Dear President Clinton;

Your selection of Fleetwood Mac's "Don't Stop (Thinking About Tomorrow)" as the theme song of your 1992 presidential campaign plays an integral part in the band's music history.

The band, which includes Stevie Nicks, Mick Fleetwood, Lindsay Buckingham, John McVie and Christine McVie, is reuniting for a national tour beginning in September. As the presenting sponsor, Best Buy Co., Inc., will create a free, collectable CD available exclusively to Fleetwood Mac Tour '97 concert-goers. We'd like to include accurate background on the CD jacket on why you chose "Don't Stop" as your theme song and what significance it had on the campaign.

In addition, we would be honored to have you, your family, Vice President Al Gore and his family as our guests at the Fleetwood Mac concert in Washington, D.C., on

I look forward to hearing from you soon.

Sincerely,

Gary Arnold
