Community Serv. Obj. #1: We propose to do self help repairs and rehabilitation of family dwelling by utilizing the labor of family members to improve their dwellings. A community effort to involve all sectors of the community. The coordination between the families, FmHA, AmeriCorps, local Council of Government, teachers and contractors to stretch tax dollars to the maximum limit in order to assist rural families in their efforts to improve their living contitions. Will meet with Future Farmers and 4H Chapters to obtain rural youth who wish to pursue their farm and ranch vocation.

We propose to implement the RH-504 and WD306 waste and water grants to assist the rural families within our unit to provide them with acceptable bathroom facilities and kitchen plumbing facilities. We also propose to assist those families that meet the program objectives for RH-504 loans and grants to address the needs of the whole dwelling in order to provide these families with a dwelling which will be safe and sanitary. The intent is to upgrade the living conditions of the dwelling for these rural residents. Implement the Operating Youth program in the communities listed above to provide financing for these sector of the community in gaining firsthand experience in a farming or ranching enterprise

RECORD #: 439

which will provide them with some income should they decide to continue their studies in college.

In order to meet the above objectives we have developed a pre-interview and post-interview guidelines in order to expedite the processing of program loans and grants. We are putting into place a plan that will insure that not less than 20 families are assisted per month during the first year of the program. The plan will provide for a monthly evaluation of the progress made each month in order to achieve the success envisioned.

The standard of quality of life will be measured by the implementation of the program loan and grants utilized in the above areas. The immediate impact will be the construction of the facilities and the long term measurement will be realized in the decline of diseases associated with the disposal of waste products from the home. The standard of success in the OL Youth program will be measured annually by reviewing the actual operating records that these youth will keep of their respective enterprise.

We propose to assist approximately 150 families with the above programs in order that the standard of their dwellings be upgraded from substandard to standard dwellings. We propose to process 10 OL Youth loans during the first year of the program.

Community Serv. Obj. #1: Zavala County - main focus is to see that the Crystal City Initiative Project is carried forward and that 502 loans and 504 loans/grants are made. Dimmit County - main focus is to see that any 502 home loans needed in NHS subdivision are made. Also to make some 504 loans/grants in Bigwells, Catarina, or Carrizo Hill.

In Zavala, by end of year one of AmeriCorps projects, our hopes are that construction has begun or been completed on at least a few homes on CCIP subdivision and that a few 504's have been made in Crystal City, La Pryor and Batesville. In Dimmit, by end of year one of AmeriCorps Project, our hopes are that construction has begun or been completed on at least a few homes in NHS subdivision and that a few 504's have been made in Big Wells, Carrizo Hill or Catarina.

Quality or impact of service will be measured by the length of time between date application received and date of project completion, and by the actual numbers of rural families whose quality of life has been improved.

RECORD #: 452

Standard for gauging success will be MRS Report.

Zavala County: CCIP Subdivision - 5 502 loans and 504 programs 7 504 loans/grants; Dimmit County NHS subdivision 5 502 loans; 504 program 5 504 logans/grants. If each 502 loan is for a 4 person family and each 504 loan grant is for a 2 person family, than the goal would be for approximately 64 individuals to receive the benefits of work performed.

Ethnicity (Solo sites):

Community Serv. Obj. #1: Grantee Department of Agriculture

Site RD - 4 -Corners

objective Code 15

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To seek sustainable economic development opportunities to diversify local economies, resulting in local people obtaining jobs and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

- 1) What activities will you be engaged in?

Members will work directly with 5 local communities to inventory existing resources, identify 15 sustainable economic development opportunities, conduct 8 feasibility studies, and assist in writing 10 community plans and grant proposals.

Issues of environmental concern will be analyzed with any related new business venture

- 2) What is the hoped for result of the activities described above?

Increasing local employment and income.

RECORD #: 455

15 Local individuals will be trained for employment.
5 Community plans will be developed and funding sought

3) How will you measure the quality of these activities?

Professionals will review all environmental impact analysis.

obtaining feedback from community members throughout the project.

Community Serv. Obj. #2: Grantee Department of Agriculture

Site RD - 4-Corners

Objective Code 16

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES
OBJECTIVE STATEMENT

To promote alternative wood and agricultural products and value added manufacturing technologies resulting in local people obtaining jobs and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Identify 5 potential wood and agricultural products markets and three needed technologies.

Train 2 existing and new wood products manufacturers in value added technologies.

2) What is the hoped for result of the activities described above?

Increasing value of locally produced wood products by 25% among participating manufacturers.

Higher employment and income levels.

3) How will you measure the quality of these activities?

Survey participating wood products manufacturers before and after project on value their products.

COMMUNITY SERVICE OBJECTIVES

25-18

Grantee: USDA Soil Conservation Service

Site: Keysville, Virginia

COMPONENTS OF OBJECTIVE STATEMENTS: To create a historical civil war route auto
byway

1. What work will be done?

Design an interpretative driving route with pull-offs about the final days of the civil war.
Organizing the business community into marketing the resources (historic, outdoor recreation,
tourism)

2. What is the hoped for result of the work/activities described above?

Provide education concerning the conclusion of the civil war. Increase local tourism and
associated economic development.

3. How will you measure the quality of your product or impact of your service?

Tourist traveling route and entering roadside pull-offs. Increase in economic activity for local
businesses and entrepreneurs.

4. By what standard will you gauge success?

RECORD #: 458

Vehicle and tour bus counts. Rise in economic baseline of local tourist service industry New associated tourism business start-ups.

5. How many individuals will receive the benefit of the work your participants perform?

Citizens in the seven county region (-96,000).

Community Serv. Obj. #1: Grantee Department of Agriculture Site Rural Development, MS, AR, & VA

Objective Code 23

CORPORATION FOR NATIONAL SERVICE

COMMUNITY SERVICE OBJECTIVES

OBJECTIVE STATEMENT

To provide assistance to rural communities interested in implementing community forestry programs resulting in improved living conditions and opportunities for neighborhood service.

COMPONENTS OF OBJECTIVE STATEMENT

1) What work will be done? What service will your members engage in?

Develop a plan and identify suitable planting sites for urban forestry projects.

Secure funding for purchase of materials.

Recruit and organize volunteers to plant trees.

2) What is the hoped for result of the activities described above?

Establishment of native tree species in residential and business areas in small communities.

Involvement of local civic and volunteer groups.

RECORD #: 462

3) How will you measure the quality of these activities?

Survival rate of 60% of planted trees.

Participation by 3 local groups.

4) By what standard will you gauge success?

Improvement of overall aesthetic quality of area.

Increase in real estate values.

5) How many individuals will receive the benefit of the work you members perform? All residents of the 8-10 communities involved.

Community Serv. Obj. #2: Grantee Department of Agriculture Site Rural Development, VA, KY, TN & AR Objective Code 26

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To promote alternative wood products and value added manufacturing technologies resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Identify potential wood products markets and needed technologies.

Solicit participation from existing wood products manufacturers.

Train 2 existing wood products manufacturers in value added technologies.

2) What is the hoped for result of the activities described above?

Increasing value of locally produced wood products.

Higher employment and income levels.

3) How will you measure the quality of these activities?

RECORD #: 462

Survey participating wood products manufacturers before and after project on value their product.

4) By what standard will you gauge success?

Increase of 50* in value of product.

Community Serv. Obj. #3: Grantee Department of Agriculture Site Rural Development, LA & VA
Objective Code 28

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To identify demonstration sites and demonstrate modern timber bridge technology.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Survey and assess existing bridges in 3 counties.

Meet with local officials to discuss program.

Assist sponsors to plan, design, survey, test, monitor and secure funding to construct 3 demonstration timber bridges.

2) What is the hoped for result of the activities described above?

Reliable and safe transportation in rural communities.

Modern timber bridge information and technology transferred.

3) How will you measure the quality of these activities?

All work plans will be approved by the State Department of Transportation.

USDA Forest Service Engineers will review and approve all modern timber bridge designs.

RECORD #: 462

4) By what standard will you gauge success?

County officials and engineers become familiar with the modern timber bridge.

Timber Bridge Demonstration proposals are developed and funded.

Community Serv. Obj. #4: Grantee Department of Agriculture Site Rural Development, VA, TN & SC

Objective Code 30

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To conduct or arrange 150 environmental education presentations resulting in increased knowledge by citizens as measured by pre and post program interview, with program quality judged by teachers and increased participation in environmental education programs in local schools.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Development and presentation of environmental education materials.

2) What is the hoped for result of the activities described above?

Increased student and citizen knowledge of environmental issues.

3) How will you measure the quality of these activities?

Pre and post program interviews will be conducted

4) By what standard will you gauge success?

Increased interest in environmental education and a 155 increase in community awareness of environmental issues, problems, values, and solutions by the end of the school year

Community Serv. Obj. #5: Grantee Department of Agriculture Site Rural Development, VA, NC, GA & LA

Objective Code 31

CORPORATION FOR NATIONAL SERVICE

COMMUNITY BUILDING OBJECTIVES

RECORD #: 462

OBJECTIVE STATEMENT

Facilitate creation of tourism opportunities through festivals and other events resulting in 50* of the attendees coming from outside the county.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Market research and development to identify potential tourists.

Develop partnerships with regional tourism groups.

Assist in planning tourism events and local festivals.

Create interpretive signs and programs.

2) What is the hoped for result of the activities described above?

Increase tourism while maintaining the rural character of the area.

3 meaningful partnerships developed.

3) How will you measure the quality of these activities?

Implementation of 2 events which draw at least 50* non-local people (Currently < 10*) to attend as measured by survey of tourists.

Participation in planning of these events by 2 tourism groups.

4) By what standard will you gauge success?

At least one of the events will become annual.

Description of Service: Forest conservation work

Ethnicity (Solo sites):

Community Serv. Obj. #1: Green Mountain National Forest #1

OBJECTIVE STATEMENT:

To perform work on public lands to conserve, restore, and sustain natural habitats within various ecosystems. To maintain, improve, and construct recreation facilities including camp sites, trails, access points, etc. to benefit users of the National Forest System. To perform work that will improve habitat for Threatened, Endangered, and Sensitive species and improve forest health through thinning and restoration. To assist in restoring natural beauty in the national forests and assist in disaster recovery efforts when requested.

COMPONENTS OF OBJECTIVE STATEMENT

1) What work will be done? What service will your members engage in?

Enhance campgrounds, picnic areas and other developed recreation sites on the Green Mountain National Forest, meeting guidelines set by project specialist at specific locations, and completing the projects by September 30, 1995, at the following (non-inclusive) locations;

Grade and gravel sites and pathways for resource protection and accessibility for people with disabilities at the following recreation sites:

- Moosalamoo CG
- Robert Forest Wayside and Interpretive Trail.
- Chittenden Brook CG
- Texas Falls Picnic Area
- Brandon Brook Picnic Area
- Silver Lake CG

RECORD #: 466

- White Rocks Picnic Area
- Greendale CG
- Grout Pond Recreation Area
- Red Mill CG
- Hapgood Pond Recreation Area
- Various developed trailheads forest wide.

Replace 50 campfire rings and construct 25 picnic tables to meet current standards for accessibility and resource protection at recreational sites, for safer public use, complete 80% of the work by October 1, 1995, under the direction of a recreation specialist.

Repair signs and improve restroom facilities at the 22 developed recreation sites. Meet accessibility retrofit needs as identified in accessibility transition plans. Attempt to complete 25% of the sites in the first year.

Enhance wildlife habitat throughout the forest, following guidelines set forth by the project specialist, and completing projects in a time frame that would be sensitive to the needs of individual species, but no later than September 30, 1995. Work would include wildlife habitat improvements on 300 acres of forest land, monitoring 30 wildlife plots and participation in collecting and identification of small mammals as an element of wildlife monitoring activities. Reduce the backlog of maintenance of permanent wildlife openings by cutting approximately 200 acres of openings per year.

Utilize the "Forest as a Classroom" to provide environmental education to local elementary schools, accomplish by June 15, 1995. Participants would provide environmental education to approximately 1500 children in 50 to 60 classrooms by November 1, 1995.

2) What is the hoped for result of the activities described above?

That the projects will be completed in a timely and quality manner and that the recreation facilities will be used extensively by the general public and forest users. That wildlife habitat

will be maintained or improved throughout the forest so that viable populations of all species will be maintained. That youth in Vermont will become more environmentally aware and sensitive as a result of the environmental education programs.

3) How will you measure the quality of these activities?

The majority of these activities will be measured against established and approved standards within Forest Service Land and Resource Management Plans, handbooks, operation, maintenance and construction guidelines, and project workplans. Line Officers will be responsible for accepting the quality of work accomplishments and will hold Members and 3rd parties accountable as part of their performance expectations. We'll work with the schools to conduct and evaluate pre/post tests to determine and measure the success of the environmental education programs.

4) By what standard will you gage success?

By completion of all the work in a timely manner per established standards for quality.

RECORD #: 466

5) How many individuals will receive the benefit of the work your members perform?

Approximately 100,000 forest users, 50-60 local communities, and 1500 school children.

Community Serv. Obj. #2: Green Mountain National Forest #2

Work would include wildlife habitat improvements on 300 acres of forest land, monitoring 30 wildlife plots and participation in collecting and identification of small mammals as an element of wildlife monitoring activities. Reduce the backlog of maintenance of permanent wildlife openings by cutting approximately 200 acres of openings per year.

Utilize the "Forest as a Classroom" to provide environmental education to local elementary schools, accomplish by June 15, 1995. Participants would provide environmental education to approximately 1500 children in 50 to 60 classrooms by November 1, 1995.

2) What is the hoped for result of the activities described above?

That the projects will be completed in a timely and quality manner and that the recreation facilities will be used extensively by the general public and forest users. That wildlife habitat

will be maintained or improved throughout the forest so that viable populations of all species will be maintained. That youth in Vermont will become more environmentally aware and sensitive as a result of the environmental education programs.

3) How will you measure the quality of these activities?

The majority of these activities will be measured against established and approved standards within Forest Service Land and Resource Management Plans, handbooks, operation, maintenance and construction guidelines, and project workplans. Line Officers will be responsible for accepting the quality of work accomplishments and will hold Members and 3rd parties accountable as part of their performance expectations. We'll work with the schools to conduct and evaluate pre/post tests to determine and measure the success of the environmental education programs.

4) By what standard will you gage success?

By completion of all the work in a timely manner per established standards for quality.

5) How many individuals will receive the benefit of the work your members perform?

Approximately 100,000 forest users, 50-60 local communities, and 1500 school children.

Community Serv. Obj. #3: Green Mountain National Forest #3

OBJECTIVE STATEMENT:

To perform work on public lands to conserve, restore, and sustain natural habitats within various ecosystems. To maintain, improve, and construct recreation facilities including camp sites, trails, access points, etc. to benefit users of the National Forest System. To perform work that will improve habitat for Threatened, Endangered, and Sensitive species and improve forest health through thinning and restoration. To assist in restoring natural beauty in the national forests and assist in disaster recovery efforts when requested.

COMPONENTS OF OBJECTIVE STATEMENT

RECORD #: 466

1) What work will be done? What service will your members engage in?

Enhance campgrounds, picnic areas and other developed recreation sites on the Green Mountain National Forest, meeting guidelines set by project specialist at specific locations, and completing the projects by September 30, 1995, at the following (non-inclusive) locations;

with
Grade and gravel sites and pathways for resource protection and accessibility for people with disabilities at the following recreation sites:

- Moosalamoo CG
- Robert Forest Wayside and Interpretive Trail.
- Chittenden Brook CG
- Texas Falls Picnic Area
- Brandon Brook Picnic Area
- Silver Lake CG
- White Rocks Picnic Area
- Greendale CG
- Grout Pond Recreation Area
- Red Mill CG
- Hapgood Pond Recreation Area
- Various developed trailheads forest wide.

Replace 50 campfire rings and construct 25 picnic tables to meet current standards for accessibility and resource protection at recreational sites, for safer public use, complete 80% of the work by October 1, 1995, under the direction of a recreation specialist.

Repair signs and improve restroom facilities at the 22 developed recreation sites. Meet accessibility retrofit needs as identified in accessibility transition plans. Attempt to complete 25% of the sites in the first year.

project
Enhance wildlife habitat throughout the forest, following guidelines set forth by the specialist, and completing projects in a time frame that would be sensitive to the needs of individual species, but no later than September 30, 1995. Work would include wildlife habitat improvements on 300 acres of forest land, monitoring 30 wildlife plots and participation in collecting and identification of small mammals as an element of wildlife monitoring activities. Reduce the backlog of maintenance of permanent wildlife openings by cutting approximately 200 acres of openings per year.

Community Serv. Obj. #1: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

24-01

Grantee: USDA Soil Conservation Service

Site: Winooski, Vermont

COMPONENTS OF OBJECTIVE STATEMENTS: To develop an electronic data base and documentary report of the status of the watershed protection measures installed through the Winooski River Watershed demonstration project in 1941.

1. What work will be done?

Develop an electronic database and documentary report of the status of the watershed protection measures installed through the Winooski River Watershed demonstration project in 1941.

2. What is the hoped for result of the work/activities described above?

Documentation of the effectiveness of the original Winooski Project which will provide the basis for the development of a guide for planning and implementing similar measures elsewhere in Vermont and the Northeast.

3. How will you measure the quality of your product or impact of your service?

Supervisory team's judgment.

4. By what standard will you gauge success?

80% of the landowners in the project area are interviewed; 100% of the measures installed are

RECORD #: 467

inventoried; electronic databased created; documentary report completed.

5. How many individuals will receive the benefit of the work your participants perform?

11 state, local and federal agencies and educational institutions will receive the documentary report, which they can then use as a basis for revising their watershed protection procedures.

Description of Service: Rural fire protection

Ethnicity (Solo sites):

24-02

Community Serv. Obj. #1: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service
Vermont

Site: Randolph,

COMPONENTS OF OBJECTIVE STATEMENTS: To provide skills land technical information to be used by 40 rural fire departments to develop comprehensive fire protection plans which will reduce fire losses and in some cases, insurance premiums for the towns and fire district residents. Of these 40, 10 will implement their plans and 20 will have installed and implemented specific improvements.

1. What work will be done?
Provide skills and technical information to rural fire departments for the development and implementation of comprehensive fire protection plans.
2. What is the hoped for result of the work/activities described above?
Reduction of fire losses and in some insurance premiums.
3. How will you measure the quality of your product or impact of your service?
Fire department capabilities will be assessed on a pre-service and post-service basis.
4. By what standard will you gauge success?
40 rural fire departments in Vermont will develop comprehensive fire protection plans; 10 will implement those plans; 20 will have installed and implemented specific improvements.
5. How many individuals will receive the benefit of the work your participants perform?

Description of Service: Anti-hunger services

Ethnicity (Solo sites):

Community Serv. Obj. #1: GRANTEE-. Anti-Hunger Corp/ Office of Economic Opportunity SITE: Vermont CONTENTS
OF OBJECTIVE STATEMENTS:

Objective (A): Increase food assistance program awareness and qualified utilization.

1. What work will be done? What service activities will your participants engage in?

Activities will include staffing and training volunteers at community food shelves, community food kitchens, shelters for homeless people and/or battered women and their children, and community congregate meals programs.

Assist people interested in applying for the food stamp, commodity and WIC programs by supplying applications, and assistance in filling them out when requested. Identify populations under-utilizing the food stamp, commodity and WIC programs, and provide targeted outreach.

2. What is the hoped for result of the work/activities described above?

Increased food resource program awareness.

Increased utilization of these programs by individuals and families who need the assistance they provide, who would be program eligible, but who may not apply without assistance.

3. How will you measure the quality of your product or impact of your service?

Enrollment statistics.

RECORD #: 471

Information/knowledge survey.

4. By what standard will you gauge success?

5% statewide increase in food stamp program and WIC program utilization.

5% of people surveyed will indicate new knowledge about the programs, eligibility factors, what is involved in applying, and where to apply.

5. How many individuals will receive the benefit of the work your participants perform?

Approximately 3,000 people who are low income will identify as more aware of what is involved and required in the application process and eligibility determination, and will receive direct assistance should they apply.

Community Serv. Obj. #2: Objective (,B): Increase the number of Summer Food Service sites.

1. What work will be done? What service will your participants engage in?

Identify existing summer food programs and key contact people to provide technical assistance to interested Communities, and to the Anti- Hunger Corps members.

Identify existing summer recreation programs, and assist communities to develop affiliated summer food service programs.

Identify organizations and communities with existing grants and/or initiatives who require assistance to implement, and/or improve their programs.

Activities may include:

- proposal writing/technical assistance,
- fund raising planning and participation,
- program development staffing/volunteer recruitment.
- program "marketing" activities.

2. What is the hoped for result of the work/activities described above?

Increased numbers of summer food service sites. Increased participation in existing sites.

3. How will you measure the quality of your product or impact of your service?

Increased numbers of programs,

Communities who state their intention and ability to continue their program,

Increased numbers of participants at existing sites.

4. By what standard will you gauge success?

RECORD #: 471

15% increase in summer food service program sites.

10% increased enrollment in under-enrolled existing summer food sites.

Community members report more knowledge of how to set up and manage a successful program.

5. How many individuals will receive the benefit of the work your participants perform?

60 children (3 new sites serving a minimum of 20 children approximately each site)
A minimum of 50 new children will participate in existing summer food programs.

Community Serv. Obj. #3: Objective (C): Increase availability of school breakfast program sites.

1. What work will be done? What service activities will your participants engage in?

Identify existing materials and activities implemented to foster school breakfast programs.

Identify schools interested in developing school breakfast programs, and

Assist in program implementation, and promotion. Activities may include:

- fund raising planning, and assistance,
- proposal writing/technical assistance,
- identification of resource materials, and currently successful Vermont programs.
- volunteer/staff training

2. What is the hoped for result of the work/activities described above?

Increased availability of school breakfast program sites.

Increased participation at existing programs.

3. How will you measure the quality of your product or impact of your service?

Increased number of programs

Communities who state intention to continue or develop programs.

Increased participation of existing programs.

4. By what standard will you gauge success?

Five percent increase statewide in new programs developed.

Five percent increase in participation.

5. How many individuals will receive the benefit of the work your participants perform?

RECORD #: 471

A minimum of 300 students.

Community Serv. Obj. #4: (D) Increase community opportunities for sustainable agricultural projects and markets.

1. What work will be done? What service activities will your participants engage in?

Identify existing community garden projects in need of assistance to build a stronger base and/or to work on their sustainability.

Identify communities interested in developing a community garden project.

Identify alternative community gardening partnerships.

Activities may include:

- gardening
- garden management technical assistance
- project planning, and implementational assistance.
- information sharing of and networking with successful community garden projects

Identify effective Vermont community garden working models.

2. What is the hoped for result of the work/activities described above?

Increased numbers of community garden projects.

Increased food resources.

Increased community agricultural collaborations among "non-traditional" populations.

3. How will you measure the quality of your product or impact of your service?

Community groups will report that technical assistance has improved their garden organization.

Increased numbers of community gardens by traditional and non-traditional community collaborations,

4. By what standard will you gauge success?

3 new community garden sites organized.

5 existing sites report more efficiency and participation.

1 new non-traditional community garden collaboration.

5. How many individuals will receive the benefit of the work your participants perform?

10 individuals in each of 8 sites.

25 individuals in traditional and non-traditional communities.

RECORD #: 471

Community Serv. Obj. #5: (E) Increase nutrition and food safety education.

1. What work will be done? What service will your participants engage in?

Identify opportunities for nutrition and food safety education where none exists.

Identify curriculum, materials and media resources, and review them for appropriateness for a variety of possible Vermont populations, through collaboration with the Vermont WIC Director, and the state, regional, and federal Food and Nutrition Service staff.

Identify and work with interested teachers, daycare providers, WIC clinic directors, school and summer food service staff, elderly nutrition programs and Senior Centers, and other presenting group opportunities, in order to encourage, train, enhance and support the ongoing food safety and nutrition education.

Identify and assist in the development and training of new collaborators for food safety and nutrition education.

Work with groups who may be audiences for this material to assist in the development and/or teaching of these materials.

2. What is the hoped for result of the work/activities described above?

Increased food safety and nutrition materials available and used.

Increased commitment to and use of curricula in school and daycare settings.

The identification and development of new partnerships as trainers/educators for those interested in having this education.

3. How will you measure the quality of your product or impact of your service?

Those who use curriculum and/or other materials will indicate a commitment and capability to continue using the materials.

Individuals using and/or helping in the development and teaching of the materials will report them to be useful for themselves.

Individuals trained and/or educated with these materials will indicate increased knowledge.

4. By what standard will you gauge success?

100% of those who experience nutrition and food safety education will indicate in pre and post testing that they have increased knowledge.

100% of those who experience this education will indicate a willingness to change some of their food buying and handling practices.

RECORD #: 471

75% of those trained to teach these materials, will indicate a willingness to continue to use these materials in their on-going activities.

5. How many individuals will receive the benefit of the work your participants perform?

75 teachers, and adult and child daycare providers will participate in training events.

30 Adult Daycare clients will receive nutrition and food safety education.

250 children will receive nutrition and food safety education.

75 parents from WIC clinics, school PTA groups, Headstart, etc. will participate in nutrition and food safety education.

Community Serv. Obj. #2:

Shall include Operational Resource Center Functions that specify services and programs to be available to the public at the onset of the Center's opening and the realization of each service or program. Defined community service objectives for each functional component of the Center, which at this point include centralized information and referral, site based social service access, a Funding Reference Library, grant writing and technical assistance, advocate for developing community daycare, advocate for developing a public transportation system, and coordination of socioeconomic lifting workshops for poverty level individuals; development of a Resource Center design, and; established procedural and organizational components that allow the Center to open by February 1995.

Shall include enumeration of program/services available to the community on day of center opening, measuring standard of impact set in each community service objective designed for each program/service, having a completed viable center design, and a completed structural checklist for components to be in place before opening is possible.

Having a functioning, community responsive Community Resource & Alternative Funding Center established on the Larson track and staffed by the AmeriCorps member prior to the end of February 1995.

All individuals who will be targeted by the Resource Center to obtain services and all those who are able to access the Center's programs or services.

Description of Service: Forest conservation work

Ethnicity (Solo sites):

Community Serv. Obj. #1: Olympic National Forest #1

OBJECTIVE STATEMENT:

To perform work on public lands to conserve, restore, and sustain natural habitats within various ecosystems. To maintain, improve, and construct recreation facilities including camp sites, trails, access points, etc. to benefit users of the National Forest System. To perform work that will improve habitat for Threatened, Endangered, and Sensitive species and improve forest health through thinning and restoration. To assist in restoring natural beauty in the national forests and assist in disaster recovery efforts when requested.

COMPONENTS OF OBJECTIVE STATEMENT

- 1) What work will be done? What service will your members engage in?

Restoration and enhancement of ecosystems for threatened and endangered sensitive species throughout the Olympic National Forest. Projects would include the construction and installation

of 200 bird and bat nest boxes, construction and installation of 20 structures in streams to improve habitat for endangered salmon stocks. Projects would meet wildlife and fisheries specialist guidelines. Habitat surveys for Marbled Murrelets forestwide.

Watershed restoration projects would include placement of erosion control matting, willow and grass seed planting and fertilization for protection of municipal watersheds and salmon bearing streams on over two miles of stream bed. Community development projects in cooperation with

State

of Washington and local counties with the aim of reducing the potential for listing of threatened

salmon species would be completed. 80% of the projects would be completed in a time frame that

RECORD #: 475

would be sensitive to the needs of individual species, but no later than September 1, 1995. Guidelines would be developed by fisheries specialist and monitored for one year following completion.

Complete rehabilitation and maintenance on campgrounds, picnic areas and other developed recreation facilities on fifteen sites on the Olympic National Forest. Meet established guidelines and universal access design guidelines as identified in the 1994 transition plan.

Work

may include removal of hazard trees, repair or replacement of tables, fireplaces, comfort stations, water systems and parking barriers. Recreation specialist would approve final work prior to the project sites being open to the public.

Construction and maintenance of 100 camp sites throughout the Olympic National Forest, to regional standards, as identified in the Forest Plan.

Construct one "front country" (non-wilderness) horse camp at a location on the Forest to regional standards, in order to lessen impact of stock use in Wilderness areas and on water resources. Projects to be coordinated with Watershed Initiative.

Maintain approximately 100 miles of trails throughout the Forest and five Wilderness areas, completing lower elevation work by June 1, 1995 and higher elevation work by September 30, 1995.

Maintenance would include the rehabilitate of trail structures including shelters, bridges, puncheon, turnpiking, cribwalls, gabion, information boards, and signing.

Improve forest health by pruning 130 acres of timber and maintaining 110 acres of a seed orchard.

2) What is the hoped for result of the activities described above?

That the projects will be completed in a timely and quality manner and that the recreation facilities will be used extensively by the general public and forest users. That Threatened, Endangered, and Sensitive plant and animal species habitat will be maintained or improved to the point that someday they can be delisted. That watersheds will be restored to improve anadromous fisheries habitat.

3) How will you measure the quality of these activities?

The majority of these activities will be measured against established and approved standards within Forest Service Land and Resource Management Plans, handbooks, operation, maintenance and construction guidelines, and project workplans. Line Officers will be responsible for accepting the quality of work accomplishments and will hold Members and 3rd parties accountable as part of their performance expectations. We'll work with the schools to conduct and evaluate pre/post tests to determine and measure the success of the environmental education programs.

4) By what standard will you gage success?

By completion of all the work in a timely manner per established standards for quality.

RECORD #: 475

- 5) How many individuals will receive the benefit of the work your members perform?

Several thousand forest users, 10 local communities, 4,000 school children, 200-300 commercial fishermen, and 2,000+ recreational salmon fishermen.

Community Serv. Obj. #2: Olympic National Forest #2

Description of Service: Habitat restoration

Ethnicity (Solo sites):

Community Serv. Obj. #1: CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

32-04

Grantee: USDA Soil Conservation Service SITE: Goldendale, Washington (EC)

COMPONENTS OF OBJECTIVE STATEMENTS: Habitat restoration using Best Management Practices to improve water quality on private land.

1. What work will be done?

Enhancing stream side vegetation by planting willows and grass.
Stabilize streambanks by constructing small structures.

2. What is the hoped for result of the work/activities described above?

Salmon Spawning habitat improved on 5 miles of stream.

3. How will you measure the quality of your product or impact of your service?

All technical assistance will comply with Soil Conservation Service standards and specifications.

4. By what standard will you gauge success?

15 private landowners use the Environmental Corps to improve salmon spawning habitat.

5. How many individuals will receive the benefit of the work your participants perform?

N/A

Community Serv. Obj. #2:

RECORD #: 476

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee USDA Soil Conservation Service Site Goldendale, Washington (EC)

32-05

COMPONENTS OF OBJECTIVE STATEMENTS: Habitat restoration to improve water quality
working with local and state agencies who manage public lands.

1. What work will be done?

Improve water quality for salmon spawning habitat through assistance given to local, state and federal land managing agencies. Plant trees and grasses and construct small structures.

2. What is the hoped for result of the work/activities described above?

Salmon spawning habitat improved on 1 mile of stream with these land managing agencies.

3. How will you measure the quality of your product or impact of your service?

All technical assistance will comply with Soil Conservation Service standards and specifications.

4. By what standard will you gauge success?

5 local, state or federal land managing agencies use the Environmental Corps to improve salmon spawning habitat.

5. How many individuals will receive the benefit of the work your participants perform?

Community Serv. Obj. #3:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

Grantee USDA Soil Conservation Service Site Goldendale, Washington (EC)

32-06

COMPONENTS OF OBJECTIVE STATEMENTS: Complete site rehabilitation work on two forest fire
burned over areas to prevent water pollution in the Little Klickitat River.

1. What work will be done?

Building sediment retention structures
Seeding of critical areas

2. What is the hoped for result of the work/activities described above?

RECORD #: 476

Water quality for fisheries habitat is maintained by preventing pollution from accelerated soil erosion.

3. How will you measure the quality of your product or impact of your service?
All technical assistance will comply with Soil Conservation Service standards and specifications.

4. By what standard will you gauge success?
Landowners agree to install all recommended practices.

5. How many individuals will receive the benefit of the work your participants perform?
Estimated 3,000 residents of Klickitat County downstream from the forest fire areas.

Community Serv. Obj. #4:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

32-07

Grantee USDA Soil Conservation Service
Rural Development Members

Site Goldendale, Washington (RDC)

COMPONENTS OF OBJECTIVE STATEMENTS: Plan and design all project practices for the Goldendale Environmental Corps, related to the restoration of salmon spawning habitat.

1. What work will be done?

Plan and design all project practices for the Goldendale Environmental Corps, related to the restoration of salmon spawning habitat.

2. What is the hoped for result of the work/activities described above?

A total of 20 landowners will be assisted, affecting 6 miles of stream and two forest fire burned over areas.

3. How will you measure the quality of your product or impact of your service?

All plans and designs will comply with Soil Conservation Service standards and specifications.

4. By what standard will you gauge success?

Projects to generate a 50% increase in the number of requests for salmon habitat improvement by private landowners and governmental land managing agencies.

5. How many individuals will receive the benefit of the work your participants perform?

Estimated 4,000 residents in and around the main streams and rivers of the project area.

RECORD #: 476

Community Serv. Obj. #5: CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

Grantee USDA Soil Conservation Service

Site Goldendale, Washington (RD & EC)

COMPONENTS OF OBJECTIVE STATEMENTS: Joint objective for 5 rural development corps members & 9 environmental corps members co-located in Goldendale, WA. Complete community recognized and sponsored projects that focus on work that would not be otherwise be done without the services of the rural development & environmental corps.

Delete?

1. What activities will you be engaged in?

- Hauling firewood for elderly
- Shoveling snow for elderly
- Park cleanup and maintenance
- Visiting elderly and low income families

2. What is the hoped for result of the activities described above?

Complete 10 community building projects identified by the local communities.

3. How will you measure the quality of these activities?

Projects completed as specified by local community sponsoring agencies.

4. By what standard will you gauge success?

Projects result in a 100% increase in the number of requests for community building projects done through volunteer efforts in communities assisted.

CORPORATION FOR NATIONAL SERVICE
COMMUNITY SERVICE OBJECTIVE

33-33

Grantee: USDA Soil Conservation Service

Site: Wisconsin

COMPONENTS OF OBJECTIVE STATEMENTS: Provide information and guidance to
landowners and

producers in order to assist in flood recovery and natural resource management decision-making
and maintain compliance with federal programs.

1. What work will be done?

Assist landusers to make flood recovery and soil conservation decisions. Investigate and
inventory floodplains and wetlands to assist landowners, producers, and sponsors concerning
emergency programs and federal program compliance. Update wetland inventory maps and
complete wetland determinations.

2. What is the hoped for result of the work/activities described above?

Landusers will make better land use decisions, wetlands will be protected and mapped, and more
program participants will be in compliance with Federal laws.

Better informed public and community leaders, wetlands protected and USDA program
participants in compliance with Federal laws.

3. How will you measure the quality of your product or impact of your service?

Number of wetland maps updated and number of determinations made; District Conservationists'
satisfaction with the work products, fewer program violations.

RECORD #: 482

- 4. By what standard will you gauge success?
90% of all wetland determinations made for all current USDA participants in the county. 90% of wetland maps updated. 50% of landusers make better land use decisions.
- 5. How many individuals will receive the benefit of the work your participants perform?
1200-1500 farmers and individuals participating in USDA programs per county.

Community Serv. Obj. #2:

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVE

Grantee: USDA Soil Conservation Service Site: Wisconsin

33-34

COMPONENTS OF OBJECTIVE STATEMENTS: Create public awareness about wetlands and Federal Program compliance.

-

- 1. What activities will you be engaged in?

Informing the public and community leaders about wetland functions and values and wetland locations. Helping USDA participants stay eligible for USDA programs by keeping them informed on wetland locations.

- 2. What is the hoped for result of the activities described above?

Well informed public and community leaders; USDA program participants eligible for programs; wetlands protected.

- 3. How will you measure the quality of these activities?

By number of USDA participants ineligible for USDA programs; Accurate wetland determinations made for participants.

- 4. By what standard will you gauge success?

Wetland inventory maps updated and wetland determinations sent to current participants in counties where work is performed.

Community Serv. Obj. #3:

COMMUNITY SERVICE OBJECTIVE

Grantee: USDA Soil Conservation Service

Site: Wisconsin

COMPONENTS OF OBJECTIVE STATEMENTS: Work with community leaders and planners to identify flood

prone and environmentally sensitive areas.

-

1. What work will be done?

Contact community leaders, digitize a minimum of three soil surveys, and develop applications to identify flood prone and environmentally sensitive areas.

2. What is the hoped for result of the work/activities described above?

Future community development and community growth planned in ways that minimize the effects of recurring flooding. Reduced nutrient and pesticide loading of streams during flooding events.

3. How will you measure the quality of your product or impact of your service?

Judgment of zoning, planning and conservation departments.

4. By what standard will you gauge success?

Number of soil surveys digitized, number of communities using them for planning, and the amount of community involvement.

5. How many individuals will receive the benefit of the work your participants perform?

200-500.

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

COMPONENTS OF OBJECTIVE STATEMENT: COMMUNITY OUTREACH AND ACCESS

--

GOAL #1

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will conduct an outreach campaign to a minimum of 10,000 individuals or households. There will be up to 8 educational, informational and referrals flyers distributed. The flyers will be easy to read and multi-lingual (English/Spanish/Hmong and Laotian). AmeriCorps will distribute up to 20,000 of each of the 8 flyers. Methods of distribution will include, but not be limited to, door to door and work site outreach. Each household or site will have two informational contacts.

2. What is the hoped for result of the work/activities described above?

There will be an increased awareness of and access to federal, state and local food, nutrition, economic, social service and

RECORD #: 483

support programs.

3. How will you measure the quality of your product or impact of your service?

Increased food security and nutritious food for the people responding to the outreach campaign.

4. By what standard will you gauge success?

Information requests and participants levels in targeted programs will be recorded at the beginning and end of the outreach activities.

5. How many individuals will receive the benefit of the work your participants perform?

1. What work will be done? What service activities will your participants engage in?

Americorps members will provide one-to-one information and referral services to a minimum of 100 food pantry clients, 7 meal program clients and 50 shelter clients. Members will provide information and referral to programs and services that reduce dependency on emergency services.

2. What is the hoped for result of the work/activities described above?

An increased awareness of programs and services, and referral to those services and programs will result in less of a dependence on emergency services.

3. How will you measure the quality of your product or impact of your service?

Individuals will register and utilize support programs and there will be a change in their need for emergency services.

4. By what standard will you gauge success?

RECORD #: 483

Follow-up interviews will be conducted with the clients to measure registration in and utilization of support programs.

5. How many individuals will receive the benefit of the work your participants perform?

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

COMPONENTS OF OBJECTIVE STATEMENT: COMMUNITY OUTREACH AND ACCESS
-- GOAL #3

1. What work will be done? What service activities will your participants engage in?

Review all pertinent information to determine where there is a need for and an ability to establish new Summer Youth Food Programs in under served low income communities. Outreach activities will be conducted at existing summer recreational and social organizations serving youth between the ages of 6-17.

2. What is the hoped for result of the work/activities described above?

Establishment of 5 new Summer Youth Food Program sites. Each new site will enroll an average of 20 youth that participate in regularly scheduled social/recreational activities.

3. How will you measure the quality of your product or impact of your service?

More youth will have access to and eat nutritious lunches during the summer months and be enrolled in summer recreational and social programs, affording the youth positive enrichment opportunities. The youths' families will be less dependent on emergency food programs.

4. By what standard will you gauge success?

A survey of the lunch sites' workers and youth participants will be conducted.

5. How many individuals will receive the benefit of the work your participants perform?

Approximately 100 low income youth between the ages of 6 and 17.

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

COMPONENTS OF OBJECTIVE STATEMENT: INFRASTRUCTURE CONSTRUCTION
HELP #1

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will conduct on-site physical assessments of emergency food pantries. They will survey the facility needs of the pantry (safety, health and accessibility). A facilities enhancement plan will be developed for the pantries surveyed.

2. What is the hoped for result of the work/activities described above?

A Facility Enhancement Plan (scope of work) will be developed for 30 emergency food pantries.

3. How will you measure the quality of your product or impact of your service?

A survey of operators of emergency food pantries will be conducted.

4. By what standard will you gauge success?

Emergency Food Pantries will have a Facility Enhancement Plan to be used to improve the safety, health, and accessibility standards of their pantry facilities. Pantries will use the documents to improve their facilities.

5. How many individuals will receive the benefit of the work your participants perform?

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

COMPONENTS OF OBJECTIVE STATEMENT:FARMERS/MARKETS/URBAN FARMING #1

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will establish 2 neighborhood farmers' markets in collaboration with the Rainbow Farmers Cooperative. The markets will be open at least one day per week for a minimum of 3 months. The markets will accept food stamps. The AmeriCorps members will promote the markets to the local community through various methods of outreach. They will assist in the setting up, staffing and breakdown of the markets. They will assist in recruiting volunteers and sponsors for the market and market related activities. They will assist in all aspects of special events that will take place at the markets.

2. What is the hoped for result of the work/activities described above?

Fresh, affordable produce will be available in targeted neighborhoods where emergency food programs are located.

3. How will you measure the quality of your product or impact of your service?

RECORD #: 483

Fresh, affordable produce will be available in neighborhoods that are currently underserved by traditional markets. Low-income families will increase the amount of fresh produce consumed.

4. By what standard will you gauge success?

The number of market customers will increase 50% from the beginning to the end of the season. A random survey of a minimum of 25 market customers and farmers will be conducted to determine the impact of the markets on the neighborhood residents, the farmers co-op, and the community.

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will assist in marketing and promotion of four existing neighborhood farmers markets that provide fresh, affordable produce in low income neighborhoods. They will work in collaboration with the Rainbow Farmers Cooperative. The physical set-up of the markets will be improved and signage for the markets will be installed. Participants will work with the community organizations and groups operating the market. They will jointly develop and implement an outreach and promotion campaign for the markets.

2. What is the hoped for results of the work/activities described above?

The number of market customers will increase by 50% from the beginning to the end of the market season.

3. How will you measure the quality of your product or impact of your service?

Nutritious, affordable, fresh produce will be available to four

RECORD #: 483

low-income neighborhoods. Users of food stamps will have better quality and more economical produce available to them. Other goods and services may become available to these neighborhoods if it can be demonstrated that a good consumer base exists in the areas the markets are located.

4. By what standard will you gauge success?

A random survey of a minimum of 25% of the market customers and farmers will be conducted to determine the impact of the markets on the neighborhood residents and farmers co-ops.

5. How many individuals will receive the benefit of the work your participants perform?

COMPONENTS OF OBJECTIVE STATEMENT:FARMERS/MARKETS/URBAN FARMING #3

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will establish 2 community gardens in targeted neighborhoods to provide fresh produce to the gardeners and neighborhood residents. They will work in collaboration with the Rainbow Farmers Cooperative and existing neighborhood organizations and groups. A portion of each of the gardens' produce will be sold at the newly established neighborhood farmers markets. Each of the gardens will grow at least two specialty items to meet the special needs of the ethnic/racial groups located in the garden's neighborhood.

2. What are the hoped for results of the work/activities described above?

Two community gardens will be established where none currently exist. A portion of the produce grown will be sold in the newly established farmers markets. Specialty produce items will be grown and made available.

3. How will you measure the quality of your product or impact of your service?

RECORD #: 483

There will be increased availability of affordable fresh produce in low income neighborhoods. Community groups and organizations will be strengthened because of their members' involvement with this project.

4. By what standard will you gauge success?

A survey of the garden participants will be conducted to evaluate the impact of the gardens.

5. How many individuals will receive the benefit of the work your participants perform?

COMPONENTS OF OBJECTIVE STATEMENT:FARMERS/MARKETS/URBAN FARMING #4

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will organize and provide 12 demonstrations on the proper preparation and storage of market produce. They will also assist 10 local residents in providing at least 4 demonstrations of the proper preparation and storage of ethnic foods using market produce.

2. What is the hoped for result of the work/activities described above?

There will be demonstrations at neighborhood markets about the storage and preparation of market items by AmeriCorps, neighborhood organization members, and market customers. Area residents will demonstrate the use of specialty produce.

3. How will you measure the quality of your product or impact of your service?

A community atmosphere of sharing and education will exist. Residents and marketgoers will enjoy a diverse experience, learn about other cultures, and increase pride in their own cultures.

4. By what standard will you gauge success?

Surveys will be taken of the market participants and farmers.

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

COMPONENTS OF OBJECTIVE STATEMENT:FARMERS/MARKETS/URBAN FARMING #5

1. What work will be done? What service activities will your participants engage in?
AmeriCorps members will develop a link between city and suburban communities by recruiting 2 suburban churches to become partners with 2 neighborhood gardens or farmers markets. Each church will recruit church members to assist with the gardens or be customers for the markets. AmeriCorps members will be involved in the outreach and recruitment of the churches and will actively assist to build the relationships between the suburban and urban communities.
2. What are the hoped for results of the work/activities described above?
Two suburban churches will become partners in the neighborhood garden or market project. Each church will recruit volunteers. They will recruit 10 customers for the market or will find people with gardening expertise to work in the gardens.
3. How will you measure the quality of your product or impact of your service?
The markets will be more successful because of an expanded customer base. The gardens will be more productive because of the gardeners' experience. There will be a linkage made between the inner city neighborhood organizations. There will be mutually beneficial cross-cultural and cross-economical relationships.
4. By what standard will you gauge success?
Interviews will be conducted with all of the participants to evaluate partnership results/benefits and to determine possible future activities.
5. How many individuals will receive the benefit of the work your participants perform?

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

COMPONENTS OF OBJECTIVE STATEMENT: FOOD HANDLING GOAL #1

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will be placed in emergency food programs to increase the programs' capacity to provide direct emergency food services. AmeriCorps members will be placed in either food pantries or meal programs. They will assist with food pick-up and distribution, pantry maintenance, client intake and referral, and volunteer recruitment and training.

2. What is the hoped for result of the work/activities described above?

Ten emergency food pantries and meal programs will have an increased capacity to serve their targeted populations. At least 3 new volunteers will be recruited for each pantry.

3. How will you measure the quality of your product or impact of your service?

Increased capacity of the emergency food pantries and meal programs will result in recipients of the service being served in a more timely and professional manner. The facilities' maintenance will make for a more pleasant atmosphere. Increased volunteers and work by the AmeriCorps members will allow current staff and volunteers of the programs to offer a higher quality of service and in some cases provide other necessary services.

4. By what standard will you gauge success?

A minimum of 2 interviews, one before and one after the completion of the project, will be conducted with the pantry coordinators or meal program sites to measure the quality of the work performed and the impact of the improvements to pantry or meal site operations.

5. How many individuals will receive the benefit of the work your participants perform?

COMPONENTS OF OBJECTIVE STATEMENT: FOOD HANDLING GOAL #2

1. What work will be done? What service activities will your participants engage in? AmeriCorps members will assist Hunger Task Force of Milwaukee to collect, sort, inventory, and distribute donated and purchased foods to food pantries in the Emergency Food Pantry Network. They will participate in 2 major food drives, sort foods, and work with volunteers on these tasks. They will assist in the development of a systematic warehouse maintenance and distribution plan.

2. What is the hoped for result of the work/activities described above?

Millions of pounds of donated or purchased food will be collected, sorted, inventoried, and distributed to 75 pantries in the Emergency Food Pantry Network. There will be a minimum of 25 food sorting sessions involving a minimum of 30 volunteers.

3. How will you measure the quality of your product or impact of your service?

The assistance of AmeriCorps members will increase the capacity and efficiency of the Hunger Task Force of Milwaukee to provide nutritious food to food pantries in the greater Milwaukee area. The warehouse will have a better maintenance and distribution plan.

The volunteers and the AmeriCorps members will enjoy a good working relationship.

4.

By what standard will you gauge success?

An evaluation report will be completed based on interviews with food program staff and volunteers from the Hunger Task Force of Milwaukee.

5. How many individuals will receive the benefit of the work your participants perform?

CORPORATION FOR NATIONAL SERVICE COMMUNITY SERVICE OBJECTIVES

RECORD #: 483

COMPONENTS OF OBJECTIVE STATEMENT: FOOD HANDLING GOAL #3

1. What work will be done? What service activities will your participants engage in?

AmeriCorps members will assist in establishing SHARE programs in pantries or meal program settings. They will perform outreach and recruit members of the Emergency Food Pantry Network and the Community Meal Coalition. They will assist in recruiting volunteers to operate the new SHARE sites.

2. What is the hoped for result of the work/activities described above?

At least two new SHARE sites will be established at Emergency Food Pantries or Community Meal Sites. SHARE participants and volunteers for the SHARE programs will increase.

3. How will you measure the quality of your product or impact of your service?

Low-income individuals and families from the Emergency Food Pantries and Community Meal Sites, and their surrounding communities, will have very economical and high quality food available to them. The people involved in SHARE will reduce their use of emergency food pantries and free meal programs. The community will benefit from volunteer hours performed by members of the SHARE program.

4.

By what standard will you gauge success?

A survey of volunteers and clients will be conducted at the beginning and the end of the project.

5. How many individuals will receive the benefit of the work your participants perform?

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To promote alternative wood products and value added manufacturing technologies resulting in local people obtaining job training and higher paying employment while maintaining the quality of the rural environment.

COMPONENTS OF OBJECTIVE STATEMENT

1) what activities will you be engaged in?

Present the concept of sustainable development and its' advantages to 30 community groups.

Assess technology, finance, and technical assistance needs of 100 forest products firms.

Train 40 representatives from forest products firms in technology which will increase their value-added potential.

2) What is the hoped for result of the activities described above?

Increasing value of locally produced wood products.

Higher employment and income levels.

Greater support for sustainable development.

RECORD #: 488

3) How will you measure the quality of these activities?

Evaluate community groups understanding of sustainable development.

Have technical assistance practitioners evaluate assessment results.

Post testing of training programs to evaluate skill levels.

4) By what standard will you gauge success?

Active support of 5 communities for sustainable development.

Technical specialists evaluate 80* of assessments as adequate.

In 6-month post-training interviews, 10 representatives indicate they are applying training.

Community Serv. Obj. #2: Grantee Department of Agriculture Site Rural Development, MN & WV
Objective Code 13

CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To support community planning programs in West Virginia and rural Minnesota, as measured by 50* (3 out of 6) of the contacted communities producing a feasible plan to improve living conditions.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Contacting community leaders and outreach to non-represented groups.

Collecting information on community needs, problems, and opportunities.

organizing community officials by facilitating meetings to prioritize goals and identify tasks.

2) What is the hoped for result of the activities described above?

All targeted communities are contacted and advised of the opportunity to participate in this program.

RECORD #: 488

At least 3 communities develop a feasible plan.

3) How will you measure the quality of these activities?

Contacts with communities will be documented.

Community plans will be reviewed by professionals.

4) By what standard will you gauge success?

Community leaders in 2 communities show an active interest in pursuing planning options.

Two communities are able to secure funding to implement plan components.

Community Serv. Obj. #3: Grantee Department of Agriculture Site Rural Development, MN & WV
Objective Code 14
CORPORATION FOR NATIONAL SERVICE
COMMUNITY BUILDING OBJECTIVES

OBJECTIVE STATEMENT

To conduct or arrange 90 environmental education presentations resulting in increased knowledge by citizens as measured by pre and post program interview, with program quality judged by teachers and increased participation in environmental education programs in local schools.

COMPONENTS OF OBJECTIVE STATEMENT

1) What activities will you be engaged in?

Development and presentation of environmental education materials.

2) What is the hoped for result of the activities described above?

Increased student and citizen knowledge of environmental issues.

3) How will you measure the quality of these activities?

Pre and post program interviews will be conducted.

4) By what standard will you gauge success?

Increased interest in environmental education and a 15% increase in participation by the end of the school year.
