VIETNAM

Background

Vietnam has ~~x~~ some 200,000 troops in Cambodia. Secretary Haig indicated over the weekend that if Hanoi withdraws the troops and attends a UN conference ~~ix~~ on Cambodia in New York on July 13, then the U.S. might support international economic assistance for Hanoi.

ARMS SALES TO CHINA

- Have not formally agreed to any single arms sales to China.
- What Secretary Haig did agree to in China was that sale of weapons to China would no longer be automatically banned. Rather they would be placed in a classification that would permit a case-by-case evaluation.
- Secretary Haig has also pointed out that China has not shown a strong appetite for ~~and~~ American weapons.

POLAND

-- Leonid Zamyatin, chief spokesman of x Soviet Communist Party Central Committee, proclaimed over weekend that j Poland's crisis had gone beyond economic field. Say its time f "for decisive action: to take Poland out of a "catastrophic situation". Harshest attack het.

-- Polish Communist Party to convene an extraordinary congress next month (July) Delegates being elected now.

-- Polish party leader, Stanislaw Kania, has just survived effort by pro-Kremlin hard liners to remove him.

-- Fear that Soviet troops may be mobilized in Poland before the July party congress. That happened in 1968x in Czechoslovakia -- x Soviet military intervention came just before party congress in Prague.

SETTLEMENT OF N.C. SEGREGATION SUIT

-- Educ Sect Bell announced Sat. that he had ~~re~~ reached "near formal settlement" with University of N.C. in long-standing dispute over allegations of lingering segregation in state's four year colleges. State threatened with cut off of federal aid. Govt. dropped previous demands that UNC eliminate program duplication between white and predominantly black schools (will instead ~~of~~ bolster offerings of ~~xxx~~ five traditionally black schools); also set "goals" (vice quotes) for increasing white enrollment in predominantly black schools, black enrollment in

MCCann-- Nomination has not been sent to the Senate. He is under active consideration and his name is now in the process of ~~x~~ clearance. Expect the clearance process to be completed within the next 2 weeks.

Air Traffic Controllers

Emphasis now continues to be on doing everything possible to avert a strike.

President is monitoring the ~~process~~ talks from Camp David. Lewis is not ~~ask~~ asking him for a decision on anything.

Talks -- Drew Lewis is just getting ~~x~~ ready to re-enter talks with ~~President~~ President Poli and the other ~~negotiators~~ negotiators. Expect to have more on it coming out of that meeting.

In the event of a strike, the number ~~x~~ one priority will be upon safety -- not upon keeping every single plane flying.

Military ~~xx~~ air traffic controllers -- for background purposes, -- deep background -- the administration does have under review the possibility of asking some 400 military air traffic controllers ~~xx~~ into service. (Note there are some 17,500 controllers in PATCO -- and they say that about 80% will go ~~xx~~ out on strike)

~~xx~~ Legal injunctions -- While the emphasis is upon averting the strike, the Justice Department is preparing the necessary papers to seek injunctions ~~xxxx~~ against any walkout. President expressed to Drew in the meeting Friday afternoon that he would like to have the injunctions in place by ~~x~~ 7 a.m. Monday -- and Justice is moving ~~x~~ to see that that is done.

On arrests -- objective ~~x~~ is to keep people on the job -- not in jail. Will only arrest if we have to.

MEMORANDUM FOR: DAVID GERGEN

June 18, 1981

FM: KARNA SMALL

NRC just called to alert us that on Oct. 9 - 1980 - two Israeli engineers from Haifa came in and sat down with 3 NRC engineers to discuss the general subject of protecting reactors from explosives. There is in existence:

1. a brief paragraph summarizing this meeting - which is not classified in which one of the NRC engineers expresses the view that because of the questions that were asked by Israelis, he wonders if they were not interested in the offensive use of explosives against reactors (and not the defensive aspect).
2. a classified memorandum which goes into this in more detail.

NRC is convinced that George Wilson of the Washington Post has one or both of these documents. NRC has confirmed to Wilson that such a meeting did take place, but the general subject matter ~~was~~ ~~given~~ on the general protection of reactors was given, but that's all.

Frank Ingram (NRC Public Affairs) - talked to State about it and sees no reason to withhold unclassified version.

Apparently after that October meeting, the NRC engineers did not think to do anything about it - but now in hindsight - it might have been a good idea to be more alert. As far as we know, they told no one else about it at the time - only circulated in one division in NRC.

Those 3 engineers are still on the payroll.

Now, I want to pause here because there is something that has been bothering me the last few days. I read a report that the Chairman of the Democratic Party says he would like to kick Phil Gramm out of the Party. As you know, Phil Gramm has been a tireless supporter of our efforts to control spending.

Let me just say this. Controlling spending and restoring economic sanity is not just a Republican issue or a Democratic issue. It's an American issue, and I don't think it's our way to threaten to kick people out of any party for doing what they think is right.

I can't advise Mr. Gramm what to do -- but I want to assure him this: there are millions of Democrats, Republicans and Independents who support what he does. They don't like the idea of partisan threats, and neither do I!
