August 16, 1995

Honored Friend,

It is my great pleasure to invite you to an event of great importance. On Sunday evening, September 10, at 7 p.m., Reverend and Mrs. Sun Myung Moon will be welcomed to Washington, D.C. to share an historic message "The True Family and I." The venue is the Omni Shoreham Hotel, 2500 Calvert Street, in the Regency Ballroom.

Reverend and Mrs. Moon are perhaps best known in Washington for founding such projects as *The Washington Times* and The Kirov Academy of Ballet, but more importantly, they have been working tirelessly for world peace through the establishment of ideal families. On August 25, this work is being taken to a new level as Reverend and Mrs. Moon extend God's Blessing of Marriage to 360,000 couples around the world. They are themselves parents of 13 children, the grandparents of 26 grandchildren, and the spiritual parents to millions. They are surely the pre-eminent workers in the world for the task of creating families whose center is God.

As a person who is sincerely working for the betterment of society, you are someone who I believe will value this opportunity. We will be happy to reserve places for you and your guests, if you will notify us by calling (202) 462-8823.

I hope you will join us in welcoming Reverend and Mrs. Moon to Washington, D.C.

May God bless you and your family,

Michael Runyon
Chairman

A Message of Hope

Washingtonians will have a rare opportunity to see and hear the acclaimed religious leader Rev. Sun Myung Moon through a special invitation-only address at the Omni Shoreham hotel.

Reverend Moon believes that God-centered families are the building blocks of a world of peace, stability and love. It is this idea that has inspired Rev. and Mrs. Moon to bring together 360,000 couples for Holy Matrimony on August 25. This Holy Wedding has captured the hearts of people throughout the world. Rev. Moon would like to share with you the vision behind this historical ceremony of true love.

Following his calling from God through the horrors of a communist North Korean death camp, Reverend Moon developed his ministry over forty-five years into a worldwide faith. Despite misunderstanding and opposition, he has continued to preach his message of hope and reconciliation, establishing such institutions as the Global Congress of World Religions and the Kirov Academy of Ballet. In Washington, Reverend Moon is well known as the founder of *The Washington Times*. Today he is challenging Americans to revive the moral foundations of their country and lead the world to peace.

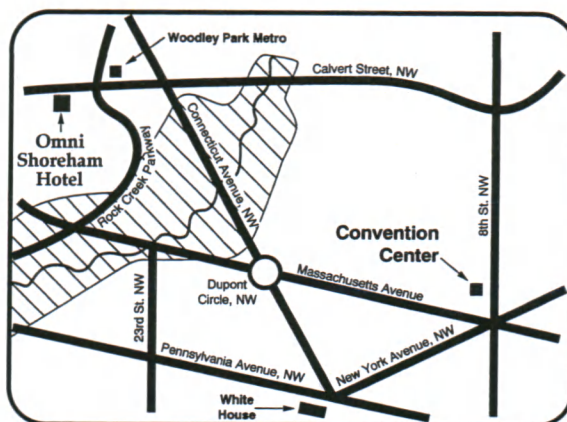

Reverend Moon's message, entitled "The True Family and I" has been given to heads of state and citizens throughout the world. Recently, Reverend Moon finished a very successful tour in South America. In his message, Reverend Moon explains that God is giving a new empowerment to the Family. In this age, God's dispensation to revive humanity will take place on the foundation of families that have devoted themselves to God.

Reverend Moon last spoke in Washington in 1993. The event was an inspiration to the full house that heard his message. Unfortunately, due to limited space, we could not accommodate all requests for seating at that event. In view of this, we are happy to welcome the return of Rev. and Mrs. Moon and the opportunity to, once again, be inspired by his exciting message of hope.

CENTER FOR REENGINEERING LEADERSHIP

Dr. Michael Hammer

August 15, 1995

95 AUG 19 P 1:41

Mr. Todd Stearn
Deputy Asst To The President/Deputy
Staff Secy
Policy & Political Affairs
1600 Pennsylvania Avenue Northwest
Washington, DC 20500

Dear Mr. Stearn:

On behalf of Hammer and Company and *Government Executive* Magazine we would like to bring to your attention our upcoming conference, *REENGINEERING: Hammer Federal Government Forum + Clinic 95* on October 18-19 at the J.W. Marriott Hotel in Washington, D.C. This conference, intended for teams of senior federal government executives, will be a landmark event in the history of federal government reengineering. We are confident you will leave this conference ready to use reengineering to transform your processes and prospects in today's highly dynamic environment.

The Clinic on Day 1 is an intensive program of tutorials presented by Michael Hammer of Hammer and Company and Tim Clark, editor and publisher of *Government Executive* Magazine. These sessions will give your team a common base of understanding of reengineering and a conversancy with the success factors for applying it in a federal government setting. We will specifically clarify where the federal government can draw lessons from other industries and where it must chart its own course. The presentations will be lively and interactive. Widely held assumptions about the federal government's uniqueness will be rigorously examined.

The Forum program on Day 2 of the conference represents an opportunity for your team to learn directly from senior administrators representing five leading government organizations: Social Security Administration, Naval Sea Systems Command - U.S. Naval Shipyards, VA Medical Center (Baltimore), Defense Logistics Agency, and Merced County (California) Human Services Agency. Drawing on their experiences, the speakers will detail their successful -- and not so successful -- efforts. The informal, participatory nature of the program will allow you to interact with the speakers and our faculty.

The registration fee for the conference is \$1600, with discounts offered for team registration. The fee includes all materials, luncheons, and a cocktail reception. Hotel accommodations are not included. A block of rooms has been reserved at the J.W. Marriott Hotel in Washington, D.C. for conference attendees at a special group rate. The enclosed brochure provides additional details.

We hope you are able to attend this special event. We are confident it will have a major impact on your organization's success.

Sincerely,

Michael Hammer
Hammer and Company

**Extending the Boundaries
of Understanding**

"The humanities are an effort to explore the nature of man's culture and to develop understanding of the sources and goals of human activity. Our recommendations recognize this effort as a central part of the American national purpose, and provide modest support to those whose work offers the promise of extending the boundaries of understanding."
