Dear Roy:

This letter brings with it my heartiest congratulations and warmest greetings to you and all of those who have worked so successfully to make Walt Disney World an enchanting reality. Your kingdom of fantasy will entertain and delight millions of all ages, from all lands, and in this spirit of goodwill, I take special pleasure in presenting you with the flag of the United States which has flown over the White House. As it is raised in Town Square, may it represent our faith in the American dream which is so much in evidence at Walt Disney World.

May this flag further serve as a symbol of hope to your visitors from around the world and give cause for mutual understanding just as does the World Symphony Orchestra. For this distinguished ensemble of musicians, co-sponsored by the Disney Organization, has joined its talents, energy and resources in a splendid tribute to harmony among nations and men.

With best personal regards,

FROM: RONALD H. WALKER

RE: WALT DISNEY WORLD VISIT

I talked with Bob Jani today and he has no violent objections to a visit on the 22nd. Because of the Grand Opening, this would be an extremely busy and confusing time for them. Bob feels much more personal attention and planning could be given to a visit on the 18th.

One possible "advantage" would be that Mrs. Truyens (Walt Disney's widow) would be present on the 22nd.

Question

On what date should the President visit Walt Disney World?

Dear Holly:

I regret that this note is being sent so late, but I didn't want one more day to pass without letting you know how much we appreciate everything you and your staff did for Nancy, the girls, and me when we were at Walt Disney World.

There is no way the trip could have been more perfect, thanks to you and the others who helped us so willingly. I have no doubt that Walt Disney World will have the continuing reputation of having the finest guest relations anywhere, with such competent people at the helm.

Thank you again for everything. Nancy and the girls send their best.

DOLLAR SAVINGS BANK

OF NEW YORK

Main Office

2530 GRAND CONCOURSE
BRONX, NEW YORK 10458

(212) 584-6000

HENRY G. WALTEMADE
PRESIDENT

November 26, 1971

The Honorable Richard M. Nixon
President of the United States
The White House
Washington, D. C. 20500

Mr. President:

I am writing to you in my capacity as the chief executive officer of this bank. In just over eighty years the bank has grown from infancy to become one of the nation's largest mutual savings banks with assets in excess of \$1,600,000,000. The history of the bank confirms that the nation has achieved real growth and prospered most in periods of price stability. I also write as a loyal American who is concerned by the course of inflation in our Country today. The occasion which prompts me to write is the decision of the Pay Board to accept the settlement recently won by the coalminers.

I believe that the Cost of Living Council and the Wage and Price Boards of Phase Two were established with the understanding that you could review actions which appeared excessive and take steps to correct wage and price actions which jeopardize the Economic Stabilization Program.

Public confidence in the Economic Stabilization Program and in the ability of our Government to bring inflation under control, has been badly shaken by the decision of the Pay Board to allow the settlement negotiated by the coalminers. This settlement is reported to mean an increase of between 15% and 17% in labor costs during the first year of the new contract. The employees of this Bank, our depositors, and the public at large, cannot understand or accept this action without a clearly reasoned explanation. I respectfully urge you to exercise your power immediately and make a review of the coalminers' settlement. If you conclude that the settlement was merited by the circumstances, the explanation should be published. If, on the other hand, you find that it is in fact excessive, remedial action should be taken. In either event, your fellow

The Honorable Richard M. Nixon

November 26, 1971

Americans, and I include the thousands of union members who maintain savings accounts with our Bank, would welcome your action and be reassured by it. The public's confidence in the Economic Stabilization Program must be restored.

I can report that, until this action by the Pay Board, the Phase Two guidelines were gaining acceptance and support within the Bank. We had already prepared a schedule of increases within the guidelines which were consistent with our past practices and the reaction of our employees to these increases was excellent. Now that the coalminers' settlement has been allowed to stand without challenge or explanation, the positive attitude of our staff will undoubtedly change. I believe that many may feel cheated and forgotten. The personal sacrifice which they and so many other loyal Americans would gladly make to stop inflation now seems a wasted effort.

Prompt action now could put us back on the right road and gain for your efforts, Mr. President, the support and thanks of the many millions of Americans who are so anxious to halt inflation in our country.

Respectfully yours,

Henry G. Waltemade, President
Dollar Savings Bank of New York

Sir:

I am a Non-Commissioned-Officer in the United States Marine Corps on active duty on Okinawa.

I am due to rotate to the states approximately the first of April 1972. I intend to re-enlist in the Marine Corps and I also wish to marry an Okinawan National.

Sir, I have requested leave to initiate the paper work through the proper channels for getting married. My leave has been turned down on two different occasions now. The first time was due to a submarine operation that is about to take place. I was informed that I would be allowed to take my leave after the operation which was acceptable to me. Since then I had decided to re-enlist and get married. The day after I informed my Commanding Officer of my intentions to re-enlist and marry I was informed that my leave was again canceled and that I was being sent on a float to the Philippines for a period of six weeks. This type of harrassment has been going on since I returned to the Battalion from TAD (Temporary Additional Duty) Status. I have met harrassment and discouragement all along the way as soon as I informed my Commanding Officer that I had intentions to get married to a foreign national. Sir, I am tired of this form of harrassment and prejudice that is being indicated against my fiance and myself. Sir, I respect the Marine Corps and as I stated before I intend to re-enlist for a period of six years. I feel however that the Marine Corps has no right to discourage my marital intentions in this form, by refusing me annual leave and then sending me on float just when I try to initiate the proper procedures for getting married.

Sir, Even though I am a marine, I feel I am entitled to a home and future if I so decide. I have met nothing but discouragement and harrassment and prejudice since I first initiated my intentions to get married.

Sir, I have been in the Marine Corps for over four years now and I have a clean record, I have never received office hours or any other type of military punishment. I have received a godd Conduct Medal, a Combat Action Medal, a Vietnamese Cross of Gallantry, a Vietnamese Campaign Medal, A Vietnamese Service Medal and a National Defense Medal. I have never been reduced in rank or any other form of punishment and I have good proficiency and conduct marks in my Record Book. All I have asked of my country in return for fighting in a war for it and risking my life and staying in the service is to be allowed to have a home and family and be allowed to continue to serve my country as a United States Marine. I don't believe I am asking too much from my country. Yet every time I turn around someone is closing a door in my face.

I tend to find this a bit tiring and aggravating.

Sir, I am going to get married and have a home for my fiance and myself and a future even if it means I must go against the Marine Corps. For what am I serving my country for if I can't enjoy the same benefits for which I have fought for and am prepared to fight for again if necessary.

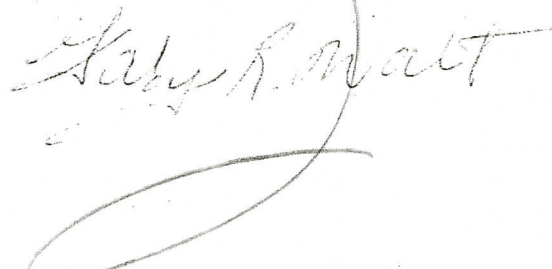

Sir, I would greatly appreciate any help you could direct to me concerning this matter as it is of great concern to myself and my fiance and our future.

Sir, the only person that has attempted to help us with this problem is our Battalion Chaplain and for that I am in very grateful, but every time the word marriage is mentioned in connection with a foreign national this Battalion's doors start slamming shut and this is going to cease one way or the other sir. I am tired of the attitude this battalion has towards marriage and any form of home life.

As I stated before, I don't believe I am asking too much from my country, to have a home and future and continue to serve it as a United States Marine.

RESPECTFULLY SUBMITTED

Nancy and I want to thank you for all you did in helping make our family's post-China retreat such a delight. The hotel facilities couldn't have been better, and we marvel at the efficiency with which you and your staff serve your guests.

But facilities and efficiency are not the ultimate contribution to an exceptional vacation atmosphere. It takes the extra courtesy and thoughtfulness of people who enjoy what they are doing -- a graciousness in abundance at the Polynesian Village.

Thank you for the gift of the punch glasses. No question but that our first toast goes to you.

Dear Mrs. Waltemyer:

My recent homecoming from China was made all the more rewarding by your very thoughtful message, and I want to thank you for your generous comments.

When I first announced this trip last July, I described it as a journey for peace. Now that I have returned, I can say with confidence that my discussions with the leaders of the People's Republic of China have given us the tools to strengthen the structure for an enduring world peace -- one that is more than the mere absence of war. For this beginning toward a better world, I am deeply grateful to the American people whose goodwill and spiritual support made this journey possible.

I have been pitching away here on the possibility of the Chinese Ping Pong Team's visiting Disney World during their U.S. tour. No Luck!

Do not be surprised to see that our friends on the Coast find the team visiting that Park. The present plan is for this to take place. I do not know whether they have been contacted out West or not so for the time being nothing should be mentioned.

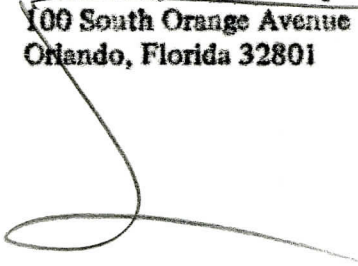

Perhaps the next time they visit we can see that they get down to Disney World in Florida.

Dear Girls and Boys:

The President has asked me to thank you for your letters concerning the first report of the Commission on Marihuana and Drug Abuse. Your interest in giving the President the benefit of your views is appreciated, for there is no greater problem facing our Nation than the matter of drug abuse.

As you may know, the President received the report on March 21. In a news conference three days later, the President was asked to comment on that portion of the Commission's report dealing with the legalization of marihuana. The President stated:

"I have read the report. It is a report which deserves consideration and it will receive it. However, as to one aspect of the report, I am in disagreement. I was before I read it and reading it did not change my mind. I oppose the legalization of marihuana and that includes its sale, its possession, and its use. I do not believe you can have effective criminal justice based on the philosophy that something is half legal and half illegal. This is my position, despite what the Commission has recommended."

From this, you can see that the President is firmly opposed to the legalization of marihuana, and he is gratified to know you, too, share this view.

With the President's best wishes,

Sincerely,

Dear Sir,

I am in the sixth grade. I have gone thru the Impact Plus Two. This means one day of full drugs and the Plus Two means two weeks of studying drugs. I know how harmful all drugs are, and especially Marijuana.

I think your opinion is right, they should Not make Marijuana legal. There

is already enough Marijuana sold and smoked, and if it was made legal there would alot more people harmed. I dont want it to be legal.

Dear President,

We have just heard about passing the law of marijuana. I think this law should not be past for different reasons such as it will ruin our population, and overcome our majority of teenagers here in California.

Here in our school we have been learning about drugs, our program is called Impact + 2nd meaning, The day we have all drugs on film is impact, 2nd means two weeks of steady work. the whole world will drop if marijuana is made legal.

On the 8th of January we started a program about drugs. The use and abuse. It is called Impact +2. The impact means we study the use and abuse of drugs all day and the plus two means we constantly study for at least an hour a day for two weeks.

The main reason I wrote was to tell you I agree with you about not legalizing marijuana. I don't know why people vote yes when marijuana doesn't do any good. I am happy that you disagree with marijuana.

Dear President Nixon,

We've studied drugs and we think that legalizing Marijuana shouldn't be done. Because you would have more people in the United States on Marijuana. You would probably have the people who are already on it and even more people would want to try it. Here at Walt Disney School we hope it will stay illegal and we also hope you feel the same way.

Dear President,

We all saw or heard about the talk of legalizing marijuana. We all had a program "Impact Plus Two". It told us about the drugs and their effects. We studied them for two weeks. We studied marijuana and all about some of the effects. We know slang names and other things.

I feel it should not be legalized because it is useless and is no good for medical use. If it could be used for something important for us we could legalize it. No matter if it has any use or not kids will get it and take it. That is our main problem. I'm sure it won't be us sixth graders though, but bigger people. Even if we did not legalize it, many people will get it some way or another. If it does become legal we will have bigger problems. There will be more going around, more deaths, & it would be dangerous for us littler people.

I heard that Michigan was going to legalize Marijuana if the people vote on it. I think it would be stupid to legalize Marijuana.

Marijuana, even though they say Marijuana it is harmless would cause many problems.

1. many car accidents
2. a policeman couldn't talk to a guy when he's high
3. suicide

The things I listed above are what I think would

Dear Sir,

On the eighth of January our class started to study about drugs. It was called "Don't Get Hooked" The holiday I read in the newspaper about marijuana being legalized and on the subject of being legalized. From our study about drugs I personally wouldn't get more hooked, and this is why I'm writing.

I do not think drugs should be legalized in the sense that it that it affects vital parts of the body I hope you feel the same about it and I hope it doesn't pass over.

Dear Sir,

I do not like the idea of marijuana being legalized because if someone had a marijuana cigarette just before they were going to drive a car, someone could kill people just as well as they can kill themselves. After awhile young children will pick up the habit of smoking marijuana from older people and teenagers.

I don't think marijuana should be legalized.

Yours Truly,
Vickie De Lange

MEMORANDUM FOR: DR. HENRY A. KISSINGER

FROM: DWIGHT L. CHAPIN

Richard Quinn, in charge of the Publicity Department and Director of Marketing for Walt Disney World in Orlando, Florida, is a close personal friend of mine and of Ron Ziegler's from college. He is the one who arranged for us to be in Disney World over the past weekend.

When I saw "Sandy" I mentioned to him that Disney World would be a great place for you to take your children some day. Sandy stated that I should just let him know when you would like to go down and he will make all arrangements for you. As Winston Lord and John Howe can attest, you would have a spectacular time with your children at Disney World.

I only raise it since it is one of those quick things which you would be able to do for the children on the West Coast.

Dear Mr. President,

I am writing on behalf of the Walt Whitman Key Club in Bethesda, Maryland. The Key Club is a boys' service organization sponsored by the Kiwanis Club. We do many service projects for the benefit of our school and community. One of these projects is to support a scholarship for a student at George Washington University in Washington, D.C. We raise the money each year for our student by holding a Celebrity Auction in the spring. We auction off such items as autographed books and balls, uniforms of famous sports stars, and luncheon dates with U.S. Senators to the highest bidder. This year we hope to hold the auction on TV.

If it would be possible, we would very much like to have a card or picture autographed by you for our auction. I'm sure that it would be one of the highlights of the auction.

We would certainly appreciate any help you could give us. Please send any item to:

Thank you very much.

Sincerely,

Dear Girls and Boys:

It is my duty of you to send me
the exhibits regarding your field
trip.

Your pictures are important to me,
and because you are so good in
writing, I would like to see your
work. I would enjoy seeing the pictures
photo rack and booklet.

With my regards, as ever,
for the weeks ahead.

Dear Ober:

It was great to see you again, and I enjoyed the trip to Disney World very much.

I'll certainly keep in mind your promise to send along more "pixie dust," whenever I run out--which may be soon!

Best wishes, and again thanks for all of your assistance.

Sincerely,

Dear Mr. Smith:

The President was happy to sign the attached picture for the ~~X~~Disneyland Archives. The photograph is nostalgic in many respects, not the least of which is the memory it recalls of Mr. Disney for whom the President always felt the greatest respect and admiration.

The picture comes with the best regards of the President, and mine as well.

Dear Mr. Ziegler:

As a former Disneyland employee, I wonder if you could do us a favor. You may recall that in 1959 President Nixon (then the Vice President) participated in the grand opening ceremonies for the monorail at Disneyland. We are enclosing a photograph which was taken on that occasion. Would it be possible to obtain the President's autograph on this photograph for display in our Archives? We already have a nice letter written by the President to Walt Disney on June 22, 1959, thanking him for the opportunity to participate in the ceremonies.

We shall be most grateful for any help which you can give us.

Sincerely yours,

September 15, 1972

Dear Mr. Tatum:

September 13, 1972

This is in response to your recent letter requesting permission to use the Presidential Seal on the cover of a record album entitled "The Hall of the Presidents."

As you will see from the enclosed, in January, 1971, Public Law 91-651 was enacted for the purpose of restricting the use of the likeness of the Presidential and Vice Presidential Seals except as authorized by regulations promulgated by the President. Pursuant thereto, President Nixon has issued Executive Order 11649, "Regulations Governing the Seals of the President and Vice President of the United States," a copy of which is also enclosed.

With regard to your specific request, I call your attention to Section 1, paragraph (b) of the Executive Order. You will note that it provides that use of the Presidential . . . Seal . . . on the cover of [encyclopedias, dictionaries, books, journals, pamphlets, periodicals or magazines], . . . is prohibited." Accordingly, it would not be in keeping with the spirit or intent of the regulations to authorize the usage of the Seal on the cover of a record album.

I regret that we cannot be of assistance to you in this manner, but trust you will understand the necessity of the position we have taken.

Sincerely,

John W. Dean, III
