMPONENTS OF OBJECTIVE STATEMENTS: One participant to assist with T.R.E.E.S.
Turn Key

Program and work with the vendor in
establishing riparian
corridor buffer strips.

1. What work will be done?

One participant will work directly with the ODNR Service Forester.

A. Gather data required to develop tree planting plans.

B. Work with the Trees vendor in establishing riparian corridor buffer strips and doing tree planting on non riparian areas.

C. Assist on streambank stabilization projects using plant materials and coordinate the seed pick-up program.

2. What is the hoped for result of the work/activities described above?

This project will allow the participant to receive hands on assistance in planning, laying out, planting and maintaining trees for riparian buffers and improving existing buffers on all sites the vendor treats and the Service Forester completes tree planting plans on.

3. How will you measure the quality of your product or impact of your service?

The success will be the development and improvement of skills that allow the participant to develop site specific plans and actually provide the service as an employee of the vendor or on their own should they choose to create their own business post Americorps.

4. By what standard will you gauge success?

The vendor and the Service forester will evaluate the skill level of the participant and 80% of all outlined skills will need to be met at the 40th week of the AmeriCorps experience.

5. How many individuals will receive the benefit of the work your participants perform?

One AmeriCorps participant per year will benefit from the vendor experience.

The number of acres of riparian corridor and other areas to be forested is estimated to be 200.

Community Serv. Obj. #4: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVES

Grantee: USDA Soil Conservation Service

Site: Columbus, Ohio

COMPONENTS OF OBJECTIVE STATEMENTS: The participant will assist the Darby Creek
ODNR Scenic

River Coordinator at the field level.

1. What work will be done?

28-09

RECORD #: 316

A. The participant will assist the Darby Creek ODNr Scenic River Coordinator at the field level by acting as "eyes on the river" each day.

B. Inventory 50 miles of Big and Little Darby Creeks and principal tributaries.

2. What is the hoped for result of the work/activities described above?

This participant will report to key groups having interest in the river and assist in the control of dumping, littering, toxic and riparian corridor destruction. This will allow for more timely protection efforts by locals.

3. How will you measure the quality of your product or impact of your service?

This participant will be accepted by the local residents as a "river keeper" in the field when 50% of the groups and individuals report to independent reviewers that proper follow up occurred after information requests were made.

4. By what standard will you gauge success?

Constant mentoring will be required as the nature of success is the increased rate of protection efforts mounted by local individuals and groups. The participant will develop and keep records of contacts and follow up case files.

5. How many individuals will receive the benefit of the work your participants perform?

The participant will benefit from the service. The species of life in the river will benefit as increased protection is provided. The residents who live along the Darby Creek (estimated to be 5,000) will benefit as there is an person they can contact when problems occur that will answer to them.

Description of Service: Windbreak restoration

Ethnicity (Solo sites):

Community Serv. Obj. #1:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Oklahoma

COMPONENTS OF OBJECTIVE STATEMENTS: Increase public awareness in the 23 western counties about the value of windbreaks and the need for long-term maintenance by encouraging 1000 people to participate by surveying support of the AmeriCorps Teams efforts and encouraging media coverage.

1. What work will be done?

The work to be done is increase public awareness in the 23 western counties.

2. What is the hoped for result of the work/activities described above?

The result to be achieved is support and participation of the public for AmeriCorps and the Corps Team in all 23 counties.

3. How will you measure the quality of your product or impact of your service?

The measure of quality will be participation levels, number of surveys completed, and effectiveness of media coverage.

07-02

RECORD #: 321

4. By what standard will you gauge success?

The standard of success will be achieved with 1000 people participating, 70% positive responses to the survey and coverage by several media types.

5. How many individuals will receive the benefit of the work your participants perform?

All persons within the 23 western counties will benefit from this service as will the state of Oklahoma.

Community Serv. Obj. #2: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Oklahoma

COMPONENTS OF OBJECTIVE STATEMENTS: Increase public awareness of local, state, and federal agencies availability for resource problems through the development and implementation of informational materials and activities in 23 western counties.

1. What work will be done?

The work to be done is to develop and implement informational materials and activities that shows agency efforts in windbreak restoration and resource protection.

2. What is the hoped for result of the work/activities described above?

The result to be achieved is increased requests for information and/or assistance to participating agencies in AmeriCorps.

3. How will you measure the quality of your product or impact of your service?

The measure of quality will be positive requests that lead to increased assistance to the 23 western counties related to windbreaks, forestry, wildlife or other natural resource conservation needs.

4. By what standard will you gauge success?

The standard of success will be if 50% of the 23 counties receive an increase in requests and a 10% increase in program participation concerning windbreak restoration.

5. How many individuals will receive the benefit of the work your participants perform?

People in the 23 western counties will benefit from this service.

CORPORATION FOR NATIONAL SERVICE

COMMUNITY SERVICE OBJECTIVE

32-01

Grantee: USDA Soil Conservation Service

Site: Southwest Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: In each community projects will be developed that respond

to locally identified needs, priorities and resources through meetings, interviews and collaboration with community leaders, residents, agencies and organizations; review of projects and discussions in the community should establish at least 60% support of planned activities among community leaders.

-

1. What work will be done?

Project development, community organizing, grantwriting.

2. What is the hoped for result of the work/activities described above?

Planning for and implementation of locally-supported projects enhancing natural resources and/or economic development. Three projects per member.

3. How will you measure the quality of your product or impact of your service?

Review of project proposals and/or actions and discussions in the community to verify local support.

4. By what standard will you gauge success?

60% support of planned activities among community leaders.

RECORD #: 329

5. How many individuals will receive the benefit of the work your participants perform?
Residents of 6 communities and 9 watershed councils. 55,000 people

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Southwest Oregon

32-02

COMPONENTS OF OBJECTIVE STATEMENTS: For each project requiring funding, potential sources will be identified and grants will be written and submitted for consideration by donors; projects not requiring funding should have action plans developed, and commitment of resources should be secured.

1. What work will be done?

Identify potential sources of funds, grantwriting, developing action or implementation plans.

2. What is the hoped for result of the work/activities described above?

Grant proposals developed and submitted for funding, plans developed. Three grants/plans per member.

3. How will you measure the quality of your product or impact of your service?

Review grants or plans written.

4. By what standard will you gauge success?

At least one grant written or activity plan outlined for each community or council served.

5. How many individuals will receive the benefit of the work your participants perform?

Residents of 6 communities and 9 watershed councils. 55,000 people

Community Serv. Obj. #3:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Southwest Oregon

32-03

COMPONENTS OF OBJECTIVE STATEMENTS: Community members and leaders will develop skills in problem-solving and accessing rural development resources through their active involvement

RECORD #: 329

in project development and implementation; consistent involvement of locals in meetings and activities during the process and continued demonstration of problem-solving and networking skills after the program intervention will be evident in at least 75% of the groups served.

1. What activities will you be engaged in?

Demonstrating and teaching rural development skills; developing networks and teaching mechanisms to access networks and resources.

2. What is the hoped for result of the activities described above?

Improved skills in each community and council; ties to and ability to access the rural development network; community ability to identify and respond to needs.

3. How will you measure the quality of these activities?

Survey local leaders and agencies, etc., who may interact with communities, evaluate structures and processes for problem identification and solving within groups. Involvement of local people in meetings and activities.

4. By what standard will you gauge success?

75% of the community groups have effective contacts with the rural development network and/or demonstrate effective problem-solving.

CORPORATION FOR NATIONAL SERVICE SERVICE OBJECTIVES

OBJECTIVE STATEMENT

To provide assistance to rural communities interested in implementing urban forestry programs resulting in improved living conditions and opportunities for neighborhood service.

COMPONENTS OF OBJECTIVE STATEMENT

1) What work will be done? What service will your members engage in?

Identify 20 suitable planting sites for urban forestry projects.

Secure funding for purchase of materials.

Recruit volunteers to plant 200 trees.

2) What is the hoped for result of the activities described above?

Establishment of native tree species in residential and business areas in small communities.

RECORD #: 331

Involvement of local civic and volunteer groups.

3) How will you measure the quality of these activities?

Survival rate of 60% of planted trees.

Participation by 3 local groups.

4) By what standard will you gauge success?

Improvement of overall aesthetic quality of area.

Increase in real estate values.

5) How many individuals will receive the benefit of the work you managers perform?

All residents of the communities involved - 100,000 people.

Community Serv. Obj. #2: Grantee Department of Agriculture

Site Oregon

Objective Code 18

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To seek sustainable economic development opportunities to diversify local economies, resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Members will work directly with local business leaders to inventory existing resources, identify 20 sustainable economic development opportunities, conduct 5 feasibility studies, and assist in writing 5 business plans.

Issues of environmental concern will be analyzed with any related new business venture.

RECORD #: 331

2) What is the hoped for result of the activities described above?

Increasing local employment and income.

5 local individuals will be trained for employment.

Business plans will be developed and funding sought.

3) How will you measure the quality of these activities?

Professionals will review all environmental impact analysis.

Local business leaders will be interviewed following completion of project.

Loans and other funding will be obtained for 25!k of the business plans developed.

4) By what standard will you gauge success?

Establishment of one sustainable, natural resource based business employing 5 locally trained people.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To promote alternative wood products and value added manufacturing technologies resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Identify 5 potential wood products markets and 3 needed technologies.

Solicit participation from existing wood products manufacturers.

Train 20 existing wood products manufacturers in value added technologies.

2) What is the hoped for result of the activities described above?

RECORD #: 331

Increasing value of locally produced wood products.

Higher employment and income levels.

3) How will you measure the quality of these activities?

Survey participating wood products manufacturers before and after project on value their product.

4) By what standard will you gauge success?

Increase of 50%- in value of primary product being produced by the 20 manufacturers as measured by average before and after selling price.

COMMUNITY SERVICE OBJECTIVE

32-01

Grantee: USDA Soil Conservation Service

Site: Southwest Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: In each community projects will be developed that respond

to locally identified needs, priorities and resources through meetings, interviews and collaboration with community leaders, residents, agencies and organizations; review of projects and discussions in the community should establish at least 60% support of planned activities among community leaders.

-

1. What work will be done?

Project development, community organizing, grantwriting.

2. What is the hoped for result of the work/activities described above?

Planning for and implementation of locally-supported projects enhancing natural resources and/or economic development. Three projects per member.

3. How will you measure the quality of your product or impact of your service?

Review of project proposals and/or actions and discussions in the community to verify local support.

4. By what standard will you gauge success?

60% support of planned activities among community leaders.

RECORD #: 332

5. How many individuals will receive the benefit of the work your participants perform?
Residents of 6 communities and 9 watershed councils. 55,000 people

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Southwest Oregon

32-02

COMPONENTS OF OBJECTIVE STATEMENTS: For each project requiring funding, potential sources will be identified and grants will be written and submitted for consideration by donors; projects not requiring funding should have action plans developed, and commitment of resources should be secured.

1. What work will be done?

Identify potential sources of funds, grantwriting, developing action or implementation plans.

2. What is the hoped for result of the work/activities described above?

Grant proposals developed and submitted for funding, plans developed. Three grants/plans per member.

3. How will you measure the quality of your product or impact of your service?

Review grants or plans written.

4. By what standard will you gauge success?

At least one grant written or activity plan outlined for each community or council served.

5. How many individuals will receive the benefit of the work your participants perform?

Residents of 6 communities and 9 watershed councils. 55,000 people

Community Serv. Obj. #3:

32-03

COMPONENTS OF OBJECTIVE STATEMENTS: Community members and leaders will develop skills in problem-solving and accessing rural development resources through their active involvement

RECORD #: 332

in project development and implementation; consistent involvement of locals in meetings and activities during the process and continued demonstration of problem-solving and networking skills after the program intervention will be evident in at least 75% of the groups served.

1. What activities will you be engaged in?

Demonstrating and teaching rural development skills; developing networks and teaching mechanisms to access networks and resources.

2. What is the hoped for result of the activities described above?

Improved skills in each community and council; ties to and ability to access the rural development network; community ability to identify and respond to needs.

3. How will you measure the quality of these activities?

Survey local leaders and agencies, etc., who may interact with communities, evaluate structures and processes for problem identification and solving within groups. Involvement of local people in meetings and activities.

4. By what standard will you gauge success?

75% of the community groups have effective contacts with the rural development network and/or demonstrate effective problem-solving.

Description of Service: Forest conservation work

Ethnicity (Solo sites):

Community Serv. Obj. #1: Rogue River National Forest #1

OBJECTIVE STATEMENT:

To perform work on public lands to conserve, restore, and sustain natural habitats within various ecosystems. To maintain, improve, and construct recreation facilities including camp sites, trails, access points, etc. to benefit users of the National Forest System. To perform work that will improve habitat for Threatened, Endangered, and Sensitive species and improve forest health through thinning and restoration. To assist in restoring natural beauty in the national forests and assist in disaster recovery efforts when requested.

COMPONENTS OF OBJECTIVE STATEMENT

1) What work will be done? What service will your members engage in?

Enhance campgrounds and picnic areas and other developed recreation sites on the Rogue River National Forest (RRNF). Restore 250 picnic tables, construct 1.2 miles of rail fencing, reconstruct 2.5 miles of rail fencing, and install several campground parking barriers. Improve accessibility in all campgrounds. Complete 100 sites for general public use by September 1, 1995.

Replace 10 trail bridges on trails at 10 specific streamcrossings on the RRNF, meeting regional engineering standards, and approved by Forest Engineer prior to public use. Complete 80% of the bridges by September 1, 1995.

Maintain 280 miles of hiking trails at high elevation sites determined to be priority maintenance

locations, and meeting regional hiking trail standards. Complete 80% of the total project by August 30, 1995.

RECORD #: 336

Enhance spotted owl ecosystems at 10 locations on the forest, following guidelines set forth by the wildlife biologist, and completing projects in a time frame that would be sensitive to the needs of individual species, but no later than September 1, 1995.

100% Hand prune 250 acres on the RRNF, improving the quality of future timber products. Complete of the project by Sept. 30, 1995.

Thin 300 acres, and release 400 acres to promote healthier trees. Complete 75% by Sept. 30, 1995.

Install 20,000 shade cards to protect young seedlings. Complete 90% by Sept. 30, 1995.

Install vexar netting on 1300 acres to protect young seedlings from browsing. Complete 100% by Sept. 30, 1995.

The improvement of the Forest's timber supply will greatly increase the value of the available resources.

Build instream watershed structures in several streams to enhance fish habitat. Complete 100% by July 31, 1995.

2) What is the hoped for result of the activities described above?

Projects will be completed in a timely and quality manner and the recreation facilities will be used extensively by the general public and forest users. Forest health will be improved through thinning and reforestation. It is the hope that the completion of these projects will allow the youth in the Rogue River AmeriCorps program will become more environmentally aware and sensitive as a result of the environmental education programs.

3) How will you measure the quality of these activities?

The majority of these activities will be measured against established and approved standards within Forest Service Land and Resource Management Plans, handbooks, operation, maintenance and construction guidelines, and project workplans. Line Officers will be responsible for accepting the quality of work accomplishments and will hold Members and 3rd parties accountable as part of their performance expectations. We'll work with the schools to conduct and evaluate pre/post tests to determine and measure the success of the environmental education programs.

4) By what standard will you gage success?

By completion of all the work in a timely manner per established standards for quality.

5) How many individuals will receive the benefit of the work your members perform?

The Rogue River National Forest is surrounded by more than 25 small, timber dependant

RECORD #: 336

communities,
with the Medford/Ashland metroplex being the hub of southern Oregon. The Rogue serves over 175,000 local residents as well as over 1.5 million visitors on an annual basis. The enhancement and improvement of our recreation facilities will not only provide a more enjoyable experience for our forest visitors, but it will encourage extended stays and future trips to the area. This will continue to benefit local communities by increasing visitor traffic and enhancing the tourism trade.

The extensive environmental education program on this forest serving over 38,000 area school children will utilize the improved facilities by encouraging repeat visits by local groups and providing a more diverse learning experience for students of all ages. The improved sites will also provide increased opportunities for local schools to take part in outdoor environmental education experiences. The enhancement of wildlife habitats will provide important learning experiences for forest visitors.

The extensive timber stand improvement activities will benefit the local timber related businesses as well as the Forest Service by improving the value and quality of the resources.

3) How will you measure the quality of these activities?

The majority of these activities will be measured against established and approved standards within Forest Service Land and Resource Management Plans, handbooks, operation, maintenance and construction guidelines, and project workplans. Line Officers will be responsible for accepting the quality of work accomplishments and will hold Members and 3rd parties accountable as part of their performance expectations. We'll work with the schools to conduct and evaluate pre/post tests to determine and measure the success of the environmental education programs.

4) By what standard will you gauge success?

By completion of all the work in a timely manner per established standards for quality.

5) How many individuals will receive the benefit of the work your members perform?

RECORD #: 336

The Rogue River National Forest is surrounded by more than 25 small, timber dependant communities, with the Medford/Ashland metroplex being the hub of southern Oregon. The Rogue serves over 175,000 local residents as well as over 1.5 million visitors on an annual basis. The enhancement and improvement of our recreation facilities will not only provide a more enjoyable experience for our forest visitors, but it will encourage extended stays and future trips to the area. This will continue to benefit local communities by increasing visitor traffic and enhancing the tourism trade.

The extensive environmental education program on this forest serving over 38,000 area school children will utilize the improved facilities by encouraging repeat visits by local groups and providing a more diverse learning experience for students of all ages. The improved sites will also provide increased opportunities for local schools to take part in outdoor environmental education experiences. The enhancement of wildlife habitats will provide important learning experiences for forest visitors.

The extensive timber stand improvement activities will benefit the local timber related businesses as well as the Forest Service by improving the value and quality of the resources.

Community Serv. Obj. #3: Rogue River National Forest #3

OBJECTIVE STATEMENT:

To perform work on public lands to conserve, restore, and sustain natural habitats within various ecosystems. To maintain, improve, and construct recreation facilities including camp sites, trails, access points, etc. to benefit users of the National Forest System. To perform work that will improve habitat for Threatened, Endangered, and Sensitive species and improve forest health through thinning and restoration. To assist in restoring natural beauty in the national forests and assist in disaster recovery efforts when requested.

COMPONENTS OF OBJECTIVE STATEMENT

1) What work will be done? What service will your members engage in?

Enhance campgrounds and picnic areas and other developed recreation sites on the Rogue River National Forest (RRNF). Restore 250 picnic tables, construct 1.2 miles of rail fencing, reconstruct 2.5 miles of rail fencing, and install several campground parking barriers. Improve accessibility in all campgrounds. Complete 100 sites for general public use by September 1, 1995.

Replace 10 trail bridges on trails at 10 specific streamcrossings on the RRNF, meeting regional engineering standards, and approved by Forest Engineer prior to public use. Complete 80% of the bridges by September 1, 1995.

RECORD #: 336

Maintain 280 miles of hiking trails at high elevation sites determined to be priority maintenance locations, and meeting regional hiking trail standards. Complete 80% of the total project by August 30, 1995.

Enhance spotted owl ecosystems at 10 locations on the forest, following guidelines set forth by the wildlife biologist, and completing projects in a time frame that would be sensitive to the needs of individual species, but no later than September 1, 1995.

100% Hand prune 250 acres on the RRNF, improving the quality of future timber products. Complete of the project by Sept. 30, 1995.

Thin 300 acres, and release 400 acres to promote healthier trees. Complete 75% by Sept. 30, 1995.

Install 20,000 shade cards to protect young seedlings. Complete 90% by Sept. 30, 1995.

Install vexar netting on 1300 acres to protect young seedlings from browsing. Complete 100% by Sept. 30, 1995.

The improvement of the Forest's timber supply will greatly increase the value of the available resources.

by Build instream watershed structures in several streams to enhance fish habitat. Complete 100% July 31, 1995.

2) What is the hoped for result of the activities described above?

Projects will be completed in a timely and quality manner and the recreation facilities will be used extensively by the general public and forest users. Forest health will be improved through thinning and reforestation. It is the hope that the completion of these projects will allow the youth in the Rogue River AmeriCorps program will become more environmentally aware and sensitive as a result of the environmental education programs.

3) How will you measure the quality of these activities?

The majority of these activities will be measured against established and approved standards within Forest Service Land and Resource Management Plans, handbooks, operation, maintenance and construction guidelines, and project workplans. Line Officers will be responsible for accepting the quality of work accomplishments and will hold Members and 3rd parties accountable as part of their performance expectations. We'll work with the schools to conduct and evaluate pre/post tests to determine and measure the success of the environmental education programs.

4) By what standard will you gauge success?

By completion of all the work in a timely manner per established standards for quality.

RECORD #: 336

- 5) How many individuals will receive the benefit of the work your members perform?

The Rogue River National Forest is surrounded by more than 25 small, timber dependant communities, with the Medford/Ashland metroplex being the hub of southern Oregon. The Rogue serves over 175,000 local residents as well as over 1.5 million visitors on an annual basis. The enhancement and improvement of our recreation facilities will not only provide a more enjoyable experience for our forest visitors, but it will encourage extended stays and future trips to the area. This will continue to benefit local communities by increasing visitor traffic and enhancing the tourism trade.

The extensive environmental education program on this forest serving over 38,000 area school children will utilize the improved facilities by encouraging repeat visits by local groups and providing a more diverse learning experience for students of all ages. The improved sites will also provide increased opportunities for local schools to take part in outdoor environmental education experiences. The enhancement of wildlife habitats will provide important learning experiences for forest visitors.

The extensive timber stand improvement activities will benefit the local timber related businesses as well as the Forest Service by improving the value and quality of the resources.

CORPORATION FOR NATIONAL SERVICE

COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service

Site: Southwest Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: In each community projects will be developed that respond

to locally identified needs, priorities and resources through meetings, interviews and collaboration with community leaders, residents, agencies and organizations; review of projects and discussions in the community should establish at least 60% support of planned activities among community leaders.

-

1. What work will be done?

Project development, community organizing, grantwriting.

2. What is the hoped for result of the work/activities described above?

Planning for and implementation of locally-supported projects enhancing natural resources and/or economic development. Three projects per member.

3. How will you measure the quality of your product or impact of your service?

Review of project proposals and/or actions and discussions in the community to verify local support.

4. By what standard will you gauge success?

60% support of planned activities among community leaders.

32-01

RECORD #: 340

5. How many individuals will receive the benefit of the work your participants perform?
Residents of 6 communities and 9 watershed councils. 55,000 people

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

32-02

Grantee: USDA Soil Conservation Service Site: Southwest Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: For each project requiring funding, potential sources will be identified and grants will be written and submitted for consideration by donors; projects not requiring funding should have action plans developed, and commitment of resources should be secured.

1. What work will be done?

Identify potential sources of funds, grantwriting, developing action or implementation plans.

2. What is the hoped for result of the work/activities described above?

Grant proposals developed and submitted for funding, plans developed. Three grants/plans per member.

3. How will you measure the quality of your product or impact of your service?

Review grants or plans written.

4. By what standard will you gauge success?

At least one grant written or activity plan outlined for each community or council served.

5. How many individuals will receive the benefit of the work your participants perform?

Residents of 6 communities and 9 watershed councils. 55,000 people

in project development and implementation; consistent involvement of locals in meetings and activities during the process and continued demonstration of problem-solving and networking skills after the program intervention will be evident in at least 75% of the groups served.

1. What activities will you be engaged in?

Demonstrating and teaching rural development skills; developing networks and teaching mechanisms to access networks and resources.

2. What is the hoped for result of the activities described above?

Improved skills in each community and council; ties to and ability to access the rural development network; community ability to identify and respond to needs.

3. How will you measure the quality of these activities?

Survey local leaders and agencies, etc., who may interact with communities, evaluate structures and processes for problem identification and solving within groups. Involvement of local people in meetings and activities.

4. By what standard will you gauge success?

75% of the community groups have effective contacts with the rural development network and/or demonstrate effective problem-solving.

CORPORATION FOR NATIONAL SERVICE SERVICE OBJECTIVES

OBJECTIVE STATEMENT

To provide assistance to rural communities interested in implementing urban forestry programs resulting in improved living conditions and opportunities for neighborhood service.

COMPONENTS OF OBJECTIVE STATEMENT

1) What work will be done? What service will your members engage in?

Identify 20 suitable planting sites for urban forestry projects.

Secure funding for purchase of materials.

Recruit volunteers to plant 200 trees.

2) What is the hoped for result of the activities described above?

Establishment of native tree species in residential and business areas in small

RECORD #: 343

communities.

Involvement of local civic and volunteer groups.

3) How will you measure the quality of these activities?

Survival rate of 60% of planted trees.

Participation by 3 local groups.

4) By what standard will you gauge success?

Improvement of overall aesthetic quality of area.

Increase in real estate values.

5) How many individuals will receive the benefit of the work you managers perform?

All residents of the communities involved - 100,000 people.

Community Serv. Obj. #2: Grantee Department of Agriculture

Site Oregon

Objective Code 18

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To seek sustainable economic development opportunities to diversify local economies, resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Members will work directly with local business leaders to inventory existing resources, identify 20 sustainable economic development opportunities, conduct 5 feasibility studies, and assist in writing 5 business plans.

Issues of environmental concern will be analyzed with any related new business venture.

RECORD #: 343

2) What is the hoped for result of the activities described above?

Increasing local employment and income.

5 local individuals will be trained for employment.

Business plans will be developed and funding sought.

3) How will you measure the quality of these activities?

Professionals will review all environmental impact analysis.

Local business leaders will be interviewed following completion of project.

Loans and other funding will be obtained for 25!k of the business plans developed.

4) By what standard will you gauge success?

Establishment of one sustainable, natural resource based business employing 5 locally trained people.

Community Serv. Obj. #3: Grantee Department of Agriculture

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To promote alternative wood products and value added manufacturing technologies resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Identify 5 potential wood products markets and 3 needed technologies.

Solicit participation from existing wood products manufacturers.

Train 20 existing wood products manufacturers in value added technologies.

RECORD #: 343

2) What is the hoped for result of the activities described above?

Increasing value of locally produced wood products.

Higher employment and income levels.

3) How will you measure the quality of these activities?

Survey participating wood products manufacturers before and after project on value their product.

4) By what standard will you gauge success?

Increase of 50%- in value of primary product being produced by the 20 manufacturers as measured by average before and after selling price.

COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service

Site: Southwest Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: In each community projects will be developed that respond

to locally identified needs, priorities and resources through meetings, interviews and collaboration with community leaders, residents, agencies and organizations; review of projects and discussions in the community should establish at least 60% support of planned activities among community leaders.

-

1. What work will be done?

Project development, community organizing, grantwriting.

2. What is the hoped for result of the work/activities described above?

Planning for and implementation of locally-supported projects enhancing natural resources and/or economic development. Three projects per member.

3. How will you measure the quality of your product or impact of your service?

Review of project proposals and/or actions and discussions in the community to verify local support.

4. By what standard will you gauge success?

60% support of planned activities among community leaders.

RECORD #: 344

5. How many individuals will receive the benefit of the work your participants perform?
Residents of 6 communities and 9 watershed councils. 55,000 people

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Southwest Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: For each project requiring funding, potential sources will be identified and grants will be written and submitted for consideration by donors; projects not requiring funding should have action plans developed, and commitment of resources should be secured.

1. What work will be done?

Identify potential sources of funds, grantwriting, developing action or implementation plans.

2. What is the hoped for result of the work/activities described above?

Grant proposals developed and submitted for funding, plans developed. Three grants/plans per member.

3. How will you measure the quality of your product or impact of your service?

Review grants or plans written.

4. By what standard will you gauge success?

At least one grant written or activity plan outlined for each community or council served.

5. How many individuals will receive the benefit of the work your participants perform?

Residents of 6 communities and 9 watershed councils. 55,000 people

in project development and implementation; consistent involvement of locals in meetings and activities during the process and continued demonstration of problem-solving and networking skills after the program intervention will be evident in at least 75% of the groups served.

1. What activities will you be engaged in?

Demonstrating and teaching rural development skills; developing networks and teaching mechanisms to access networks and resources.

2. What is the hoped for result of the activities described above?

Improved skills in each community and council; ties to and ability to access the rural development network; community ability to identify and respond to needs.

3. How will you measure the quality of these activities?

Survey local leaders and agencies, etc., who may interact with communities, evaluate structures and processes for problem identification and solving within groups. Involvement of local people in meetings and activities.

4. By what standard will you gauge success?

75% of the community groups have effective contacts with the rural development network and/or demonstrate effective problem-solving.

COMMUNITY SERVICE OBJECTIVE

15-04

GRANTEE: USDA Soil Conservation Service SITE: Portland, Oregon

COMPONENTS OF OBJECTIVE STATEMENTS: To restore and enhance the aquatic habitat, riparian

zone, and neighboring uplands to former natural state.

1. What work will be done? What service activities will your participants engage in?
Channel modification, remove pest plants and solid waste, plant new native vegetation in Columbia Slough. Approximately 30 acres of wildlife habitat will be enhanced or restored. Approximately 19 acres are infested with reed canarygrass and Himalayan blackberry, which will be restored to forest scrub/shrub plant communities. This will increase riparian habitat that will connect with the larger wildlife corridor system of the Columbia Slough, providing connectivity with the larger natural areas, such as Smith and Bybee lakes natural area. Importantly, water quality improvements in the Columbia slough are expected due to increase shading (i.e. algal population reduction).

2. What is the hoped for result of the work/activities described above?

RECORD #: 347

Three riparian areas will be restored, working with local groups.

3. How will you measure the quality of your product or impact of your service?
100% habitat restored and water quality improved.

4. By what standard will you gauge success?
SCS Technical Field Guides and judgment of other professionals.

5. How many individuals will receive the benefit of the work your participants perform?
Regional watershed population of 48,000

Community Serv. Obj. #5: CORPORATION FOR NATIONAL SERVICE

COMPONENTS OF OBJECTIVE STATEMENTS: Trail access and Interpretive Exhibits

1. What work will be done? What service activities will your participants engage in?
Build interpretive signs and exhibits, improve trails. Approximately 3000 feet of interpretive trail is expected to be constructed.

2. What is the hoped for result of the work/activities described above?
Public trail access to three riparian areas will be developed.

3. How will you measure the quality of your product or impact of your service?
100% of the three areas restored.

4. By what standard will you gauge success?
Trails, signage, and exhibits will be developed and assess using standards used by the City of Portland.

5. How many individuals will receive the benefit of the work your participants perform?
Portland area.

Community Serv. Obj. #1: A neighborhood-based needs assessment will be conducted.

A comprehensive needs assessment document will be prepared.

The impact of the service will be measured by tracking the input obtained from affected agencies and residents (sample populations) in each neighborhood.

Input should be obtained from 100% of affected agencies. Representative input from a 10% sample population should be obtained for each neighborhood assessment.

While many individuals from throughout the region will benefit from implementing the programs identified in this effort, the benefits are targeted to the below poverty population of the Enterprise Community (7,246 persons). The number of low income persons targeted to provide input through personal is 724.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

Grantee: USDA Soil Conservation Service Site: South Carolina

COMPONENTS OF OBJECTIVE STATEMENTS: Enhance capacity of community in rural areas.

1. What work will be done?
 - a. Recruiting additional volunteers.
 - b. Developing partnerships with other service and community organizations.
 - c. Assisting with strategic planning.
 - d. Conducting educational campaigns.
 - e. Completing community surveys.
2. What is the hoped for result of the work/activities described above?
 - a. 2,000 additional hours of volunteer service.
 - b. 10 meaningful partnerships developed.
 - c. 2 strategic plans for communities being implemented.
 - d. 3 educational campaigns conducted.
3. How will you measure the quality of your product or impact of your service?
 - a. Log of additional volunteer hours.
 - b. Survey partners and public.
4. By what standard will you gauge success?
 - a. 2,000 additional hours logged.
 - b. 100 percent of partners believe the quality of service delivery has improved.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

26-01

Grantee: USDA Soil Conservation Service

Site: South Carolina

COMPONENTS OF OBJECTIVE STATEMENTS: Collect data and conduct assessment of
water quality in

rural watersheds.

1. What work will be done?

- a. Developing and designing assessment format with partners.
- b. Collecting water quality data.
- c. Performing water quality sampling.
- d. Storing information in computer & publishing results.
- e. Developing strategies for water quality improvement.

2. What is the hoped for result of the work/activities described above?

- a. Additional water quality data available for decision makers on six watersheds.
- b. Shared data base and information by sponsors, agencies, and groups.
- c. Ecosystem planning on one watershed.

3. How will you measure the quality of your product or impact of your service?

- a. Quality checks by sponsors on samples.
- b. Utilization of data by decision makers for ecosystem planning.

4. By what standard will you gauge success?

- a. Acceptance of data and reports by sponsors.

RECORD #: 367

- b. Utilization of data by decision makers for ecosystem planning.
- 5. How many individuals will receive the benefit of the work your participants perform?
 - a. 10,000 private citizens.
 - b. 15 units of government and groups.

Community Serv. Obj. #2: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: South Carolina

26-02

COMPONENTS OF OBJECTIVE STATEMENTS: Implement grassland initiative to improve water quality.

- 1. What work will be done?
 - a. Developing and designing assessment format with partners.
 - b. Conducting survey and assessment on individual farms.
 - c. Developing strategies with sponsors.
- 2. What is the hoped for result of the work/activities described above?
 - a. Improved data and water quality in six watersheds in project area.
 - b. Identification of practices tailored to reduce water pollution risk on 200 grassland far
- 3. How will you measure the quality of your product or impact of your service?
 - a. Quality checks by sponsors on worksheet.
 - b. Review and crosscheck of data by technical specialist.
- 4. By what standard will you gauge success?
 - a. Acceptance of data and reports by sponsors.
 - b. Utilization of data by sponsors and landowners.
 - c. Practices will meet SCS technical specifications.
- 5. How many individuals will receive the benefit of the work your participants perform?
 - a. 200 grassland farmers.
 - b. 4,000 private citizens.

Community Serv. Obj. #3: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: South Carolina

26-03

COMPONENTS OF OBJECTIVE STATEMENTS: Plan and coordinate a comprehensive environmental

education program.

- 1. What work will be done?
 - a. Developing plans with sponsors and communities for outdoor learning centers.

RECORD #: 367

- b. Constructing outdoor learning centers.
- c. Developing lesson plans for use of outdoor learning centers.
- 2. What is the hoped for result of the work/activities described above?
 - a. Nine outdoor learning center plans developed.
 - b. Four outdoor learning centers constructed.
 - c. Twenty lesson plans developed.
- 3. How will you measure the quality of your product or impact of your service?
 - a. Plans reviewed and accepted by sponsors.
 - b. Construction work inspected and accepted by sponsor.
 - c. Lesson plans reviewed by panel of teachers.
- 4. By what standard will you gauge success?
 - a. Ten percent increase in use of outdoor learning centers in project area.
- 5. How many individuals will receive the benefit of the work your participants perform?
 - a. 5,000 students, teachers, and private citizens.

Community Serv. Obj. #4: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

26-04

Grantee: USDA Soil Conservation Service Site: South Carolina

COMPONENTS OF OBJECTIVE STATEMENTS: Plan and Implement initiatives to improve
safety, health
services, social outreach and community
assistance.

- 1. What work will be done?
 - a. Naming roads and developing maps
 - b. Assessing environmental conditions in minority and low income communities.
 - c. Constructing recreational improvements.
 - d. Repairing riparian and critical areas.
 - e. Providing emergency assistance for major storm or fire events.
- 2. What is the hoped for result of the work/activities described above?
 - a. Implementation of 911 emergency system in two counties.
 - b. Data on conditions in five minority communities.
 - c. Six recreation sites constructed.
 - d. Five riparian and critical areas constructed.
- 3. How will you measure the quality of your product or impact of your service?
 - a. 911 maps will be reviewed by sponsor.
 - b. Constructed sites will meet SCS and sponsor specifications.
- 4. By what standard will you gauge success?
 - a. Acceptance by sponsors of completed work.

RECORD #: 367

- b. 100 percent of sites will pass inspections.
- 5. How many individuals will receive the benefit of the work your participants perform?
 - a. 3,000 minority and low income citizens.
 - b. 5,000 citizens.

Community Serv. Obj. #5: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

26-05

ROLE:

MEMBER NAME: Wright-Swinton, Tina

Community Serv. Obj. #1: Identify 200 sub-standard housing units and rehabilitate 30 in first year. Work with 100 students in after school program; The first work will be to respond to an already existing backlog of requests for assistance. The next phase will be field work to identify sub-standard units. The third step is the application process to identify the level of financial assistance needed. The fourth step is the application phase to State and Federal agencies. The fifth stage is implementation of the rehabilitation program. The final stage is home owner education.

To provide low income residents of the county who currently reside in sub-standard housing a safe and sound residence. To bolster students academic performance and to reduce the dropout rates by providing a safe and professional atmosphere in which to learn.

The identification of sub-standard housing units and the rehabilitation of those units will produce easily quantifiable results. The houses will be rehabilitated to code specifications. This will, coupled with the number of units rehabed, determine quality and impact. The results of the after school tutoring will be much harder to measure. This however should not lessen the need. It is hard to measure if you prevented a person from dropping out of school. Success in school by individual students can be used as a measuring instrument.

2/28/95

USDA AMERICORPS PROJECT INFORMATION AND OBJECTIVES

Page: 742

RECORD #: 369

Success in the housing component will be gauged by persons identified and by number of units successfully rehabed. Success on the after school program will be gauged on number of students that the volunteer works with in the enrichment centers.

300 people will receive the benefit of the work.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

26-01

Grantee: USDA Soil Conservation Service Site: South Carolina

COMPONENTS OF OBJECTIVE STATEMENTS: Collect data and conduct assessment of
water quality in
rural watersheds.

1. What work will be done?
 - a. Developing and designing assessment format with partners.
 - b. Collecting water quality data.
 - c. Performing water quality sampling.
 - d. Storing information in computer & publishing results.
 - e. Developing strategies for water quality improvement.
2. What is the hoped for result of the work/activities described above?
 - a. Additional water quality data available for decision makers on six watersheds.
 - b. Shared data base and information by sponsors, agencies, and groups.
 - c. Ecosystem planning on one watershed.
3. How will you measure the quality of your product or impact of your service?
 - a. Quality checks by sponsors on samples.
 - b. Utilization of data by decision makers for ecosystem planning.
4. By what standard will you gauge success?
 - a. Acceptance of data and reports by sponsors.
 - b. Utilization of data by decision makers for ecosystem planning.
5. How many individuals will receive the benefit of the work your participants perform?
 - a. 10,000 private citizens.

RECORD #: 370

- b. 15 units of government and groups.

Community Serv. Obj. #2: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service Site: South Carolina

26-02

COMPONENTS OF OBJECTIVE STATEMENTS: Implement grassland initiative to improve water quality.

1. What work will be done?
 - a. Developing and designing assessment format with partners.
 - b. Conducting survey and assessment on individual farms.
 - c. Developing strategies with sponsors.
2. What is the hoped for result of the work/activities described above?
 - a. Improved data and water quality in six watersheds in project area.
 - b. Identification of practices tailored to reduce water pollution risk on 200 grassland far
3. How will you measure the quality of your product or impact of your service?
 - a. Quality checks by sponsors on worksheet.
 - b. Review and crosscheck of data by technical specialist.
4. By what standard will you gauge success?
 - a. Acceptance of data and reports by sponsors.
 - b. Utilization of data by sponsors and landowners.
 - c. Practices will meet SCS technical specifications.
5. How many individuals will receive the benefit of the work your participants perform?
 - a. 200 grassland farmers.
 - b. 4,000 private citizens.

Community Serv. Obj. #3: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

26-03

Grantee: USDA Soil Conservation Service Site: South Carolina

COMPONENTS OF OBJECTIVE STATEMENTS: Plan and coordinate a comprehensive environmental

education program.

1. What work will be done?
 - a. Developing plans with sponsors and communities for outdoor learning centers.
 - b. Constructing outdoor learning centers.
 - c. Developing lesson plans for use of outdoor learning centers.
2. What is the hoped for result of the work/activities described above?

RECORD #: 370

- a. Nine outdoor learning center plans developed.
 - b. Four outdoor learning centers constructed.
 - c. Twenty lessons plans developed.
3. How will you measure the quality of your product or impact of your service?
 - a. Plans reviewed and accepted by sponsors.
 - b. Construction work inspected and accepted by sponsor.
 - c. Lesson plans reviewed by panel of teachers.
 4. By what standard will you gauge success?
 - a. Ten percent increase in use of outdoor learning centers in project area.
 5. How many individuals will receive the benefit of the work your participants perform?
 - a. 5,000 students, teachers, and private citizens.

COMMUNITY SERVICE OBJECTIVE

26-04

Grantee: USDA Soil Conservation Service Site: South Carolina

COMPONENTS OF OBJECTIVE STATEMENTS: Plan and Implement initiatives to improve
safety, health
services, social outreach and community
assistance.

-
1. What work will be done?
 - a. Naming roads and developing maps
 - b. Assessing environmental conditions in minority and low income communities.
 - c. Constructing recreational improvements.
 - d. Repairing riparian and critical areas.
 - e. Providing emergency assistance for major storm or fire events.
 2. What is the hoped for result of the work/activities described above?
 - a. Implementation of 911 emergency system in two counties.
 - b. Data on conditions in five minority communities.
 - c. Six recreation sites constructed.
 - d. Five riparian and critical areas constructed.
 3. How will you measure the quality of your product or impact of your service?
 - a. 911 maps will be reviewed by sponsor.
 - b. Constructed sites will meet SCS and sponsor specifications.
 4. By what standard will you gauge success?
 - a. Acceptance by sponsors of completed work.
 - b. 100 percent of sites will pass inspections.
 5. How many individuals will receive the benefit of the work your participants perform?
 - a. 3,000 minority and low income citizens.

2/28/95

Community Serv. Obj. #1: We will work with community volunteers, service organizations and churches to establish an identification plan for a 911 Emergency communication system.

To get 911 emergency communications system expanded to the rural areas of the Williamsburg/Lake City Enterprise Community.

The impact of my service will be measured by doing the study, then presenting it to County Officials and hoping that they will approve it.

My success will be gauged on how the project will be completed, and how fast the project will end.

36,000.

Community Serv. Obj. #1: Black River Project - AmeriCorps members will do a property search to identify multiple tracts of land comprising 2,000-plus acres along Black River, for the purpose of developing a state park.

... to get the owners of the land to either donate or sell the county some of their land to complete this project.

The impact of my service will be most helpful, because when the owners see that a young citizen in Williamsburg County wants to beautify it, maybe it will inspire them to take part.

My success will be gauged on how the project will be completed, and how fast the project will end.

36,000 individuals will receive the benefit of this work.

Community Serv. Obj. #2:

To provide a water system to secure the rural areas to be served by the Williamsburg/Lake City Enterprise Community.

... by doing the study, then presenting it to county officials and hoping that they will approve it.

RECORD #: 385

The extent of completion of each assigned task during the designated time frame will serve as an evaluation of the objectives.

36,000 individuals will benefit from the work.

Community Serv. Obj. #3:

To provide a water system to secure the rural areas to be served by the Williamsburg/Lake City Enterprise Community.

... by doing the study, then presenting it to county officials and hoping that they will approve it.

The extent of completion of each assigned task during the designated time frame will serve as an evaluation of the objectives.

36,000 individuals will benefit from the work.

Description of Service: Rural forest work

Ethnicity (Solo sites):

Community Serv. Obj. #1: Grantee Department of Agriculture Site Rural Development, KY, MS, SC & AR

Objective Code 25

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To seek sustainable economic development opportunities to diversify local economies, resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

members will work directly with local business leaders to inventory existing resources, identify sustainable economic development opportunities, conduct feasibility studies, and assist in writing (3.5) business plans.

Issues of environmental concern will be analyzed with any related new business venture.

2) What is the hoped for result of the activities described above?

increasing local employment and income.

RECORD #: 387

Local individuals will be trained for employment.

Business plans will be developed and funding sought.

3) How will you measure the quality of these activities?

Professionals will review all environmental impact analysis.

Local business leaders will be interviewed following completion of project.

Loans and other funding will be obtained for 25% of the business plans developed.

4) By what standard will you gauge success?

Establishment of a sustainable, natural resource based business employing 5 locally trained people.

Community Serv. Obj. #2: Grantee Department of Agriculture Site Rural Development, SC & MS
Objective Code 27

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To conduct 3 leadership development programs, as measured by 50% of the workshop participants beginning or increasing community activities.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Recruit 15-20 local youth, community leaders, and potential entrepreneurs to participate in leadership development workshops. Participants will be assigned a community project to plan, finance, implement and complete.

2) What is the hoped for result of the activities described above?

Develop leadership skills as they relate to the individual, family, the community, and society.

3) How will you measure the quality of these activities?

RECORD #: 387

Follow-up on workshop participants throughout the year to review and evaluate success of their community projects.

4) By what standard will you gauge success?

workshop participants begin or increase community activities, and/or start new businesses employing local people.

Community Serv. Obj. #3: Grantee Department of Agriculture Site Rural Development, VA, TN & SC

Objective Code 30

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To conduct or arrange 150 environmental education presentations resulting in increased knowledge by citizens as measured by pre and post program interview, with program quality judged by teachers and increased participation in environmental education programs in local schools.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Development and presentation of environmental education materials.

2) What is the hoped for result of the activities described above?

Increased student and citizen knowledge of environmental issues.

3) How will you measure the quality of these activities?

Pre and post program interviews will be conducted

4) By what standard will you gauge success?

Increased interest in environmental education and a 155 increase in community awareness of environmental issues, problems, values, and solutions by the end of the school year
