Dear Fernando:

I am replying to your letter of August 18, 1975, regarding the situation on Mr. Rodriguez at Pearsall, Texas.

We of the Mexican American Engineering Society would like to commend you on your prompt action on this matter.

If any given point is to be reinforced by this matter, it is that the price of freedom is still eternal vigilance.

It further emphasizes the statement contained in your letter dated August 6, 1975, that we must all turn our attention to the vigorous enforcement of the Voting Act.

You can count on us for support.

Sinceramente,

M. Castro

Dear Mr. De Baca:

Thank you for your letter of August 6, 1975, expressing appreciation to the Mexican-American Engineering Society (MAES) for our activities on the matter of the Congressional passage of the Voting Rights Act of 1975.

MAES will continue to support you, as we have in the past, on matters that affect our Spanish-speaking minority.

We agree with you that the attention of all of us must now be turned to the vigorous enforcement of the Voting Rights Act.

Please overlook my late reply; we have been very active on a summer engineering program for our Mexican-American young men and young women at the University of California at Irvine. We had a tremendous success.

Also, for your information, I am enclosing a brochure on our society and a brochure describing the Los Angeles Council of Engineers and Scientists to which we belong.

Sinceramente,

M. Castro
