

THE REPORT FROM MY AT THE TABLE:

WHERE: Las Vegas, NV

WHEN: May 22, 1996

HOST: DOL Women's Bureau

Name: Ida L. Castro, Acting Director

Address: 200 Constitution Ave NW, S3002, WDC 20210

Phone: 202-219-6611

Fax: 202-219-5529

E-Mail

PARTICIPANTS: CLUW Labor Union Women (attached)

Names, Addresses, Phone, Fax, E-Mail

(Please use separate sheet.)

TOPICS DISCUSSED:

child care, violence in the workplace,

MOST IMPORTANT CONCLUSION:

It's extremely difficult to raise kids when you're a single parent or both you + your spouse work. We need better options — and not just for the care of small children.

MISCELLANEOUS: (e.g. newspaper clips, other thoughts)

Send completed forms to The White House Office for Women's Initiatives and Outreach,
708 Jackson Place, Washington, D.C. 20503

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1.

CHILD CARE FOR ALL AGES 0-17

Activity/Care for pre-teen & teen

2.

SENIOR CARE

3.

SAFE WORK PLACE

4.

MORE MEDICAL HELP - FOR MENTAL ILLNESS

5.

DEALING WITH THE HOMELESS SITUATION.

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. As A parent of 2 kids I would like to know
why if a kid is advanced in (his or her) education
at the age of 4 & 5 can not start school early
or be taught at the level (he or she) may be.

2. Also I would like to know why can't we
have child care at affordable rate for
the single parent that makes just a little
more than not to qualify for government
assistance.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. I WOULD LIKE TO SAY AS A MOTHER & A GRANDMOTHER THAT THERE SHOULD BE BETTER CHILD CARE & FACILITIES AVAILABLE FOR THE WORKING WOMEN. NOT ONLY BETTER CHILD CARE & FACILITIES BUT SAFE CARE. THE PEOPLE RUNNING THESE PLACES SHOULD BE WELL TRAINED & CERTIFIED.

2. ALSO AS A MIDDLEAGED SINGLE WOMAN THERE SHOULD BE SOMETHING IN EFFECT WHERE IT SHOULDN'T BE SO HARD TO GET A DECENT JOB AS A MIDDLE AGED WOMAN. IT IS SO HARD FOR MOST MIDDLE-AGED WOMEN TO FIND A DECENT JOB. EMPLOYERS FEEL YOU'RE TOO OLD & THEY DON'T WANT TO BE BOTHERED.

3. I WOULD LIKE TO BE RESPECTED AS AN EQUAL IN THE WORKFORCE. I AM MORE THAN JUST AN ILLITERATE PERSON WHO NEEDS TO STAY HOME & NOT BE COUNTED. I CONTRIBUTE TO THE ECONOMY IN THIS COUNTRY & MY JOB.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1.

I am a single, two job woman. My income of 34K a year is just above the range for any assistance for my 3 children. Programs are unavailable for these teenagers. There is only assistance after they are in trouble. We need help before they begin to join the gangs, burglarize or use drug to make the money.

2.

I have worked in a male orientated segment of the retail business for 3 years. I must request for equal pay, equal opportunities for advancement.

3.

We need more schools with qualified teachers, classes with a workable amount of students in each classroom. And access to equipment that will get them ready for the workforce. E.g. computers, printer, etc.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Please - you must give priority to "Women's Issues" in the work place. Never let Affirmative Action be abolished, but strengthen its policies. It can not be too difficult to point out the bigotry which is the predominate fuel to dismantle the program. You cannot ignore us as a major contributing, tax paying segment of the American population. If you let affirmative action weaken - what will you have to say to us when we can no longer support ourselves?
2. Do you think the Dept. of Labor could come up with an education program for the males in power in the work place to sensitize them to women's issues? If we do not change the discriminating mind set - all the legislation in the world will not keep them from circumventing the rules; if they still believe we should not be there.
3. Child Care - Child Care - Child Care
4. Equality's protection for all - Regardless of Sexual Orientation.
Please don't sell us out for \$ votes from the religious right, you won't get them anyway - they will point to you betrayed as an example of weakness. You believed in us as decent human beings before - do not abandon your beliefs now.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. I want you to that my number one issue is Child Care.

I raised a child for 14 years with no child support and no help. I was a single parent struggling to make ends meet. Trying to raise a son and trying to get an education. The problem was that I could have gone on welfare and stayed home with my son and it would have been a lot easier. I didn't. I at times got fired from jobs because of my sons illness (asthma) because 20 years ago there

was no decent day care and then when he became 12 the day care was non-existent. We had day care for all ages

of children and care for sick children. We had work places

that promote this. There were times that I had to work 3 jobs to make sure that we were clothed and fed when I ~~later~~ went to try and get back child support I was told that they would not try to get my back child support unless I was on welfare.

Now I am a professional woman and luckily my son has turned out well. It is really hard to raise a family married. Let alone by yourself. It seems to be a catch

22 when you try to work and support your family and instead of going on government assistance that you get no help

3. and even penalized for trying to work.

It seems like when you are a professional

woman you have to work twice as hard and know

twice as much as your male counterpart and because

you have children you are not taken seriously on your

job. You can have the same job as a male counterpart

and still not make the same pay as a male counterpart

if have your management put women into similar jobs

and denied them the salary that a man is making because

she is not head of household when actually it is.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. My name is Angela Johnson. I am taking classes at the Community College. I hope to graduate next semester with my As. degree in General Studies. Thank you for the support to all women in a low income. Without this grant I couldn't do it. I'm speaking in behalf of many many minorities who benefit from this program. We are more than willing to work in this country with dignity.
2. One of the biggest need that all women in a low income face is to provide with child care for women, specially single mother who finds very difficult to finish their education because they can't afford to pay for a child care.
3. I want that you know that these grants that you provide for the low income people, means a lot to us. Without these grants we probably continue in poverty.

Please keep helping us with the Welfare system to continue to support the students in a low income.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1.

The School-To-Work Opportunities Act has been a tremendous initiative that has had a great impact on school reform. Making the connection between school and the workplace has brought ~~to~~ a new focus to the need to partner with business. The work-based learning opportunities have brought greater relevancy to our curriculum especially at the secondary level.

2. Change the Child Labor Laws to support more opportunities for service learning and career exploration opportunities such as job shadowing.

3. Don't funnel all the funds through block grants to the governor's office. There is a big difference between training and education. but and keep funds to support technical training & education at the secondary and post-secondary level. If not most of our federal \$ will go to welfare reform instead of education.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Opportunities through funding & a facilitator to promote youth apprenticeship programs. We presently statewide have 400 female high school students in an apprenticeship (automotive). We need to train students before the age of 28, the average age people enter apprenticeship programs. School-to-work programs ~~as the~~ are one of the primary answers.
2. Ways to educate counselors on the importance of promoting non-traditional careers for women. One or two day job shadows are not sufficient educations.
3. Update Child Labor Laws to allow students ^{involved in school to work} the opportunity experience the real world before the age of 18 yrs. Presently, students cannot volunteer in any commercial business. We are limited to allowing volunteerism in govt agencies, non-profits and hospitals.
4. Raise the minimum wage for people over the age of 18 yrs of age - The earning power is the lowest in 40 years. We are destroying our country.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1.

I'm a 27 year old woman. I attend Community College of Southern Nevada. I'm studying Auto Tech. I was on welfare. I am no longer. I was pretty much forced off of it. I was pretty much told either I give up my school or give up welfare. I chose school. Mostly because I never finished high school. I wasn't going to mess up a chance to go

2. to school. I know welfare reform is here and I know it's needed. But the women that are out there who really are trying need a little more time and finding before they are forced off. They need to be told of the opportunities that are available to them. I know most of the women don't want to be there. Each if \$4.25 is not enough to support anyone and if you are forced

3. to go to that there isn't much hope for our future. What I'm trying to say is the women who are raising the kids (which is our future) are fighting a losing battle sometimes. We need time to get things done, and money to do what needs to be done. I'm not very good with words or spelling but I hope you understand what I'm trying to say. Thank you for your time

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1.

Encourage parents, both male & female to take responsibility for being parents. Attend school with their child, help with homework and this should not occur as a conflict with work.

2.

Welfare reform should assist women get a better education/training, not set a "6 weeks - you must have a job" - regardless that there is no future growth for the family. If women are to support families we must assist them obtain the education & training they need to begin a career path.

3.

Education must be a priority. K-16 should be a continuum as long as universities have elitist entrance requirements built upon # of English & humanities classes parents will continue to fight educational reform such as school to work.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Revisit the Child Labor Laws to Allow
younger girls greater access to career
exploration. Evaluate hazardous occupations
stipulations under child labor. Update for
21st. century!
2. more pre Apprenticeship training opportunities
for women. Increased Funding to Bureau
of Apprenticeship & Training, Dept. of Labor
to foster non traditional training opportunities
training of foreman, superintendents, supervisors
on diversity and a "gender-free" work force
approach.
3. Don't Funnel all training and education
grants through block grants. A state/city
could exclude women and ethnic issues.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. ^{\$Increase} Continue to support ^{set aside} funding that will support sex equity in educational ^{fund} school to work projects. Without special set asides the attention to concerns of females (teen pregnancy & self sufficiency and encouragement to consider non traditional careers or to take math & science) gets over looked. It is buried in the term "all" students. No one comes to the table the same and special encouragement needs to take place to make sure special populations are accessed. The funds that need continued support are ~~sex equity~~ ^{sex equity} in Carl Perkins, ~~WEEA~~ ^{WEEA}, Women's Bureau, and adding ~~their~~ ^{their} requirement to new funding projects; School to Work, Goals 2000. More stress should be placed on Title IV funded projects to offer technical assistance to areas beyond L.A. in our region. State funded Title IV projects would help support this effort.

- 2) Special programs for pregnant & parenting teens to gain vocational skills
3. Support projects ^{& funding} that will assist women to become employed & succeed in that employment (means include support training ~~on~~ ^{on} sexual harassment, mentoring, workplace skills etc). Help women become better providers for their families, ~~and~~ ^{and} overcome ~~internal~~ ^{internal} and external barriers, and become better parents in preparing their children for the future. We have to stop the poverty cycle.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. When single mothers can earn decent pay it creates a better environment at home, produces happier, healthy children and in return our communities improve. Minimum wage is not sufficient to support families.

2. Education - More needs to be invested in education for training but training programs work best only when proper screening of the applicants are in place. The programs should not be limited to those who qualify from an income sliding scale.

3. Medical - When families can afford health care and children are being properly cared for, parents both fathers and mothers whether single or not can miss less time on the job thus more pay into the home.

REPORT FROM AT THE TABLE

TO: Betsy Meyers
FROM: Alma Candelaria
RE: "At The Table" in El Monte, CA
April 8, 1996
DATE: April 22, 1996

Brief Description of Participants: There were 15 women in attendance at the meeting. It was a good mix of women. Most of them had a civic connection to the City of El Monte, CA. The Mayor was the local host. All were working women. Many were older and extremely involved in organizations throughout the city. A couple were elected officials. A few were appointed commissioners. The majority were mothers.

Main Topics Discussed: Education, crime, domestic violence, family values, children, welfare reform, health care.

Most of the women were reminiscent of yonder years when one income was enough to sustain a family, when people felt safe in their neighborhoods, when television did not have to be monitored. They were positive, in terms of President Clinton, and what he stands for on the issues of the economy, making health care accessible and affordable, knowing what it is to be in a family where violence has permeated.

Most Important Conclusions: Women need to be at the table when decisions are being made. They need to remain involved at their level. Responsibility begins at home. Throwing money at problems does not always work; at the same time, money for targeted programs remain necessary, especially when it comes to children. Work without child care will not work. Dependency is cyclical. Education and training and child care are issues that need to be addressed head on in a more holistic manner.

Other: These women were truly thankful for the forum to be able to get back to the White House their thoughts on issues of the day. I was a bit worried about not being able to handle questions outside of Labor, they were amazed at the accomplishments of the Clinton Administration and all that he has done for women across the board. It was one of my proudest moments in the Clinton Administration. The troops are supportive. We need to touch them more often. Sometimes the "inside the beltway" mentality is blinding. I think I got more out of the discussion than they did.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Education - Grants Child Care
'Business assistance' -
2. Authority Respect for
Stronger punishment on crime
3. Legislation

April 8, 1996

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. The domestic violence issue can be initiated by establishing a direct line of communication with children starting at the age of 9 years through 13, the most influential time period of an adolescent. This is a responsibility that should be borne by every parent and not be dependent solely on the state or government.

Today's electronic advancement in the media and television is opening minds, curiosity and peer pressure in the young age bracket. This delicate issue could be addressed by starting at a mandatory home economics course at the intermediate school level, progressing into more comprehensive informative education at the high school level. Most often the lack of parent child communication leaves the parent lacking in knowledge in how to handle a delicate situation. A board panel in a school district could host a mandatory open conference forum, having one or both of the parents including their student attend this conference imputing the student's dialogue and vice versa dialogue from the parents. The panel could range from a psychologist and a doctor to host a question and answer from both sides. The end result could very well assist those areas that would appear prevalent not only with one family but with other families. The board forum could be extended to include explaining the values of health care, drugs, teenage unwed pregnancies, financial and parent responsibilities. A narrative video could also be made part of the conference program showing the effects of promiscuous relationships and the effects in providing the necessities of life and the family scenario. Brochures listing the various types of assistance offices addressing comprehensive subjects could be made available for those attending.

2. The lack of employment is a an ongoing pressure that affects most families in all walks of life and most prevalent in the minority sector. In communities that unemployment is at its highest, projects underwritten by government funding could be initiated in such cities. First qualified employment could be obtained from the unemployed labor pool to fill the various type of job positions. Those lacking training and education could be encouraged in attending trade type courses starting at an apprentice level reaching a full qualified level. Those women lacking a formal education could be afforded a basic office procedure skill indoctrination.

April 8, 1996

Page 2 of 2

Rather than be dependant on a monthly welfare check an incentive benefit increase could be considered for those enrolled and successfully taking the educational courses and passing.

NAME: Mrs. Martha A. Ramirez

Appointee Host of At the Table: Ms. Alma R. Candelaria
Legislative Officer

Local Contact Host: Patricia A Wallach
Mayor

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1.

Don't make welfare so easy to receive.
So many people stay on welfare for so long and
are never pushed to look for work or other means
of income.

2.

Laws have to be hard on domestic violence. We have
to protect the victims & the families.

3.

Take sex education farther. Not just teach them
about their bodies, but the education on caring
for children.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Education

The focus on education needs to be reinforced. We need to educate parents, children. Moral Values in all areas needs to taught and stressed. Bring good ethics back to America.

2. Please step up the fight on drugs. Not enough is done to drug offenders. Need more patrols.

3. Health Care

HMO's - Manage care - Our young people do not have insurance.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. How can we create an economy where a "family" can exist on
"1" income.
2. Make every effort to eliminate welfare because it "robs" the individuals
of self respect/motivation -
The whole idea of relying on government to "spoon feed" from the cradle
to the grave is wrong.
3. Our judicial system seems to be turned upside down. There are
many areas which I feel totally contrary to what is the "accepted".

Appointee Host of At the Table: Mayor Patricia Wallach

Local Contact Host: _____

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. I first of all want to express my appreciation to be a part of the Committee - there are so many items that need to be covered but I believe my number 1 item would be domestic violence - it seems to have gotten out of hand - especially when I read in the papers the other day where a young lady was killed by her husband. The husband was released from jail after 5 days of his 120 day sentence and his sentence was due to beating his wife. He threatened his wife that he would kill her when he got out because she turned him in for beating her. What & why do things like this happen? Needs to be stopped.
2. Peer Pressure is one of the main problems among the young students - Need programs

NAME:

Marcia Oden

Appointee Host of At the Table:

Mary W. Wallach

Local Contact Host:

City of El Monte

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Promote a better economy in which not ALL women would need to work, but could raise their children.

2. Promote a male attitude of acceptance of the fact that women ARE people. An acceptance of equality would reduce domestic violence and probably improve the MALE/female pay scale.

3.

Women's Issues From A - Z

- A - Additives** placed in our food. Incidences of Cancer, particularly leukemia in our children, are higher than ever recorded. Food Co-ops are springing up across the nation run by concerned mothers.
- B - Breast Cancer** and the controversy between radical versus lumpectomy therapies have yet to be fully adopted nor understood by physicians nationwide.
- C - Child care** in the workplace would lower absentee rates, provides incentive, and increase the national work force.
- D - Deficit** spending both nationally and statewide. Will our government be able to provide for the burgeoning populace?
- E - Education** for ourselves and our children. The cost for higher education is often prohibitive to the woman who lives independently, or needs to improve her work skills when she is on a fixed income.
- F - Financial** stability. Women make far less in the workplace. Equal pay for equal work is not really a reality.
- G - Growing** population rates decrease the quality of life for those not only less fortunate than ourselves, but for all. A concentrated effort educating the male in birth control needs to come to the forefront.
- H - Houses** that is affordable, practical, and environmentally stable, i.e., warm in winter and cool in summer.
- I - Isolationism** that is growing between cultures and age groups.
- J - Jump-on-the-bandwagon** politics that results in poor legislative decisions.

Passage of the **Line Item Veto** was necessary. Often in American Indian cultures issues would not be decided until how it affected our grandchildren's grandchildren's grandchildren were discussed.

K - Killing of our children through drugs, alcohol, and gangs.

L - Languishing moral and ethical values displayed by celebrity "role models" for our children.

M - Medical care for children whose mother is their sole provider.

N - National goal setting. Teens for a long time have come to believe there will be nothing left of the world when they reach adulthood. Acting out has become a part of life. As we set goals for ourselves, what of the goals for our nation? A mother's tears cannot bring back a life.

O - Obliteration of the idea that one must take personal responsibility for their lives. Women often feel they must be "taken care of" rather than learn and become enabled to be self sufficient.

P - Public education particularly in the state of California is in an alarming situation. Once considered the best in the nation, it has dropped to 49th place. 52% of college freshman need remedial courses in English. 49% need remedial courses in math.

Q - Qualities of life issues concern all of us. When our earning abilities along with the prospect of obtaining higher education wane the quality of our lives and those of our children suffer.

R - Rationalizations on the subject of birth control. A woman's body is her own. Using her own best judgement along with information provided by all sides of this issue will enable her to reach a decision. Her own decision, not one based on coercion by and one side.

S - Separatism in society (see item I) particularly if one is a single unwed mother.

T - Transportation, particularly public transportation has become a safety issue.

U - Understanding the language of "political correctness." Getting to the bottom line without egos getting in the way, could solve problems in half the time. Our language should not be neutered for the sake of "correctness" when to be correct it needs changing from week to week.

V - Validity in the work force, community, and within the family is an issue. Often women play second fiddle to boys and men when it comes to the realm of viable achievements.

W - Welfare reform is necessary. There is a self-perpetuating cycle of a "pay raise" for every child conceived resulting in a lack of initiative and self-worth. Perhaps a cap on the number of children, allowances for obtaining education, and the amount of time one may receive benefits should be considered.

X - Xenophobia in communities results in isolationism. A campaign to unify us as "Americans" must be considered. Alone we can accomplish little. United we can accomplish miracles.

Y - Youth may be our futures but our experience can meld the recklessness of their temperament. After the age of forty most women are disregarded. Their abilities to obtain employment, education, and an understanding ear are limited if nonexistent in some areas of the country.

Z - Zeitgeistic tendencies have been self-perpetuating since the 70's. What started as the "me" generation has resulted in the fragmentation of our society as a whole. Money is the only proof of worth. We worry, those of us who are mothers, that values that were once considered noble and right can never be recovered.

WHAT I WANT THE PRESIDENT TO KNOW

(Please return to the Presidential Appointee Host of the At the Table.)

Dear President Clinton:

1. Thank you for sending your representative Alma Candelaria to listen to women in our community who are interested not only on the status of women but also to the many concerns in the community.

My priority is the children of victims of domestic violence who grow up in homes where they learn that violence is a way of life.

2.

PARTICIPANTS: see attached

TOPICS DISCUSSED: 1. Women still fighting for equality & positions of respect just as they were 30 yrs. ago. 2. Men continue to give "fluffy" expressions to women & they only recognize the "fluff". Media is the major contributor to the problem...they portray only the unique aspects of women in govt., politics, business, etc....not the substance. 3. Must be catastrophic benefits for women..i.e. dialysis, transplants, etc. 4. Ridiculous that insurance won't pay for contraceptives but will pay maternity charges. 5. U.S. needs uniform health coverage so people do not go without proper treatment and medications. 6. Congress should change its own health package before diminishing public's coverage. 7. Limits & regulations need to be imposed on doctors, treatments, etc. Fees are way out of line. Someone needs to have the courage to go after them and the hospitals. 8. Eliminate the bonuses & incentives to doctors, hospitals, etc. to not provide treatment, medications, etc. 9. No one should work full-time for minimum wage and not have health coverage. 10. No longer any social or personal responsibility in U.S. The idea has become twisted & obsolete. 11. People should not have to quit their jobs to qualify for health benefits. 12. Women are the primary care givers. How are they suppose to put their children through school & take care of aging parents in today's economy. 13. Sick of what's being said about Mrs. Clinton & no one appears to be fighting back in her behalf.. 14. Too much lack of respect for the office or people these days...country is going backward. 15. Minimum wage must be raised to livable wage....& terminology must be changed to liveable wage. 16. Corporate Welfare. 17. NAFTA & GATT takes more jobs from women than men.

MOST IMPORTANT CONCLUSION:

Insuring adequate, universal health care, including catastrophic coverage, is a priority among women.

MISCELLANEOUS: Messages should be more focused & much more clear.....appears to be confusion regarding some of our previous initiatives and legislation.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. As a 30-year-old "Working Mother," the following are the three topics I feel strike home with most middle-class Working Mothers.

1. The lack of quality/affordable Child Care.

2. Pay inequities with Male Counterparts

3. Flextime at work.

I applaud your efforts on behalf of the women of this Country. Whether they admit it or not, you are the greatest advocate of women's rights we have seen in the White House... ever.

Pamela Renard

My husband is the mayor of our city and
we will work hard to help with your
Re-election Campaign.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. I really admire Hilary for everything she stands for and she withstands a lot of criticism. I am so proud of her and admire her as a role model. Please express my support for her and what she has done for child health issues. I was very disappointed that all of her efforts with health care reform were unappreciated. I believe the health security and principles will prevail eventually when it is politically feasible.

2. Health for all by the year 2000 will not be a reality unless we pass comprehensive health care reform with preventive health / public health integrated into health reform. Health care for women and children comes last when it comes to policy initiatives. Public health is the key to changing health care demands. We must establish a climate for prevention on all levels.

3. I am incensed that this meeting was held in an environment that allowed smoking. I am very uncomfortable and ill from sitting in a polluted room for nearly two hours. Smoking is the single most preventable cause of death. We need to promote clean indoor air through OSHA standards + state laws. I also am disappointed that minority women were not represented in this group. If you want input choose a more broad-based, bipartisan group. This group was heavily labor-focused. (e.g. education, health, media, lawmakers, unemployed, faith communities)

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1.

CORPORATE Re-engineering & DOWNSIZING by companies has been & had a huge impact on women & families wages. WHEN MY JOB LEFT MY STATE I TOOK A DECREASE IN WAGES. It has taken 3 years to make back what was lost. We make a top wage of \$11.05 & nearly 80% of our workers STILL HAVE TO WORK A SECOND JOB TO MAKE ENDS meet. My present job hold is BECAUSE of LABOR WORKING with KY's NEW GOVERNOR PAUL PATTON. & HAVING INCENTIVES to Company to locate here. I live in
2. fear of what may happen to my job after the COMPANY (GTE) meets their obligation to the STATE. You need to applaud PAUL PATTON for working with UNION LABOR.

2. LARGE CORPORATIONS are abusing FMLA when they AUTOMATICALLY PLACE INJURED WORKERS WHO WERE INJURED ON JOB ON FMLA WITHOUT JUSTIFICATION & FORCING them to USE IT UP BECAUSE THEY WERE INJURED ON JOB

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. Please continue the efforts to increase the minimum or "livable" wage rate. This is needed badly. With elevated self-esteem in the employee, production would immediately go up. All would benefit from this effort.
2. Health Care is still a very important issue to all Americans. In negotiating contracts, we are continually faced with threats of raising deductibles, decreasing benefits, more employee self-contributions.
3. Seems we are continually regressing as the heart of America, the "Midwest". How can we continue to do this. We must progress. We must be able to turn back the tide of earning a "decent" living for our people. Everyone will benefit from this effort.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. I would like to tell you that I support your efforts to try and get a healthy care program for everyone. As a female in the working force I see the need for this everyday and see the troubles of health care.
More preventative coverages - Mammograms, etc.
Controlling hospital costs and physician costs.
2. I ~~hope~~ want to see more women in leadership roles - and stop the suppression. More Cabinet and Council positions.
The increase in wages and reduction of Medicaid benefits to make some changes for welfare reform.
3. Another important factor in my life is with Veterans. My husband is a Vietnam Vet. And the Veterans hospitals in our state are really in need of help. There should be more inspections of these facilities as some are pathetic. We have been trying for over two years to get his VA benefits - he is totally disabled and can get no action. We need improvement in our VA Administration.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

There are a number of things I would like to share with you. First of all I am sincerely tired of the attacks on Mrs Clinton. When they go unanswered it sends a message that it is safe to treat all women the same way. Mrs Clinton is a smart strong woman who has done more for this country than any first lady since Eleanor Roosevelt. It is time for all of us to stand up for her and say so.

I would also like to express my strong support for the passage of a national health care plan. Health care is a vital issue for women especially because we have the primary care for the nation's children. Many of us also recognize the economic impact of potential summing this issue.

Another issue of importance to working women is the minimum wage. It needs to be raised. We cannot take care of our children/families on the current minimum wage. Related to this is the incredible need for good, quality child care.

Of course, we all know that women do not have the same opportunities for jobs, education, mentoring, role modeling etc as men. Anything that your administration can continue to do in these areas will help us all. Keep it up!

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. We need some national health care
to help working women & families
2. Raising the minimum wage to a
livable amount. What is the honor
of working 2013 jobs to survive
- More attention to domestic violence
problem. Homeless need more programs.
3. Seniors programs need to continue
Family medical leave act is a positive.
OSHA needs enforced.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. Long Term ~~and~~ Health Care.

What can be done to prevent nursing homes from getting the elderly's life savings? After their hard earned savings are gone, the children have to pay their parents' health care. The insurance premiums for Long Term Care are astronomical.

2. Minimum wage needs to be increased.

A 40 hour work week should provide enough income to provide a decent living.

3. After women are elected, promoted, appointed, etc their leadership should be accepted and not just so it will look good or seem that they have a woman in the leadership in their organization -

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. The minimum wage is far too low and impacts women and female-headed households disproportionately. Raising the MW will do a lot to improve the lot of families. Anyone who works 40 hrs or more a week in the USA SHOULD be able to provide for her family. That is impossible for too many women who work for minimum wage.
2. Have courage with health care. Say NO MORE to abuse & exploitation of people & the economy by health care insurers and providers.
3. Make "being American" mean something again. Companies that send US jobs abroad shouldn't profit. It should COST to hurt Americans. We wouldn't let another nation do it to us. We won't let US corporations do it to us.

Atlanta, GA 30323

Dear Pat,

I enjoyed meeting you at the Women's Initiative roundtable discussion held in Frankfort, Kentucky, on March 5, 1996. After thinking about the evening, I realized that there were many important women's issues that I did not have an opportunity to share. Because the group was comprised primarily of women involved in labor, I do not believe a broad range of women's concerns were fully represented. I would strongly suggest that future groups be chosen to represent all sectors (e.g., education, health, business, media, faith communities, government, etc.), age/income levels. I also was concerned that only Caucasian women were represented.

Through my research, I work with low-income women with children enrolled in Head Start and public schools. I also teach undergraduate and graduate nursing students, most of whom are women and most of whom were raised in Kentucky. The following are four selected concerns for women in Kentucky:

- * **Cigarette smoking among young girls and women.** Almost 27% of Kentucky women smoke cigarettes; almost 32% of teen girls, grades 9-12, smoke. Tobacco company advertising continues to glamorize cigarette use among women, implying the benefits of weight control. Although Kentucky's youth access laws have recently been strengthened, our policies send mixed messages to women and youth. Few places enforce indoor smoking restrictions. Until a recent 2-week pro-health radio media campaign (sponsored by Kentucky ACTION), Kentucky citizens had had very little exposure to tobacco control/pro-health messages.
- * **Depressive symptoms and depression.** Low-income women (ages 25-44) who are living alone with children are most likely to exhibit depressive symptoms. Women with depressive symptoms are less likely to create a supportive home environment for their children and they have more negative attitudes toward their children, as compared to nondepressed women. Young children of women with depressive symptoms also tend to be more aggressive, anxious, and withdrawn, and have lower social competence skills as compared to children of nondepressed women.

- * **Need for affordable, *quality* child care.** Approximately half of all working women have children under six years of age. Considering that 2/3 of all poor adults are women, there are many women who are working hard to make ends meet, as well as caring for their children. Since 1980, the percent of Kentucky's children living in single parent families has increased by almost 32%.
- * **High rates of breast and cervical cancer.** Women living in southeastern Kentucky are especially susceptible to developing breast and cervical cancer. State-of-the-art screening and detection services are not universally accessible to women in rural areas. There also are cultural barriers to seeking preventive health care services in rural Kentucky.

I would appreciate your sharing these concerns with President Clinton. I would like an opportunity to meet you again and discuss Kentucky ACTION's efforts to address tobacco control in Kentucky. I also am very involved in working with low-income families and young children to reduce risk of problem behaviors.

Thank you for giving me the opportunity to express my views on women's concerns in Kentucky.

Sincerely,

Ellen J. Hahn, DNS, RN

THE REPORT FROM MY AT THE TABLE:

WHERE: 1761 Crestwood Drive, N. W.
Washington, D. C. 20011-5333

WHEN: Saturday, April 13, 1996

HOST: Gale Barron Black
Office of Federal Contract Compliance Programs
Employment Standards Administration
U.S. Department of Labor
200 Constitution Avenue, N. W., Suite C-3325
Washington, D. C. 20210
Fax: (202) 219-6195
E-Mail: butter1@IDSONLINE.COM

PARTICIPANTS: (See attached sheet)

TOPICS

- DISCUSSED:
1. Education is critical for all society. Students of color are not being afforded the same educational opportunities as other students. Education and training should not be cut.
 2. Health care. Universal coverage is essential.
 3. Crime and drugs. Handguns and automatic weapons must be controlled. It is also time to review the rules that pertain to juvenile offenders. Some are hardened criminals.

MOST IMPORTANT CONCLUSION:

A quality education should be available and accessible to everyone.

A Longer Version of Topics Discussed on April 13, 1996 at the At the Table Hosted by Gale Barron Black of the Department of Labor:

Education - More needs to be done to allow children the opportunity to learn. One participant observed that there are all of these taskforces, but nothing seems to be happening for the children. Why is there money to pay for football and baseball stadiums, but not for the education of the children? It's pitting people against each other. We need to reallocate the resources. Teachers should be paid more and be more revered. In other countries, education is more important.

Positive attitudes and values are key. We need to "get back to basic values". The value of education is not just to get a job, but to learn - including the values. Using tests to exclude and cast aside students is wrong. We can't afford to waste any human capital. Segregation is wrong.

Vouchers are not the answer.

Equity in education and in the work place is also a very important issue.

Vocational education is also important, including adult education. The Carlos Rosario Center should not be closed. It is scheduled to close on June 1. It is one of only 3 schools that provide GED. All 3 are slated to be closed. We lose about 30% of our kids at the high school level in D.C. If these centers close, there won't be a place to get an adult education.

Health Care - The discussion began with a discussion of how the costs of medical care was too expensive, even for a person of Christopher Reeves' means. The market forces are changing everything. Educating the people who manage health care is important, but the doctors appear to be against it. It is important.

Crime. Every 90 minutes a child dies from gunshots or a violent crime, one participant observed. We need to come up with ways to get the guns out of the hands of criminals. We were also concerned about the types of weapons. This group supports gun registration. Get rid of all of the assault weapons and special ammunition. Hand guns and assault weapons are not used for hunting, only to kill humans.

It was also suggested that it is time to reform the lobbies, like the National Rifle Association.

Some police say the kids are out before the police can even finish the paperwork. We need to reexamine the system and how we consider who an adult is. Some of the kids committing violent crimes are hardened criminals at age 16. They should be treated as adult

offenders. It was recommended that the rules regarding how juveniles are tried should be revisited. Many of the youngsters committing the most violent crimes continue to be treated as juveniles. It is time to revisit the criminal justice system.

Police brutality against African-Americans was another concern raised.

Drugs - It is important to control the drugs. After a great deal of discussion, no decision was reached on whether some drugs should be decriminalized. However, it was a lively discussion!

Another side effect of drugs: there will be social issues caused by the influx of drug addicted babies coming into the school system. One of our group is a teacher, who said that there will be serious learning disabilities for these children now beginning to come into the D.C. public schools. She said that there needs to be health care and support for these children.

Environment - The President and Vice President should continue their efforts to protect the environment.

Tort Reform and Loans for Small Businesses - One of our participants is a small business owner, who fears the debilitating threat of litigation. She operates a small leather goods shop at the National Shops and related the difficulties that small business owners face on a day-to-day basis.

Equal Employment Opportunity - It is important for the President to continue to take a leadership role to forge the common ground. There is a continuing need for affirmative action, done the right way. This does not compromise qualifications, but recognizes that we are far from a gender-neutral or color blind society.

MOST IMPORTANT CONCLUSION

A quality education should be accessible to everyone, but we seem to be moving away from that. The fear is that the country is rapidly dividing into the haves and have-nots. There is a concern that the middle class is especially vulnerable and losing out to the many problems that the wealthy can avoid. The public education systems are no longer able to handle the social and economic problems. The fear is that problems will get worse because the government's safety net seems to be disappearing.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. Education - This must be a top priority. Schools are critical to all of society. Key goals must be redefined and widely articulated. They should be basic skills for life: reading, writing and basic mathematics and vocational skills. Family and community partnerships must be encouraged, and inequities resolved by bringing up standards across the board, not lowering them to the lowest common denominator.
2. Health Care - Universal coverage, including aliens regardless of their status, is essential. We need to educate everyone to understand that tough choices will need to be made. We can't devote high technology regardless of the possibility of improvement. Nevertheless, good quality medical care must be available to all, and inner city hospitals can't be left with this burden to shoulder alone.
3. Crime - Handguns and automatic weapons must be controlled. Tell your supporters how to fight the NRA. With help! If all else fails, levy a heavy tax on handguns to fund education and health care.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. We need adult and vocational education. Too many Americans are not able to mainstream because they have not had enough continual education to ~~be~~ remain competitive.
2. We need more education about health services and the alternatives available. (We also need more alternatives)
3. We need to be a part of the world. Population, environmental problems and health problems are international. We must remain active with the UN and with exchange of information + technology.

WHAT I WANT THE PRESIDENT TO KNOW

Dear President Clinton:

1. Take on the DRA directly. They are flat out wrong.
Support the environmentalists 100%.
Focus on education. Education is the key, but today, it is really given only
The health system must be changed nationwide. to the elite. Accept
that as fact & then
work to change it.
2. Re-open Pennsylvania Ave. Burying it closed makes you appear to
be a physical coward and the traffic jams are intolerable.
3. Thirty years from now the 21st century "progressives" will
be "re-inventing" government to increase government regulations
and controls. NPR is swinging much too far in the
decontrol and on the motto of efficiency. The Nation will pay
seriously for this in the future!
