Description of Service: Sustainable agriculture

Ethnicity (Solo sites):

Community Serv. Obj. #1:

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVE

GRANTEE: USDA Soil Conservation Service SITE: Waverly, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Develop an environmental outreach program.

1. What work will be done? What service activities will your participants engage in?
Developing an outreach program that involves organizing and promoting county-side workshops, developing demonstration programs, and organizing nature tours, developing environmental education projects that reach minorities, women, persons who are physically disabled, and youth and civic organizations.

2. What is the hoped for result of the work/activities described above?
The hoped for result of the activities is to reach at least 3,000 of the approximate 15,500 people in the Humphreys county region, 2,000 of which are students and 1,000 being adult participants. The anticipated log of 500 service hours is expected as a result of the outreach program to culminate in a sense of community pride in various groups of the county while educating the groups on environmental issues.

3. How will you measure the quality of your product or impact of your service?
The quality of these activities will be measured by a log of an additional 100 activity hours or service hours performed by community organizations. Likewise, at the end of the program a survey will be conducted of all group participants to analyze the effectiveness of the outreach program.

25-11

RECORD #: 400

4. By what standard will you gauge success?

Success of the program will be measured by at least five new youth or civic groups which participate in the environmental outreach program. The success of this program will be evaluated by achieving at least a 90% favorable opinion of the outreach program by the groups involved.

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service SITE: Waverly, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Create environmental education opportunities.

1. What work will be done? What service activities will your participants engage in?
Will assist in creating environmental education opportunities through workshops, tours, development of trails and education materials.

2. What is the hoped for result of the work/activities described above?
The hoped for result of the work/activities will be increased community awareness of environmental concerns and increase the development of the environmental education center.

3. How will you measure the quality of your product or impact of your service?
The quality/impact will be measured by the numbers of participants in environmental activities.

4. By what standard will you gauge success?
The measure of success will be by the number of workshops (4), number of tours (6), number of lesson plans developed (5), and number of organizations involved (8).

5. How many individuals will receive the benefit of the work your participants perform?
Approximately 5,000 individuals will benefit from increased awareness in environmental concerns.

Community Serv. Obj. #3:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service SITE: Waverly, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: To reduce the amount of nonpoint source pollution in selected watersheds within the Chickasaw-Shiloh RC&D area through landowner use of effluent discharge equipment.

RECORD #: 400

1. What work will be done? What service activities will your participants engage in?
Promotion of the Council's traveling gun irrigation system.
2. What is the hoped for result of the work/activities described above?
Six landowners safely discharge their waste storage facilities.
3. How will you measure the quality of your product or impact of your service?
By safely discharging 8,000,000 gallons of effluent
4. By what standard will you gauge success?
Based on the number of landowners that utilizes the equipment.
5. How many individuals will receive the benefit of the work your participants perform?
A minimum of 35 landowners will be contacted concerning availability of effluent discharge equipment.

Community Serv. Obj. #4:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

GRANTEE: USDA Soil Conservation Service SITE: Waverly, Tennessee

25-14

COMPONENTS OF OBJECTIVE STATEMENTS: To increase the level of environmental awareness in the public school systems within the eight-county Chickasaw-Shiloh RC&D Area.

1. What work will be done? What service activities will your participants engage in?
Develop an environmental awareness training curriculum to be available to 49 elementary schools.
2. What is the hoped for result of the work/activities described above?
Achievements and results of these activities will include participants (elementary students) developing a better appreciation for the environment.
3. How will you measure the quality of your product or impact of your service?
By the number of schools that participate in using the curriculum and by requests for additional educational assistance.
4. By what standard will you gauge success?
Chickasaw-Shiloh RC&D will measure the success of the program by 40 percent of the elementary schools in the area utilizing the curriculum.
5. How many individuals will receive the benefit of the work your participants perform?
Approximately 600 elementary students. equipment.

Community Serv. Obj. #1: The AmeriCorps participant will facilitate preconstruction processes by assisting with the following tasks: Complete one grant application; attend one preconstruction conference; procure one professional engineer; contract with one construction company; obtain three environmental permits; arrange construction of an access road.

Construction of the project will begin providing the community with marketable industrial sites.

Some tasks may be evaluated by our success in attaining the items we need (such as grant funds and environmental permits). Other tasks can be deemed worthwhile according to our success in getting

RECORD #: 403

participation (such as construction companies bidding for a contract and conference and public hearing attendance).

If all tasks are completed, construction will begin, and we will have been successful in initiating the process.

In the next year as the industrial park is being built, forty construction jobs will be created. In each of the six years following completion of the project, one hundred jobs will be created by industries which will locate within the industrial park. In the four years following that period, approximately 150 jobs per year will be created by industries which locate in the industrial park.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

25-01

GRANTEE: USDA Soil Conservation Service SITE: Rutledge, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Regional Speciality Recreation and Tourism
Feasibility Study

1. What work will be done? What service activities will your participants engage in?
Conduct a comprehensive tourism assessment.

2. What is the hoped for result of the work/activities described above?
Resulting in a Regional Speciality Recreation and Tourism Feasibility Study.

3. How will you measure the quality of your product or impact of your service?
Measured by addressing accessibility, anchors, accommodations, attractions, activities,
appreciation and advertising.

4. By what standard will you gauge success?
Approval by a Regional Advisory Committee.

5. How many individuals will receive the benefit of the work your participants perform?
Residents, merchants, and business in Clairborne, Grainger, Hancock, Hawkins, and Union
counties in Tennessee.

RECORD #: 407

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

25-02

GRANTEE: USDA Soil Conservation Service SITE: Rutledge, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Teaching environmental awareness and clean up of community parks and public places.

1. What work will be done? What service activities will your participants engage in?
Teaching youth environmental awareness. Organization and participation in clean-up and beautification of community parks and public places. Fundraising and building resources for these activities.
2. What is the hoped for result of the work/activities described above?
800 hours of volunteer service; 8 community clean-ups/fix-ups, 7 youth workshops, and raised community self-esteem.
3. How will you measure the quality of your product or impact of your service?
Log of additional volunteer hours, log of workshops, and before and after photos of projects.
4. By what standard will you gauge success?
700 hours of volunteer service, 5 workshops conducted, and neatness/beautification of community places.
5. How many individuals will receive the benefit of the work your participants perform?
108,000 people

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

25-05

GRANTEE: USDA Soil Conservation Service SITE: Morristown, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: To utilize both TVA and ASCS data in developing a list that includes name, address, phone numbers, and type of operation of potential clients and contacting 95% of the approximately 600 land owners in the watershed.

1. What work will be done? What service activities will your participants engage in?
Develop client list and contact clients.
2. What is the hoped for result of the work/activities described above?

RECORD #: 407

Clients will be contacted.

3. How will you measure the quality of your product or impact of your service?
By the number contacted.

4. By what standard will you gauge success?
95% are contacted.

5. How many individuals will receive the benefit of the work your participants perform?
570 people.

Community Serv. Obj. #4:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service SITE: Morristown, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: To provide technical assistance that results
in 20 land
users applying best management practices that meet the SCS field office technical guide on farms
that have not participated in district programs in the past.

1. What work will be done? What service activities will your participants engage in?
Provide technical assistance.

2. What is the hoped for result of the work/activities described above?
Best management practices will be applied.

3. How will you measure the quality of your product or impact of your service?
Field office technical guide.

4. By what standard will you gauge success?
Twenty new participants apply practices that meet specs.

5. How many individuals will receive the benefit of the work your participants perform?
20 land users.

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To provide technical assistance in solid waste management and recycling resulting in a 10% increased recycling rate and improved solid waste management through initiation of 3 grant proposals and 2 recycling program starts.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Develop community based recycling and solid waste diversion programs.

Carry out education and promotion campaign designed to increase recycling and source reduction.

Write grant proposals to implement solid waste plans and start new recycling programs.

2) What is the hoped for result of the activities described above?

Establishment of recycling collection centers, reduction in landfill needs.

RECORD #: 408

Environmentally safe treatment of solid waste.

3) How will you measure the quality of these activities?

Regional solid waste management plans will be approved by the State Department of Health and Environment.

Participating businesses and industries will monitor recycling and waste stream

4) By what standard will you gauge success?

Increase local recycling rate by 10*.

obtain funding for solid waste treatment.

Community Serv. Obj. #2: Grantee Department of Agriculture Site Rural Development, VA, KY, TN & AR
Objective Code 26

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To promote alternative wood products and value added manufacturing technologies resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Identify potential wood products markets and needed technologies.

Solicit participation from existing wood products manufacturers.

Train 2 existing wood products manufacturers in value added technologies.

2) What is the hoped for result of the activities described above?

Increasing value of locally produced wood products.

Higher employment and income levels.

RECORD #: 408

3) How will you measure the quality of these activities?

Survey participating wood products manufacturers before and after project on value their product.

4) By what standard will you gauge success?

Increase of 50* in value of product.

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To conduct or arrange 150 environmental education presentations resulting in increased knowledge by citizens as measured by pre and post program interview, with program quality judged by teachers and increased participation in environmental education programs in local schools.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Development and presentation of environmental education materials.

2) What is the hoped for result of the activities described above?

Increased student and citizen knowledge of environmental issues.

3) How will you measure the quality of these activities?

Pre and post program interviews will be conducted

4) By what standard will you gauge success?

Increased interest in environmental education and a 155 increase in community awareness of environmental issues, problems, values, and solutions by the end of the school year

COMMUNITY SERVICE OBJECTIVE

GRANTEE: USDA Soil Conservation Service SITE: Morristown, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: To increase the knowledge and acceptance of riparian area

practices by applying at least two stream bank protection demonstrations that meet the field office technical guide and result in improved habitat as determined by the SCS water quality indicators guide and SCS biologists.

1. What work will be done? What service activities will your participants engage in?

Install stream bank protection practices.

2. What is the hoped for result of the work/activities described above?

Practices will be installed and land users will become more aware of this type of practice.

3. How will you measure the quality of your product or impact of your service?

By the field office technical guide and water quality indicators guide.

4. By what standard will you gauge success?

By counting, if two go in, it will be 100% of what we planned.

5. How many individuals will receive the benefit of the work your participants perform?

The two land users we install them on, plus all those down stream and sportsmen in the area.

Community Serv. Obj. #1: Work with County on Projects listed in Enterprise Committee Book.

Results not conclusive as of yet as Enterprise Committee grants and loans have not been approved.

Measurement will be achieved by the number of projects we will be able to fund.

Successful standards will be determined by the achievement of the program.

Some projects such as water and sewer projects will affect all of county residents. Some projects will only benefit a small number.

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVE

25-04

GRANTEE: USDA Soil Conservation Service SITE: Cookeville & Jamestown, Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Assist in development of on-site environmental study areas.

1. What work will be done? What service activities will your participants engage in?
Assist a minimum of ten schools in the development of on-site environmental study areas.

2. What is the hoped for result of the work/activities described above?
Environmental study in the schools will increase because resources will be readily available. Increased environmental awareness by both students and teachers. Students will become active, environmentally sensitive adults.

3. How will you measure the quality of your product or impact of your service?
Pre and post test scores. Teachers at the ten selected schools will incorporate environmental education and the study areas into their lesson plans.

4. By what standard will you gauge success?
Environmental awareness will increase significantly using statistical analysis. A 50 percent increase in teachers using the study areas and incorporating environmental education into their lesson plans. 5000 students will have participated in environmental study area activities.

COMMUNITY BUILDING OBJECTIVEGRANTEE: USDA Soil Conservation Service SITE: Cookeville & Jamestown, Tennessee
ClusterCOMPONENTS OF OBJECTIVE STATEMENTS: To improve environmental awareness
through development of educational programs to be presented at 28 schools and 14 civic clubs.

1. What work will be done? What service activities will your participants engage in?
Present environmental education programs at schools and civic clubs.
2. What is the hoped for result of the work/activities described above?
Improve environmental awareness of key environmental issues.
3. How will you measure the quality of your product or impact of your service?
Before/after questionnaire.
4. By what standard will you gauge success?
50 percent increase in awareness of environmental issues.
5. How many individuals will receive the benefit of the work your participants perform?
700 students and 350 adults.

CORPORATION FOR NATIONAL SERVICE

COMMUNITY SERVICE OBJECTIVE

25-09

GRANTEE: USDA Soil Conservation Service SITE: Whitley County - Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Survey small farms families in Whitley County to assess

needs and interests in beginning or expanding livestock production, in exploring alternative crops, intensive grazing methods, composting and other sustainable agricultural endeavors.

1. What work will be done? What service activities will your participants engage in?
Create a survey and interview 60 small farm families. Analyze survey results and work with Whitley County Small Farms Board and membership to determine priority areas for development. Use responses as mailing lists and conduct workshops with other federal agencies.

2. What is the hoped for result of the work/activities described above?
A set of at least five priority areas for further research and development.

3. How will you measure the quality of your product or impact of your service?
Completion of at least 60 surveys. Membership meeting held to help set priorities.

4. By what standard will you gauge success?
At least 75% of the membership will participate.

5. How many individuals will receive the benefit of the work your participants perform?

RECORD #: 418

Sixty families involved in survey process. Information as to needs assessed and projects slated for research and development would be shared with the broader empowerment zone area.

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

25-10

GRANTEE: USDA Soil Conservation Service SITE: Whitley County - Tennessee

COMPONENTS OF OBJECTIVE STATEMENTS: Inventory the forest land owned by WCLT as well as other forest land in the area to create a management plan which will help WCLT complete its Rural Planned Unit Development and will also aid the entire empowerment zone.

1. What work will be done? What service activities will your participants engage in? Inventory the land on WCLT, land WCLT wants to own, and land in the zone. Create a management plan based on the inventory and help continue the 10-year replanting plan that is already in effect. Support residents with permaculture plans. Research other rural development models.
2. What is the hoped for result of the work/activities described above? A foundational planning tool for development of WCLT and the empowerment zone area.
3. How will you measure the quality of your product or impact of your service? WCLT's and other community's ability to use the plan based on their experience in this area. Judgement of technical expert in the area of stewardship planning.
4. By what standard will you gauge success? All WCLT land inventoried and three parcels of at least 100 acres inventoried in zone. 1000 trees planted. Discovery of three species that can be introduced and cultivated in appropriate areas in the forest.
5. How many individuals will receive the benefit of the work your participants perform? Three area colleges and 20 students with whom we will share our information. WCLTG board, staff, and residents (50 people) as well as 10 local land owners around the land trust. The entire Appalachian United Vision empowerment zone (100 members). Rural Settlement Plan disseminated with five communities in the zone.

Community Serv. Obj. #1: The coordination and management of the Duval County and Jim Wells County water planning grant from the Texas Water Development Board.

The result is that a feasible water supply will be found to meet the immediate and future water needs for both Duval and Jim Wells Counties

Various water sources will be located and studied for use by Duval and Jim Wells counties.

A water supply for Duval and Jim Wells counties will be found to meet immediate and future needs for both counties.

The project will impact the entire population of Duval and Jim Wells Counties which is approximately 40,000 people.

Community Serv. Obj. #1: Meet with colonia residents and organizations and expose them to FmHA Rural Housing and Community Facilities Programs. Package Rural Housing applications for colonia families. Conduct informational meetings once a month.

Colonia family health and standard of living will be increased by hooking their homes up to water and/or sewer plus removing safety hazard in senior citizens homes.

The number of applications brought in and loans and grants made will be used as a measurement tool. The number of meetings held will also be counted.

Improve the health standard of colonia families at least 100%.

Help fill out and bring in 150 applications for 306C, 504 and 502 loans and grants. Of these we hope to fund 100%.

Community Serv. Obj. #1: CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

08-01

GRANTEE: USDA Soil Conservation Service SITE: Webster, Texas

COMPONENTS OF OBJECTIVE STATEMENTS: Build partnerships and develop a skilled
work force to

protect shoreline and restore wetlands.

1. What work will be done? What service activities will your participants engage in?
Developing partnerships with other service organizations. Providing training to participants.

2. What is the hoped for result of the work/activities described above?
Four (4) meaningful partnerships developed.
Skilled and productive work force.

3. How will you measure the quality of your product or impact of your service?
Progress of project.

4. By what standard will you gauge success?
100% of partners believe the quality of service delivery has improved due to the partnership.
Productivity of participants.

Community Serv. Obj. #2: CORPORATION FOR NATIONAL SERVICE

RECORD #: 432

COMMUNITY SERVICE OBJECTIVE

08-02

GRANTEE: USDA Soil Conservation Service SITE: Webster, Texas

COMPONENTS OF OBJECTIVE STATEMENTS: Protect shoreline from erosion along the Texas coast.

1. What work will be done? What service activities will your participants engage in?
Members will establish vegetative covers to protect 5280 feet of Texas Shoreline from erosion.
2. What is the hoped for result of the work/activities described above?
Slow down erosion of shoreline, which usually averages 3 to 4 feet per year. This will protect property and benefit water quality.
3. How will you measure the quality of your product or impact of your service?
Successful establishment of grass and reduction in erosion rates.
4. By what standard will you gauge success?
90% reduction in active shoreline erosion rate.
5. How many individuals will receive the benefit of the work your participants perform?
All citizens of Texas, but in particular residents of the Texas Gulf Coast Region.

Community Serv. Obj. #3: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

08-03

GRANTEE: USDA Soil Conservation Service SITE: Webster, Texas

COMPONENTS OF OBJECTIVE STATEMENTS: Restore 200 acres of wetlands.

1. What work will be done? What service activities will your participants engage in?
Restore 200 acres of dredged area to wetlands by establishing permanent vegetation.
2. What is the hoped for result of the work/activities described above?
Increase use by migratory water fowl and finfish. Also improved water quality.
3. How will you measure the quality of your product or impact of your service?
increase in fish production, water fowl use, and success of re-vegetation efforts.
4. By what standard will you gauge success?
75% vegetation survival rate, 50% increase in use by finfish and fowl.

Community Serv. Obj. #1: Set up communication link to provide adequate summation of project information.

The creation of self help program for rehabilitation of existing housing will aid in the construction of new owner occupied units for families.

The impact of the service will be measured in terms of how many houses are brought up to HUD housing standards and by improvements in the lives of individuals in the program and zone.*The standard used to gauge success will be through actual deed.*The Empowerment Zone projects will gear toward benefitting the whole Empowerment Zone Area residents. As per legislation, a zone can only have 30,000 in population.

Community Serv. Obj. #2: Set up communication link between the agencies who will provide job training for AFDC recipients working with DHS JOBS program and recipients.

Develop a better qualified work force with entrepreneurs who will aid in developing sustainable

RECORD #: 435

economies.

Program will be reported by training agency follow up on recipients.

Actual deeds. Organize agency efforts to train and make training programs accessible.

It is anticipated that the whole Empowerment Zone will benefit from AmeriCorps volunteer's work. As per legislation, a Zone can only have 30,000 in population.

Community Serv. Obj. #3:

Self help programs for colonia communities in need of grants and loans to renovate their homes. Waste and water system improvements for colonia homes; build quality homes and infrastructure. Quicker access to community programs.

Propose a qualitative type approach to different sets of participants and monitor individual work to determine effectiveness. Conduct an indepth individual baseline interview with all the participants.

The Empowerment Zone Strategic Planning will prove to be successful if there is improvement in the resident's quality of life.

The AmeriCorps volunteer's role in the Empowerment Zone Strategic Planning is to improve the quality of life of those living in Empowerment Zone Designated areas. As per legislation, a zone can only have 30,000 in population.

Community Serv. Obj. #1: Providing outreach services to the socially and economically disadvantaged individuals in the surrounding communities/colonias of the availability of loans and grants for rural housing ownership, housing repairs, and water hookup services and then assisting applicants through the loan process.

More homeowners in the colonias will have rural water, sewer assistance, and bathroom facilities available.

The quality of our work will be measured by comparison to the number of families assisted last fiscal year to this fiscal year.

Improve the living conditions of these families living in colonias.

We hope to assist all the applicants that filed an application prior to October 1, 1994 (65 applications).
